Timeline

Modification timetable:

Modification raised	13 th May 2026
New Modification to be considered by Panel	26 th June 2026
First Workgroup Meeting	-
Workgroup Report to be presented to Panel	-
Draft Modification Report issued for consultation	-
Consultation Close-out for representations	-
Final Modification Report available for Panel	24 th June 2026
Modification Panel decision	1 st July 2026

1 Summary

What

This Modification seeks to align the IGT UNC definition of the Data Permissions Matrix with the updated UNC definition following [UNC Modification 0921S - Broadening the definition of the Data Permissions Matrix to align with disclosure of UK Link Gemini data](#), which broadens its definition to also include categories of data held in the UK Link Gemini system.

Why

This Modification enables alignment between the IGT UNC and the UNC such that the CDSP may release data related to IGTs as well as GTs if and when appropriate and ensures that definitions between the two Codes remain aligned.

How.

The IGT UNC definition of Data Permissions Matrix will be modified to mirror the updated UNC definition as set out in UNC 0921S.

2 Governance

Justification for Fast Track Self-Governance

Following the implementation of UNC 0921S, there is no material impact from implementing this mirror Modification, which is a housekeeping Modification. Since the revised definition is intended to widen the existing data release permissions definition (Supply Point Register to UK Link) to allow the release of Gemini Data, no impact on IGTs is anticipated.

Panel discussions and decision (July 2026)

The Panel considered the Proposer's justification for Fast Track Self-Governance and **[unanimously/by majority] agreed that this Modification does meets the [Fast Track Self-Governance Criteria] and should be treated as such.**

Prioritisation Criteria

Prioritisation Criteria	High Impact
Strongly aligns with the Strategic Direction Statement The Modification strongly supports key government energy policy actions that require immediate progress and aligns with SDS priorities under the Act Now category.	N/A
Complexity The Modification is highly complex, with a fast-approaching deadline, significant implementation challenges, and a requirement for extensive stakeholder engagement.	N/A

Importance The Modification addresses a high-risk or critical issue, making timely action important for stakeholders as it is anticipated to deliver substantial benefits and value.	N/A
Priority Category	N/A

No prioritisation is needed, reflecting the Ofgem decision to exclude Fast-Track Self-Governance Modifications, as well as Urgent Modifications, from the prioritisation process.

Panel discussions and decision (July 2026)

The Panel considered the Proposer's views regarding Prioritisation and [unanimously/by majority] [agreed that this Modification is excluded from the Prioritisation process as it is a Fast Track Self-Governance Criteria Modification Proposal].

Requested Next Steps

This Modification should:

- be subject to Fast Track Self-Governance.

3 Why Change?

UNC 0921S was raised on 9th December 2025. At its August 2025 meeting, the DSC Contract Management Committee approved the Disclosure Request Report (DRR) 'Green Gas Certification Scheme (GGCS) Biomethane Data'. This DRR permits the CDSP to provide Renewable Energy Assurance Limited (REA) with data held in UK Link Gemini; specifically, allocated volumes of biomethane gas injected. The data will be used to complete plausibility checks when issuing Green Gas Certificates and to support external audits of the scheme.

The UNC definition of the Data Permissions Matrix (within UNC General Terms Section D) refers exclusively to categories of data maintained in the Supply Point Register. UNC 0921S therefore seeks to broaden this definition, to align with the release of UK Link Gemini data through this DRR.

This IGT UNC Modification has been raised to update the IGT UNC definition of Data Permissions Matrix to avoid any uncertainty regarding the release of data in the case of biomethane entry via an IGT.

4 Code Specific Matters

Technical Skillsets

None

Reference Documents

[UNC 0921S](#)

5 Solution

We propose that the words “the Supply Point Register” within the definition of Data Permissions Matrix be replaced with “UK Link” to mirror the changes to the UNC definition proposed by UNC 0921S.

Panel discussions (July 2026)

The Panel were provided with an overview of the proposed solution.....

[insert discussions]

6 Impacts & Other Considerations

Does this Modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

None.

Panel discussions and decisions (July 2026)

The Panel considered whether this Modification would have an impact on SCRs or other significant industry change projects and [unanimously/by majority] [agreed that this Modification will/will not have an impact]

Consumer Impacts

What is the current consumer experience?

None.

