

Consultation Response

IGT126F: Alignment between the IGT UNC and UNC for Unregistered New Supply Meter Points

Responses invited by: 22 May 2019

Respondent Details

Name: Brandon Rodrigues

Organisation: ESP Utilities Group

Support Implementation ☒

Qualified Support ☐

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

We support the implementation of this modification as it seeks to align the IGT UNC to the UNC in an appropriate manner and in the process of doing so, removes the possibility of potential misinterpretation of the code and its conditions.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

Yes, we agree that this modification satisfies self-governance criteria.

Please state any new or additional issues that you believe should be considered

None.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We believe implementation of this modification would positively impact objective F in promoting the efficiency of implementation and administration of the IGT UNC by way of accurately referring across to the UNC.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

None.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We would support the implementation of this modification for the nearest scheduled code release.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

Yes.

Further Comments

Is there anything further you wish to be taken into account?

No further comments.

Responses should be submitted by email to IGTUNC@gemserv.com
