9.3	IGT063	Change to the IGT UNC Gas Day to align with the Gas Day in EU Network Codes	11th November 2014 23rd September 2015	1st October 2015
	IGT081F	Correcting Incorrect Definition for Project Nexus Go Live Date		
10.1	IGT078	Ancillary Document for the New Connections process	16 th March 2016	23 rd February 2017
	IGT079	Adding Non-Domestic New Connections Framework Ancillary Document	16 th March 2016	
	IGT087	Revision to the Modification Rules in Response to CGR3 – Significant Code Review	18 th November 2016	
	IGT088	Modifications Determining Implementation of Self Governance Modifications	18 th November 2016 18 th November 2016	
	IGT089	Revision to the Modification Rules in Response to CGR3 – Self Governance	18 th January 2017	
	IGT091	Amending rules for appointing Pipeline User Representatives	18 th January 2017	
	IGT093F	Changes to the CSEP NEXA Tables Ancillary document to correct the effective dates on 2 of the tables	15 th February 2017 17 th February 2017	
	IGT094F	Amendments to file format types for IGT078 and IGT079 flows		
	IGT092A	Implementation of Non-effective days for Project Nexus Implementation Maintaining a minimum of two Supply point system Business days (Project Nexus transitional modification)		
10.2	IGT039	Use of a Single Gas Transporter Agency for the common services and systems and processes required by the IGT UNC	11 th March 2015	1 st June 2017
	IGT070S	Removal of redundant Ancillary documents following the implementation of Single Service Provision	20 th May 2015	
	IGT071S	Updating the IGT AQ Review Procedures Ancillary Document	21 st October 2016	
	IGT073S	Consequential Changes to the 'Pipeline Operator Standards of Service Query Management' Ancillary Document	20 th May 2015	
	IGT074S	Amendment of Password Protection Ancillary document	17 th June 2015	
	IGT076S	Amendment of RPC format in line with Single Service Provision	20 th May 2015	

Version	Modification Number	Title	Date of Authority / Panel Direction	Implementation Date
	IGT077S	Amendment of Portfolio Extract format in line with Single Service Provision	20 th May 2015	
	IGT078 – Post-Project Nexus amends	Ancillary Document for the New Connections process	16 th March 2016	
	IGT079 – Post-Project Nexus amends	Adding Non-domestic New Connections Framework Ancillary Document	16 th March 2016	
	IGT083S	Correction to PSR Process to Support SSP Arrangements	15 th June 2016	
	IGT085F	SSP Housekeeping Changes	15 th June 2016	
	IGT086S	Central Data Service Provider - Implementing IGT UNC Changes to support FGO	12 th May 2017	
	IGT090F	Changes to the IGT039 legal text following a review of UNC legal text	21 st December 2016	
	IGT096F	Correction to the IGT083 legal text now IGT078/79 are complete	10 th May 2017	
	IGT097	Provision for allowing consecutive estimated invoicing in the event of System Failure by the CDSP	26 th April 2017	
	IGT098F	Changes to the IGT UNC Code due to changes to the UNC Code	10 th May 2017	
10.3	IGT080S	Mandating IGT use of data as administered by the Pipeline Operators' Agency for Shipper Transportation Billing	17 th February 2016	3 rd November 2017
	IGT100	Reinstating Asset Query Codes	16 th August 2017	
	IGT101F	Amending IGT UNC legal text to reflect changes to the UNC made by UNC570	21 st September 2017	
10.4	IGT095VV	Provision of access to Domestic Consumer data for Price Comparison Websites and Third-Party Intermediaries	18 th October 2017	15 th December 2017
10.5	IGT104	Permissions modification to allow the CDSP to release IGT supply point information under UNC MOD0520A	21 st February 2018	22 nd March 2018
	IGT105	Creating permissions for the CDSP to release data to Meter Asset Providers	21 st February 2018	
10.6	IGT106	Provision of access to Domestic Consumer data for Suppliers	21 st February 2018	10 th April 2018
10.7	IGT103	Inclusion of reference within IGT UNC to UNC TPD Section G paragraph 2.12 – 2.14 inclusive – Meter Point Portfolio Reconciliation	18 th April 2018	29 th June 2018
	IGT107F	Correcting the consumption adjustment reads within IGT UNC	21 st March 2018	

Version	Modification Number	Title	Date of Authority / Panel Direction	Implementation Date
	IGT108F	Updating references for UNC434	18 th April 2018	
10.8	IGT102	Enduring solution for provisions that allow consecutive estimated invoicing in the event of System Failure by the CDSP	5 th February 2018	9 th November 2018
	IGT109F	Amending the IGT UNC legal text to reflect changes to the UNC made by UNC632	20 th June 2018	
	IGT111	Updating of the IGT UNC data permissions	19 th September 2018	
	IGT115	Update to IGT UNC to formalise the Data Permissions Matrix	17 th October 2018	
10.9	IGT110V	Mandating the provision of NDM sample data	19 th September 2018	1 st March 2019
	IGT113VV	Amendments to the CSEP NExA Table Ancillary Document and associated templates	17 th October 2018	
	IGT116V	Amendment of the Data Permission Matrix to add Alt Han Company as a new User type	18 th January 2019	
11.0	IGT112	-Refinements to the RPC Template	19 th December 2018	28 th June 2019
	IGT118V	Amendments to the IGT UNC Password Protection Protocols	17 th April 2019	
	IGT121	Clarify IGT AQ Review Reporting Procedure		
	IGT122	Amendment of the Data Permission Matrix to add Meter Asset Provider as a new User type	17 th May 2019	
	IGT123F	Housekeeping Changes	17 th May 2019	
	IGT125F	Alignment of the Re-Establishment provisions between the IGT UNC and the UNC	17 th May 2019	
12.0	IGT126F	Alignment between the IGT UNC and UNC for Unregistered New Supply Meter Points	21 st June 2019	8 th November 2019
	IGT128	Amendment of definitions in D1.2	16 th August 2019	
13.0	IGT124	Market Participant MDD Migration to UNC Governance from the SPAA	22 nd August 2019/19 th July 2019	28 th February 2020
	IGT129	Obligations on Shippers to pass Transporter compensation payments on to consumers, via Suppliers	22 nd November 2019	28 th February 2020
13.1	IGT142U	Allow Users to submit Estimated Meter Reading during COVID	14 th May 2020	20 th May 2020
	IGT143U	Use of the Isolation Flag to identify sites with abnormal load reduction during COVID-19 period	14 th May 2020	

Version	Modification Number	Title	Date of Authority / Panel Direction	Implementation Date
13.2	IGT133	Transition of IGT Theft reporting Into the IGT UNC – TBC (Pending Panel Decision on 29th May 2020)	29 th May 2020	26 th June 2020
	IGT136	Introducing 'Performance Assurance Framework Administrator' as a new user type to the Data Permissions Matrix- TBC (Pending Panel Decision on 29th May 2020)	29 th May 2020	
	IGT139	Introducing a New User type to the IGT UNC and the Data Permissions Matrix of Electricity System Operator (ESO)- TBC (Pending Panel Decision on 29th May 2020)	29 th May 2020	
13.3	IGT134	Introducing 'Research Body' as a new user type to the Data Permissions Matrix and IGT UNC	26 th June 2020	24 th July 2020
	IGT137	Alignment of the IGT UNC to the UNC in advance of Faster Switching	26 th June 2020	
13.4	IGT135	Alignment of the IGT UNC Part K and the Data Permissions Matrix	23 rd October 2020	18 th November 2020
	IGT146F	Introduction of references to incorporate the BEIS legislative changes made in the UNC	23 rd October 2020	
13.5	IGT130	Applying password protection encryption to electronic communication	29 th April 2020	26 th February 2021
	IGT147	Updating Specific Gender References to Neutral terms	22 nd January 2021	
13.6	IGT150F	Removal of reference to AIGT within the IGT UNC	26 th February 2021	25 th June 2021
	IGT151	Revisions to User Termination Provisions	23 rd April 2021	
	IGT152F	Housekeeping Changes for IGT UNC	23 rd April 2021	
13.6	IGT155	Adding the Retail Energy Code Company as a new User type to the Data Permissions Matrix	23 rd July 2021	16 th August 2021
13.7	IGT156	Retail Code Consolidation SCR	25 th June 2021	1 st September 2021
13.8	IGT158	Transition to the Central Switching Service and the Retail Energy Code v3.0	1 st April 2022	27 th April 2022
13.9	IGT161	Consequential IGT UNC changes for Switching SCR (REC 3.0)	17 th June 2022	18 th July 2022
13.10	IGT160	Introducing the concept of a derogation into the IGT UNC for innovation projects	5 th July 2022	1 st November 2022
	IGT138V	Performance Assurance Techniques and Controls	29 th July 2022	

Version	Modification Number	Title	Date of Authority / Panel Direction	Implementation Date
13.11	IGT162	Appointment of CDSP as the Scheme Administrator for the Energy Price Guarantee (EPG) for Domestic Gas Consumers (Gas)	14 th December 2022	15 th December 2022
13.12	IGT145S	Transfer of Sites with Low Valid Meter Reading Submission Performance from Classes 2 and 3 into Class 4	29 th October 2021	24 th February 2023
13.13	IGT148	Provision of Class 1 meter read service on IGT networks by the CDSP	28 th May 2021	1 st April 2023
13.14	IGT132VV	Introduction of IGT Code Credit Rules	14 th December 2022	29 th June 2023
	IGT163	Code Credit Rules housekeeping updates following IGT132VV approval	27 th April 2023	
	IGT164	Alignment with DCP349 and Provision of Unsecured Credit	27 th April 2023	
13.15	IGT167	Alignment if the IGT UNC with UNC NGT Demand Side Response Arrangements	31 st August 2023	31 st August 2023
13.16	IGT166	Reporting Valid Confirmed Theft of Gas into Central Systems and Reporting Suspected Theft to Suppliers	25 th August 2023	19 th September 2023
13.17	IGT170	Resolution of Missing Messages following Central Switching Service implementation and integration with REC Change R0067	24 th November 2023	18 th December 2023
13.18	IGT159V	Amendments to the Must Read Process	2 nd December 2022	24 th February 2024
	UNC0816S	Update to AQ Correction Process (Ref. IGT UNC Panel meeting 26 th January 2024).	15 th June 2023	24 th February 2023
13.19	IGT169	Aligning the Capacity requirements for NExA Supply Points in the UNC with Capacity requirements for LDZ CSEP Ancillary Agreement (LCAA) Supply Points under the IGT UNC (i.e. bringing Code in line with UNC0701 and UNC0853)	27 th March 2024	29 th April 2024
13.20	IGT171	Settlement Adjustments for Supply Meter Points impacted by the Central Switching System P1 Incident	5 th January 2024	27 th June 2024
13.21	IGT172	Provision for gas entry within the IGT UNC	19 th July 2024	12 th August 2024

Version	Modification Number	Title	Date of Authority / Panel Direction	Implementation Date
13.22	IGT168	Establishing/Amending a Gas Vacant Site Process	9 th February 2024	8 th November 2024
	IGT173	Gateway delivery for RPC Data	26 th April 2024	
13.23	IGT175	Alignment of the IGT UNC with the UNC following Modification UNC0899 and additional housekeeping changes	30 th May 2025	27 th June 2025
13.24	IGT177	Aligning IGT “must read” obligations within the IGT UNC	29 th August 2025	26 th September 2025
13.25	IGT178	PC4 Read Submission Window Extension	31 st October 2025	27 th February 2026
13.26	N/A	Authority Designated Changes for Implementation of Prioritisation process under Code Reform	N/A	29 th May 2026
13.27	IGT174	Update of IGT UNC Code Communication Methods	20 th December 2024	26 th June 2026
13.28	IGT181 (Phase 1 Changes)	Revision of Virtual Last Resort User and Contingent Procurement of Supplier Demand Event Triggers	1 st July 2026	23 rd July 2026
	IGT182	Alignment of the IGT UNC with the UNC definition of the Data Permissions Matrix		
13.29	IGT176	Changes to IGT UNC to enable UNC0887 ‘Facilitating Bi-Directional Connections Between IGT Pipelines and the NTS’	1 st December 2025	14 th August 2026
	IGT181 (Phase 2 Changes)	Revision of Virtual Last Resort User and Contingent Procurement of Supplier Demand Event Triggers	1 st July 2026	

CONTENTS

PART A - INTRODUCTION AND INTERPRETATION	1
1 Introduction	1
2 Interpretation	1
3 References in the Code	3
4 Independent Gas Transporters Arrangements Document (“IGTAD”)	3
5 References to provisions of the UNC	3
PART B - CAPACITY	5
1 Unmetered CSEP	5
2 Pipeline Capacity	5
3 Capacity Allocation for the purposes of the UNC	6
4 Minimum Aggregate Capacity	6
5 DM Capacity	6
6 Downstream Systems	7
PART C - SUPPLY POINT ADMINISTRATION	8
PART CI - SUPPLY POINTS	8
1 Introduction and Interpretation	8
2 Supply Point Register and site visits	10
3 Classes of Supply Point	11
4 Changes in Supply Point Classification, etc	12
5 Supply Meter Points and Business Day	12
6 Annual Quantity	13
7 Offtake Responsibility for Supply Points	14
8 Supply Point Registration	14
9 Initial Supply Point Registrations for Smaller Supply Point and for certain Larger Supply Points that are New Supply Points at Domestic Premises	14
10 Initial Supply Point Registrations for a Larger Supply Point Supply Point and some Smaller Supply Points that are New Supply Points at Non Domestic Premises	15

11	Supplier of Last Resort	17
12	Supply Portfolios	18
21	Missing Definitive Registration Notification	20
PART CII - DM CAPACITY AND OFFTAKE RATE		22
1	DM Capacity	22
2	Minimum Capacity Requirements	22
3	Supply Point Offtake Rate	23
4	Absolute Requirement	23
5	Pipeline Operator Determination of Feasibility	23
6	Maximum NDM Offtake Rate	25
PART CIII – INTERRUPTIBLE SUPPLY POINTS		26
1	Designation of Interruptible Supply Points	26
2	Requirements as to Interruptible Supply Points	26
3	Further Provisions in respect of Interruptible Supply Points	27
PART C IV - SUPPLY POINT DEREGISTRATION AND ISOLATION		29
1	Supply Point Deregistration	29
2	Effect of Deregistration	29
3	Isolation	29
4	Isolation Request	29
5	Urgent Cessation of Flow of Gas	29
6	Re-establishment	30
7	Disablement of Supply	31
PART CV - NEW SUPPLY METER POINTS AND OTHER SITEWORKS		32
1	General	32
2	New Supply Meter Points	33
3	Undertaking Siteworks	34
4	Pipeline Design Maximum Volume	34

PART D - SUPPLY METER INSTALLATION	35
1 Introduction	35
2 Supply Meter and other equipment	35
3 Provision by the Pipeline Operator	37
4 Interference with meters	38
5 Meter clamping	39
6 Prepayment Meters	39
7 Updating Meter Information by Pipeline Operator	40
PART E - METER READING	42
1 General	42
2 Meter Information	42
3 Validity of Meter Readings	42
4 Validation of Meter Readings	43
5 Estimated Reads	43
6 Provision of Meter Readings	43
7 Cyclic Reading: Class 1 Supply Meters	43
8 Cyclic Reading: Class 2 Supply Meters	43
9 Cyclic Reading: Class 3 Supply Meters	44
10 Cyclic Reading: Class 4 Supply Meters	44
11 Failure to obtain readings	44
12 Class 1 and 2 Supply Meters – Failure to obtain meter readings by Exit Close-out	46
13 Check Reads	47
14 Opening Meter Readings	47
15 Other non-cyclic meter reading requirements	48
16 Daily Read Errors	48
17 Class 1 Supply Meters	49
18 Ownership of Meter Reading Data	49
19 Meter Error	49

20	Consumption Adjustment	49
21	Updated Meter Readings	49
22	Performance Assurance: Class 2 and 3 Supply Meter Points	49
23	Missing DRN Reads	49
PART F - DAILY AND ANNUAL QUANTITIES AND SHRINKAGE		51
1	General	51
2	Demand Determination – DM Supply Points	51
3	Demand Determination – NDM Supply Points and NDM Sampling	51
4	Determination of NDM Annual Quantities	51
5	Records	51
6	Relevant Metered Period	51
7	NDM Offtake Quantities	52
8	Calculation by the Pipeline Operator in respect of NDM Supply Points	52
9	NDM Supply Meter Point Demand	52
10	Reconciliation – DM CSEP	52
11	Reconciliation – NDM CSEP	52
12	Pipeline shrinkage	52
13	Calculation of Pipeline Shrinkage Factor	52
PART G - PIPELINE TRANSPORTATION CHARGES, INVOICING, PAYMENT AND CODE CREDIT		54
1	Transportation Charges	54
2	Rates and amount of Transportation Charges	54
3	Invoicing	55
4	Invoice Document	56
5	Invoice Timing	57
6	Value Added Tax	58
7	Termination and Insolvency	58
8	Invoice adjustment	59

