## **Please briefly summarise the key reason(s) for your support / opposition**

SSE supports implementation of this Modification, as it will ensure that exactly the same process is followed in setting an implementation date for a Self Governance Modification proposal as is currently followed for Modifications that go to the Authority for a decision on implementation.

SSE agrees that this will improve the management of Self-Governance Modifications within the iGT UNC Modification Rules, by ensuring that implementation decisions for Self-Governance Modifications are managed in a consistent manner, thus eliminating the potential for confusion that is created by the current wording in the Modification Rules.
