### Please briefly summarise the key reason(s) for your support / opposition

We support the implementation of this change proposal because it will provide clarity within the IGT UNC around aspects of metering references. These areas have been considered during RG006 talks and now this modification is delivering on the matters discussed.

## **Self-Governance Statement**

**Do you agree with the determination with respect to whether or not this should be self-governance modification?**

Yes, discussions have taken place during the review group RG006 and it is considered that there will be no customer impact, therefore Self-Governance arrangements are suitable.

**Please state any new or additional issues that you believe should be considered**

N/A.

## **Relevant Objectives**

**How would implementation of this modification impact the relevant objectives?**

We feel that Relevant Objective F is better achieved by this change as it will improve clarity and transparency of the code.

## **Impacts and Costs**

**What development and ongoing costs would you face if this modification was implemented?**

There are no impacts or costs foreseen by this change.

## **Implementation**

**What lead time would you wish to see prior to this modification being implemented, and why?**

Because no system or process changes are foreseen, we agree that the change can be implemented in the next release of the IGT UNC.

## **Legal Text**

**Are you satisfied that the legal text will deliver the intent of the modification?**

Following the discussions within RG006, we feel that the proposed legal text is sufficient for the purpose of the modification.

### **Further Comments**

**Is there anything further you wish to be taken into account?**

N/A.
