**Please briefly summarise the key reason(s) for your support / opposition**

We support this modification as it facilitates the transition of the obligation to provide a meter read service for Class 1 sites from the Large Transporters to the CDSP following multiple developments through *UNC0647 - Opening Class 1 reads to Competition* and *UNC0694R - CDSP provision of Class 1 Read service* and culminating in UNC0710 – CDSP provision of Class 1 read service as the Large Transporters are no longer able to provide the service due to inefficiencies of scale.

## Self-Governance Statement

Yes, we agree that this modification satisfies self-governance criteria.

We have not identified any new issues for consideration at this time.

## Relevant Objectives

As the proposer, we support the relevant objectives in the modification with the justifications provided.

## Impacts and Costs

**What development and ongoing costs would you face if this modification was implemented?**

We have not foreseen any costs to implement the solution of this modification.

## Implementation

**What lead time would you wish to see prior to this modification being implemented, and why?**

We agree that the implementation of IGT148 should align with that of UNC0710. It is recognised that the implementation of UNC0710 has been delayed from 1<sup>st</sup> June 2021 to no earlier than August 2021 and we would expect that this modification should see an aligned implementation date.
