

iGT UNC / iGT INC Consultation Response

Date	30 August 2011
Reference	iGT037 Modification Proposal Consultation
Title	Inclusion of SPA Fax forms as an Ancillary Document
Respondee	ScottishPower Energy Management Ltd
Position on the Modification	Support Modification

Facilitation of the relevant objectives

How this proposal will, if implemented, better facilitate the “code relevant objectives”, as defined in Standard Condition 9 of the Gas Transporters Licence. For those answered Yes to, please provide a detailed explanation below the table.

<i>Relevant Objective</i>	<i>Yes/No</i>
a. the efficient and economic operation of the pipe-line system to which this licence relates	N
b. so far as is consistent with sub-paragraph (a), the coordinated, efficient and economic operation of the pipe-line system of one or more other relevant gas transporters	N
c. so far as is consistent with sub-paragraphs (a) and (b), the efficient discharge of the licensee's obligations under this licence	N
d. so far as is consistent with sub-paragraphs (a) to (c) the securing of effective competition between relevant shippers and between relevant suppliers	N
e. so far as is consistent with sub-paragraphs (a) to (d), the provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards are satisfied as respects the availability of gas to their domestic customers	N
f. so far as is consistent with sub-paragraphs (a) to (e), the promotion of efficiency in the implementation and administration of the network code and/or the uniform network code referred to in paragraphs 2 and 5 respectively of this condition	Y

Relevant Objectives to be better facilitated:

Under the current arrangements, the SPA fax forms are not controlled documents and their contents are susceptible to diverging between different iGTs. This risk could lead to an inefficient and inconsistent process across the industry. By bringing the forms under the governance of the iUNC as an ancillary document the proposal makes any future changes transparent, ensures alignment across all parties, and facilitates relevant objective (f).

Likely impact on environment?

How this proposal will, if implemented, impact on greenhouse gas emissions?

iGT UNC / iGT INC Consultation Response

There are no environmental impacts identified by this proposal.

Implementation issues including impact on your systems

The change is to place the existing SPA fax forms in an ancillary document so there are no system impacts envisaged.

Additional Information and Comments

None.

Completed forms should be returned to the iGT UNC Representative, Gemserv Ltd
at iGT-UNC@gemserv.com or faxed to 020 7090 1001
