

Data Cleansing Workgroup

16th July 2015

Emma Lyndon / Steve Deery

Agenda

- **Actions From Last Meeting**
- **Monthly Progress**
- **Correction Factors Of 0.0**
- **Potentially Incorrect Correction Factors**
- **CSEPs Reconciliation Statistics**
- **De-aggregations (MOD 0428)**
- **AQ Update**
- **UKLP Data Activities**
- **Time Line & Priorities**
- **AOB**

Actions From Last Meeting

xserve

respect > commitment > teamwork

Actions From Last Meeting (1)

Action Ref	Detail	Owner	Xoserve Update	Status
23.04.1	Investigate the impact of not having reads for SAP for 2,3,4yr populations	Xoserve	No decision on what will happen to these as of yet. As soon as a decision is made, we will update you.	C/Fwd
18.06.1	Provide o/s LPG dataset to affected shippers	Xoserve	Sent via Shipper Engagement Team on 22 nd June	Closed
18.06.2	Investigate/resolve remaining LPG population	Shippers	Ongoing	Closed
18.06.3	(Data Topic Breakdown) Provide o/s population of Emergency Contact Type MPRNs to affected shippers	Xoserve	Sent via Shipper Engagement Team on 23 rd June	Closed
18.06.4	(Data Topic Breakdown) Provide o/s population ELA (Electronic Address) MPRNs to affected shippers	Xoserve	Sent via Shipper Engagement Team on 23 rd June	Closed
18.06.5	(Newly Added) Analyse RGMA rejections for Confirmed No Asset issues (Newly Added population)	Shippers	Ongoing	Closed
18.06.6	(Newly Added) Group to advise of any topics that they wish to focus on in forthcoming meetings	Shippers	Ongoing	Closed
18.06.7	(CFs 0) Provide updated CFs 0 datasets to the group	Xoserve	Sent via Shipper Engagement Team on 22 nd June	Closed
18.06.8	(CFs 0) Group to update CFs 0 to appropriate CF where applicable	Shippers	Ongoing	Closed

Actions From Last Meeting (2)

Action Ref	Detail	Owner	Xoserve Update	Status
18.06.9	(% Complete) Remove % Complete slide from slide deck for future meetings	Xoserve	Item removed from future slide decks	Closed
18.06.10	(CSEPs) Include previous month's stats to allow comparison of progress	Xoserve	Previous month's stats will be included going forward	Closed
18.06.11	(CSEPs) Provide list of iGT short codes and names to workgroup attendees	Xoserve	Sent via Shipper Engagement Team on 22 nd June	Closed
18.06.12	(MOD0428) – Investigate/advise when final charging document will be available	Xoserve	The Agency Charging Statement has been published for MOD 0428 and can be found here:- http://www.gasgovernance.co.uk/sites/default/files/AgencyChargingStatement_Approved%2027May15_0.pdf	Closed
18.06.13	(AQ 1) Investigate duplicated sentence on slide 33	Xoserve	Slide 33, 2 nd line has been amended to “It appears that the meter has been exchanged & details of the new meter not loaded to UKLink”	Closed
18.06.14	(AQ 1) Advise when/where next AQ Forum is to be held	Xoserve	The next AQ Forums are as follows:- 27th August 2015 (teleconference) 26th November 2015 (31 Homer Rd)	Closed
18.06.15	Provide update to DC workgroup following PNUNC discussions on proposed iGT Transformation rules	Xoserve	Will be shared in next month's meeting	Closed

Monthly Progress

CSEPs Reconciliation Statistics

xserve

respect > commitment > teamwork

CSEPs Reconciliation – High Level Process

You submit your meter reads to the iGTs

The iGT calculates a volume and sends this in a **CRI file to the CSEPs team**

The CSEPs team import the **CRI file into the CSEP database**

A response file is automatically sent to the iGTs which shows whether the records have been accepted or rejected.

The accepted records will go onto the next CSEP Reconciliation invoice.

