Please briefly summarise the key reason(s) for your support / opposition

IGT178 is a simplistic Modification which will aid aligning the IGT UNC with the UNC, via the changes proposed with UNC0884: Extending the PC4 Read Submission Window.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

We agree with the justification provided that the Modification governance should be authority direction, mirroring the UNC Modification it intends to align with.

Please state any new or additional issues that you believe should be considered

No new or additional issues identified.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree that the Modification would have a positive impact on 'Objective (F): Promotion of efficiency in the implementation and administration of the Code'.

It seeks to align the extension of the PC4 read submission window, with what is being proposed with UNC0884. This alignment continues the direct referencing between the two Codes (IGT UNC and UNC) ensures that a uniform approach is delivered for gas industry parties.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

No expected development or ongoing costs identified.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We agree that the IGT178 should only be implemented if UNC0884 is implemented. Furthermore, we support the recommendation that the Modification should be implemented on a date that is aligned with the potential implementation of UNC0884.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

The legal text provided highlights the simplicity of the solution required with the Modification. We are satisfied that the legal text
