Support Implementation ☒

Qualified Support ☐

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

We support the implementation of this change proposal because it will ensure that the IGT UNC is updated and thereby ensure the accuracy of the obligations under code, covering off areas of development under the UNC which have been previously overlooked.

Fast Track Self-Governance Statement

Do you agree with the determination with respect to whether or not this should be a fast track self-governance modification?

Yes, it is merely the wording of the code which is being updated for the purpose of accuracy and therefore no change to obligations.

Please state any new or additional issues that you believe should be considered

N/A.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We feel that Relevant Objective F is better achieved by this change as it will improve the continuity between the IGT UNC and the UNC.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

There are no impacts or costs foreseen by this change.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

Because no system or process changes are foreseen, we agree that the change can be implemented in the next release of the IGT UNC.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

Following the discussions within RG005 and with the Code Administrator, we feel that the proposed legal text is sufficient for the purpose of the modification.

Further Comments

Is there anything further you wish to be taken into account?

N/A.
