	<p>Low Impact: <i>Insert parties/Codes impacted</i></p> <p>Here</p>	

Guidance on The Use of This Template:

Please complete all sections unless specifically marked for the Code Administrator.

Green italic text is provided as guidance and should be removed before submission.

The Code Administrator is available to help and support the drafting of any modifications, including guidance on completion of this template and the wider modification process. Contact: [add email address] or [add telephone number].

Contents

1	Summary	3
2	Governance	3
3	Why Change?	4
4	Code Specific Matters	5
5	Solution	5
6	Impacts & Other Considerations	5
7	Relevant Objectives	86
8	Implementation	97
9	Legal Text	97
10	Recommendations	108

Timetable

Please provide proposer contacts and an indicative timeline. The Code Administrator will update the contents and provide any additional Specific Code Contacts.

The Proposer recommends the following timetable: *(amend as appropriate)*

Initial consideration by Workgroup	dd month year
Amended Modification considered by Workgroup	dd month year
Workgroup Report presented to Panel	dd month year
Draft Modification Report issued for consultation	dd month year
Consultation Close-out for representations	dd month year
Variation Request presented to Panel	dd month year
Final Modification Report available for Panel	dd month year
Modification Panel decision	dd month year

1 Summary

Please provide a summary of the modification proposed – i.e. **what** is the identified defect/change in the existing code that needs to be rectified, **why** this change needs to be made, and **how**.

What

Provide a summary of **what** needs to be changed so that readers have an overview of what the identified defect is that needs to be rectified.

Insert text here

Why

Provide a summary of **why** this change should be made, so that readers have an overview of the impact if the change isn't made.

Insert text here

How

Provide a summary of the proposed Solution so that readers have an overview of **how** you propose to address the defect.

Insert text here

The Code Administrator may set alternative subheadings appropriate to the specific Code.

Insert subheading here

Insert text here

2 Governance

Please state clearly which governance procedures apply and why, referring to the relevant criteria (reproduced by the Code Administrator below):

Justification for [Normal, Urgent, Self-Governance or Fast Track Self-Governance] Procedures

Insert text here

Self-Governance - The modification:

(i) is unlikely to have a material effect on:

- (aa) existing or future gas consumers; and
- (bb) competition in the shipping, transportation or supply of gas conveyed through pipes or any commercial activities connected with the shipping, transportation or supply of gas conveyed through pipes; and
- (cc) the operation of one or more pipe-line system(s); and
- (dd) matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies; and
- (ee) the uniform network code governance procedures or the network code modification procedures; and

(ii) is unlikely to discriminate between different classes of parties to the uniform network code/relevant gas transporters, gas shippers or DN operators.

OR

Fast Track Self-Governance - The modification:

- a. would meet the self-governance criteria; and
- b. is properly a housekeeping modification required as a result of some error or factual change, including but not limited to:
 - i. updating names or addresses listed in the uniform network code;
 - ii. correcting minor typographical errors;
 - iii. correcting formatting and consistency errors, such as paragraph numbering; or ^[1-7]_[SEP]
 - iv. updating out of date references to other documents or paragraphs.

Requested Next Steps

This modification should: *(delete as appropriate)*

- be subject to [fast track] self-governance
- be assessed by a Workgroup
- proceed to Consultation
- be treated as urgent and should proceed as such under a timetable agreed with the Authority

Please provide any additional information to support your preferred next steps, such as any critical events driving the timeline.

Insert text here

3 Why Change?

*Please concisely set out **why** a modification of the code is proposed – i.e. **why** the identified defect/change in the existing code needs to be rectified, what happens if the change isn't made, what is driving the change, what parties are impacted, why is this a Code matter. Proposers should also consider whether additional context and/or background should be included here that is not forming part of the Solution and will to assist wider understanding.*

Insert text here

The Code Administrator may set subheadings appropriate to the specific Code.

Insert subheading here

Insert text here

4 Code Specific Matters

Please provide any specialist information (that is Code-specific), such as technical skillsets required and any reference documents.

Technical Skillsets

Provide the required technical skillset that will be required to assess this modification.

Insert text here

Reference Documents

Provide any reference documents that need to be considered.

Insert text here

The Code Administrator may set alternative subheadings appropriate to the specific Code.

Insert subheading here

Insert text here

5 Solution

Please concisely set out in detail the Code changes that are proposed, setting out specific document changes to the Code.

This section is “owned” by the proposer and will not be altered by the workgroup and so should set out the change you, as proposer, wish to see made – which you can amend later to take into account issues raised by a workgroup.

This section will be used to produce the legal text that changes the Code. It should therefore be in sufficient detail to act as legal instructions and enable the drafting of text. In general, the provision of business rules is recommended.

The Code Administrator may set subheadings appropriate to the specific Code.

The proposer may wish to utilise subheadings.

Insert subheading here

Insert text here

6 Impacts & Other Considerations

Please concisely set out in detail any potential cross-code, consumer or environmental impacts and attach or reference any other, related work.

Provide detail on:

- i. Who (i.e. which industry roles) is impacted;*
- ii. Which processes are impacted; and*

iii. Systems impacted

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

Please provide the main impacts so that readers have an overview of how the change proposed will affect the identified SCR/project.

Insert text here

Consumer Impacts

What is the current consumer experience?

