

IGT112 Refinements to the RPC Template – Proposed legal text

1. Background

Modification IGT112 is proposing changes to the RPC Template to make the template clearer. It has also been suggested that the document be renamed as workgroup discussions confirmed that the template is used for all IGT Transportation Charge invoices and not just RPC invoices.

Most of the changes are to the template but there will also need to be changes to the main IGT UNC text to reflect the change of name of the Ancillary document. These changes are set out below.

The version number of the current Ancillary Document is 1.1. The version number of the amended document will be 1.3 as Modification IGT102 which is being implemented in the November 2018 release is also changing the document as version 1.2.