9	Contingencies	59
10	Invoice Due Date	62
11	Payment Details	62
12	Deductions, withholdings, taxes etc	63
13	Remittance Advice	63
14	Late Payment	64
15	Interest	64
16	Invoice Queries	65
17	Invoice Queries before Payment	65
18	Other Invoice Queries	66
19	Invoicing of resolved Queries	66
20	Portfolio Extract	66
21	Code Credit Rules	67
	APPENDIX G-1 RPC INVOICE TEMPLATE	76
	APPENDIX G-2 PORTFOLIO EXTRACT FILE FORMAT	77
	PART H - SYSTEM MAINTENANCE AND PLANNING	85
1	Programmed maintenance	85
2	Maintenance Programme	85
3	Programmed Maintenance	85
4	Offtake of gas during Programmed Maintenance	86
5	Co-operation	87
6	System Planning	87
	PART I - EMERGENCIES	89
1	Emergency	89
2	Local Emergency Procedures	90
3	Emergency Steps	90
4	Priority Consumers	90

5	Pipeline User emergency contacts	91
6	User compliance with Local Emergency Procedures	91
7	User procedures	91
8	Large Firm Supply Points	92
9	Interruptible Supply Points	92
10	Priority Supply Points	93
11	Obligations in a Local Emergency	94
12	Return to normal operation	95
13	Consequences of an Emergency or a Local Emergency	95
PART J - DELIVERY AND OFFTAKE OF GAS		96
1	Delivery of gas into Pipeline at Connection Points	96
2	Offtake from Pipeline	96
3	Obligation of Pipeline Operator in relation to the availability of gas for offtake	96
4	Off-spec gas	97
5	Delivery of off-spec gas	97
6	Compensation for delivery of off-spec gas	97
7	Failure to make gas available for offtake	98
8	Compensation for failure to make gas available	98
9	Pipeline User offtake obligations: DM Supply Point	98
10	Antifluctuators, etc	98
PART K - GENERAL		100
1	Pipeline User Admission requirements	100
2	Admission of User	100
3	Restricted authorisation of Pipeline User	101
4	Single User admission	101
5	Discontinuing Users	101
6	Voluntary discontinuance	101
7	Termination	102

8	Expert determination	104
9	Initial notice and selection of expert	104
10	Appointment of the Expert	105
11	Timetable and Procedure	106
12	Effect of determination	107
13	Conflict of interest	107
14	Confidentiality	107
15	Costs	107
16	Miscellaneous	108
17	Communications	108
18	Suppliers and Consumers	108
19	Assignment	109
20	Waiver	110

PART A - INTRODUCTION AND INTERPRETATION

1 Introduction

- 1.1 This document (including the Transition Document) is the Independent Gas Transporters Uniform Network Code (the **"IGT UNC"**) and is prepared pursuant to Condition 9 of the Pipeline Operator's Gas Transporters' Licence.
- 1.2 Subject to any contrary provision of the Pipeline Operator's Network Code, the IGT UNC is to be incorporated into the Pipeline Operator's Network Code.
- 1.3 The Pipeline Operator's Network Code is made binding between the Pipeline Operator and Pipeline Users by the Framework Agreement.

2 Interpretation

- 2.1 The **"Network Code"** in respect of the Pipeline Operator is a reference to the network code prepared by the Pipeline Operator pursuant to Condition 9 of the Pipeline Operator's Licence and in respect of a person other than the Pipeline Operator, is a reference to the network code prepared by that person pursuant to the relevant provisions of its Gas Transporters' Licence.
- 2.2 Reference to the IGT UNC (or any part thereof) or to a Network Code are to the IGT UNC (or such part thereof) or Network Code as from time to time modified in accordance with the Modification Rules or any Pipeline Operator's Licence.
- 2.3 A reference to the **"Code"** is a reference to:
 - the IGT UNC as and to the extent incorporated into the Pipeline Operator's Network Code;
 - subject to any contrary provision in the Pipeline Operator's Network Code, such additional terms as are contained in the Pipeline Operator's Network Code;and references to the Code (or to a Network Code) include such (or such Network Code) as given contractual effect by the Framework Agreement; and references to a part of the Code shall be construed accordingly.
- 2.4 **"Pipeline Operator"** means a person which is (and in its capacity as) the owner or operator of one or more Pipelines and licensee under the Pipeline Operator's Licence authorising the conveyance of gas through such Pipeline(s).
- 2.5 For the purposes of the IGT UNC, a reference to **"a Pipeline Operator"** or **"the Pipeline Operator"** in the context of a Pipeline or a point on a Pipeline is a reference to the Pipeline Operator which is the owner or operator of that Pipeline or that Pipeline on which that point is located.
- 2.6 For the purposes of the Code, a reference to **"a Pipeline"**, **"the Pipeline"** or the **"relevant Pipeline"** is a reference:
 - in the context of a point on a Pipeline, to the Pipeline on which that point is or is to be located;
 - in the context of a Pipeline Operator, to a Pipeline owned or operated by that Pipeline Operator;
 - in the context of a particular transportation activity, to the Pipeline in relation to which that activity occurs or is to occur or is to be undertaken,and otherwise is a reference to any Pipeline.
- 2.7 For the avoidance of doubt the Pipeline Operator may be the Pipeline Operator of (and licensee under the Pipeline Operator's Licence in relation to) more than one Pipeline and the Code shall be construed accordingly.

- 2.8 A reference in the Code to **"a Pipeline User"** as a Pipeline User of (or in relation to) a Pipeline is a reference to a Pipeline User in its capacity as a person bound (or to be bound) by the Code pursuant to the Framework Agreement to which the Pipeline Operator which owns or operates that Pipeline is party.
- 2.9 A Supply Meter Point may only be classified pursuant to Part C as a DM Supply Meter Point and provisions in respect of DM Supply Meter Points shall only apply and DM Capacity may only exist, in relation to a Pipeline which is connected to the Large Transporter System at the CSEP.
- 2.10 Where the Code refers to the Manual, the Computer System or a System Communication, such references shall only take effect where the Pipeline Operator's Network Code has specifically provided for such references to take effect and has provided (inter alia) for the terms on which the Computer System may be accessed and System Communications may be given and received. Where the Pipeline Operator's Network Code does not so provide, the Code shall be construed as though it did not contain any such references.
- 2.11 **"Transition Document"** the document so entitled which sets out transitional provisions relating to the arrangements in Parts A to M of the Code.
- 2.12 In addition to terms defined elsewhere in the Code, the terms set out in Part M have the meanings set out therein.
- 2.13 A reference in the Code to a **"Standard Condition"** is a reference to a standard licence condition determined by the Secretary of State pursuant to Section 8 of the Gas Act 1995 as from time to time modified in accordance with the Act:
- (a) In the context of the Pipeline Operator or the Pipeline Operator's Licence, as incorporated into the Pipeline Operator's Licence; or
 - (b) In the context of a Pipeline User or its Shipper's Licence, as incorporated into such Shipper's Licence;
 - (c) In the context of a Gas Transporter's Licence as incorporated into such Gas Transporter's Licence.
- 2.14 A reference in the Code to the quantities in which or rate or pressure at which it is **"feasible"** for the Pipeline Operator to make gas available for offtake from the Pipeline at an exit point from the Pipeline is a reference to what is in the Pipeline Operator's reasonable judgment operationally and technically feasible without prejudicing the security of the Pipeline, without reinforcement and without prejudicing the Pipeline Operator's ability to perform its obligations under the Code any Ancillary Agreement or any other contract for the conveyance of gas, or to comply with any Legal Requirement.
- 2.15 A reference in the Code to any Legal Requirement shall be construed at any particular time, as including a reference to any modification, extension or re-enactment (before or after the date of the Code) of that Legal Requirement in force at that time.
- 2.16 A reference to the Act includes where the context permits a reference to Regulations made pursuant to the Act.
- 2.17 Part and Clause headings in the Code and clause headings in the Framework Agreement and any Ancillary Agreement shall not affect the interpretation of any provision thereof.
- 2.18 In the Code, unless the context otherwise requires:
- (a) words in the singular may be interpreted as including the plural;
 - (b) the word "including" is to be construed without limitation;

- (c) a derivative term of any defined or interpreted term shall be construed in accordance with the relevant definition or interpretation.

3 References in the Code

- 3.1 References to paragraphs, Clauses and to Parts are to paragraphs, Clauses and Parts of the Code and references to Clauses and paragraphs are (unless otherwise stated) to Clauses and paragraphs in the Part in which they appear.

4 Independent Gas Transporters Arrangements Document ("IGTAD")

- 4.1 The IGTAD sets out the rights and obligations between the Pipeline Operator and Large Transporter in relation to the connections between the Pipeline Operator's Pipeline and the Large Transporter's Large Transporter System.
- 4.2 Where the Code provides that the Large Transporter will fulfil any given obligation, this is to be taken to mean that the Large Transporter is required to fulfil such obligation pursuant to the IGTAD or the UNC, and the Pipeline Operator is not responsible (unless otherwise provided in the Code) for procuring or ensuring that the Large Transporter fulfils such obligation.

5 References to provisions of the UNC

- 5.1 The "UNC" is the uniform network code prepared by the Large Transporters pursuant to Standard Special Condition A11(6) of their Gas Transporters Licences.
- 5.2 Where specifically indicated in the IGT UNC, some Parts or Clauses of the IGT UNC are to be interpreted by referring to corresponding provisions in the UNC. In such cases, the corresponding provisions (as may be modified from time to time in accordance with the UNC Modification Rules) are to be interpreted with the necessary changes, in the context of the IGT UNC and as between the Pipeline Operator and Pipeline User and are not to be construed as creating any rights or obligations between the Pipeline User and Large Transporter.
- 5.3 Where a defined term is used (or referred to in the definition of any defined term used) in any paragraph of the UNC which is incorporated into the IGT UNC by reference, the following rules of interpretation shall apply (in order of priority):
- 5.3.1 except where expressly stated otherwise, the following defined terms shall have the following meanings:

Supply Point Capacity	Offtake Capacity
Transporter	Pipeline Operator
Total System	Pipeline
System	Pipeline
User	Pipeline User
User SPDQ	DM Demand
Maximum Supply Point Capacity (in the context of a DM Supply Point)	Maximum DM Capacity
Supply Point Capacity (in the context of a DM Supply Point)	DM Capacity

- 5.3.2 if the defined term is otherwise differently defined in the IGT UNC, it shall have the meaning given to it in the IGT UNC;
- 5.3.3 if the defined term is defined in a paragraph of the UNC which is itself incorporated into the IGT UNC by reference, the defined term shall have the meaning given to it in that paragraph as amended and incorporated into the IGT UNC; and
- 5.3.4 if the term is not defined in the IGT UNC it shall, subject to 5.4, have the meaning given to it in the UNC.

5.4 Where:

- 5.4.1 pursuant to Clause 5.3.4 , a term used in the IGT UNC has the meaning given to it in the UNC; and
- 5.4.2 that term applies to a supply point or supply meter point on a Large Transporter System (or to a user of the Large Transporter System),
the term shall (in relation to a Supply Point or Supply Meter Point) have the meaning it would have if the Pipeline was a Large Transporter System (or part of a Large Transporter System) for the purposes of the UNC.

PART B - CAPACITY

1 Unmetered CSEP

- 1.1 Where the Pipeline is connected to the Large Transporter System, in accordance with the UNC the Pipeline is a Connected Offtake System at an Unmetered CSEP.
- 1.2 The Code makes provision for certain provisions of the UNC to apply to enable the Large Transporter to allocate LDZ Capacity at the CSEP, and to determine the quantity of gas offtaken from the Large Transporter System by CSEP Users in respect of the CSEP, in both cases for the purposes of establishing Transportation Charges (as defined in the UNC) payable to the Large Transporter for use of the Large Transporter System. Pipeline Users acknowledge however that the Pipeline Operator shall not be obliged to apply such provisions to the extent that the Large Transporter does not apply any of the same or does not require any of the same to be applied in respect of the CSEP.

2 Pipeline Capacity

- 2.1 Pipeline Users will be allocated capacity ("**Capacity**") in respect of and at certain points on the Pipeline.
- 2.2 Capacity allocated pursuant to Clause 2.1 may be divided into different classes and where it is so divided, unless the Pipeline Operator's Network Code provides otherwise, the different classes are Pipeline Capacity, Offtake Capacity and DM Capacity.
- 2.3 For the purposes of the Code:
 - (a) "**Pipeline Capacity**" is capacity in the Pipeline which a Pipeline User is treated as utilising in transporting gas from the Connection Point to the point of offtake at each Supply Meter Point (in accordance with Part J);
 - (b) "**Offtake Capacity**" is capacity in the Pipeline which a Pipeline User is treated as utilising in offtaking gas from the Pipeline; and
 - (c) Where a Pipeline has DM Supply Points "**DM Capacity**" at a DM Supply Point is capacity at that point which the Pipeline User is treated as utilising in offtaking gas from the Pipeline at that Supply Point;in each case in accordance with and subject to the provisions of the Code.
- 2.4 The DM Capacity which a Pipeline User may be registered as holding at a DM Supply Point will in accordance with Part CII be limited by reference to the rate at and quantities in which it is feasible for the Pipeline Operator to make gas available for offtake from the Pipeline at that Supply Point; and no entitlement to offtake gas at a greater rate or in greater quantities shall be conferred on a Pipeline User by the holding of any amount of Capacity.
- 2.5 Capacity is expressed in kWh/Day, except that where (for the purposes of any provision of the Code) it is to be determined what quantity of gas delivered to or offtaken from the Pipeline on a Day is equal to an amount of Capacity held by a Pipeline User, or whether such a quantity of gas exceeds or is less than such an amount of capacity, such amount of Capacity shall be treated as expressed in kWh.
- 2.6 Where (in the Transportation Statement or elsewhere) the units in which Capacity is expressed are 'peak day kWh', such units are the same as those under Clause 2.5, and references to charges for Capacity in 'pence per peak day kWh' (or similar references) shall be construed accordingly.

3 Capacity Allocation for the purposes of the UNC

- 3.1 The Pipeline Operator will communicate to the Large Transporter the Capacity for each Pipeline User, so that (pursuant to the UNC) the Large Transporter will allocate to relevant CSEP Users LDZ Capacity at the CSEP on any Day in the amount referred to in Clause 3.2.
- 3.2 The amount referred to in Clause 3.1 is the sum for each Pipeline User of:
- (a) for each Registered NDM Supply Meter Point, the amounts determined as "SPC" in accordance with Section H4 of the UNC (adjusted to exclude Pipeline Shrinkage); and
 - (b) the sum for all Registered DM Supply Points of the Registered DM Capacity for each such DM Supply Point.
- 3.3 No Pipeline User may apply for or hold LDZ Capacity at the CSEP other than pursuant to Clause 3.1 and each Pipeline User will procure that any CSEP User from whom it is acquiring gas at the CSEP will not apply for or hold LDZ Capacity at the CSEP other than as provided in Clause 3.1.

4 Minimum Aggregate Capacity

- 4.1 The Pipeline User acknowledges that the Large Transporter and the Pipeline Operator may agree from time to time on a minimum aggregate amount of LDZ Capacity at the CSEP ("**Minimum Aggregate Capacity**").
- 4.2 Where there is a Minimum Aggregate Capacity then Clause 4.3 shall apply.
- 4.3 If in respect of any Day the Aggregate CSEP Capacity is less than the Minimum Aggregate Capacity, the amount of the LDZ Capacity determined as held at the CSEP by each CSEP User on that Day pursuant to Clause 2 shall be increased by the proportion by which the Minimum Aggregate Capacity exceeds the Aggregate CSEP Capacity.
- 4.4 For the purposes of this Code the "**Aggregate CSEP Capacity**" is the sum of the amounts of the LDZ Capacity determined as held by all CSEP Users at the CSEP pursuant to Clause 2.
- 4.5 The Pipeline Operator will use all reasonable endeavours to negotiate with the Large Transporter to ensure that there is no Minimum Aggregate Capacity or to attain the lowest possible value for the Minimum Aggregate Capacity.

5 DM Capacity

- 5.1 Subject to Part A2.9, a Pipeline User who becomes the Registered User of a DM Supply Point shall be treated as having applied for and registered as holding Supply Point Capacity ("**Registered DM Capacity**") at the DM Supply Point with effect from the Supply Point Registration Date (and accordingly Pipeline Capacity), subject to Clause 5.3 and until the Pipeline User ceases in accordance with the LDZ CSEP Ancillary Agreement or the Code to be the Registered User in respect of the relevant Supply Point.
- 5.2 A Pipeline User's Registered DM Capacity in respect of the DM Supply Point of a Registered Supply Point:
- (a) may be increased or reduced subject to and in accordance with the conditions and requirements in Part CII;
 - (b) shall not be reduced nor increased other than as provided in paragraph (a) nor subject to Part K7 shall the registration be terminated except as provided in Clause 5.4.

- 5.3 The Pipeline User will cease to be registered as holding DM Capacity at a DM Supply Point when the Pipeline User submits or is deemed to have submitted a Supply Point Deregistration Request which becomes effective in respect of the relevant Supply Point in accordance with Part CIV 2.

6 Downstream Systems

- 6.1 The basis on which a Pipeline User may apply for or may be treated as having applied for and may be registered as holding Capacity at a Downstream System Exit Point will be as agreed between the Pipeline Operator and the Downstream System Operator and/or in accordance with the Pipeline Operator's Network Code.

