Support Implementation ☐

## Please briefly summarise the key reason(s) for your support

SP is in Support of implementation of this modification, at present we are the only Shipper holding one vote at Panel. This change will seek to address the lack of quoracy at Panel and will allow for decisions to be made. It will also ensure the Shipper's community views are represented too.

To note in the long term, we would like to see a merge of the IGT UNC and UNC code as mention in the last workgroup meeting around this issue. There seems to be a lack of Shipper's interest to attend IGT UNC for reasons unknown to Panel and only assumptions can be made i.e. lack of resource. There seems to be a higher Shipper presence at UNC and if the codes were to align this could prevent duplication of representative's time and workloads.

## Self-Governance Statement