This is a free text answer for the Proposer and the Workgroup to populate during the development of the modification. This answer should explain:

- a) the common end consumer's experience of the issue the modification seeks to address; and
- b) the experience of end consumers if this modification is not implemented.

Where the number and/or type of impacted consumers and if any quantifiable impacts are known this should be included too.

Insert text here

What would the new consumer experience be?

This is a free text answer for the Proposer and the Workgroup to populate during the development of the modification. This answer should explain how the end consumer experience will change with the introduction of the modification, setting out both positives and negatives.

Insert text here

Impact of the change on Consumer Benefit Areas

<u>Area</u>	<u>Identified Impact</u>
<u>Improved safety and reliability</u> <u>Will this change mean that the energy system can operate more safely and reliably now and in the future in a way that benefits end consumers?</u> <u>This area would relate to changes which balance the system safely, securely and at optimum cost, particularly for consumers in vulnerable situations. It would also consider changes which introduce flexibility across the market to flow energy at the most efficient profile, lower operational costs and make sure GB consumers can access the cheapest sources of energy.</u>	<u>Positive/Negative/None</u>
<u>Lower bills than would otherwise be the case</u> <u>Will this change lower consumers' bills by controlling, reducing, and optimising spend, for example on balancing and operating the system?</u> <u>This area would relate to changes that are likely to benefit end consumers. This could include any change where it has been demonstrated that it could lower</u>	<u>Positive/Negative/None</u>

bills for end consumers.

If possible, this section should include any quantifiable benefits.

Reduced environmental damage

Positive/Negative/None

Will this proposal support:

- new providers and technologies?
- a move to hydrogen or lower greenhouse gases?
- the journey toward statutory net-zero targets?
- decarbonisation?

This area would relate to changes which demonstrate innovative work to design solutions which ensure the system can operate in an environmentally sustainable way both now and in the future.

Improved quality of service

Positive/Negative/None

This area would focus on demonstrating why and how the change can improve the quality of service for some or all end consumers. Improved service quality ultimately benefits the end consumer due to interactions in the value chains across the industry being more seamless, efficient and effective.

Benefits for society as a whole

Positive/Negative/None

This area would relate to any other identified changes to society, such as jobs or the economy.

Cross-Code Impacts

Please concisely set out in detail the Cross-Code impacts you anticipate there to be. These were indicated on the first page as a high, medium or low impact. Please set out why you anticipate these impacts to be either high, medium, low or none.

<u>UNC</u>	<input type="checkbox"/>
<u>REC</u>	<input type="checkbox"/>
<u>Other</u>	<input type="checkbox"/>
<u>None</u>	<input type="checkbox"/>

Environmental Impacts

This is a free text area for the proposer to outline any environmental impacts they may foresee because of the implementation of this modification. This could include issues on sustainability, Biomass, blending of gas, future arrangements e.g. hydrogen etc.

Insert text here

The Code Administrator may set subheadings appropriate to the specific Code.

The proposer may wish to utilise subheadings.

7 Relevant Objectives

Impact of the modification on the Relevant Objectives:	
Relevant Objective	Identified impact
(A) Efficient and economic operation of the pipe-line system	Positive/Negative/None
(B) Co-ordinated, efficient and economic operation of (i) the combined pipe-line system; and/or (ii) the pipe-line system of one or more other relevant gas transporters	Positive/Negative/None
(C) Efficient discharge of the licensee's obligations	Positive/Negative/None
(D) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation agreements with other relevant gas transporters) and relevant shippers	Positive/Negative/None
(E) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards... are satisfied as respects the availability of gas to their domestic customers	Positive/Negative/None
(F) Promotion of efficiency in the implementation and administration of the Code	Positive/Negative/None
(G) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Cooperation of Energy Regulators	Positive/Negative/None

Please explain how this change will positively or negatively impact the relevant Code objectives and concisely explain the rationale.

Insert text here

The Code Administrator may set subheadings appropriate to the specific Code.

The proposer may wish to utilise subheadings.

Insert subheading here

Insert text here

8 Implementation

Please provide any views you have on implementation timescales, including the costs and benefits of a range of implementation options where appropriate and an assessment on how the costs will be recovered.

Insert text here

The Code Administrator may set subheadings appropriate to the specific Code.

The proposer may wish to utilise subheadings.

Insert subheading here

9 Legal Text

The Proposer is welcomed to put forward suggested legal text. If this is a proposed Fast Track Self-Governance modification, then legal drafting and commentary must be provided. Otherwise, the legal representative when requested to do so by the Modification Panel will provide formal legal text and commentary.

Text Commentary

In support of the legal text provided, the legal representative will provide a plain English explanatory note setting out the approach taken to converting the Solution into legal text, illustrating how the legal text delivers the intent of the Solution.

Insert text here

[Suggested] Text

The legal representative will provide the Text (to be inserted into Code) with instructions for the Code Administrator. The Text can be published alongside the main document.

Insert text here

The Code Administrator may set alternative subheadings appropriate to the specific Code.

Insert subheading here

Insert text here

10 Recommendations

Proposer's Recommendation to Panel

Panel is asked to: *[Delete as appropriate]*

- Agree that Normal/Self Governance/Fast Track governance procedures should apply
- Refer this proposal to a Workgroup for assessment.
- Issue this modification directly to Consultation
- Agree that this Fast-Track Proposal should be implemented

The Code Administrator may set alternative subheadings appropriate to the specific Code.