PART C - SUPPLY POINT ADMINISTRATION

PART CI - SUPPLY POINTS

1 Introduction and Interpretation

- 1.1 For the purposes of the Code the following expressions have the following meanings:

"CSEP NExA Tables" is the IGT UNC Ancillary Document so entitled and issued from time to time by the Pipeline Operator and which will be subject to the Modification Rules as set out in Part L. For the avoidance of doubt the specific governance procedures set out in Part K 43 (General Provision Relating to IGT UNC Ancillary Documents) will not be applicable to this particular IGT UNC Ancillary Document;

"DM Supply Point" shall have the meaning ascribed thereto in the UNC;

"NDM Supply Point" shall have the meaning ascribed thereto in the UNC;

"Larger Supply Point" shall have the meaning ascribed thereto in the UNC;

"Smaller Supply Point" shall have the meaning ascribed thereto in the UNC;

"Supply Meter Point": a point at which gas may (in accordance with the Code) be offtaken from the Pipeline for the purposes of supply directly to particular premises;

"Supply Point": the Supply Meter Point or Supply Meter Points for the time being registered in the name of a Pipeline User pursuant to a Supply Point Registration or for the purposes of this Part C only the subject of a Proposed Supply Point Registration;

"Supply Point Registration": shall have the meaning ascribed thereto in the UNC;

"Registered User": in respect of a Supply Point, the Pipeline User in whose name the Supply Meter Point(s) comprising such Supply Point is registered;

"Supply Point Registration Date": in respect of a Supply Point, the date of the Supply Point Registration;

"Supply Point Premises": the premises to which gas offtaken at a Supply Point is to be supplied.

- 1.2 Only one Pipeline User may be the Registered User in respect of a Supply Point.
- 1.3 A Pipeline User may apply for a Supply Point Registration ("**Proposed Supply Point Registration**") subject to and in accordance with Part CI2, and may withdraw from a Supply Point Registration subject to and in accordance with Part CIV
- 1.4 Where the Pipeline Operator has given Termination Notice (under Part K7) to a Pipeline User, the Pipeline Operator may decide:
- (a) to reduce any of the periods and/or curtail any of the procedures provided for in this Part C in relation to any Registration Nomination or Base Registration Nomination by any other Pipeline User in respect of, or
 - (b) to implement any other procedure for the registration in the name of any other Pipeline User (who wishes to become the Registered User) of,
- any Supply Meter Points of which the Discontinuing User was the Registered User.
- 1.5 The REC, and CSS Supply Points

For the purposes of the Code:

- (a) **"CSS Provider"** means the person which is 'CSS Provider' under (and as defined in) the REC), being the provider of the Central Switching Service;
- (b) a **"CSS Supply Meter Point"** is a Supply Meter Point which is, or is to be, a Registrable Meter Point as defined in the REC
- (c) a **"CSS Supply Point"** is a Supply Point which comprises a CSS Supply Meter Point;
- (d) a **"Non-CSS Supply Meter Point"** is a Supply Meter Point which is not a CSS Supply Meter Point;
- (e) a **"Non-CSS Supply Point"** is a Supply Point which comprises a Non-CSS Supply Meter Point;
- (f) All NTS Supply Meter Points are Non-CSS Supply Meter Points.
- (g) In this Part CI **"CSS Process"** means any registration, data transfer or other process under the REC which is implemented by the CSS Provider and which relates to CSS Supply Meter Points.
- (h) This Part CI includes summary descriptions of certain CSS Processes (and any provision of this Part CI which begins 'pursuant to the REC' is such a description), but:
 - (i) these descriptions are limited to CSS Processes (or parts of those processes) which are relevant to the operation of this Part CI;
 - (ii) these descriptions are for explanation only and do not give force to those processes, and the determinative provisions are those of the REC.
- (i) References in the Code to the REC do not incorporate provisions of the REC into the Code, nor entitle any Party to dispute under the Code any matter relating to or arising under the REC.
- (j) Where used in the Code in the context of the CSS Processes, the following terms defined in the REC have the meanings given to them in the REC:
 - Registrable Measurement Point,
 - Switch Request,
 - Initial Registration Request,
 - Transporter Initiated Registration,
 - Change of Shipper Request,
 - Deregistration Request,
 - Gaining Supplier,
 - Energy Supplier,
 - Registered Supplier,
 - Notification,
 - Secured,
 - Synchronisation Message,
 - Dormant,
 - Terminated,

2 Supply Point Register and site visits

- 2.1 The CDSP has established and will maintain a register ("**Supply Point Register**") of all Supply Meter Points, Supply Points and Supply Point Premises.
- 2.2 The Supply Point Register will record Registration Details as defined in Annex G-1 of the UNC.
- 2.3 The unique reference number ("**Supply Meter Point Reference Number**") of the Supply Meter Point(s) comprised in a Supply Point and the unique registration number ("**Supply Point Registration Number**") of a Supply Point will not be changed during the relevant Supply Point Registration.
- 2.4 A Pipeline User shall not be entitled to have access to the information contained in the Supply Point Register except to the extent the Code provides for such information to be made available to such Pipeline User.
- 2.5 Upon a request by any Pipeline User identifying a Supply Meter Point Reference Number, the CDSP will provide to the Pipeline User certain details (which may be specified in the Manual or the UK Link Manual) recorded in the Supply Point Register for the Supply Point in which the Supply Meter Point is comprised.
- 2.6 Without prejudice to any other provision of the Code, Pipeline Users and the Pipeline Operator and CDSP agree:
 - (a) to co-operate with a view to ensuring that the information contained in the Supply Point Register is at all times as accurate as is possible;
 - (b) each to use reasonable endeavours to secure that it becomes aware in so far as it might reasonably be expected to become aware of any inaccuracy in the information contained in the Supply Point Register and to inform (in the case of a Pipeline User or Pipeline Operator) the CDSP or (in the case of the CDSP) the Registered User and the Pipeline Operator of such inaccuracy;but nothing in this Clause 2.6 shall imply that the Supply Point Register is capable of being amended other than as provided in this Part C, Part D or Part E.
- 2.7 Clauses 2.8 to 2.10 apply where:
 - (a) the Pipeline User believes that the information relating to a Supply Meter Point contained in any notification submitted by the CDSP to the Pipeline User pursuant to the Code other than a notification submitted pursuant to Part CV, Part D or Part E is incorrect;
 - (b) the Pipeline User has so notified the CDSP, providing details of the information which the Pipeline User believes to be incorrect and what the Pipeline User believes to be the correct information;
 - (c) following such notification, the CDSP has been unable (after examining the details contained in the Supply Point Register) to resolve the matter notified by the Pipeline User (the "relevant matter"); and
 - (d) the Pipeline User has accordingly requested the Pipeline Operator and the Pipeline Operator has agreed to visit the Supply Point Premises to investigate the relevant matter.

- 2.8 Where this Clause 2.8 applies, subject to Clause 2.9, the Pipeline Operator will use reasonable endeavours, within 15 Supply Point Systems Business Days after agreeing (as described in Clause 2.7(d)) to do so during normal business hours, or on or by such later date and time as the Pipeline Operator and the Pipeline User may agree, to visit the Supply Point Premises and (subject to being given the required access) investigate the relevant matter.
- 2.9 Where the Pipeline Operator has notified to the Pipeline User a particular date (complying with Clause 2.8) and time for such visit, or agreed such a date and time with the Pipeline User, the Pipeline Operator may require that the Pipeline User attend at the Supply Point Premises at such time and date and where the Pipeline Operator so requires, the Pipeline Operator will not be required to investigate the relevant matter if the Pipeline User does not so attend.
- 2.10 If the Pipeline Operator is unable (upon such a visit) to obtain the access required to investigate the relevant matter, the Pipeline Operator shall not be required to revisit the Supply Point Premises, and if the Pipeline Operator did not require (pursuant to Clause 2.9) the Pipeline User to attend, the Pipeline Operator will so inform the Pipeline User as soon as reasonably practicable after making such visit.

2.11 Modification of Supply Point Registration

- 2.11.1 For the purposes of this Clause 2.11.1, the provisions of paragraph 3.5 of Section G of the UNC will apply subject to the following changes:

3 Classes of Supply Point

- 3.1 For the purposes of this Clause 3.1 the provisions of paragraph 2.1 of Section G of the UNC shall apply with the following changes:

the references to "Transporter" in paragraphs 2.1.4, 2.1.5(a) and 2.1.6(c) shall be interpreted as a references to the "Large Transporter"

the reference to paragraph 3.4.6 of Section G of the UNC in paragraph 2.1.8 shall be interpreted as a reference to paragraph 3.4.6(a) as incorporated into Part CV by Clause 2.4 of Part CV.

- 3.2 For the purposes of the Code:

- (a) **"Daily Read Equipment"** is equipment of a design and standard of manufacture approved (consistently with any Legal Requirement) by the Pipeline Operator or by the Class 1 Read Provider which enables Meter Readings to be obtained by the Class 1 Read Provider remotely at set intervals and which comprises of:
- (iii) a device for capturing from the Supply Meter, and/or (where installed) a converter, data which constitutes or permits the derivation of a Meter Reading; and
 - (iv) a telephone line or radio transmitter and/or such equipment as shall be required for transmitting such data;
- (b) Daily Read Equipment is **"Operational"** on the first Day on which Daily Read Equipment provides a Valid Meter Reading unless the Large Transporter notifies to the Pipeline Operator a later date in which case such Equipment shall be Operational from such later date.
- (c) **"Class 1 Read Provider"** refers to the CDSP in their capacity for providing the Class 1 Daily Read Service as per the Data Services Contract.

- 3.3 If the Large Transporter determines pursuant to the terms of the LDZ CSEP Ancillary Agreement and notifies the Pipeline Operator that it would not be practicable or economic for the Class 1 Meter Read Requirements to be satisfied in respect of a particular Supply Meter Point, the Class 1 Requirement shall not apply (and for the avoidance of doubt the Supply Meter Points shall not be in Class 1).

4 Changes in Supply Point Classification, etc

For the purposes of this Clause 4 the provisions of paragraph 2.2 of Section G of the UNC shall apply with the following changes:

the reference to paragraph G5.2 of the UNC in paragraph G2.2.1 (a) shall be interpreted as a reference to paragraph G5.2 as incorporated into Part CI by Clause 13 of Part CI

the reference to paragraph G3.5 of the UNC in paragraph G2.2.1(c) shall be interpreted as a reference to paragraph G3.5 as incorporated into Part CI by Clause 2.11 of Part CI

the reference to paragraph G2,1 of the UNC in paragraph G2.2.1 shall be interpreted as a reference to paragraph G2.1 as incorporated into Part CI by Clause 3.1 of Part CI

the reference to Section A4 of the UNC in paragraph G2.2.1 shall be interpreted as a reference to Part CI of the IGT UNC.

the reference to paragraph 4.3 of Section B, Annex B-3 of the UNC in paragraph G2.2.4 shall be interpreted as a reference to Section B Annex B-3 as incorporated into Part CII by Clause 3.1 of Part CII

the reference to Section M5.14.1 of the UNC in paragraph G2.2.5 shall be interpreted as a reference to paragraph M5.14.1 as incorporated into Part E by Clause 15.1 of Part E

the reference to Section M5.8.1 of the UNC in paragraph G2.2.6(c) shall be interpreted as a reference to Section M5.8.1 as incorporated into Part E by Clause 9 of Part E

the reference to Section M5.9.1 of the UNC in paragraph G2.2.6(c) shall be interpreted as a reference to Section M5.9.1 as incorporated into Part E by Clause 10 of Part E.

5 Supply Meter Points and Business Day

- 5.1 In accordance with Part E a Supply Meter Installation is required to be installed at each Supply Meter Point; but a point may be a Supply Meter Point notwithstanding that no such installation is installed at such point.
- 5.2 A Supply Meter Point which has not been Isolated will at all times be included in a Supply Point.
- 5.3 In this Part C and Parts D and E any reference to a "Business Day" is a reference to a Day other than:
- (a) a Saturday, Sunday or a bank holiday in England and Wales; and
 - (b) the Day which would (but for this paragraph (b)) be the first Business Day after 1st January.
- 5.4 In this Parts C and Parts D and E any reference to a "Supply Point Systems Business Day" is a reference to a Day other than a Saturday, Sunday or a bank holiday in England or Wales.

6 Annual Quantity

- 6.1 For the purposes of determining the Annual Quantity the provisions of Section G2.3 of the UNC shall apply with the following changes and subject always to paragraphs 6.2 to 6.4 below.

the reference to Section M5.6.2 in paragraph 2.3.7(b)(i) of the UNC shall be interpreted as a reference to Section M5.6.2 as incorporated into the IGT UNC by Clause 7.1 of Part E

the reference to Section M5.7.2 in paragraph 2.3.7(b)(i) of the UNC shall be interpreted as a reference to Section M5.7.2 as incorporated into the IGT UNC by Clause 8 of Part E

the reference to Section M1.5.3(e) in paragraph 2.3.7(e) of the UNC shall be interpreted as a reference to Section M1.5.3(e) as incorporated into the IGT UNC by Clause 8 of Part E

the references to Section H3.2 in paragraph 2.3.9(b) and 2.3.13(b) of the UNC shall be interpreted as references to Section H3.2 as incorporated into the IGT UNC by Clause 4.1 of Part F.

paragraph 2.3.14(a) shall not apply.

the reference to "System Exit Point" in in paragraph 2.3.15 of the UNC shall be interpreted as a reference to a "Supply Point or Supply Meter Point".

paragraph 2.3.19 shall not apply.

the reference to Section M5.3.4(b) in paragraph 2.3.23 of the UNC shall be interpreted as a reference to Section M5.3.4(b) as incorporated into the IGT UNC by Clause 4 of Part E.

- 6.2 The Annual Quantity of a New Supply Meter Point will be calculated as follows:

- (a) in the case of a New Supply Meter Point which is comprised in a Smaller Supply Point at which the Supply Point Premises are domestic premises and is not subject to a surcharge under paragraph 5 of Special Condition 1 of the Pipeline Operator's Licence, the Annual Quantity shall be the quantity determined in accordance with the Table contained in Section 2 Current Table of the IGT Ancillary Document CSEP NExA Tables; or
- (b) in the case of any other New Supply Meter Point not contemplated in paragraph (a) above, the Annual Quantity shall be the quantity provided by the Proposing User and agreed by the Pipeline Operator or the quantity provided by the Pipeline Operator as agreed by the Proposing User,

in each case, the **"RPC Entry Annual Quantity"**.

- 6.3 For the avoidance of doubt, the RPC Entry Annual Quantity determined under paragraph 6.2 shall be the Annual Quantity until the first AQ Calculation Month as set out in the UNC from which point the Pipeline Operator shall, in addition to the RPC Entry Annual Quantity calculate the Rolling Annual Quantity in accordance with the relevant provisions of the UNC.

- 6.4 For the purposes of this Clause 6:

- (a) on the First Supply Point Registration Date the Formula Year Annual Quantity and Rolling Annual Quantity of a Supply Point shall be equal to the RPC Entry Annual Quantity.
- (b) the **"IGT CSEP NExA Table Review Procedures Document"** is the IGT UNC Ancillary Document so entitled and issued from time to time by the Pipeline Operator and which for the purposes of the Part K 42 only shall be deemed to be incorporated into and form part of the Code and the Pipeline Operator must follow the process "Reporting" and **"Annual updates to the AQ values within the CSEP NExA Table"** as set out in the **"IGT CSEP NExA Table Review Procedures Document"**.
- (c) "Supply Point Capacity" in respect of a Larger Supply Point is:
 - (i) in respect of any DM Supply Point, the Registered DM Capacity in respect of that Supply Point; and
 - (ii) in respect of any NDM Supply Point, an amount of capacity determined in accordance with the formula set out in Section H4.1 of the UNC.

7 Offtake Responsibility for Supply Points

- 7.1 Subject to Part CIV, the gas offtaken from the Pipeline at a Supply Point will be attributed for the purposes of the Code to the Registered User and the Registered User accepts (for the purposes of the Code) responsibility for such offtake of gas by itself or any other person whether or not authorised by the Registered User.

8 Supply Point Registration

8.1 Supply Point Registration – Generic Rules

For the purposes of this Clause 8.1 the provisions of Section G4.1 through 4.2 of the UNC shall apply with the following changes:

the words "For the purposes of this Section G" in paragraph 4.2.1 shall be interpreted as referring to references in this Part CI including references in Section G of the UNC but only to the extent that they are incorporated into this Part CI.

8.2 Supply Point Registration

For the purposes of this Clause 8.2 the provisions of Section G5.1 of the UNC shall apply.

9 Initial Supply Point Registrations for Smaller Supply Point and for certain Larger Supply Points that are New Supply Points at Domestic Premises

9.1 Where the Pipeline Operator becomes aware that:

- (a) a number of Smaller Supply Points each of which is a New Supply Point and each of which is at Supply Point Premises that are domestic premises and/or a number of Large Supply Points each of which is a New Supply Point and each of which is at Supply Point Premises that are domestic premises are in the process of being established by a person (the "Developer") and connected to the Pipeline; and
- (b) the Developer has sought to designate a person who holds a Shipper's Licence (a "Shipper") to make arrangements with the Pipeline Operator for the

transportation of gas to such Smaller Supply Points and/or such Larger Supply Points;

then the provisions of Clause 9.2 through 9.5 shall apply.

