Do Not Support ☐

**Please briefly summarise the key reason(s) for your support / opposition**

UNC570 will result in changes to Section M of the UNC. As the clauses impacted by UNC570 are directly referenced in the iGT UNC, it is important that the iGT UNC be modified to reflect the UNC570 changes and promote cross-code alignment. Therefore, ESP supports the amendment of the iGT UNC text to correct references and improve parity, if and when UNC570 is approved by Ofgem.

**Self-Governance Statement**

**Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?**

Yes.

**Please state any new or additional issues that you believe should be considered**

None.

**Relevant Objectives**

**How would implementation of this modification impact the relevant objectives?**

ESP agrees with the proposer; this modification will support objective F) Promotion of efficiency in the implementation and administration of the Code, through cross code alignment.

**Impacts and Costs**

**What development and ongoing costs would you face if this modification was implemented?**

We do not foresee any development or ongoing costs.

## Implementation

**What lead time would you wish to see prior to this modification being implemented, and why?**

The implementation date of iGT101F should align with the implementation date of UNC570.

## Legal Text

**Are you satisfied that the legal text will deliver the intent of the modification?**

Yes.

## Further Comments

**Is there anything further you wish to be taken into account?**

No further comments.
