Modification	At what stage is this document in the process?
# iGT108F: ## Updating references in the iGT UNC linking with UNC relating to 0434	01 Modification 02 Workgroup Report 03 Draft Modification Report 04 Final Modification Report

Purpose of Modification:

This modification is seeking to achieve correct linking of clauses between the UNC and the iGT UNC relating to UNC approved Modification 0434. This is a housekeeping change.

	The Proposer recommends that this modification should be: • subject to fast track self-governance • proceed to Consultation This modification will be presented by the Proposer to the Panel on 18 April 2018. The Panel will consider the Proposer's recommendation and determine the appropriate route.
	High Impact: NA
	Medium Impact: NA
	Low Impact: Shippers and iGTs

Timetable

The Proposer recommends the following timetable:

Initial consideration by Workgroup	N/A
Amended Modification considered by Workgroup	N/A
Workgroup Report presented to Panel	N/A
Fast Track Modification published	14 March 2018
Consultation Close-out for representations	06 April 2018
Variation Request presented to Panel	N/A
Final Modification Report available for Panel	11 April 2018
Modification Panel decision	18 April 2018

1 Summary

What

During the development of iGT Modification 'iGT086 - Central Data Service Provider - Implementing iGT UNC Changes to support FGO' the legal text also incorporated UNC Modification 0434 - Project Nexus – Retrospective Adjustment'; a recent review of the iGT UNC has identified there is no link to UNC Section M clause 15.6 Updated Meter Readings.

Why

To ensure clear linking between the iGT UNC and the UNC an update is required.

How

Inserting the omitted link into the iGT UNC.

2 Governance

Justification for Fast Track Self-Governance Procedures

As this change seeks to insert an omitted clause link between the iGT UNC and the UNC this would have no material impact on gas consumers, competition, the operation of the pipe-line system, security of supply or governance procedures – as a housekeeping typographical change it would qualify for Fast Track Self-Governance.

Requested Next Steps

This modification should:

- be subject to fast track self-governance
- proceed to Consultation

3 Why Change?

This change is being proposed to ensure correct and accurate linking between the UNC and the iGT UNC relating to modification 0434, majority of the required amendments were delivered through iGT086, however the link with M15.6 was omitted, this change is just seeking to update this. This UNC section allows for Shippers to provide Updated Meter Readings under certain conditions. In practice these meter readings are already being submitted for IGT Supply Points and are being processed by the CDSP.

The proposed correction has been informally discussed at the March 2018 Workstream and attendees were satisfied that it was suitable for a Fast Track Modification.

4 Code Specific Matters

Technical Skillsets

Knowledge of the UNG and iGT UNC.

Reference Documents

Section M15.6 of the UNC

5 Solution

Solution is to create a link between the UNC and the iGT UNC for section M15.6 to recognise that Update Meter Readings may be submitted for IGT Supply Points under certain specified conditions.

6 Impacts & Other Considerations

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

NA – this is a typographical amendment

Consumer Impacts

NA – this is a typographical amendment

Environmental Impacts

NA – this is a typographical amendment

7 Relevant Objectives

Impact of the modification on the Relevant Objectives:

Relevant Objective	Identified impact
(A) Efficient and economic operation of the pipe-line system	None
(B) Co-ordinated, efficient and economic operation of (i) the combined pipe-line system; and/or (ii) the pipe-line system of one or more other relevant gas transporters	None
(C) Efficient discharge of the licensee's obligations	None
(D) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or	None

© 2016 all rights reserved

(iii) between DN operators (who have entered into transportation agreements with other relevant gas transporters) and relevant shippers	
(E) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards… are satisfied as respects the availability of gas to their domestic customers	None
(F) Promotion of efficiency in the implementation and administration of the Code	Positive
(G) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Cooperation of Energy Regulators	None

This modification delivers objective F as it seeks to deliver a robust iGT UNC through accurate linking to the UNC.

8 Implementation

As directed by the panel but at the earliest available release.

9 Legal Text

Suggested legal text:

Part E (new paragraph)

21 Updated Meter Readings
21.1 For the purposes of this Clause 21 the provisions of paragraph 5.16 of Section M of the UNC shall apply:

Part M (definitions)

"Updated Meter Reading" shall have the meaning ascribed thereto in the UNC;

For information, below is the UNC text in M5.16 that the IGT UNC will now point across.

5.16 Updated Meter Readings
5.16.1 A User may submit to the CDSP an updated Meter Reading (**"Updated Meter Reading"**) to replace an existing Valid Meter Reading previously submitted by the User pursuant to paragraph 4.3 and this paragraph 5 provided:
(a) the Read Date of the Updated Meter Reading and the Meter Reading which it updates are the same;
(b) the Read Date of the Updated Meter Reading;
(i) is on or after the Code Cut Off Date:
(ii) is not a Day in respect of which:
(1) an Offtake Reconciliation has been carried out pursuant to paragraph 5.12.7;
(2) in respect of which a Consumption Adjustment has been made;
(c) the User was the Registered User of the Supply Meter Point on the Read Date of the earlier submitted Meter Reading; and
(d) when submitting the Updated Meter Reading the Meter Reading is identified as an updated Meter Reading.

© 2016 all rights reserved

5.16.2 A User may submit an Updated Meter Reading to replace a CDSP estimated Meter Reading determined in accordance with paragraph 5.4.6 provided each of the requirements in paragraph 5.16.1 are satisfied.
5.16.3 An Updated Meter Reading will be Validated in accordance with paragraph 5.3 and following validation by the CDSP the CDSP will notify the User whether or not the Updated Meter Reading is a Valid.
5.16.4 Where the Updated Meter Reading is a Valid the Updated Meter Reading will replace the earlier submitted Meter Reading for the purposes of the Code and any adjustment to an Affected Offtake Reconciliation will be carried out in accordance with Section E6.8.

10 Recommendations

Proposer's Recommendation to Panel

Panel is asked to:

- Agree that Fast Track Self-Governance procedures should apply
- Direct implementation of the Modification Proposal