- 9.2 Where this Clause 9.2 applies, the Pipeline Operator, subject to the Shipper being a Pipeline User, will issue a Project Summary Report to invite the Shipper to become the Initial Registered User by submitting Initial Supply Point Confirmations as a Project Summary Notification and both the Pipeline Operator and Shipper will adhere to the principles and supporting business rules as set out in the IGT UNC Ancillary Document IGT's New Connections Domestic Sites Only.
- 9.3 The submission of a Project Summary Notification as referred to in Clause 9.2 will require:
- (i) the Pipeline Operator to inform the CDSP of the Meter Point Reference Numbers, together with any additional relevant information, including the identity of the Pipeline User as per the Project Summary Notification; and
 - (ii) subject to Clause 9.4, the Pipeline User to become the Registered User with the CDSP.
- 9.4 Where in respect of a New Supply Meter Point a Pipeline User other than that which has submitted a Project Summary Notification under Clause 9.2 becomes the first Registered User with the CDSP, then such Pipeline User shall be deemed to be the Registered User at the First Supply Point Registration Date.

10 Initial Supply Point Registrations for a Larger Supply Point Supply Point and some Smaller Supply Points that are New Supply Points at Non Domestic Premises

10.1 Where the Pipeline Operator becomes aware that:

- (a) one or more Larger Supply Points each of which is a New Supply Point and each of which is at Supply Point Premises that are non domestic premises and/or one or more Smaller Supply Points each of which is a New Supply Point and each of which are at Supply Point Premises that are non domestic premises are in the process of being established by a person and connected to the Pipeline by either:
 - (i) a person (the "Developer") and the Developer has sought to designate a person who holds a Shipper's Licence (a "Shipper") to make arrangements with the Pipeline Operator for the transportation of gas to such Larger Supply Points and/or Smaller Supply points; or
 - (ii) a Pipeline User who has notified the Pipeline Operator that they will make arrangements for the transportation of gas to such Larger Supply Points and/or Smaller Supply points and will confirm their responsibility by means of the process as set out in the IGT UNC Ancillary Document IGT Non-Domestic New Connections; and
- (b) none of the Supply Points are DM Supply Points;

then the provisions of Clause 10.2 through 10.5 shall apply.

- 10.2 Where this Clause 10.2 applies, the Pipeline Operator, subject to the Shipper being a Pipeline User, will issue a Project Summary Report to invite the Shipper to become the Initial Registered User by submitting Initial Supply Point Confirmations as a Project Summary Notification and both the Pipeline Operator and Pipeline User will adhere to the principles and supporting business rules as set out in the IGT UNC Ancillary Document IGT Non-Domestic New Connections.
- 10.3 The submission of Project Summary Notification as referred to in Clause 10.2 will require:
- (i) the Pipeline Operator to inform the CDSP of the Meter Point Reference Numbers, together with any additional relevant information, including the identity of the Pipeline User as per the Project Summary Notification; and
 - (ii) subject to Clause 10.4, the Pipeline User to become the Registered User with the CDSP.
- 10.4 Where in respect of a New Supply Meter Point a Pipeline User other than that which has submitted a Project Summary Notification under Clause 10.2 becomes the first Registered User with the CDSP, then such Pipeline User shall be deemed to be the Registered User at the First Supply Point Registration Date.
- 10.5 Each Pipeline User acknowledges that in order to become the Registered User of a DM Supply Point it is necessary for a Pipeline User to enter into with the Large Transporter any applicable LDZ CSEP Ancillary Agreement or make appropriate arrangements with a CSEP User who has entered into any applicable LDZ CSEP Ancillary Agreement in respect of the CSEP. Accordingly:
- (a) where a Proposing User intends to become the Registered User in respect of a Supply Point with a DM Supply Point, the Proposing User shall by a date no later than the date eight Supply Point Systems Business Days before the date of the Proposed Supply Point Registration provide evidence either that:
 - (i) it has entered into any applicable LDZ CSEP Ancillary Agreement with the Large Transporter; or
 - (ii) it has made appropriate arrangements with a CSEP User (whose name shall be provided to the Pipeline Operator) who has entered into any applicable LDZ CSEP Ancillary Agreement Provided that if the Proposing User has provided evidence that it has entered into an LDZ CSEP Ancillary Agreement within the previous 12 months and warrants that such Agreement is still in force, it shall not be required to do so again.

Failing the provision of such evidence by such date, such Registration Nomination shall lapse and shall not come into effect.
 - (b) if the Registration Nomination has not lapsed pursuant to paragraph (a) the Supply Meter Points comprised in such DM Supply Point shall with effect from the later of:
 - (i) the Supply Point Registration Date; and
 - (ii) the date on which Daily Read Equipment has been installed and becomes Operational

be DM Supply Meter Points.
 - (c) the CDSP shall without prejudice to paragraph (b) within 2 Supply Point Systems Business Days following the coming into effect of a Registration

Request in respect of a DM Supply Point and in respect of the Registered User and where appropriate relevant CSEP User notify the Large Transporter accordingly.

- 10.6 Each Pipeline User acknowledges that in respect of a Proposed DM Supply Point or a DM Supply Point that it will or may be necessary for the Pipeline Operator to provide to and obtain from the Large Transporter certain information in respect of such Proposed DM Supply Point or DM Supply Point in order to comply with the terms of the IGTAD. Accordingly each Pipeline User agrees that (notwithstanding Part K23) the Pipeline Operator may provide to and obtain from the Large Transporter any such information.
- 10.7 Each Pipeline User further acknowledges that:
- (a) it is the Large Transporter's responsibility and not the Pipeline Operator's to install Daily Read Equipment at a Class 1 Supply Point; and
 - (b) the Pipeline Operator has no responsibility or liability in respect of the provision or non-provision of Daily Read Equipment and any services provided in connection therewith.
- 10.8 The Registered User of a Supply Point with a Class 1 Supply Point shall ensure that the Class 1 Read Provider is permitted full access to the Daily Read Equipment at each Class 1 Meter Point (including granting the Class 1 Read Provider any letter of authority) to enable the Class 1 Read Provider to obtain access upon receiving a written request from the Pipeline Operator for the purposes set out in the Section D of the IGTAD.

11 Supplier of Last Resort

11.1 For the purposes of Clauses 11.2 to 11.6

- (a) where a Pipeline User has been given a Termination Notice by the Pipeline Operator (under Part K) or a User Premises Termination Notice has been given (under UNC TPD Section G 4.8.9) all Supply Meters in respect of which the Discontinuing User was the Registered User immediately prior to the User Discontinuance Date, or as the case may be may be all the Supply Meter Points comprised in the Terminated Supply Points, shall be known as the **"Terminated Supply Meter Points"**.
- (b) A **"Supplier of Last Resort"** is a supplier who by virtue of Standard Condition 29 of the Supplier's Licence has been directed by the Authority to supply gas in accordance with that condition in respect of any or all of the Terminated Supply Meter Points;
- (c) **"the Last Resort User"** is a Pipeline User who is the first Pipeline User, following appointment of the Supplier(s) of Last Resort, to become the Registered User of all of the Terminated Supply Meter Points;
- (d) **"day of issue"** is the day following the day of notification;
- (e) **"day of notification"** is the Day on which the Pipeline Operator receives written notice from the Authority of the appointment and identity of the Last Resort User;
- (f) **"TSMP Information"** is relevant information (including, but not limited to, Protected Information) relating to the Terminated Supply Meter Points to which the Discontinuing User or Premises Termination User would have had access pursuant to the provisions of the Code, immediately prior to the User Discontinuance Date or (as the case may be) Premises Termination Date.

- 11.2 Where the Pipeline Operator has given a Termination Notice (under Part K7) or a User Premises Termination Notice has been given (under UNC TPD Section G 4.8.9) to a Pipeline User and (in either case) the Authority directs a Supplier of Last Resort in respect of a Terminated Supply Meter Point, then notwithstanding any other provision of the Code the Last Resort User shall become the Registered User of the Terminated Supply Meter Points, thereby accepting the benefit of the rights and the burden of obligations under the Code, the Framework Agreement and any relevant Ancillary Agreement, in respect of the Terminated Supply Meter Points (including without limitation the payment of Transportation Charges in respect thereof) with effect from and including the date of appointment of the Supplier of Last Resort.
- 11.3 To assist the Last Resort User in exercising its rights and discharging its obligations in respect of the Terminated Supply Meter Points, the CDSP shall use reasonable endeavours, subject to Clauses 20.4 to 20.6 to provide to the Last Resort User on the day of issue a copy of the TSMP Information.
- 11.4 By virtue of this Clause 20.4, the Discontinuing User or (as the case may be) Premises Termination User, hereby is deemed to have given its written consent for the purposes of both Part K and Section 105 of the Utilities Act 2000 to the Pipeline Operator to disclose to the Last Resort User the TSMP Information pursuant to Clause 20.3.
- 11.5 It is acknowledged that the TSMP Information contains information which has been provided to the Pipeline Operator by the Discontinuing User or (as the case may be) Premises Termination User, and accordingly the Last Resort User hereby acknowledges and agrees that:
- (a) the TSMP Information disclosed to it pursuant to Clause 20.3 above shall not have been independently verified;
 - (b) it shall be solely responsible for making its own judgement and decision on the TSMP Information disclosed to it;
 - (c) neither the CDSP, nor any of its employees, agents, consultants, advisers or directors accept responsibility for, or make any representation or warranty (express or implied) regarding, the accuracy or completeness of the content of the TSMP Information; and
 - (d) the CDSP shall have no liability to the Last Resort User, in respect of any of the contents of the TSMP Information.
- 11.6 For the purposes of Clause 20.3, the Last Resort User shall execute all such documents, deeds and assignments and perform such acts as the Pipeline Operator may reasonably require, including without limitation, executing any relevant documents, deeds and assignments or perform such acts necessary to ensure compliance with the provisions of the Data Protection Act 2018.
- 11.7 Where a Pipeline User has been given notice (a User Premises Termination Notice) and is a Premises Termination User in accordance with paragraph 4.8.9 of UNC TPD Section G, UNC TPD Section G paragraphs 4.8.2 to 4.8.16 shall apply with regards to Supplier of Last Resort provisions with the exception of paragraphs 4.8.12 b) and iii).

12 Supply Portfolios

- 12.1 For the purposes of this Clause 21 the provisions of TPD Section G4.5 through G4.7 of the UNC shall apply with the following changes:

Any reference to a “Supply Meter Point Reference Number” will be interpreted as a Supply Meter Point Reference Number in respect of an IGTS Supply Meter Point as defined in the IGTA A2.1.1(g).

Paragraph G4.6.8 of the UNC shall be replaced by the following paragraph:

4.6.8 Unless otherwise agreed by the CDSP and User under paragraphs 4.6.6 or 4.6.9 where the User fails to create a Supply Meter Point Reference Number within the Registration Period the CDSP shall issue a request to the relevant Pipeline Operator to create a Supply Meter Point Reference Number to allow Supply Point Registration under 4.6.11.

13 Registration Request and Change of Shipper Request Processes

For the purposes of this Clause 13 the provisions of paragraph 5.2 of TPD Section G of the UNC shall apply.

14 Proposed Registration Details

For the purposes of this Clause 14 the provisions of paragraph 5.3 of TPD Section G of the UNC shall apply.

15 Supply Point Capacity

For the purposes of this Clause 15 the provisions of paragraph 5.4 of TPD Section G of the UNC shall apply.

16 Basis of Supply Point Registration

For the purposes of this Clause 16 the provisions of paragraph 5.5 of TPD Section G of the UNC shall apply.

17 Shipper-Supplier Association Data

For the purposes of this Clause 17 the provisions of paragraph 5.7 of TPD Section G of the UNC shall apply.

18 Shipper-Transporter Association Data

For the purposes of this Clause 18 the provisions of paragraph 5.8 of TPD Section G of the UNC shall apply.

19 Pipeline Operator Referral

For the purposes of this Clause 19 the provisions of paragraph 4.3 of TPD Section G of the UNC shall apply with the following changes:

the references to NExA Supply Meter Point and Network Exit Agreement in paragraph 4.3.1 (a) (iv) shall be interpreted as references to PExA Supply Meter Point and Pipeline Exit Agreement respectively.

the reference to Section J in paragraph 4.3.1 (a) (iv) shall be interpreted as a reference to Part R.

the references to Annex B-3 of the UNC in paragraph G4.3.2(b)(i) and paragraph G4.3.2(c) shall be interpreted as a reference to Annex B-3 as incorporated into Part CII by Clause 1.1 of Part CII and Clause 5 of Part CII.

20 Unregistered New Supply Points

For the purposes of this Clause 20 the provisions of paragraph 4.4 of Section G of the UNC shall apply with the following changes:

the words “and Energy Balancing Charges” shall be removed from paragraph 4.4.6(c) paragraph 4.4.6(d) shall not apply

21 Missing Definitive Registration Notification

For the purposes of this Clause 21 the provisions of paragraph 5.9 of Section G of the UNC shall apply.

22 Vacant Sites

22.1 Interpretation

For the purposes of the Code:

The “Vacant Site Guidance Document” is the document established, specified under TPD Section V12.1 (g) of the UNC and maintained in TPD Section V12 of the UNC.

22.2 For the purposes of this Clause 21.2 the provisions of TPD Section G10 of the UNC shall apply with the following changes:

The reference to H2 in paragraph 10.2.3 (a) shall be interpreted as a reference to H2 but only to the extent that it applies to the calculation of NDM Supply Meter Point Demand pursuant to Part F of this Code.

The reference to M5.9 shall be interpreted as a reference to M5.9 but only to the extent that it applies in Part E Clause 10 of this Code.

The reference to M5.10 shall be interpreted as a reference to M5.10 but only to the extent that it applies in Part E Clause 11 of this Code.

23. Supply Point Registration – Non-CSS Supply Points

For the purposes of this Clause 23 the provisions of paragraph 6 of TPD Section G of the UNC shall apply with the following changes:

In paragraph 6.4.1 the following words shall be deleted: “Where a Proposing User wishes to make a Supply Point Nomination in respect of a Larger Supply Point for the purpose of in the case of an LDZ Supply Point increasing Supply Point Capacity for such Supply Point then the Proposing User may use the following process:”

Paragraph 6.4.1(a) and (b) shall not apply

Paragraph 6.4.2 (c)(iii), (d), (e), (g) and (h) shall not apply

The references to NExA Supply Meter Point and Network Exit Agreement in Paragraph 6.4.6 (c) shall be interpreted as references to PExA Supply Meter Point and Pipeline Exit Agreement respectively.

Paragraph 6.5.2 (c)(iii), (c)(iv), (c)(v), (d), (e), (i) and (l) shall not apply

Paragraph 6.5.3 shall not apply

Paragraphs 6.5.5 and 6.5.6 shall not apply

Paragraph 6.5.7 (a) shall not apply

In paragraph 6.5.10 (b) the following words shall be deleted: “and, in the case of an LDZ Supply Point, the Supply Point Capacity”

Paragraph 6.5.12 shall not apply

Paragraph 6.6.1 (a) shall not apply

Paragraph 6.6.3 (b) (ii) shall not apply

Paragraph 6.6.4 shall not apply

Paragraph 6.7 shall not apply

In paragraph 6.8.1 (c) the following words shall be deleted: “Section Q2.3” and replaced with “Part I 8”

Paragraphs 6.8.3 through 6.8.6 shall not apply

Paragraph 6.11.5 shall not apply

Paragraph 6.12.2 the following words shall be deleted “determined on the basis of the Supply Point Capacity and LDZ Capacity held immediately before the submission of the Supply Point Withdrawal (or in the case of an NDM Supply Point such capacity as revised with effect from 1 October in any Gas Year in accordance with Section H4 by reference to the new Formula Year Annual Quantity and End User Category)”

Paragraph 6.12.4 shall not apply

PART CII - DM CAPACITY AND OFFTAKE RATE

Introduction

All references to paragraphs in the UNC refer to paragraphs within Annex B-3 of Section B of the UNC unless specifically stated otherwise.

1 DM Capacity

- 1.1 For the purposes of this Clause 1 the provisions of paragraphs 1.1, 1.2, 1.3(a), 7.1, 7.2, 7.3, 7.4, 7.5, 7.6, 7.7 and 8.5 of Annex B-3 in Section B of the UNC shall apply with the following changes:

paragraph 1.1 shall be replaced with the following:

"except for paragraph 10, this Annex B-3 applies only in respect of DM Supply Points"

"the reference to paragraph 4.2 of Annex B-3 of the UNC in paragraph 7.2(c) of Annex B-3 shall be interpreted as a reference to paragraph 4.2 of Annex B-3 as incorporated into this Part CII by Clause 3.1"

the reference to paragraph 6 of Annex B-3 of the UNC in paragraph 7.3(b) shall be interpreted as a reference to Clause 5 of this Part CII.

the reference to paragraph 3 of Section V of the UNC in paragraph 7.5(d) of Annex B-3 shall be interpreted as a reference to Clause 21 of Part G of the Code (Code Credit Rules)

the references to Annex B-3 in paragraph 7.5(b) shall be interpreted as references "to this Part CII including those requirements of paragraph Annex B-3 of Section B of the UNC but only to the extent that they are incorporated into this Part CII and any other provision of the Code".

