

Consultation Response

IGT116V: Amendment of the Data Permission Matrix to add Alt Han Company as a new User type

Responses invited by: 09 Jan 2019

Respondent Details

Name: Chris Barker

Organisation: BUUK Infrastructure

Support Implementation ☐

Qualified Support ☒

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

We support the proposed intent and solution of the change as it will make the necessary changes to code for DSC to then discuss and arrange for a required party to become a new User type with access to the Data Permissions Matrix, and thus improve the efficiency in the use of data for the Smart Meter Rollout. However due to the mirrored nature with the UNC change (668S), we provide our support on the condition of their matching approval and implementation date.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

It is agreed with the working groups assessment that the change should progress through Self - Governance arrangements.

Please state any new or additional issues that you believe should be considered

N/A

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

Like the working group it is felt that Relevant Objective F is better achieved from this change and the adding of a new user will increase the efficiency of the IGT UNC as a mirroring change is also made under the UNC (668S).

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

Costs and development time will be covered under DSC as the necessary changes are made to the Data Permissions Matrix to allow another user to have access, and therefore with limited to no impact on the IGT UNC.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

It is agreed to have the implementation date as February, like the matching UNC change, to ensure that together the changes are aligned and can progress to DSC at the same time.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

The proposed legal text is deemed sufficient to achieve the purpose of the change by pointing to the UNC code at a necessary high level.

Further Comments

Is there anything further you wish to be taken into account?

N/A

Responses should be submitted by email to IGTUNC@gemserv.com
