## 1. Plain English Summary

### **Is this a Self-Governance Modification?**

This will be a Self-governance modification.

### **If so, will this be progressed as a Fast Track Modification?**

This will be a Fast Track modification.

### **Rationale for Change**

This change seeks to provide clarity in regards to the data to be populated within the “Current Supply Point AQ in kWh” field within the iGT RPC Invoice Template document.

### **Solution**

It is proposed that within the iGT RPC Invoice Template, the field name “Current Supply Point AQ kWh” remains, and going forward we propose to amend the comment to “Formula Year SMP AQ”.

### **Relevant Objectives**

This will satisfy relevant objective (f)

Promotion of efficiency in the implementation and administration of the Code.

### **Implementation**

This change will be aligned with SSP go live, and in tandem with *iGT076 - Amendment of RPC format in line with Single Service Provision*.

## 2. Rationale for Change

From SSP go live a supply point is allocated two live AQ values.