Paragraph 7.5(c) of Annex B-3 of the UNC shall not apply.

the reference to paragraph 4.2 of Annex B-3 of the UNC in paragraph 7.6 of Annex B-3 shall be interpreted as a reference to paragraph 4.2 of Annex B-3 as incorporated into this Part CII by Clause 3.1

2 Minimum Capacity Requirements

For the purposes of this Clause 2 the provisions of paragraphs 2 and 3 of Annex B-3 of the UNC shall apply with the following changes:

the reference 'or in accordance with Section G5.4.5(b) or 6.8.3' in paragraph 2.1(b) of Annex B-3 shall not apply

paragraph 2.4 of Annex B-3 shall not apply

The reference 'or Section G6.8.3 in respect of any Supply Point Confirmation' in paragraph 3.1(b) shall not apply

paragraph 3.1(c) of Annex B-3 of the UNC shall be replaced with the following:

"where in the meantime the Pipeline User has become the Registered User of the Proposed Supply Point the Pipeline User may by submitting a Supply Point Amendment reduce (consistently with such reduced Prevailing DM Capacity) the Supply Point Capacity which it holds at the DM Supply Point."

paragraph 3.4 of Annex B-3 shall not apply.

3 Supply Point Offtake Rate

3.1 For the purposes of this Clause 3 the provisions of paragraph 4 of Section Annex B-3 of the UNC shall apply with the following changes:

the reference to paragraph 6.4(c) of Section Annex B-3 of the UNC in paragraph 4.4 shall be interpreted as a reference to Clause 5.4 of this Part CII.

the reference to paragraph 6.4 of Section Annex B-3 of the UNC in paragraph 4.5 shall be interpreted as a reference to Clause 5.4 of this Part CII.

Paragraph 4.7 of Annex B-3 shall not apply.

4 Absolute Requirement

4.1 For the purposes of this Clause 4 the provisions of paragraph 5 of Section B Annex B-3 of the UNC shall apply with the following changes:

the word “NExA shall be replaced by ‘LCAA’

paragraph 5(c) shall not apply.

paragraph 5.4 shall not apply.

5 Pipeline Operator Determination of Feasibility

5.1 For the Purposes of this Part CII in respect of a DM Supply Point:

(a) the “**Maximum Supply Point Capacity**”

(k) where the DM Supply Point is the subject of an LDZ CSEP Ancillary Agreement (LCAA),

a. any maximum daily rate of offtake specified in the LCAA or

b. where not specified in the LCAA, 24 times any maximum offtake hourly rate specified in the LCAA

(ii) where not the subject of an LDZ CSEP Ancillary Agreement (LCAA), the quantity which the Pipeline Operator determines to be the maximum quantity which it is feasible to make available for offtake in a 24-hour period at the DM Supply Point

(b) the “**Maximum Supply Point Offtake Rate**” is

(l) where the DM Supply Point is the subject of an LDZ CSEP Ancillary Agreement (LCAA),

a. any maximum offtake rate specified in the LCAA

(ii) where not the subject of an LDZ CSEP Ancillary Agreement (LCAA), the instantaneous rate of offtake (in kWh/hour) which the Pipeline Operator determines to be the maximum instantaneous rate at which it is feasible to make gas available for offtake at the DM Supply Point

in each case consistently with the requirements of Clause 4.

5.2 The “**Provisional Maximum Supply Point Capacity**” in respect of the DM Supply Point of a Supply Point (other than a Proposed Supply Point which is a New Supply Point) is whichever is the lesser of:

(a) 2 times the Prevailing Supply Point Capacity;

(b) 16 times the Supply Point Offtake Rate or (in the case of a Proposed Supply Point) Nominated Supply Point Offtake Rate or

- (c) where the DM Supply Point is subject to an LCAA, any maximum rate of offtake specified in the LCAA.

5.3 Where a Proposing User submits a Registration Nomination for

- (a) an Existing Supply Point in which the Nominated Supply Point Capacity exceeds the Provisional Maximum Supply Point Capacity, or the Nominated Supply Point Offtake Rate exceeds the Supply Point Offtake Rate for the Existing Supply Point or
- (b) a New Supply Point

then paragraph 6.3 of Annex B-3 of Section B of the UNC shall apply. For the purposes of paragraph 6.3 of Annex B-3 of Section B of the UNC the word “Transporter” shall mean both the “Large Transporter” and “Pipeline Operator”.

5.4 Where the Registered User of a DM Supply Point

- (a) submits a Capacity Revision Application (for an increase) in which the increased Supply Point Capacity exceeds the Provisional Maximum Supply Point Capacity, or the Supply Point Offtake Rate (applied for under Clause 3) exceeds the prevailing Supply Point Offtake Rate or
- (b) applies for an increased Supply Point Offtake Rate pursuant to Clause 3

then paragraph 6.4 of Annex B-3 of Section B of the UNC shall apply.

5.5 If for any reason on any Day (other than a Day in the months of June to September inclusive) the quantity of gas offtaken by a Pipeline User from the Pipeline at a Firm DM Supply Point exceeds the Pipeline User’s Registered DM Capacity such Pipeline User shall be deemed to have applied for an increase in its Registered DM Capacity pursuant to Clause 1 in an amount subject to Clause 5.6 equal to the sum of its Registered DM Capacity and the amount (“**Capacity Ratchet Amount**”) by which the aggregate quantity offtaken on such Day at all the DM Supply Meter Points in the DM Supply Point exceeds the Pipeline User’s Registered DM Capacity.

5.6 Where, following a deemed application for an increase in capacity pursuant to Clause 5.5 the sum of the Capacity Ratchet Amount and the Pipeline User’s Registered DM Capacity (the “**Ratcheted DM Capacity**”) would exceed the Provisional Maximum Supply Point Capacity the CDSP will inform the Pipeline Operator:

- (a) with effect from the Day following the Day on which the Supply Point Ratchet occurred, and until the Pipeline Operator has assessed whether it is feasible to make available gas for offtake (in a 24 hour period) in the amount of such sum, the Ratcheted DM Capacity shall be equal to the Provisional Maximum Supply Point Capacity;
- (b) with effect from the time at which the Pipeline Operator has assessed such feasibility and notified the CDSP, the Ratcheted DM Capacity shall be equal to the lesser of:
 - (i) the Maximum Supply Point Capacity; and
 - (ii) the sum of the Pipeline User’s Registered DM Capacity (immediately before the occurrence of the circumstances in Clause 5.5) and the Capacity Ratchet Amount;
- (c) the CDSP on behalf of the Pipeline Operator will inform the Registered User of the Ratcheted DM Capacity determined under paragraph (b) as soon as reasonably practicable after assessing such feasibility.

- 5.7 Unless the Pipeline Operator's Network Code provides otherwise, in the circumstances in Clause 5.5, the Pipeline User shall pay a charge (the **"Supply Point Ratchet Charge"**) in respect of the Capacity Ratchet Amount in accordance with Clause 5.9.
- 5.8 Unless the Pipeline User's Registered DM Capacity is increased other than pursuant to the deemed application made pursuant to Clause 5.5 until the last Day of the calendar month in which the circumstances in Clause 5.5 occurred, the Transportation Charges payable in respect of the Supply Point shall be determined on the basis of the Pipeline User's Registered DM Capacity on the Day on which the circumstances in Clause 5.5 occurred (and not on the basis of the Ratcheted DM Capacity).
- 5.9 The Supply Point Ratchet Charge shall be calculated as the Capacity Ratchet Amount multiplied by the sum of:
- (a) 2 times the Applicable Annual Rate of the charge for Pipeline Capacity; and
 - (b) 2 times the Applicable Annual Rate of the Capacity Variable Component of the Customer Charge;
- the rate in each case being determined by reference to the sum of the Capacity Ratchet Amount and the Pipeline User's Registered DM Capacity at the DM Supply Point and the Registered Offtake Capacity at any NDM Supply Point on the Day on which circumstances in Clause 5.5 occurred.
- 5.10 The Supply Point Ratchet Charge will be invoiced and payable in accordance with Part G.

6 Maximum NDM Offtake Rate

- 6.1 For the purposes of this Clause 6 the provisions of paragraph 10 of Annex B-3 of Section B of the UNC shall apply.

PART CIII – INTERRUPTIBLE SUPPLY POINTS

1 Designation of Interruptible Supply Points

- 1.1 For the purposes of the UNC, the CSEP is treated as comprising a Firm CSEP and an Interruptible CSEP. To secure Interruption at the Interruptible CSEP the Large Transporter will require from time to time pursuant to the terms of the LDZ CSEP Ancillary Agreement, that the supply of gas to Interruptible Supply Points is interrupted.
- 1.2 Each Pipeline User acknowledges that in respect of a Proposed Interruptible Supply Point or a Interruptible Supply Point that it will or may be necessary for the Pipeline Operator to provide to and obtain from the Large Transporter certain information in respect of and take certain action in relation to the isolation or disconnection of (as required by the terms of the IGTAD) the Proposed Interruptible Supply Point or Interruptible Supply Point in order to comply with the terms of the IGTAD. Accordingly each Pipeline User agrees that (notwithstanding Part K23) the Pipeline Operator may provide to and obtain from the Large Transporter any such information and take any such action.
- 1.3 A Supply Point may only be designated as an Interruptible Supply Point or redesignated as a Firm Supply Point with effect from a Day to the extent that it would be eligible to be so designated or redesignated with effect from such Day pursuant to the terms of the UNC provided always that a Supply Point may not be designated or redesignated as a Firm Supply Point if:
 - (a) there is insufficient firm capacity on the Large Transporter System at the Firm CSEP and/or
 - (b) the Pipeline Operator determines that it would not be feasible to make gas available for offtake at the Supply Point (if the Supply Point were Firm) at a rate not less than the DM Offtake Rate (and as respects any NDM Supply Point Component, an appropriate estimated rate of offtake) and in quantities in a (24 hour period) in the amount of the DM Capacity which the Pipeline User would (pursuant to Part CII) hold upon its redesignation as Firm.
- 1.4 By designating a Supply Point as Interruptible or submitting a Base Registration Nomination or a Registration Nomination in respect of an Interruptible Supply Point and by not redesignating an Interruptible Supply Point as Firm, the Registered User represents to the Pipeline Operator that, or where the Registered User is not the Supplier that the Supplier has represented to the Registered User that the requirement in Clause 1.5 will be complied with.
- 1.5 The requirement referred to in Clause 1.4 is that the contract or contracts of supply to the Consumer in force at the date of designation or redesignation or at the Supply Point Registration Date oblige the Consumer to give effect to Interruption (including in the case where Interruption is notified by the Large Transporter directly to the Consumer).
- 1.6 Without prejudice to Clause 1.5, a Supply Point which includes an NDM Supply Point Component may subject to the requirements of the Code be designated as Interruptible.

2 Requirements as to Interruptible Supply Points

- 2.1 Where a Pipeline User is to become the Registered User of one or more Interruptible Supply Points the Pipeline User shall promptly provide to the Pipeline Operator copies of the details provided to the Large Transporter as referred to in Section B 8.6.1, B8.6.2 and B8.6.3 of the UNC.

- 2.2 The Registered User of an Interruptible Supply Point shall promptly on receiving from the Large Transporter notice of:
- (a) designation or withdrawal of designation of an Interruptible Supply Point as TNI;
 - (b) designation or withdrawal of designation of an Interruptible Supply Point as an NSL;
 - (c) notice requiring Interruption of an Interruptible Supply Point;
- provide a copy of such notice to the Pipeline Operator.

3 Further Provisions in respect of Interruptible Supply Points

3.1 Each Pipeline User:

- (a) acknowledges that Interruption of an Interruptible Supply Point is a requirement of the Large Transporter in respect of the Large Transporter System,
- (b) acknowledges that Transportation Charges on the Pipeline may not be determined by reference to whether a Supply Point is Firm or Interruptible.
- (c) acknowledges that a failure to interrupt an Interruptible Supply Point of which it is the Registered User may result in the Large Transporter pursuant to the terms of the LDZ CSEP Ancillary Agreement levying certain charges on a CSEP User;
- (d) acknowledges that the determination of whether an Interruptible Supply Point has interrupted or not is a matter for the Pipeline User and the Large Transporter and not the Pipeline Operator;
- (e) agrees that the Pipeline Operator shall have no liability as a result of:
 - (i) an Interruptible Supply Point being interrupted by the Large Transporter;
 - (ii) any failure of the Interruptible Supply Point to interrupt;
 - (iii) any disconnection or Isolation of the Supply Meter Points comprised in an Interruptible Supply Point as a result of such Interruptible Supply Point having failed to interrupt pursuant to an Interruption Notice from the Large Transporter
 - (iv) any failure by the Pipeline Operator to secure at the request of the Large Transporter the disconnection or Isolation of an Interruptible Supply Point;
- (f) shall in respect of an Interruptible Supply Point of which it is the Registered User secure for the Pipeline Operator such access to the Supply Point Premises as the Pipeline Operator may require for the purposes of securing disconnection or Isolation of each Supply Meter Point comprised in an Interruptible Supply Point as a result of a failure by the Interruptible Supply Point to interrupt and shall indemnify and keep indemnified the Pipeline Operator from and against all costs expenses charges and liabilities incurred by the Pipeline Operator as a result of the Pipeline Operator securing such disconnection or Isolation;
- (g) agrees that the Pipeline Operator shall be entitled to act on a request from the Large Transporter to disconnect or Isolate an Interruptible Supply Point and shall be entitled to assume that such request has been validly made and shall not be bound to first consult with the Registered User of such Supply Point.

3.2 For the purposes of the Code:

- (a) a Supply Point is “**Interruptible**” where the offtake of gas from the Pipeline at the Supply Point is subject to Interruption and otherwise is “**Firm**”;
- (b) an “**Interruptible Supply Point**” is a Supply Point which is for the time being designated as Interruptible;
- (c) a “**Firm Supply Point**” is a Supply Point which is not for the time being designated as Interruptible (including one which has been redesignated as Firm);
- (d) “**TNI**” and “**NSL**” shall have the meaning ascribed thereto in the UNC;
- (e) “**Interruption**” at a Supply Point means interruption on the Large Transporter’s instruction of the offtake of gas from the CSEP and accordingly from the Pipeline at each Supply Meter Point comprised in the Supply Point and references to a Supply Point being Interrupted shall be construed accordingly.

PART C IV - SUPPLY POINT DEREGISTRATION AND ISOLATION

1 Supply Point Deregistration

For the purposes of this Clause the provisions of paragraph 5.6 of TPD Section G of the UNC shall apply.

2 Effect of Deregistration

- 2.1 Until the Deregistration Request is accepted in accordance with paragraph 5.6.1 (c) of Section G of the UNC, the Registered User shall remain liable for Transportation Charges in respect of the Supply Point.
- 2.2 A User shall cease to be the Registered User of a CSS Supply Point in accordance with paragraph 5.1.3 of Section G of the UNC as incorporated into Part CI by Clause 8.2 of Part CI.

3 Isolation

3.1 General

For the purposes of this Clause 3.1 the provisions of paragraph 7.1 of Section G of the UNC shall apply

3.2 Effect of Isolation

For the purposes of this Clause 3.2 the provisions of paragraph 7.2 of Section G of the UNC shall apply with the following changes:

the reference to Section H2 of the UNC in paragraph 7.1.3 shall be interpreted as a reference to Section H2 but only to the extent that it applies to the calculation of NDM Supply Meter Point Demand pursuant to Part F.

- 3.3 For the avoidance of doubt, isolation of a Supply Meter Point for the purposes of enabling Siteworks to be carried out shall not be Isolation.

4 Isolation Request

- 4.1 For the purposes of this Clause 4.1 the provisions of paragraph 7.3 of Section G of the UNC shall apply with the following changes:

paragraph 7.3.3 shall not apply

the reference to paragraph 8.1 of Section G of the UNC in paragraph G7.3.6 shall be interpreted as a reference to paragraph 8.1 as incorporated into this Part CIV by Clause 6.1.

- 4.2 Where the Pipeline Operator undertakes works at the request of the Registered User to secure that gas cannot be offtaken at a Supply Meter Point, such works shall be carried out under the terms of the Pipeline Operator's siteworks contract for isolations which is in force at the time at which such works are undertaken.
- 4.3 The Pipeline Operator's Network Code may provide that only the Pipeline Operator may undertake the works referred to in Clause 4.2.

5 Urgent Cessation of Flow of Gas

- 5.1 For the purposes of this Clause 5.1 the provisions of paragraph 7.4 of Section G of the UNC shall apply.

