

Summary of IGT UNC Workgroups – February 2020

Purpose:

This paper provides Panel members with a summary of IGT UNC Workgroup discussions where applicable each month.

[IGT131 – Automatic updates to Meter Read Frequency](#)

- An update was provided on the equivalent UNC modification (0692S Automatic updates to Meter Read Frequency) which would affect the progress of this modification. It was explained that a further appeal had been raised by EDF to the Authority, which is currently still in progress. The modification will therefore be retained on the workgroup agenda.
- Next steps: Await the appeal outcome.

[IGT132 – Introduction of IGT Credit Code Rules](#)

- Proposer responded to questions on the legal drafting from the workgroup.
- Next steps: Workgroup to review and discuss the legal text further including looking at the analysis indicating the differences between the drafting and provisions under the UNC and Distribution Connection and Use of System Agreement (DCUSA) at the next workstream meeting on 13th March 2020.

[IGT133 – Transition of IGT Theft Reporting into the IGT UNC.](#)

- The proposer for IGT133 presented the legal text and is happy to move forward with the workgroup report.
- Next steps: Draft Work report to be completed at the next workstream meeting on 13th March 2020.

[IGT134 – Introducing 'Research Body' as a new user type to the Data Permissions Matrix and the IGT UNC](#)

- The workgroup were updated on the current position of the equivalent UNC modification (0702S Introducing 'Research Body' as a new User type to the Data Permissions Matrix and UNC TPD Section V5). The modification had been amended and that the IGT modification would be amended to keep the modifications in line.
- Next steps: The UNC modification will be going to the UNC Distribution Workgroup for further discussion.

[IGT135 – Alignment of the IGT UNC Part K and the Data Permissions Matrix](#)

The UNC Workgroup revisited the discussion around what UNC Section V5 would look like and the UNC modification (0697S - Alignment of the UNC TPD Section V5 and the Data Permissions Matrix) has been amended. The IGT UNC equivalent would be amended to keep the modifications in line.

Next steps: The IGT UNC Modification to be amended to keep in line with UNC equivalent.

[IGT136 – Introducing 'Performance Assurance Framework Administrator' as a new user type to the Data Permissions Matrix'](#)

- The Workgroup were updated on the equivalent UNC mod (0649S - Update to UNC to formalise the Data Permissions Matrix) and it was stated that this modification would be going to UNC panel.
- Next step: Workgroup report to be completed at the next workstream meeting on 13th March 2020.
