Do Not Support

Please briefly summarise the key reason(s) for your support / opposition

This modification is required to ensure the CDSP can properly and compliantly administer the EPG to all domestic customers, including those connected to IGT networks.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree with the Proposer and Panel that this modification requires Authority Consent due to its impact on domestic consumers

Please state any new or additional issues that you believe should be considered

None identified

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

This modification has a positive impact on Objectives D & E by reducing the risk of Supplier failure and ensuring the continued provision of gas to domestic customers. It also has a positive impact on Objective F by placing into the IGT UNC the permissions needed to enable the CDSP to administer the scheme for customers on IGT networks and aligning with the related provisions in the UNC.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

None identified

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

As the CDSP is already administering the scheme without the relevant permissions, the modification should be implemented as soon as possible after Authority consent is given. This is likely to require a special release of IGT UNC

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We are happy that the proposed legal text delivers the intent of the modification