6 Re-establishment

6.1 For the purposes of this Clause 6.1, the provisions of paragraph 8 of Section G of the UNC shall apply with the following changes:

the reference to paragraph 7.2.4 of Section G of the UNC in paragraph G8.1.2 shall be interpreted as a reference to paragraph 7.2.4 as incorporated in this Part CIV by Clause 3.2

the reference to Section H2 of the UNC in paragraph 8.1.4 shall be interpreted as a reference to Section H2 but only to the extent that it applies to the calculation of NDM Supply Meter Point Demand pursuant to Part F

the words "in accordance with the Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.2.1(a)

the words "and Energy Balancing Charges" and "and in respect of Energy Balancing Charges for which the Registered User is liable pursuant to this paragraph 8.2.1(b) a reconciliation will be carried out in accordance with Section E6" shall be deleted from paragraph 8.2.1(b)

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.3.1(b)(i)

the words "in accordance with the Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.3.1(b)(iii)

paragraph 8.3.1(c) shall not apply

the reference to "Capacity Charges and Customer Charges" in paragraph 8.3.1(d)(i) shall be interpreted as a reference to "Transportation Charges"

the words "in accordance with Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.3.1(d)(iii)

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.3.3(c)

the words "in accordance with Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.4.1(a)

the words "and Energy Balancing Charges" and "and in respect of Energy Balancing Charges for which the Registered User is liable pursuant to this paragraph 8.1.2(b) an Offtake Reconciliation will be carried out in accordance with Section E6" shall be deleted from paragraph 8.4.1(b)

the words "and Energy Balancing" shall be deleted from paragraph 8.5.1(b)

the words "NTS Exit Commodity Charges, LDZ Commodity Charges and Commodity Variable Component of Customer Charges in paragraph 8.5.2(a) shall be interpreted as a reference to "Transportation Charges"

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.5.2(a)

the words "in accordance with Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.5.2(c)

paragraphs 8.5.3 shall not apply

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.6.1(b)

the words "in accordance with Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.6.2(b)

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.6.3(c)(ii)

the words "in accordance with Siteworks Terms and Procedures (as defined in Section Annex G-3)" shall be deleted from paragraph 8.7.2(a)

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.7.2(b)

the words "and in respect of Energy Balancing Charges for which the User is liable pursuant to paragraph 8.2.1(b) an Offtake Reconciliation will be carried out in accordance with Section E6." shall be deleted from paragraph 8.7.2(b)

the words "and Energy Balancing Charges" shall be deleted from paragraph 8.7.4(c)

7 Disablement of Supply

7.1 If a Supply Meter Point is Isolated and:

- (a) the Supply Meter Installation remains physically connected to the Pipeline, the Pipeline User who is the Registered User at the time of such Isolation shall ensure that upon Supply Point Deregistration such Supply Meter Installation is physically disconnected from the Pipeline within twelve months from the date of such effective Supply Point Deregistration; and
- (b) If the Supply Meter Installation is not physically disconnected within the period specified in paragraph (a) above the Pipeline Operator will (where no supply of gas is required at the Supply Meter Points) take such actions to disable the flow of gas and the Pipeline User who was the Registered User at the time of Supply Point Deregistration shall pay the Pipeline Operator's costs (as contained in the Transportation Statement) in respect thereof.

PART CV - NEW SUPPLY METER POINTS AND OTHER SITEWORKS

1 General

1.1 For the purposes of the Code:

- (a) a **"New Supply Meter Point"** is a new Supply Meter Point;
- (b) **"Siteworks"** means works undertaken by the Pipeline Operator at the request of a Pipeline User or other person in connection with the Pipeline for the purposes of:
 - (i) the establishment of a New Supply Meter Point;
 - (ii) enabling an increase in the rate or pressure at or quantities in which it is feasible to make gas available for offtake from the Pipeline at an existing Supply Meter Point;
 - (iii) modifying or replacing any part of the Pipeline located on the Supply Point Premises (but not the Supply Meter Installation at an existing Supply Meter Point);
- (c) Siteworks under paragraph (b)(i) may be:
 - (i) for the construction and/or installation (and connection to the Pipeline) by the Pipeline Operator of service pipe or any part thereof (but not the Supply Meter Installation) ; or
 - (ii) for the purposes of making a connection to the Pipeline of any service pipe constructed or installed by any other person (but not the new Supply Meter Installation)
- (d) Siteworks under paragraph (b) do not include the installation of Daily Read Equipment.

1.2 In respect of any Siteworks:

- (a) the **"Siteworks Applicant"** is the Pipeline User or other person who has requested that the Siteworks be undertaken;
- (b) the **"Siteworks Contract"** is the contract between the Pipeline Operator and the Siteworks Applicant under which the Pipeline Operator is to undertake the Siteworks;
- (c) the **"Completion Date"** is the date of substantial completion (as defined or described in the Siteworks Contract) of the Siteworks;
- (d) the **"Target Completion Date"** means the intended Completion Date of the Siteworks as specified in or determined under the Siteworks Contract;
- (e) **"Connections Work"** is the connection of the service pipe (or any part thereof) undertaken by a person other than the Pipeline Operator for the establishment of a New Supply Meter Point on the Pipeline;
- (f) **"Meter Fix Date"** is the date that has been notified to the Pipeline Operator, as the date upon which a Supply Meter has been installed at a New Supply Meter Point.

1.3 Where the Siteworks Applicant is a Pipeline User the Siteworks Contract shall not (unless it expressly provides to the contrary) be an Ancillary Agreement and does not form a part of and is not incorporated into the Code.

1.4 Where the Siteworks Applicant is not the Registered User of the relevant Supply Meter Point:

- (a) nothing in the Code will make the Registered User liable for any payment becoming due under the Siteworks Contract;
 - (b) the Pipeline Operator will have no liability to the Registered User in respect of any breach of the Siteworks Contract.
- 1.5 The Registered User of a Supply Meter Point will not be liable for any breach of the Code which results from a breach by the Pipeline Operator of a Siteworks Contract relating to that Supply Meter Point.

2 New Supply Meter Points

2.1 Where the Pipeline Operator:

- (a) undertakes Siteworks for the establishment of a New Supply Meter Point, the Pipeline Operator will notify the CDSP of the New Supply Meter Point and the Supply Meter Point Reference Number and the CDSP will enter such information into the Supply Point Register with effect from the date specified in the Siteworks Contract or (if no date is so specified) the date on which the Siteworks is completed;
- (b) is notified that the Connections Work is to be or has been undertaken then on or as soon as reasonably practicable after the relevant date (in accordance with Clause 2.2) the Pipeline Operator will notify the CDSP of the New Supply Meter Point and the Supply Meter Point Reference Number and the CDSP will enter such information into the Supply Point Register and will for the purposes of this Part C be treated as a Supply Meter Point.

2.2 For the purposes of Clause 2.1(b) the relevant date is the date upon which the Pipeline Operator has received notice of the:

- (a) allocation of a specific Supply Meter Point Reference Number to a New Supply Meter Point; or
- (b) completion of the Connections Work from the person who has undertaken the same where received earlier than such allocation notice.

2.3 For the purposes of the Code, the **"First Supply Point Registration Date"** is the Supply Point Registration Date of the first Supply Point Registration to be made for a Supply Point to be made for a Supply Point comprising the New Supply Meter Point.

2.4 For the purposes of the Code, paragraphs 3.4.1(d)(i), 3.4.1(e)(i) and 3.4.4 through 3.4.9 of Section G of the UNC will apply with the following changes

The words "paragraph 5" in paragraph 3.4.7(a) shall be replaced with "paragraph 5 as incorporated into the Code by Part CI"

The reference to paragraph 5.13.16(a) of Section M of the UNC in paragraph 3.4.8(a)(i) and 3.4.8(a)(ii) shall be interpreted as a reference to paragraph 5.13.16(a) as incorporated into the Code by Clause 14.1 of Part E.

2.5

3 Undertaking Siteworks

- 3.1 The Pipeline Operator will not be in breach of its obligation to make gas available for offtake at a Supply Meter Point where or to the extent that its ability to do so is impaired by reason of its carrying out any Siteworks in respect of that Supply Meter Point.
- 3.2 Where the Pipeline Operator carries out Siteworks at a Supply Meter Point comprised in a Supply Point whose Annual Quantity exceeds 73,200 kWh (*2,500 therms*) and the Siteworks Applicant is not the Registered User, the Pipeline Operator will, unless the Siteworks Applicant has requested the Pipeline Operator not to do so, notify the Registered User of the Siteworks where practicable before and in any event promptly upon completing such Siteworks.

4 Pipeline Design Maximum Volume

- 4.1 Pipeline Users acknowledge that the Pipeline has not been designed to convey more gas than a particular maximum volume ("the **Pipeline Design Maximum Volume**").
- 4.2 Nothing in the Code shall require the Pipeline Operator to agree to the connection of any New Supply Meter Point which would be such as to increase the Aggregate Pipeline Capacity to exceed the Pipeline Design Maximum Volume.
- 4.3 For the purposes of the Code "**Aggregate Pipeline Capacity**": is the sum of the amounts of the Pipeline Capacity determined as held by all Pipeline Users at the Connection Point in accordance with Part B.

PART D - SUPPLY METER INSTALLATION

1 Introduction

- 1.1 This Part D sets out requirements in respect of the installation of meters and other equipment at Supply Meter Points.
- 1.2 For the purposes of the Code, in relation to a Supply Meter Point:
- (a) the **"Supply Meter Installation"** is the meter and associated equipment and installations installed or to be installed at a Consumer's premises, which consists of the regulator, filters, valves, seals, mountings and associated pipework between the ECV and the Supply Meter. The Supply Meter Installation ends at the outlet port of the Supply Meter. A Supply Meter Installation includes any converter (where installed pursuant to the Gas (Calculation of Thermal Energy) Regulations 1996) and Daily Read Equipment;
 - (b) the **"Supply Meter"** is the meter comprised in the Supply Meter Installation;
 - (c) **"Meter Installation Works"** means one or more of either the installation, testing, maintenance, repair, exchange or replacement of a Supply Meter Installation or any part thereof (but does not include meter reading). Where required, for either the first installation or the replacement of a Supply Meter, the Meter Installation Works shall include any pipe fittings and up to 1m of pipework required to connect the outlet of the Supply Meter to the Consumer's installation.
 - (d) a "Smart Meter" means:
 - (a) an energy meter that can both send and receive information using an external electronic communications network; or
 - (b) an energy meter and a device which is associated with or ancillary to that meter and which enables information to be sent to and received by the meter using an external electronic communications network;and the expression "Smart Metering" is to be read accordingly.
 - (e) a "Meter Equipment Manager" has the same meaning as "Metering Equipment Manager" as defined in the Retail Energy Code.
 - (f) a "Meter Installer" is a person or body that undertakes "Meter Installation Works"
- 1.3 In this Part D and Part E:
- (a) References to the Registered User in the context of a Supply Meter Installation or Supply Meter are to the Registered User of the Supply Meter Point at which it is installed.
 - (b) **"IGE Meter Recommendation"** means any recommendation or standard from time to time issued or updated by the Institute of Gas Engineers in respect of the nature, type, design, specification or manufacture of any Supply Meter Installation or part thereof (which do not form a part of the Code).

2 Supply Meter and other equipment

- 2.1 The Registered User shall (subject to Clause 3) secure that at each Supply Meter Point (other than a Supply Meter Point which has been Isolated) there is installed, operated, and maintained in proper working order, for registering the volume of gas offtaken from the Pipeline at the Supply Meter Point, a Supply Meter Installation:

- (a) complying with the requirements of Clause 2.2, and located at a point in accordance with Clause 2.3; and
 - (b) including such further equipment (including any converter) as may be required in accordance with the further provisions of this Part D and Part E.
- 2.2 The Supply Meter Installation shall be of a type and standard of design and accuracy complying with, and shall be installed in compliance with, the IGE Meter Recommendations, the Gas (Meters) Regulations 1983, the Gas Safety (Installation and Use) Regulations 1998 and any other applicable Legal Requirement, as in force at the date of installation of the Supply Meter Installation, and shall be stamped in accordance with Section 17 of the Act.
- 2.3 The point at which the Supply Meter Installation is to be installed shall be such point as shall be required by or shall be in accordance with paragraph 5 of the Gas Code and the Gas Safety (Installation and Use) Regulations 1998.
- 2.4 For the avoidance of doubt, but without prejudice to the requirements of Clause 2.1, the Supply Meter shall be the meter referred to in the Gas Code, and may be provided and owned by a person and/or installed by a person other than the Registered User.
- 2.5 Nothing in this Part D or Part E prevents the Pipeline User from securing that a Supply Meter Installation conforms to higher standards than are (or provides any function in addition to what is) required pursuant to Clause 2.2.
- 2.6 As contemplated by the IGE Meter Recommendations, the design and specification of certain Supply Meter Installations (where required to be installed) will need to be agreed with the Pipeline Operator on a case-by-case basis.
- 2.7 Whenever a Supply Meter Installation is replaced or modified (other than by the Pipeline Operator pursuant to Clause 3) the Registered User shall provide to the Pipeline Operator such information concerning the replacement or modification in accordance with paragraph 4 of Section M of the UNC (as incorporated into Part E by Clause 2 of Part E).
- 2.8 Pipeline Users acknowledge that the Code does not contain provisions in respect of Sub Deduct Arrangements or Meter By-passes. Accordingly, each Pipeline User:
- (a) agrees that in respect of each Supply Point of which it is the Registered User, it will take reasonable steps to ensure that no Sub Deduct Arrangement or Meter By-pass is installed at any such Supply Point without the Pipeline Operator's prior written consent;
 - (b) acknowledges that if a Sub Deduct Arrangement or Meter By-pass is installed that the Code will require to be modified.
- 2.9 For the purposes of Clause 2.8:
- (a) a **"Sub Deduct Arrangement"** is an arrangement of pipes and meters by which a part of the gas which is conveyed by the Pipeline to premises for the purposes of supply to those premises is further conveyed to other premises for the purposes of supply to those other premises;
 - (b) a **"Meter By-pass"** is an installation by means of which the Consumer may divert the flow of gas so as not to pass through the Supply Meter and thereby secure the continued offtake of gas at the Supply Meter Point, in the event of any failure of part of the Supply Meter Installation which would impede the flow of gas through the meter.

- 2.10 Where a Smart Meter is installed at a Supply Meter Point or there are changes to the provision or existence of an Advanced Meter at a Supply Meter Point, the provisions of paragraphs 2.1.13 and/or 2.1.14 of Section M of the UNC shall apply.

3 Provision by the Pipeline Operator

- 3.1 This Clause 3 applies where the Pipeline Operator provides or has provided (whether before or after the date of implementation of the Code) the Supply Meter Installation or any part of it.

Where the Pipeline Operator provides or has provided the Supply Meter Installation or any part of it and is acting in the role of Meter Equipment Manager or Meter Installer for the purposes of the REC, the Pipeline Operator will adhere to the requirements of the REC. The Pipeline User will represent the Supplier for the purposes of the REC and will provide all Meter Information received from the Pipeline Operator to the relevant Supplier.

- 3.2 Where this Clause 3 applies:

- (a) subject to paragraphs (d) and (e) and to Clauses 3.4 and 6.1, the Pipeline Operator will be responsible for securing (at its cost but subject as provided in this paragraph (a)) (on behalf of the Registered User) the installation (in accordance with Clause 2.2), maintenance, repair, exchange and replacement of the Supply Meter Installation or relevant part thereof provided by the Pipeline Operator, within a reasonable time after a request to do so and subject to payment of the charges (if any) in respect of the same provided for in the Transportation Statement or in the Metering Charges Statement;
- (b) the Customer Charge payable by the Registered User may include (in accordance with the Transportation Statement) a component in respect of the provision and maintenance of the Supply Meter Installation or relevant part of it provided by the Pipeline Operator (determined, insofar as the Transportation Statement provides for such determination, by reference to the nature of the Supply Meter Installation which is installed) or a separate charge in respect thereof may be provided in the Transportation Statement which shall in such event be payable by the Registered User in addition to the Customer Charge;
- (c) the Registered User shall secure that there are made available (without charge to the Pipeline Operator) at the Supply Point Premises:
 - (i) a suitable site (at a location complying with Clause 2.3) at the Supply Point Premises, and suitable support, protection and security, for the Supply Meter Installation;
 - (ii) supplies of power, water and drainage as appropriate for the Supply Meter Installation;
 - (iii) such access, at all reasonable times and in any event between 08:30 and 17:00 hours on any Business Day, to the Supply Point Premises as shall be required to enable the Pipeline Operator to carry out all Meter Installation Works required pursuant to paragraph (a);
- (d) the Registered User shall take all reasonable steps to secure that the Supply Meter Installation is not damaged or otherwise mistreated;
- (e) ownership of the Supply Meter Installation shall remain with the Pipeline Operator (or any person to whom the Pipeline Operator may transfer ownership); and the Registered User shall take all reasonable steps to secure that any notice to that effect affixed thereto by the Pipeline Operator shall not be removed or defaced;

- (f) the Pipeline Operator will ensure that following the carrying out of any Meter Installation Works in respect of a Supply Meter Installation, the Meter Information in respect of that Supply Meter Installation is, where appropriate, updated.

3.3 Nothing in Clause 3.2 requires the Pipeline Operator:

- (a) to replace any part of a Supply Meter Installation other than where such replacement is necessary as a result of the failure (including by reason of damage, normal wear or tear or defective design or manufacture) thereof;
- (b) to carry out any Meter Installation Works other than for the purposes of maintaining or repairing or (where required under paragraph (a)) replacing a Supply Meter Installation or part thereof provided by the Pipeline Operator;
- (c) except in the case of routine maintenance, to carry out any Meter Installation Works until reasonable notice has been given to the Pipeline Operator of the requirement for such works.

3.4 Meter Installation Works carried out by the Pipeline Operator for the purposes of maintaining, repairing or (where required having regard to Clause 3.3(a)) replacing any part of a Supply Meter Installation to which Clause 3 applies will not be Siteworks for the purposes of Part CV.

