Name: Rob Johnson

Organisation: ES Pipelines Ltd

Support Implementation ☒

Qualified Support ☐

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

ES Pipelines supports implementation of this modification as it reduces the chance of rejection of PSAs due to nonconformity through use of an invalid data format.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree that this modification is suitable for self-governance

Please state any new or additional issues that you believe should be considered

We have not identified any new or additional issues.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We believe that this change positively impacts relevant objective F as it will ensure the Shippers have the ability to reconcile their IGT Shipper Portfolio billing.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

We do anticipate a cost to develop the solution to accommodate this change, but we do not believe it to be significant at this stage.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We agree with the proposer that implementation should be set for February 2019.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We note that in the proposed text for the IGT CSEP NExA Procedures Document, the text “the below NExA Table reporting template – C1 IGT113.XLS.” and “the below NExA Table reporting template C2.xls” is suggested.

We note that in the current version the tables are not presented within the body of the text, but are in fact linked documents. We would advise that the text should read “the NExA Table reporting template – C1 IGT113.XLS linked below” and “the NExA Table reporting template C2.xls linked below” instead.

Further Comments

Is there anything further you wish to be taken into account?

We have no further comments.