What would the new consumer experience be?

No change.

Impact of the change on Consumer Benefit Areas

Area	Identified Impact
Improved safety and reliability	None
Lower bills than would otherwise be the case	None
Reduced environmental damage	None
Improved quality of service	None
Benefits for society as a whole	None

Panel discussions and decisions (July 2026)

The Panel considered the Proposer’s views on consumer impacts and [unanimously/by majority] [agreed that this Modification will/will not have an impact].

[insert discussions]

Cross-Code Impacts

There are Cross-Code Impacts with the UNC as this Modification looks to mirror the changes made under UNC 0921S to an IGT UNC Definition. There is no direct impact on UNC Code provisions as a result of this Modification.

UNC	☒
REC	☐
Other	☐
None	☐

Panel discussions and decisions (July 2026)

The Panel considered the Proposer's views on cross-Code impacts and [unanimously/by majority] [agreed that this Modification will/will not have an impact].

[insert discussions]

Environmental Impacts

None.

Panel discussions and decisions (July 2026)

The Panel considered the Proposer's views on environmental impacts and [unanimously/by majority] [agreed that this Modification will/will not have an impact].

7 Relevant Objectives

Impact of the Modification on the Relevant Objectives:

Relevant Objective	Identified impact
(A) Efficient and economic operation of the pipe-line system	None
(B) Co-ordinated, efficient and economic operation of (i) the combined pipe-line system; and/or (ii) the pipe-line system of one or more other relevant gas transporters	None
(C) Efficient discharge of the licensee's obligations	None
(D) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation agreements with other relevant gas transporters) and relevant	None

shippers	
(E) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards... are satisfied as respects the availability of gas to their domestic customers	None
(F) Promotion of efficiency in the implementation and administration of the Code	Positive
(G) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Cooperation of Energy Regulators	None

This Modification will have a positive impact on Objective (F) as it ensures the UNC and IGT UNC remain aligned, thereby promoting the efficient implementation and administration of the Code.

Panel discussions and decisions (July 2026)

The Panel considered the Proposer's views against the Objectives and [unanimously/by majority] [agreed that this Modification will have a [positive] impact on Objective (F).....].

[insert discussions]

8 Implementation

We recommend that this Modification is implemented on the same day, or as soon as possible following, the implementation of UNC 0921S.

Panel discussions and decisions (July 2026)

The Panel considered the Proposer's views regarding implementation..... [the Panel unanimously/by majority] [agreed that this Modification should be implemented on the same day, or as soon as possible following, the implementation of UNC 0921S.]

[insert discussions]

9 Legal Text

Amend IGT UNC Part N 2.5 Data Permissions Matrix as follows:

2.5 Data Permissions Matrix

2.5.1 For the purposes of the Code:

- (a) **"DAM"** is the 'Data Access Matrix' as defined in and established under the Retail Energy Code;
- (b) the **"Data Permissions Matrix"** or **"DPM"** is the document of that name which sets out:
 - (i) categories of data maintained by the CDSP in ~~the Supply Point Register~~UK Link; and
 - (ii) for each such category, classes of person (not being Parties to the Code or parties to the IGT Code) to whom the CDSP is permitted to provide such data (**"permitted data recipients"**);

(c) **"Gas Enquiry Service"** has the meaning given in the Retail Energy Code.

Text Commentary

The above suggested changes mirror the changes proposed by UNC 0921S.

Panel discussions and decisions (July 2026)

The Panel considered the legal text provided by the Proposer..... [the Panel unanimously/by majority] [agreed that the legal text delivers the intent of the solution.]

[insert discussions]

10 Recommendations

Panel Determinations

The Panel considered the IGT182 FMR and unanimously/by majority agreed:

- that IGT182 [does / does not] have an impact on any SCRs or other industry projects;
- that IGT182 is [a Fast Track Self-Governance Modification];
- that impacts and costs set out in the report are accurate and appropriate, [and they had nothing new to add];
- that IGT182 will have a positive impact on Objectives [insert objectives];
- that IGT182 should be treated as high priority;
- [with the proposed implementation approach]; and
- that the legal text delivers the intention of the solution.

The Panel unanimously agreed / by majority agreed that:

- that IGT182 should/should not be implemented

Further discussion with regards to Panel decisions can be found in the relevant sections of this FMR.
