## **Please briefly summarise the key reason(s) for your support / opposition**

Yes we support the intention to align the process of the Panel involvement in setting an implementation date for both self-governance Modification proposal and Modifications that will go to the Authority for a decision on implementation date. We also agree on the clause change to the IGT UNC, instructing the administrator to issue an implementation notice.

## Self-Governance Statement

**Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?**

This change seeks to correct an error in the way implementation dates are set, we believe that this change will not alter materially the Modification procedure therefore, meeting the criteria for self-governance.
