

LEGAL TEXT SUPPORT DOCUMENT FOR IGT176 (as of 3rd July 2025)

Further information on *IGT176 - Changes to IGT UNC to enable UNC0887 'Facilitating Bi-Directional Connections Between IGT Pipelines and the NTS'* can be found on the [IGT176 webpage](#).

IGT UNC Part reference	Change	Notes
Part CI 3.1	Correction	As per the work group discussion
Part CI 8.1	Version 0.1 text reinstated	This reflects the work group discussion
Part CI 23 ... Paragraph ... 6.4.2 (c) (ii)	– applies as although have to be class 1 – they must state this in the nom file.	Changes to reflect post meeting email exchanges with Xoserve and NGT
Part CI 23 ... Paragraph ... 6.6.1 (c)	- relates to the details within the offers so believe this should apply as 6.5.2 (k) relates to the unique reference that is linked to the offer they are confirming.	
Part CI 23 ... Paragraph ... 6.6.8 (b)(iii)	- These all apply as these relate to the confirmation lead times depending on whether the existing shipper has withdrawn, on set up of the site etc.	
Part CI 23 ... Paragraph ... 6.6.8 (c)	- If the sites will not have any special metering arrangements in place	

	then this is not applicable but due to the nature of these type of sites would it be in the future new sites may so you would want the code to allow	
Part J 2.1	Need to exclude NTS as a more detailed site-specific arrangement is to go into the new Part R 3.7, with reference to R 3.7 for NTS	Addition to avoid previously unforeseen clash between what would otherwise be similar provisions
Part J 3.3 (h)	Addition to the circumstances in which the pipeline operator is relieved from the obligation to make gas available	This reflects the work group discussion
Part R 1.2	Correction	As per the work group discussion
Part R 1.6 and 1.7	Deletions to avoid clash with near identical wording already in IGT UNC Part J	Deletion to avoid previously unforeseen clash between what would otherwise be similar provisions
Part R 2.2.1 (a) (ii) (1)	Square brackets removed	Changes to reflect post meeting email exchanges with NGT
Part R 2.1.5	Correction	As per the work group discussion

Part R 2.4.4	Correction	As per the work group discussion
Part R 3.10.1	Revision of the section	This change reflects the work group discussion. The new text is modelled on existing Part J 6.2 <i>“The Pipeline User will (or will procure that the CSEP User(s) from whom it is acquiring gas at the CSEP will):</i> <i>(a) comply with the provisions of Section J3.4.5 of the UNC;”</i>
Part R 4.2.1	Correction	As per the work group discussion
Part R 4.5.1	Minor revision to wording	Changes to reflect post meeting email exchanges with NGT
Part R 5.2.1	Reference to non-replicated TPD provision deleted and replaced with ‘PexA’	As per the work group discussion
Part R 5.8.1	‘plc’ added after the company name	As per the work group discussion
