

## iGT UNC / iGT INC Consultation Response

<b>Date</b>	12 <sup>th</sup> November 2010
<b>Reference</b>	iGT032 Modification Proposal Consultation
<b>Title</b>	Voluntary Withdrawal Process
<b>Respondent</b>	EDF Energy
<b>Position on the Modification</b>	Support Modification

### Facilitation of the relevant objectives

How this proposal will, if implemented, better facilitate the “code relevant objectives”, as defined in Standard Condition 9 of the Gas Transporters Licence. For those answered Yes to, please provide a detailed explanation below the table.

Relevant Objective	Yes/No
a. the efficient and economic operation of the pipe-line system to which this licence relates	Yes
b. so far as is consistent with sub-paragraph (a), the coordinated, efficient and economic operation of the pipe-line system of one or more other relevant gas transporters	Yes
c. so far as is consistent with sub-paragraphs (a) and (b), the efficient discharge of the licensee's obligations under this licence	
d. so far as is consistent with sub-paragraphs (a) to (c) the securing of effective competition between relevant shippers and between relevant suppliers	
e. so far as is consistent with sub-paragraphs (a) to (d), the provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards are satisfied as respects the availability of gas to their domestic customers	
f. so far as is consistent with sub-paragraphs (a) to (e), the promotion of efficiency in the implementation and administration of the network code and/or the uniform network code referred to in paragraphs 2 and 5 respectively of this condition	Yes

#### Relevant Objectives to be better facilitated:

We agree with the proposer with regards to the relevant objectives to be better facilitated.

Introducing this change will ensure that all iGTs operate a consistent process to reflect the changed status of the supply point, confirm a ceased responsibility date and ensure that Pipeline Users get confirmation that their liability for any future transportation charges has ceased.

Adoption of a consistent approach to this process will ensure efficiency in the administration of the network code and by ensuring that all systems are updated in a timely manner will ensure that the

## iGT UNC / iGT INC Consultation Response

Pipeline Operator has an accurate picture of where gas is capable of flowing on their networks.

### Likely impact on environment?

It is unlikely that there will be any environmental impact

### Implementation issues including impact on your systems

It is likely that system changes will be required by both IGT's and Shippers
