#### Please briefly summarise the key reason(s) for your support / opposition

We support implementation as it is beneficial to signpost the CIGA regulations to any Pipeline Operator who may be seeking to issue a Termination Notice to a User.

## Self-Governance Statement

**Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?**

We agree this should be Self-Governance as it is not a material change to the Code, it simply alerts Parties to other Regulations that may impact the issuing of a Termination Notice

**Please state any new or additional issues that you believe should be considered**

## Relevant Objectives

**How would implementation of this modification impact the relevant objectives?**

We agree that this Mod facilitates Objective F by making parties aware that a Termination Notice must comply with both Code and the Insolvency Act

## Impacts and Costs

**What development and ongoing costs would you face if this modification was implemented?**

None identified

## Implementation

**What lead time would you wish to see prior to this modification being implemented, and why?**

Implementation should be at the earliest opportunity after a Modification Panel decision to implement.

## Legal Text

**Are you satisfied that the legal text will deliver the intent of the modification?**

We are satisfied with the legal text
