Please briefly summarise the key reason(s) for your support / opposition

We support implementation of GPL048, QPL041 and IPL041, as we believe the introduction of IGT039 (Use of a Single Gas Transporter Agency for the common services and systems and processes required by the IGT UNC) will make the following redundant-

Schedule 1

- Point 2 - Nominations - Remove
- Point 4 – Meter Installation Works – Remove
- Point 6 – Invoice Query – Amend numbering
- Point 7 – Emergency Contact Details reconciliation for Large Supply Points - Remove
- Point 8 – Change of Supplier - Remove

- Appendix 1- Change of Supplier file formats - Remove
- Appendix 2 – Removal of Fax Forms - Remove
- Appendix 3 – Meter Installation Works - Remove

This change is required to remove redundant and duplicate code, as and when IGT039 is implemented.
