Please briefly summarise the key reason(s) for your support / opposition

We support this modification as it seeks to allow a certain class of parties to access data in code which could be utilised to provide valuable insights to and on the energy industry.

We are also comfortable that the process for assessing parties seeking the data under the new User Type, to be managed by the CDSP, is fit for purpose.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree that this modification meets the self-governance criteria detailed in code.

Please state any new or additional issues that you believe should be considered

We have not identified any new issues to be considered at this time.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree that Objective F is better facilitated for the reasons put forth by the proposer.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

We would note face any development costs upon implementation of this modification.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We note the dependency of implementation on UNC 0702 and would like to see the implementation date of both modifications be aligned.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

Yes, we are satisfied that the legal text will deliver the intent of the modification.

Further Comments

Is there anything further you wish to be taken into account?

No further comments.