NOTE: On the 7th calendar day the latest CV, SAP and Energy factors are imported into the database therefore the files are imported into the database from the 8th calendar day. The last day for importing the files is the 20th calendar day, from the 21st onwards we prepare the CSEP Reconciliation invoice.

CSEPs Reconciliation Updates (1)

End of **June 2015**:

4,818 live LMNs

- **3,129** (64.94%) with some reconciliation activities
- **1,689** (35.06%) without any reconciliation activities

5,573 closed LMNs

- **4,085** (73.30%) with some reconciliation activities
- **1,488** (26.70%) without any reconciliation activities

A total of **3,177** (30.57%) LMNs without reconciliation activities

A total of **7,214** (69.43%) LMNs with some reconciliation activities

De-Aggregations (MOD 0428)

xserve

respect > commitment > teamwork

Progress To Date

In October '14 (6mths after go live), a snapshot of progress was taken.

This snapshot contained 28,355 aggregated supply points that required de-aggregation.

Since January '15 this snapshot is now run monthly and the latest figures are below:-

	Oct'14	Jan'15	Feb'15	Mar'15	Apr'15	May'15	Jun'15
SP Count	28,355	27,942	27,792	27,448	25,651	23,196	16,875
Progress	N/A	413	150	344	1,797	2,455	6,321

Post close out process

Final portfolios sent out w/c 6th July

These portfolios prompted shipper reconciliation and further disaggregation activity after the deadline

The current position as at 14th July c2,700 MPRNs still recorded as multi meter supply points

AQ Update

xserve

AQ Increasing: 38

AQ1 Filtered AQ1 Population

Total Consuming Meter Points: 13,196

Xoserve Proposed AQ: 13,196 kWh

Total Amended AQ: 31,723,161 kWh

Total Amendments Received: 1,044

(8% of Total Consuming Meter Points)*all being increases*

UKLP Data Activities

xserve

respect > commitment > teamwork

Background

A presentation was provided at the UK Link Industry Engagement Forum (UKLIEF) on 19th June 2015

The supporting slides were published on the Xoserve website

These additional slides are to explain the context around the Data Update slides 12 -15

These slides were presented with regards to the data preparation activities for the trial runs to submit the data to the Market Trials environment

The slides use the phrase “Data Quality Defects” which was not clearly defined

In all cases the “defect” is a measure against the target system not the current systems or the current data used within those systems

These additional slides are to explain the context around data submission trial runs

The industry has fed back that the term “defect” is confusing with regard to its use for GT and iGT data

Data Quality Defect Status	GT	iGT	All / Other	Total	
Analysis	8	21	1	30	Defect identified. Analysis in progress to find solution.
Action With Xoserve	6	16	0	22	Datafix to be applied / transformation rule being determined
Action With Industry	10	17	0	27	Items notified to industry which requires industry cleanse
Totals	24	54	1	79	
Internal					
External					

Data Quality Defects

“Data Quality Defect” is an overarching term used to classify any instance where intervention (transformation or cleanse) is required, it may be:

- An issue with conformance of existing data to the new structure in the target system
- An issue of completeness of data required by the target system

In all cases the “defect” is a measure against the target system not the current systems or the data used within them

Data quality defects can arise for a variety of reasons and are not necessarily linked to deficiencies within the source data set. For example the target system may require a mandatory data item which is not needed within the source system, or may require a data item compliant with a new standard e.g. full county name rather than shortened name

UK Link Programme target rule requirements

The new UK Link system has within it requirements for data in a certain format. As previously mentioned, differences between source and target data are referred to as “defects”. This is a common term in any system development

During development Xoserve will identify a data “defect”

This is logged on a tracking system (HP Quality Centre) to ensure it is managed through to an end result

The numbers presented on slide 15 were as at that point in time and related to the preparation of data for market trials

Going forward

Xoserve will continue to track “defects” to resolution

Resolution may require support from the industry e.g. agreeing approaches etc

Data issues in the current system for which more up to date data is required will continue to be managed under the Data Cleansing Workgroup e.g. focussing on such things as meter points without reads for over 4 years etc

