

Consultation Response

IGT139: Introducing a new User type to the IGT UNC and the Data Permissions Matrix of Electricity System Operator (ESO)

Responses invited by: 20 05 2020

Respondent Details

Name: Claire Roberts

Organisation: ScottishPower

Support Implementation ☐

Please briefly summarise the key reason(s) for your support

We support the inclusion of the Electricity System Operator (ESO) into the Data Permissions Matrix and being recognised as a new user.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We support the self-governance statement as this is just adding the ESO as a new user.

Please state any new or additional issues that you believe should be considered

None Identified

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

d) None

F) Positive

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

No impact or cost associated as to this change as it is permissions modification.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We support a joint implementation date with UNC 0715S. If these are approved at separate times the CoMC will be unable to approve until the last modification is given approval.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

No Comment

Further Comments

Is there anything further you wish to be taken into account?

No further comments

Responses should be submitted by email to iGTUNC@gemserv.com
