Please briefly summarise the key reason(s) for your support / opposition

We support this enabling modification, which has been extensively discussed at Workgroup.

Authority Decision Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be an Authority Decision modification?

We agree with the proposer that this modification should be subject to Authority Decision and that it should be considered alongside UNC Mod 0842

Please state any new or additional issues that you believe should be considered

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree with the proposer that this modification positively impacts Objective A, by enabling more low-carbon gas to enter the pipeline system, and Objective B, by establishing arrangements that are consistent across IUNC & UNC

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

None identified

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

Implementation of IGT172 should, as far as possible, be aligned with UNC 0842. Because this modification is introducing an optional arrangement, there is no requirement for a long implementation lead time

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

We are satisfied that the legal text fulfils the requirements of the Modification

In addition, the IGT UNC Panel are particularly interested in parties' views in respect of the commercial arrangements that would be needed as part of implementing this Modification?

We are comfortable with the commercial arrangements proposed in this modification

Further Comments

Is there anything further you wish to be taken into account?
