1 Summary

What

Whilst preparing for an address change, Indigo Pipelines Limited reviewed its INC and found outdated information.

Why

Updating Indigo's Code will mean that other Code Parties have the most up to date and accurate information.

How

By correcting the out-of-date information identified from the review. The outcome will be an updated Indigo INC.

2 Governance

Justification for Fast Track Self-Governance Procedure

We believe that the Modification should be subject to Fast Track Self-Governance Modification procedures, as the Modification:

a. would meet the self-governance criteria; and

b. is properly a housekeeping Modification required because of some error or factual change,

including but not limited to:

i. updating names or addresses listed in the uniform network code;

ii. correcting minor typographical errors;

iii. correcting formatting and consistency errors, such as paragraph numbering; or

iv. updating out-of-date references to other documents or paragraphs.

Prioritisation Criteria

Prioritisation Criteria	High Impact
Strongly aligns with the Strategic Direction Statement The Modification strongly supports key government energy policy actions that require immediate progress and aligns with SDS priorities under the Act Now category.	N/A
Complexity The Modification is highly complex, with a fast-approaching deadline, significant implementation challenges, and a requirement for extensive stakeholder engagement.	N/A
Importance The Modification addresses a high-risk or critical issue, making timely action important for stakeholders as it is anticipated to deliver substantial benefits and value.	N/A
Priority Category	N/A

No prioritisation is needed, reflecting the Ofgem decision to exclude Fast-Track Self-Governance Modifications, as well as Urgent Modifications, from the prioritisation process.

Requested Next Steps

This Modification should:

- be subject to Fast Track Self-Governance.

3 Why Change?

The Gas Transporter Licence requires the production of a Network Code in line with Licence Standard Condition 9. Maintaining an accurate INC is important and reduces the risk of Code Parties misinterpretation of the provisions outlined.
