

**Consultation Response****iGT075: Identification of Supply Meter Point pressure tier**

Responses invited by: 29 09 2016

**Respondent Details**

Name: Amie Charalambous

Organisation: npower

Support Implementation ☒Qualified Support ☐Neutral ☐Do Not Support ☐**Please briefly summarise the key reason(s) for your support / opposition**

npower supports this modification as an effective way to reduce the cost to the industry of abortive site visits. In addition to this it also negates the need to make specific enquiries on supply pressure tiers and therefore improves the customer experience

## Self-Governance Statement

**Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?**

YES

**Please state any new or additional issues that you believe should be considered**

## Relevant Objectives

**How would implementation of this modification impact the relevant objectives?**

It will improve the Efficient and economic operation of the pipe-line system.

## Impacts and Costs

**What development and ongoing costs would you face if this modification was implemented?**

none

## Implementation

**What lead time would you wish to see prior to this modification being implemented, and why?**
