

**IGT UNC 169 - Aligning the Capacity requirements for NExA Supply Points in the UNC with Capacity requirements for LDZ CSEP Ancillary Agreement (LCAA) Supply Points under the IGT UNC (i.e. bringing Code in line with UNC0701 and UNC0853)**

**Legal Drafting Commentary:**

With reference to the legal drafting for UNC 0701 and UNC 0853

**UNC TPD**

**Section B**

**Amended paragraph 4.7.3**

Paragraph not referenced in the UNC. IGT UNC changes made to the maximum capacity definitions ensure Ratchet threshold in IGT UNC marries with the level in the NExA / LCAA.

**Amended Annex B-3 Paragraph 5.1 and 5.2 and the addition of Paragraph 5.5**

IGT UNC Part CII 4 Absolute Requirement points to this UNC reference (Annex B-3 Paragraph 5) in its entirety so the section has been amended to refer to the LCAA rather than the NExA (a UNC term) and continues to remove references to NTS sites which are irrelevant to the IGT UNC.

**Amended Annex B-3 Paragraph 6.1, 6.2, and 6.5**

The UNC revises 3 definitions in the UNC and these definitions are revised in the IGT UNC in Part CII Section 5 Other Requirements

**Section G – Supply Points**

Amendments in this section will also be applicable in the IGT UNC (see reference CI 2.2)