Further presentation will be provided at UKLIEF and the Nexus Workgroup to explain Xoserve’s approach on data matters

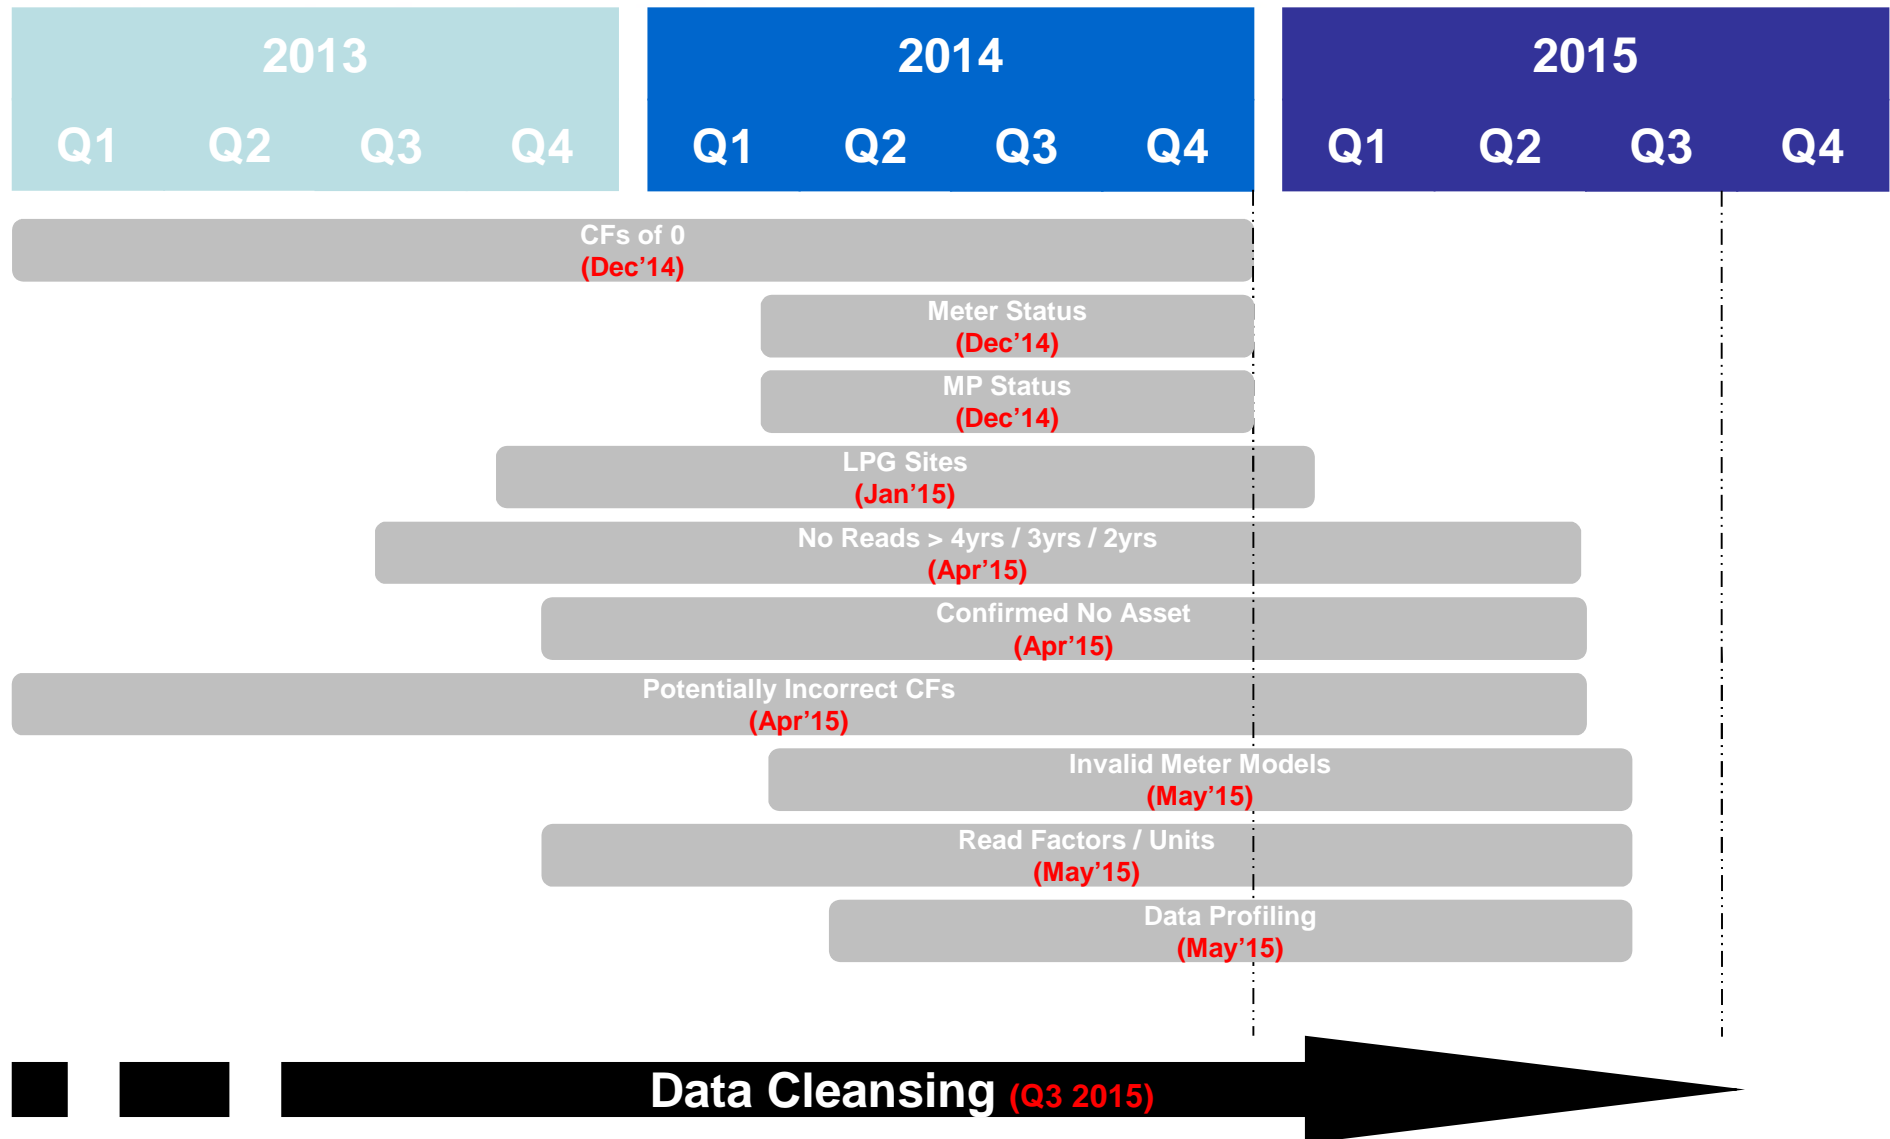

Time Line & Priorities

xserve

respect > commitment > teamwork

Timeline

Monthly Low Level Portfolio Reports

Shipper Engagement team would like to protect any Data Cleansing Portfolios that they send out on our behalf with a password. They have proposed to use the existing Castle Codes as these are already used for MOD428 reports and it prevents you from having any more additional passwords.

Future Catering Requirements

As our meetings only last approximately 2-2½ hrs, would you prefer to have breakfast available (Sausage/Bacon/Pastries, etc.) on your arrival or would you prefer to continue with the lunchtime buffet arrangements? Based on feedback, we will arrange accordingly.

Next Scheduled Meeting (Pending group availability for holiday period): –

10.30am Thursday 20th August 2015,
Conference Room 5,
31 Homer Road, B91 3LT
