

Consultation Response

IGT110V: Mandating the provision of NDM sample data

Responses invited by: 06/09/2018

Respondent Details

Name: Rob Johnson

Organisation: ES Pipelines Limited

Support Implementation ☒

Qualified Support ☐

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

We agree with the proposer that an enhanced level of reporting of NDM sample data will have a positive impact on the profiling within the demand forecasting process for new and existing EUCs. This will lead to improved allocation and reduced levels of UIG.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree that this modification is suitable for self-governance.

Please state any new or additional issues that you believe should be considered

We have not identified any new or additional issues.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree with the proposer that implementation of this modification will have a beneficial impact to Relevant Objective F (promotion of efficiency in the implementation and administration of the code) due to the positive impact on the demand forecasting process and reduction in UIG levels.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

We have not identified any developmental or on-going costs.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We agree that ideally this modification should be implemented at the same time as UNC 0645.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We have no comments regarding the legal text.

Further Comments

Is there anything further you wish to be taken into account?

ESP has always supported and will continue to promote the principle of enhancing the availability of data in order to improve network balancing.

Responses should be submitted by email to IGTUNC@gemserv.com
