Please briefly summarise the key reason(s) for your support / opposition

We support this modification as it is essential to retain the accuracy of references in the IGT UNC where these point to the UNC.

UNC 0708: Re-ordering of the UNC in advance of Faster Switching seeks to make changes to the text of the UNC. Given the high level of referencing between the two codes, IGT 137 will need to be implemented to ensure that the IGT UNC is coherent and continues to accurately reference the requisite clauses and terms of the UNC.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree that this is a self-governance modification.

Please state any new or additional issues that you believe should be considered

We have not identified any new issues to be considered at this time.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

This modification will positively impact Objective F as it seeks to align the IGT UNC with new UNC text that is being drafted to support Faster Switching changes.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

We will not face any costs upon implementation of this modification.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

As the modification is wholly dependent on the implementation of UNC 0708, we note that IGT137 will have to be implemented on the same date to avoid errors in cross-references of legal text.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We are satisfied that the legal text work carried out by the code expert will deliver the intent of this modification.

Further Comments

Is there anything further you wish to be taken into account?

No further comments.
