

RG005 Cross Referencing Corrections (REC Legal Text)

IGT UNC legal text for consequential changes required to support the implementation of the Retail Energy Code (REC).

The text is based on IGT UNC version 11.0 (released in June 2019) and not version 10.9 as previously stated.

The legal text for the REC consequential changes also incorporates modification IGT126F Alignment between the IGT UNC and UNC for Unregistered New Supply Meter Points (to be implemented in November 2019) as implementation of this modification had also been agreed at the time of the production of the 'REC version' of the legal text.

A summary table of the corrections is provided below.
