Please briefly summarise the key reason(s) for your support / opposition

We support the proposer's intention to draw a line under the uncertainty caused by the CSS P1 Incident. This proposal seeks to agree a practical and targeted solution to address the incidents' impacts to registration, invoicing and Settlements.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree with the proposer that this change should be subject to Authority Decision

Please state any new or additional issues that you believe should be considered

None identified

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree with the proposer that this modification facilitates Objective F by providing a way for industry parties and the CDSP to maintain the integrity of Network Code processes following the CSS P1 Incident.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

As this is expected to be a one-off limited exercise, the additional costs of processing the invoice adjustments is expected to be manageable with current resources.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

Implementation should be aligned, as far as possible, with UNC0855

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We are satisfied that the amended legal text delivers the intent of the modification

Further Comments

Is there anything further you wish to be taken into account?

none
