None.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

It is agreed, as within the Modification Report, that Relevant Objective F is better achieved by this modification as it endeavours to align the CSEP NExA table with what is occurring operationally, which will improve the efficiency and day to day administration of the Code.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

Costs and development would be minimal as the values being included in the proposed new NExA table are already being used by the appropriate parts of the business.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

Due to the minimal impacts it is felt that any required changes could be made in time for the proposed February release, despite being less than the typical six-month lead time.
