## **Please briefly summarise the key reason(s) for your support / opposition**

We support the modifications intentions to have modification rules which allow equal decision making regardless if the proposal is authority consent or self-governance.

The change will give equal constituents inclusion in decision making for all changes which we believe was always the intention of the introduction of this clause originally.

**Self-Governance Statement**

**Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?**

We agree for this modification to be self-governance as it does not have a material impact on competition, the operation of the pipeline system or material changes on the modification procedures.

We recognise the change does impact modification rules but we do not believe the change requires authority consent but introduces procedures which complement the direction given for CGR3.

**Please state any new or additional issues that you believe should be considered**
