

Igt066 - Aligning UNC with Licence conditions relating to European legislative change.

Terms of Reference

Purpose

This Development Group has been established to progress modification iGT066.

Background

iGT066's proposed solution is to reflect, in Code, the conditions in the iGT licence allowing the Authority to raise European Modification Proposals (already in code), direct the timetable to be applied to such a Proposal and direct that such a Proposal must not be withdrawn.

Deliverables

The Development Group is asked to deliver:

1. A final report outlining the findings of the Group, including recommendations for any changes to the iGT UNC (and note any changes required to UNC).
2. Draft modification proposals for changes to iGT UNC

A work report will be circulated within 10 working days of this meeting.

Scope

The Development Group is asked to ensure the iGT066 modification appropriately aligns the iGT-UNC with the iGT licence.

Composition

iGTs, shippers, Ofgem, any other interested party.

Information Sources

iGT-UNC, UNC, iGT Licence (Standard Condition 9)

Timetable

It is anticipated that only 1 Workgroup meeting will be required.

Notwithstanding any issues, this modification should have a target implementation date of no later than February 2015.

Approval

These terms of reference are subject to approval by Panel. However, the Development Group may recommend changes to the Terms of Reference if required.
