Support Implementation ☒

Qualified Support ☐

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

We support the migration of the MDD information for Market Participants into the UNC and subsequently the management via the DSC.

We also support the updated references relating to MDD elements which are not related to Market Participants, so they are consistent across the IGT UNC.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We support the Authority deciding on all changes raised in the IGT UNC, UNC and SPAA.

Please state any new or additional issues that you believe should be considered

Nothing new to raise.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

It needs relevant objective F by promoting code efficiencies and working with the Faster and More Reliable Switching programme.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

No material costs identified, some minor IT process costs changes to update location extraction of the data.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We support the implementation of the SPAA, UNC, IGT and DSC changes delivering together in February 2020, ensuring migration of obligations between the codes and the readiness of the activities by the CDSP.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We are comfortable with the legal text and have no additional comments

Further Comments

Is there anything further you wish to be taken into account?

Nothing additional to add.