3.5 Any Meter Installation Works which any person may request the Pipeline Operator to carry out other than as required under Clause 3.2 including:

- (a) the provision of a Supply Meter Installation at a Supply Meter Point where the Pipeline Operator was not previously providing the Supply Meter Installation or at a New Supply Meter Point;
- (b) the provision of a new Supply Meter Installation at a Supply Meter Point where by reason of a change in the nature or extent of the Consumer's requirements for the supply of gas the existing Supply Meter Installation no longer complies with the requirements of Clause 2.2 and 2.3;

will be Siteworks subject to and in accordance with Part CV.

3.6 Nothing in this Part D prevents the Pipeline Operator from providing at the request of the Consumer or Supplier a Supply Meter Installation which conforms to higher standards than are (or provides any function in addition to what is) required pursuant to Clause 2.2, provided that (unless the Registered User has otherwise agreed) the amount of the Customer Charge or separate charge payable (as described in Clause 3.2(b)) by the Registered User will not thereby be increased.

3.7 Where as a result of any failure or defect any Supply Meter Installation provided by the Pipeline Operator gas cannot be offtaken from the Pipeline at the relevant Supply Meter Point, the Pipeline Operator will not be in breach (by reason thereof) of its obligation to make gas available for offtake from the Pipeline until:

- (a) written notice of such failure, defect or requirement has been given to the Pipeline Operator; and
- (b) the expiry after such notice of a reasonable period for the Pipeline Operator to carry out the required Meter Installation Works.

4 Interference with meters

4.1 The Registered User shall take all reasonable steps to ensure that:

- (a) no person improperly breaks any seal affixed to any part of the Supply Meter Installation or tampers or otherwise interferes with or damages any Supply Meter Installation;
- (b) upon each visit to the Supply Point Premises by any representative of that Pipeline User or the Supplier, or by any person engaged (by that Registered User, the Supplier or the Consumer) to obtain an On-site Meter Read, there is promptly reported to the Pipeline Operator any evidence which is or ought (having regard to the purposes for which such person is visiting the premises) to be apparent to such representative or person of the breaking of any such seal or of any such tampering or interference (including any activated tamper alarm) or otherwise of theft or attempted theft of gas.

5 Meter clamping

5.1 Where the customer control valve of a Supply Meter is clamped, whether by the Registered User, Supplier or any other person other than the Pipeline Operator, the Registered User shall so inform the Pipeline Operator promptly upon arranging for or otherwise becoming aware of such clamping.

5.2 Where:

- (a) a Supply Meter is clamped in accordance with Clause 5.1;
- (b) the Registered User fails to inform the Pipeline Operator of such clamping; and
- (c) the Pipeline Operator takes any step under paragraph 18 or 19 of the Gas Code in respect of any report to the effect that gas is not flowing to the Supply Point Premises or to appliances at such premises

the Registered User shall reimburse to the Pipeline Operator the cost and expense incurred by the Pipeline Operator in taking steps referred to in paragraph (c) above.

6 Prepayment Meters

6.1 Where Clause 3 applies and the Supply Meter Installation provided by the Pipeline Operator includes a prepayment installation:

- (a) the Registered User will be responsible for making arrangements for payment collection (including emptying or replacement of coin or token boxes or arrangements with any issuer of payment tokens or cards), and for remedying faults resulting from the abuse or defective use of the prepayment installation;
- (b) any theft or other loss in respect of monies representing payments made into the prepayment facility will be for the Registered User's account and the Pipeline Operator will have no responsibility to the Registered User or Supplier or Consumer therefore.

6.2 Where:

- (a) a Supply Meter Installation (whether or not provided by the Pipeline Operator in accordance with Clause 3) includes a prepayment installation;
- (b) the Pipeline Operator takes any step under paragraph 18 or 19 of the Gas Code in respect of any report to the effect that gas is not flowing to the Supply Point Premises or to appliances at such premises; and
- (c) after taking such steps the Pipeline Operator ascertains that the cause of gas not flowing is the inability of the Consumer to utilise the prepayment installation, overfilling of a coin or token box, use of defective payment tokens or cards, or any fault in or tampering with a prepayment facility

then Clause 6.3 shall apply.

In the circumstances referred to in Clause 6.2:

- (a) the Pipeline Operator shall be entitled (without liability to the Registered User) to take any reasonable steps to ensure the restoration of supply to the Consumer through the Supply Meter Installation until the end of the next following Business Day (making such assumption as to the rate of offtake as shall appear to it to be reasonable);
- (b) the Registered User shall reimburse to the Pipeline Operator the cost and expense incurred by the Pipeline Operator in taking the steps referred to in Clause 6.2(b) and paragraph (a) above (including the value of any coins, tokens or cards utilised for the purpose in paragraph (a)).

7 Updating Meter Information by Pipeline Operator

- 7.1 Where as a result of any Meter Installation Works undertaken (pursuant to Clause 3 or otherwise) by the Pipeline Operator in relation to a Supply Meter Point, the relevant Meter Information recorded in the Supply Point Register ceases to be accurate, the Pipeline Operator will after completing such works provide to the CDSP details of the amendment and the CDSP will send such details to the Registered User.

Where the Pipeline Operator provides or has provided the Supply Meter Installation or any part of it and is acting in the role of Meter Equipment Manager or Meter Installer for the purposes of the REC, the Pipeline Operator will adhere to the requirements of the REC. The Pipeline User will represent the Supplier for the purposes of the REC and will provide all updated Meter Information received from the Pipeline Operator to the relevant Supplier.

- 7.2 For the purposes of this Clause 7:

- (a) references to a Supply Meter Point include a New Supply Meter Point, and accordingly references to a change in Meter Information includes the creation of initial Meter Information;
- (b) relevant Meter Information is such Meter Information as is specified in the UK Link Manual;
- (c) A Supply Meter Point will not be treated as one in relation to which the Pipeline Operator did not comply with Clause 7.1, where the Pipeline Operator was unable to comply with Clause 7.1 by reason of Force Majeure;
- (d) In relation to any Supply Meter Point, any period within which the Pipeline Operator is to comply with Clause 7.1 runs from the Supply Point Systems Business Day after the relevant Meter Installation Works were completed.

- 7.3 The details referred to in Clause 7.1 shall be referred to as the "Meter Fit Report" and shall be provided by the Pipeline Operator to the CDSP:

- (a) in the case where the Meter Installation Works were carried out at a New Supply Meter Point within 5 Supply Point Systems Business Days after the first Supply Point Registration Date following completion of the Meter Installation Works;
- (b) in any other case within 5 Supply Point Systems Business Days after completion of the Meter Installation Works.

- 7.4 If in relation to any Registered User, the Pipeline Operator has not complied with the requirements in Clause 7.3 within 14 Supply Point Systems Business Days after in the case of the Clause 7.3(a) the first Supply Point Registration Date following completion of the Meter Installation Works and in the case of Clause 7.3(b) completion of the Meter Installation Works in respect of a Supply Meter Point, the Registered User will where it identifies the delayed sending of the Meter Fit Report to the CDSP, query with the Pipeline Operator as rejected within 5 Supply Point Systems Business Days of receipt from the CDSP.
- 7.5 The Pipeline Operator will respond to the Registered User within 10 Supply Point Systems Business Days of receipt of any asset rejected within the Meter Fit Report and will:
- (a) provide an actual Meter Reading (at no cost to the Registered User) with a revised Meter Fit Report to the CDSP, the Meter Reading having been obtained no more than 5 Business Days prior to the provision of the Meter Fit Report; and
 - (b) refund in accordance with Clause 7.6 any Transportation Charges paid from the original date the Supply Meter was installed to the date the revised Meter Fit Report was sent to the CDSP.
- 7.6 The amount payable by the Pipeline Operator in respect of a Supply Meter Point pursuant to Clause 7.5 shall be paid by the Pipeline Operator to the Registered User within 15 Supply Point Systems Business Days after the date on which the Pipeline Operator has provided the relevant Meter Fit Report to the CDSP.
- 7.7 The actual Meter Reading provided with the Meter Fit Report to the CDSP pursuant to this Clause 7 shall be treated as the Opening Meter Reading for the Supply Meter Point and any Opening Meter Reading subsequently provided by the Registered User shall be disregarded. If for any reason following the completion of Meter Installation Works undertaken by the Pipeline Operator, the Pipeline Operator does not have an actual Meter Reading in respect of a Supply Meter Point, the Pipeline Operator may provide the CDSP with an estimated Meter Reading and the CDSP will provide such estimated Meter Read to the Registered User (at no cost to the Registered User). This estimated Meter Reading may be based on an actual Meter Reading carried out at the cost of and on behalf of the Pipeline Operator in which case details of such Meter Reading shall also be provided to the Registered User via the CDSP and shall be treated as a Valid Meter Reading for the purposes of Part E. The estimated Meter Reading shall be regarded as the Opening Meter Reading for the relevant Supply Meter Point unless the Registered User is able to provide a more accurate estimate of the Meter Reading in which case the Registered User may substitute such estimate as the Opening Meter Reading for the estimate provided by the CDSP. The provisions of Part E14 shall be read in accordance with the provisions of this Clause 7.7.

PART E - METER READING

1 General

- 1.1 This Part E sets out the requirements of the Code for obtaining Meter Readings and references the corresponding provisions of Section M of the UNC that are to be read for the purposes of interpreting the parties' respective rights and obligations pertaining to Meter Readings under the Code.
- 1.2 For the purposes of this Clause 1.2 the provisions of paragraph 5.1 of Section M of the UNC shall apply with the following changes:

paragraph 5.1.1(b)(i) shall not apply

the reference to paragraph 3 of Section H of the UNC in paragraph 5.1.1(b)(ii) shall be interpreted as a reference to Section H3 as incorporated into Part F by Clause 4.1

the reference to paragraphs 5.6 to 5.9 of Section M of the UNC in paragraph 5.1.2 (a) shall be interpreted as a reference to paragraphs 5.6 to 5.9 as incorporated into this Part E by Clauses 7.1, 8.1, 9.1 and 10.1 respectively

the reference to paragraph 5.10 of Section M of the UNC in paragraph 5.1.2(b) shall be interpreted as a reference to paragraph 5.10 as incorporated into this Part E by Clause 11.1

the reference to paragraph 5.12 of Section M of the UNC in paragraph 5.1.2 (c) shall be interpreted as a reference to paragraph 5.12 as incorporated into this Part E by Clause 13.1

the reference to paragraph 5.13 of Section M of the UNC in paragraph 5.1.2(d) shall be interpreted as a reference to paragraph 5.13 as incorporated into this Part E by Clause 14.1

the reference to paragraph 5.14 of Section M of the UNC in paragraph 5.1.2 (e) shall be interpreted as a reference to paragraph 5.14 as incorporated into this Part E by Clause 15.1. The references to " paragraph 5" in paragraphs 5.1.4 and 5.1.6 shall be interpreted as references to the applicable provisions of Part E including those elements of paragraph 5 of Section M of the UNC incorporated into this Part E.

the words "and (pursuant to Offtake Reconciliation, where applicable) the Metered Quantity" in paragraph 5.1.7 shall be deleted from paragraph 5.1.7.

2 Meter Information

- 2.1 For the purposes of this Clause 2 the provisions of paragraph 4 of Section M of the UNC shall apply:

3 Validity of Meter Readings

- 3.1 For the purposes of this Clause 3 the provisions of paragraph 5.2 of Section M of the UNC shall apply with the following changes:

the reference to paragraph 5.3 of Section M of the UNC in paragraph M5.2.1(b) shall be interpreted as a reference to paragraph 5.3 as incorporated into this Part E by Clause 4.

the words "any other requirement specified in this Section M" in paragraph 5.2.1(e) of Section M of the UNC shall be interpreted as referring to any other requirement of this Part E including those requirements in Section M of the UNC but only to the extent that they are incorporated into this Part E.

the words "and without prejudice to paragraph 2.4.4(b)" in paragraph 5.2.2 of Section M of the UNC shall be deleted.

4 Validation of Meter Readings

- 4.1 For the purposes of this Clause 4 the provisions of paragraph 5.3 of Section M of the UNC shall apply with the following changes:

the references to "Transporter" in paragraphs 5.3.3 and 5.3.5(a) shall be interpreted as references to the "Large Transporter"

the words "and governed and amended in accordance with Section V12 unless the Authority shall upon application by any User made within one month after such notice, give Condition A11 (18) Disapproval to the Transporters making any amendment in accordance with the provisions of Section V12" shall be deleted from paragraph 5.3.3.

5 Estimated Reads

- 5.1 For the purposes of this Clause 5 the provisions of paragraph 5.4 of Section M of the UNC shall apply.

6 Provision of Meter Readings

- 6.1 For the purposes of this Clause 6 the provisions of paragraph 5.5 of Section M of the UNC shall apply with the following changes:

the reference to "Transporter" in paragraph 5.5.1 of Section M of the UNC shall be interpreted as a reference to the "Large Transporter".

7 Cyclic Reading: Class 1 Supply Meters

- 7.1 For the purposes of this Clause 7.1 the provisions of paragraph 5.6 of Section M of the UNC shall apply with the following changes:

the reference to "Transporter" in paragraph 5.6.1(b) shall be interpreted as a reference to the "Large Transporter"

the reference to paragraph 5.4 of Section M of the UNC in paragraph 5.6.2 shall be interpreted as a reference to paragraph 5.4 as incorporated into this Part E by Clause 5.1

paragraph 5.6.4 of Section M of the UNC shall not apply and shall be replaced by the following:

"The Pipeline Operator and Pipeline User acknowledge that, pursuant to Section D of the IGTAD, the further provisions of paragraph 6 of Section M of the UNC apply in relation to Class 1 Supply Meters as between the Class 1 Read Provider and the User".

For a Class 1 Supply Meter Point the CDSP will provide to the Pipeline Operator Daily Meter Readings for the Supply Meter within 5 Business Days after the Class 1 Read Provider has provided the same to the CDSP.

8 Cyclic Reading: Class 2 Supply Meters

- 8.1 For the purposes of this Clause 8 the provisions of paragraph 5.7 of Section M of the UNC shall apply with the following changes:

the reference to paragraph 5.4 of Section M of the UNC in paragraph 5.7.2 shall be interpreted as a reference to paragraph 5.4 as incorporated into this Part E by Clause 5.1.

9 Cyclic Reading: Class 3 Supply Meters

9.1 For the purposes of this Clause 9 the provisions of paragraph 5.8 of Section M of the UNC shall apply with the following changes:

paragraph 5.8.6 shall not apply.

10 Cyclic Reading: Class 4 Supply Meters

10.1 For the purposes of this Clause 10 the provisions of paragraph 5.9 of Section M of the UNC shall apply with the following changes:

paragraph 5.9.15 shall not apply.

11 Failure to obtain readings

11.1.1 Subject to Clauses 11.1.5 and 11.1.6, Clauses 11.1.2 shall apply in relation to a Class 2, 3, or 4 Supply Meter where, at the end of any calendar month, a Valid Meter Reading has not been submitted with a Read Date within:

- (a) except as provided in Clause (b), the preceding 4 months;
- (b) in the case of a Class 4 Annual Read Supply Meter, the preceding 24 months.

11.1.2 For this Clause 11.1.2 applies in relation to a Supply Meter the CDSP will notify the Pipeline Operator and the:

- (a) the Pipeline Operator will, unless it appears to the Pipeline Operator (in its sole discretion) that the circumstances are such that it would be inappropriate to do so, use reasonable endeavours to obtain a Meter Reading from such Meter;
- (b) the Pipeline User shall irrespective of whether the Pipeline User remains the Registered User pay to the Pipeline Operator, by way of reimbursement of its costs, an amount equal to the amount provided for such purpose under the prevailing prices published by the Pipeline Operator together with any costs (including costs of a warrant) incurred by the Pipeline Operator for the purposes of gaining entry to the Supply Point Premises.

