Organisation: National Energy System Operator (NESO)

Support Implementation ☒

Qualified Support ☐

Neutral ☐

Do Not Support ☐

Please briefly summarise the key reason(s) for your support / opposition

NESO supports this Modification as it aims to correct inaccurate supporting information and ensure the use of appropriately dated data for the Annual Quantity (AQ) Review Process, without altering the AQ Process itself. This will be achieved by renaming the Connection System Exit Point (CSEP) Network Exit Agreement (NExA) AQ value tables to specify the relevant years and indicate whether the figures are 'Proposed' or 'Approved'. Consequently, this will provide explicit date ranges and status indications for these tables moving forward.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

NESO agrees with the Self-Governance Statement as there are no material changes.

Please state any new or additional issues that you believe should be considered

None

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

(F) Promotion of efficiency in the implementation and administration of the Code

NESO agrees that this modification would positively impact objective (F) by enhancing clarity in the AQ Review Process. This improvement will facilitate a more efficient process and ensure that users fully comprehend the data they are reviewing.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

NESO is not an impacted party to this Modification. We have no comments relating to impacts and costs.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?
