**Please briefly summarise the key reason(s) for your support / opposition**

We support this proposal to introduce the concept of derogation from specific parts of Network Code to enable parties to trial innovations

### **Self-Governance Statement**

**Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?**

We agree with the proposer that this modification requires Authority Consent as it has a material impact on Code

### **Please state any new or additional issues that you believe should be considered**

None identified

### **Relevant Objectives**

**How would implementation of this modification impact the relevant objectives?**

We agree with the proposer that this modification has a positive impact on Objective B by enabling innovative approaches to operating networks to be trialled, also Objective F by creating the conditions whereby Code does not need to be revised for each individual trial

### **Impacts and Costs**

**What development and ongoing costs would you face if this modification was implemented?**

None identified

### **Implementation**

**What lead time would you wish to see prior to this modification being implemented, and why?**

Next Release after Authority decision. IGT 160 is associated with UNC 0800, and whilst we should aim to align implementation as far as practicable, they are not co-dependant.

**Legal Text****Are you satisfied that the legal text will deliver the intent of the modification?**

We are satisfied that the legal text will deliver the intent of the modification

**Further Comments****Is there anything further you wish to be taken into account?**

**Responses should be submitted by email to [IGTUNC@gemserv.com](mailto:IGTUNC@gemserv.com)**
