Please briefly summarise the key reason(s) for your support / opposition

As proposer of this modification we fully support it being implemented. This proposal seeks to align the IGT UNC with the UNC. It should also be noted that CDSP have already completed the changes for IGT sites, and so should this modification not go ahead, this would leave IGTs in breach of Code or at risk of unknown costs to undo the changes that have already been made by CDSP.

Self-Governance Statement

Do you agree with the Modification Panel’s determination with respect to whether or not this should be a self-governance modification?

We support the Panel’s determination that this should be a self-governance modification as it would not involve a material change.

Please state any new or additional issues that you believe should be considered

None.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We believe that this modification will have a positive impact on relevant objective (F). This modification aligns the IGT UNC with the UNC.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

None. The changes have already been put in place by CDSP for IGT sites.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We believe that this modification should be implemented as soon as possible.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

Yes, we support the legal text in this modification.

Further Comments

Is there anything further you wish to be taken into account?

No.
