

Consultation Response

iGT079: Adding Commercial New Connections Framework Ancillary Document

Responses invited by: 08 MAR 2016

Respondent Details

Name: Nicky Rozier

Organisation: Brookfield Utilities

Support Implementation ☒Qualified Support ☐Neutral ☐Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

Brookfield Utilities supports the implementation of this modification and envisage the registration process for non-domestic supply points to be improved.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

Yes. We agree that this modification should be a self governance modification.

Please state any new or additional issues that you believe should be considered

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree this modification facilitates both Objectives d) and f).

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

Brookfield envisage the costs associated with this modification to be that in the same as iGT078. There will be process and system changes but the ongoing costs should not increase as a result of implementing this modification.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

Brookfield will require minimum six months implementation time but would welcome a longer implementation period.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We are satisfied that the legal text meets the requirements of the intent of this modification.

Further Comments

Is there anything further you wish to be taken into account?

We note the changes to the file formats within iGT078 have been replicated within this modification and support the changes made to both modifications.

Responses should be submitted by email to iGTUNC@gemserv.com
