

## iGT UNC / iGT INC Consultation Response

<b>Date</b>	<b>17<sup>th</sup> September 2007</b>
<b>Reference</b>	<b>iGT007v Consultation</b>
<b>Title</b>	iGT RPC Invoice Template
<b>Respondee</b>	Heidi Martin RWE Npower
<b>Position on the Modification</b>	Support Modification
<b>Facilitation of the relevant objectives</b> How this proposal will, if implemented, better facilitate the "code relevant objectives", as defined in Condition 9 of the Gas Transporters Licence.  We believe that introducing a standardised format will "secure effective competition between relevant shippers and suppliers" as it will aid Shippers to develop more efficient and effective systems to validate invoices.	
<b>Additional Information and Comments</b>  Thank you for inviting us to comment on this modification. RWE npower supports the implementation of this proposal and it's associated template.  One of the biggest issues that Shippers currently face is the plethora of processes and associated file formats that they have to support. We encourage any initiative that looks to standardise and formalise arrangements. RWE npower was involved in the development of this template and are keen to see that it is introduced into formal governance to ensure that all existing and new entrants use the same document.
