3. Workgroup Reports

[iGT086 - Central Data Service Provider - Implementing iGT UNC changes to support FGO](#)

SL introduced the Modification to the Panel, explaining that this Modification was created in order to be compliant with new government arrangements for FGO. This Modification was initially raised in 2016 and has depended much on the drafting of UNC legal text which resulted in the significant delay of the Workgroup report being completed. The Chair pointed out that this Modification is a Self-Governance status, and therefore there will be a 15-day Appeal window after an implementation decision, therefore, the timetable for this Modification is extremely tight, with another Extraordinary Panel meeting on 10th May 2017. The Chair noted his thanks to Gethyn Howard who has worked extremely hard on behalf of the iGTs in order to get this Modification ready for Consultation.

The Chair opened up discussions to the Panel on whether there were any comments regarding the Workgroup Report for iGT086.

The Panel members believed the aim of the modification was clear and unanimously agreed that this Modification qualified for Self-governance, and that this Modification accurately met the Relevant Objective F.

The Panel were asked to vote on iGT086, the Panel unanimously supported this Modification being sent out to Consultation.

Action: EXP1204_01: Code Administrator to send the Draft Modification Report for iGT086 out for consultation with the closing date of 3rd May 2017.