11.1.3 The Pipeline Operator will not initiate a Meter Read pursuant to Clause 11.1.1 for a Read Date earlier than:

- (a) the 10th Supply Point Systems Business Day of the calendar month (the “following month”) following the month referred to in that paragraph;
- (b) the 80th Supply Point Systems Business Day following the date upon which the Transporter has notified the User in accordance with UNC TPD Section M, paragraph 4.2.12 of incorrect Meter information in respect of such Monthly Read Meter or (as the case may be) Annual Read Meter;

- (c) the 80th Supply Point System Business Day following the Supply Point Registration Date following the appointment of a Supplier of Last Resort for a Supply Point; or
- (d) the 80th Supply Point System Business Day following the Supply Point Registration Date for a Change of Shipper Request.

the reference to paragraph 4.2.12 of TPD Section M of the UNC in Clause 11.1.3 (b) above shall be interpreted as a reference to paragraph 4.2.12 of Section M of the UNC as incorporated into this Part E by Clause 2.1

- 11.1.4 Where here the Pipeline Operator has initiated a Meter Read pursuant to Clause 11.1.2, and (before such Meter Read takes place) the Pipeline User subsequently submits a Valid Meter Reading in respect of the relevant Supply Meter, the Pipeline User will endeavour to cancel the Meter Read, but the Pipeline User will be liable to make payment pursuant to Clause 1.2 (b) irrespective of whether such Meter Read is so cancelled.
- 11.1.5 Where not less than 10 Supply Point Systems Business Days before the beginning of the following month the Pipeline User has submitted a Meter Information Notification in respect of the relevant Supply Meter, Clause 11.1.1 shall not apply until the expiry of a period of 10 Supply Point Systems Business Days after the Meter Information Notification ceases to be outstanding.
- 11.1.6 If:
 - (a) before the Pipeline Operator has initiated a Meter Read pursuant to Clause 11.1.1, the Pipeline User notifies the Pipeline Operator (by Conventional Notice) that the Pipeline User is taking steps to obtain a Meter Reading in respect of the relevant Supply Meter, specifying the expected date of the Meter Read;
 - (b) later than the 10th Supply Point Systems Business Day of the following month the Pipeline User provides to the Pipeline Operator a copy of a warrant (granted under the Rights of Entry (Gas and Electricity Boards) Act 1954, as amended) authorising entry to the relevant premises, or a copy of an application for such a warrant, or demonstrates to the Pipeline Operators reasonable satisfaction that a Meter Reading can be obtained without such a warrant; and
 - (c) a Valid Meter Reading is submitted to the Pipeline Operator in respect of the relevant Supply Meter not later than the 20th Supply Point Systems Business Day after the start of the following month then Clause 11.1.1 shall not apply.
- 11.1.7 Where a Pipeline User materially or persistently fails to comply with the requirement in paragraph clause 5.9.7(b) or 5.9.9 – 5.9.12 of TPD Section M of the UNC, the CDSP shall notify the Pipeline User and the Pipeline Operator, and the Pipeline operator may require the Pipeline User:
 - (a) to submit to the Pipeline Operator an explanation for the Pipeline Users failure to comply together with a proposal to remedy such non-compliance;

- (b) to implement the Pipeline Users proposal under Clause (a) as modified after discussion with the Pipeline Operator
 - (c) if and for so long as the Pipeline User fails to comply with Clause (a) and (b), to agree to a scheme under which the Pipeline Operator will (at the Pipeline Users expense on the same basis as under Clause 11.1.2 (b) obtain sufficient Meter Readings from time to time each month to remedy the Pipeline Users failure to comply with paragraph 5.9.7 (b) or 5.9.9 – 5.9.12 of TPD Section M of the UNC as incorporated into this Part E by Clause 10.1.
- 11.2 Where a Pipeline Operator has submitted a Meter Read to the CDSP obtained in accordance with Clause 11.1.2 (a) and the Read Date is more than the maximum permitted read submission window as set out in paragraph 5.9.4 of Section M of the UNC TPD for the relevant category of Supply Meter Point before the date of submission to the CDSP then the Pipeline User shall not be required to pay a charge in accordance with Clause 11.1.2 (b).
- 11.3 Where Clause 11.1.2 applies in relation to a Supply Meter and the Supply Meter also meets one or more of the following criteria
- (a) The Supply Meter is a Smart Meter;
 - (b) The Supply Meter is capable of being read remotely; and/or
 - (c) The Supply Meter has an indicator provided by the DCC showing the Supply Meter is capable of being read remotely.
- then the Pipeline Operator shall not obtain a meter reading from such meter and the Pipeline User shall not be required to pay a charge as otherwise required.
- 11.4 Where Clause 11.1.2 applies in relation to a Supply Meter and the Supply Meter also has a known meter issue which has been notified to the CDSP by either the Pipeline Operator or Pipeline User that prevents a Valid Meter Reading from being obtained then the Pipeline Operator shall not obtain a meter reading from such meter and the Pipeline User shall not be required to pay a charge as otherwise required.
- 11.5 Where the Pipeline Operator has notified the CDSP of a known meter issue the CDSP shall notify the relevant Pipeline User of said known meter issue.
- 11.6 Where the Pipeline User has notified the CDSP of a known meter issue the CDSP shall notify the relevant Pipeline Operator of said known meter issue.
- 11.7 The CDSP shall provide information to the Performance Assurance Committee to enable the Performance Assurance Committee to maintain oversight over the Supply Meters that are excluded from the provisions of Clause 11.1.1 the Supply Meters whose inclusion in the provisions of Clause 11.1.1 is delayed for a period of up to 80 Supply Point Business Days.

12 Class 1 and 2 Supply Meters – Failure to obtain meter readings by Exit Close-out

- 12.1 For the purposes of this Clause 12 the provisions of paragraph 5.11 of Section M of the UNC shall apply with the following changes:

the reference to paragraph 5.6.2 of Section M of the UNC in paragraph 5.11.1(a) shall be interpreted as a reference to paragraph 5.6.2 as incorporated into this Part E by Clause 7.1

the reference to paragraph 5.7.2 of Section M of the UNC in paragraph 5.11.1(a) shall be interpreted as a reference to paragraph 5.7.2 as incorporated into this Part E by Clause 8.1

the words "the Day shall not be a Ratchet Day (in accordance with Section B4.7)" in paragraph 5.11.2 shall be substituted for the following:

"the Pipeline User shall not be deemed to have applied for an increase in its Registered DM Capacity under Clause 5.5 of Part CII"

paragraphs 5.11.1(b), 5.11.3, 5.11.4 and 5.11.5 shall not apply.

13 Check Reads

13.1 For the purposes of this Clause 13 the provisions of paragraph M5.12 of Section M of the UNC shall apply with the following changes:

the references to "Transporter" in paragraphs 5.12.3 (a), 5.12.4(a), 5.12.5 and 5.12.6 of Section M of the UNC shall be interpreted as references to the "Large Transporter"

the words "the User or Transporter" in paragraph 5.12.8 of Section M of the UNC shall be replaced by the following:

"the User or Large Transporter".

14 Opening Meter Readings

14.1 For the purposes of this Clause 14 the provisions of paragraph 5.13 of Section M of the UNC shall apply with the following changes:

the reference to paragraph 5.6 of Section M of the UNC in paragraph 5.13.2 shall be interpreted as a reference to paragraph 5.6 as incorporated into this Part E by Clause 7.1

the reference to paragraph 5.7 of Section M of the UNC in paragraph 5.13 shall be interpreted as a reference to paragraph 5.7 as incorporated into this Part E by Clause 8.1

the reference to paragraph 4 of Section M of the UNC in paragraph 5.13.4(a)(ii) shall be interpreted as a reference to paragraph 4 as incorporated into this Part E by Clause 2.1

the references to paragraph 4.1.5(j)(iii) pursuant to paragraph 4 of Section M of the UNC in paragraph 5.13.5(d)(i) shall be interpreted as a reference to paragraph 4.1.5(j)(iii) as incorporated into this Part E by Clause 2.1

the references to paragraph 5.10 of Section M of the UNC in paragraph 5.13.5(e) shall be interpreted as a reference to paragraph 5.10 as incorporated into this Part E by Clause 11.1

the reference to paragraph 5.8.2 of Section M of the UNC in paragraph 5.13.6 shall be interpreted as a reference to paragraph 5.8.2 as incorporated into this Part E by Clause 9.1

the reference to paragraph 5.6.2 of Section M of the UNC in paragraph 5.13.7(a)(i) shall be interpreted as a reference to paragraph 5.6.2 as incorporated into this Part E by Clause 7.1

the reference to paragraph 5.7.2 of Section M of the UNC in paragraph 5.13.7(a)(ii) shall be interpreted as a reference to paragraph 5.7.2 as incorporated into this Part E by Clause 8.1

the reference to paragraph 5.4.3 of Section M of the UNC in paragraph 5.13.7(a)(iii) shall be interpreted as a reference to paragraph 5.4.3 as incorporated into this Part E by Clause 5.1

the reference to paragraph 5.4.3 of Section M of the UNC in paragraph 5.13.7(b) shall be interpreted as a reference to paragraph 5.4.3 as incorporated into this Part E by Clause 5.1

paragraph 5.13.9 of Section M of the UNC shall not apply

the reference to GT Section B2.5.1 in Section M of the UNC in paragraph 5.13.10 (b) shall be interpreted as a reference to GT Section B2.5.1 as incorporated into Part K by Clause 26.1

paragraph 5.13.12(b) of Section M of the UNC shall not apply

the references to paragraphs 5.12 and 5.12.1 of Section M of the UNC in paragraph 5.13.13 shall be interpreted as a reference to paragraph 5.12 as incorporated into this Part E by Clause 5.12

15 Other non-cyclic meter reading requirements

15.1 For the purposes of this Clause 15 the provisions of paragraph 5.14 of Section M of the UNC shall apply with the following changes:

the reference to paragraph 7.3.2(a)(iv) of Section G of the UNC in paragraph M5.14.1 (a) shall be interpreted as a reference to paragraph 7.3.2(a)(iv) as incorporated into Part CIV by Clause 4.1.

the references to paragraph 5.12 and 5.12.1 of Section M of the UNC in paragraph M5.14.2 shall be interpreted as references to paragraphs 5.12 and 5.12.1 as incorporated into this Part E by Clause 13.1.

paragraph 5.14.4 of Section M of the UNC shall not apply.

16 Daily Read Errors

16.1 For the purposes of this Clause 16 the provisions of paragraph 5.15 of Section M of the UNC shall apply with the following changes:

the reference to paragraph 5.6 of Section M of the UNC in paragraph 5.15.1(a) shall be interpreted as a reference to paragraph 5.7 as incorporated into this Part E by Clause 7.1

the reference to paragraph 5.7 of Section M of the UNC in paragraph 5.15.1(a) shall be interpreted as a reference to paragraph 5.7 as incorporated into this Part E by Clause 8.1

the references to "Transporter" in paragraphs 5.15.1(b), 5.15.2, 5.15.7 and 5.15.8 shall be interpreted as references to the "Large Transporter"

the reference to paragraph 5.3 of Section M of the UNC in paragraph 5.15.2(a) shall be interpreted as a reference to paragraph 5.3 as incorporated into this Part E by Clause 4.1

paragraphs 5.15.3, 5.15.4 and 5.15.5 shall not apply.

17 Class 1 Supply Meters

- 17.1 In respect of a Class 1 Supply Meter “**Daily Meter Readings**” for a Day are Meter Readings obtained by the Class 1 Read Provider by means of Daily Read Equipment for the start and end of the Day.
- 17.2 The Registered User of a Class 1 Supply Meter Point acknowledges that the Class 1 Read Provider is pursuant to the LDZ CSEP Ancillary Agreement or DSC service line responsible for obtaining and providing Valid Meter Readings and for calculating the quantity of gas offtaken at such Supply Meter which quantity so calculated shall be deemed to be the quantity delivered in respect of the Class 1 Supply Meter Point at the CSEP and offtaken at the Class 1 Supply Meter Point.
- 17.3 For a Class 1 Supply Meter point the CDSP will provide to the Pipeline Operator Daily Meter Readings for the Supply Meter within 5 Supply Point Systems Business Days after the Class 1 Read Provider has provided the same to the CDSP.

18 Ownership of Meter Reading Data

- 18.1 Part K25 applies in respect of the ownership of data relating to Meter Readings.
- 18.2 Each Pipeline User shall secure that its arrangements with any Meter Reader are consistent with Part K25 and Clause 17.3 above.

19 Meter Error

- 19.1 For the purposes of this Clause 19 the provisions of paragraph 1.10 of Section M of the UNC shall apply.

20 Consumption Adjustment

- 20.1 For the purposes of this Clause 20 the provisions of paragraph 1.9 of Section M of the UNC shall apply with the following changes:

The references to “Transporter” shall be interpreted as a reference to “Large Transporter”.

21 Updated Meter Readings

- 21.1 For the purposes of this Clause 21 the provisions of paragraph 5.16 of Section M of the UNC shall apply.

22 Performance Assurance: Class 2 and 3 Supply Meter Points

- 22.1 For the purposes of this Clause 22 the provisions of paragraph 5.17 of Section M of the UNC shall apply.

23 Missing DRN Reads

For the purposes of this Clause 23 the provisions of paragraph 5.18 of Section M of the UNC shall apply with the following changes:

Paragraph 5.18.5 shall be replaced with:

Following identification of a Missing DRN the CDSP shall, as soon as reasonably practicable following the Adjustment Review Date, determine (by reference to the Missing DRN Meter Reading, or any Replacement DRN Meter Reading) the Metered Quantity for the Adjustment Period for the relevant Supply Meter, and notify such to the relevant Pipeline Operator, the incoming User and the outgoing User, and where the Metered Quantity:

- (a) is greater than the Relevant Quantity, the IGT Transportation Charges and the Metering Charges where relevant payable in respect of the Adjustment Period shall be the responsibility of the incoming User, and the Pipeline Operator shall (in accordance with Part G Pipeline Transportation Charges, Invoicing, Payment and Code Credit, and Part D Supply Meter Installation and by credit or debit) make such adjustments as are required to the IGT Transportation Charges and the Metering Charges where relevant payable by the incoming User and the outgoing User in relation to the Adjustment Period;
- (c) is equal to or less than the Relevant Quantity, no adjustment shall be made to the IGT Transportation Charges and the Metering Charges where relevant payable in respect of the Adjustment Period (which shall remain the responsibility of the outgoing User).

Paragraph 5.18.6 shall be replaced with:

No other adjustment shall be made to the IGT Transportation Charges and the Metering Charges where relevant payable by the incoming User or outgoing User due to a Missing DRN in relation to relevant Supply Meter and the Adjustment Period following submission on any other Meter Reading with a Read Date which falls in the Adjustment Period.

PART F - DAILY AND ANNUAL QUANTITIES AND SHRINKAGE

1 General

- 1.1 For the purposes of this Part F the CSEP shall be treated as comprising separately;
- (a) a Connected System Exit Point in respect of all the NDM Supply Points ("**NDM CSEP**");
 - (b) a Connected System Exit Point in respect of all the DM Supply Points ("**DM CSEP**").

2 Demand Determination – DM Supply Points

- 2.1 It is acknowledged by Pipeline Users that the Large Transporter will require for the purposes of the UNC that DM Output Nominations be made to it in respect of each DM Supply Point by the relevant CSEP User and that accordingly, the Pipeline Operator shall not have any responsibility to make the same.
- 2.2 The quantity of gas offtaken at a DM Supply Point in respect of a Day ("**DM Demand**") shall be determined as the aggregate of the quantities offtaken at each DM Supply Meter Point comprised in that DM Supply Point as determined by the Large Transporter by Daily Meter Readings or estimation. It is acknowledged that the DM Demand as so determined will be used by the Large Transporter for the purposes of the UNC and in particular for determining the UDQOs of CSEP Users in respect of the DM CSEP.

3 Demand Determination – NDM Supply Points and NDM Sampling

- 3.1 The UNC provides (in Section H of the UNC) for the establishment of Demand Models and End User Categories for each Gas Year.
- 3.2 Pipeline Users acknowledge that it is aware of the consultation process provided for in the UNC in respect of such matters.
- 3.3 The Pipeline Operator will adopt and apply for each Gas Year the End User Categories (of NDM Supply Point) established by the Large Transporter pursuant to Section H1.9 of the UNC, and will allocate each NDM Supply Meter Point to one of such categories.
- 3.4 Where a pipeline User is an NDM Sampling Shipper User, such as Pipeline User shall comply with paragraphs 1.6.10 through 1.6.14 of Section H of the UNC.

4 Determination of NDM Annual Quantities

- 4.1 The Pipeline Operator will determine the Annual Quantity ("AQ") for a Supply Meter Point for a Gas Year in accordance with Part CI 6.

5 Records

- 5.1 The Pipeline Operator will maintain records for each NDM Supply Meter Point of the Annual Quantities and values of any other variable ("**a relevant variable**") by reference to which End User Categories are (in any Gas Year) defined.
- 5.2 The Pipeline User will provide to the Pipeline Operator any information relating to any relevant variable to enable the Pipeline Operator to comply with Clause 5.1.

6 Relevant Metered Period

NOT USED.

7 NDM Offtake Quantities

- 7.1 The quantities nominated for offtake by Pipeline Users each Day from the Large Transporter System at the NDM CSEP, and the quantities determined (after each Day) to have been so offtaken at the NDM CSEP, will be determined on the same basis as is provided for in Sections C, E and H of the UNC.

8 Calculation by the Pipeline Operator in respect of NDM Supply Points

NOT USED

9 NDM Supply Meter Point Demand

- 9.1 The Large Transporter will calculate NDM Supply Meter Point Demand in respect of each Supply Point as per TPD Section C of the UNC.

10 Reconciliation – DM CSEP

- 10.1 It is acknowledged that reconciliation in respect of the DM CSEP for the purposes of the UNC will be carried out by the Large Transporter pursuant to the terms of the LDZ CSEP Ancillary Agreement.

11 Reconciliation – NDM CSEP

- 11.1 It is acknowledged that for the purposes of the UNC, the Large Transporter will determine Supply Point Reconciliation Quantities. Reconciliation in respect of Supply Points will be determined by the Large Transporter pursuant to the terms of the UNC.
- 11.2 Notwithstanding the fact that the Large Transporter may require Supply Point Reconciliation under the UNC, the Pipeline Operator shall not be required to make any adjustment to any Invoice Amount as a result thereof unless the Pipeline Operator agrees that without such adjustment, the Pipeline User would make or would have made a payment which is materially more or less than that which would be or have been required if Supply Point Reconciliation were to be taken into account.

12 Pipeline shrinkage

- 12.1 For the purposes of this Code:

- (a) **"Pipeline Shrinkage"**: means gas offtaken from the Large Transporter System at the CSEP which is lost from or unaccounted for as offtaken from the Pipeline, including gas lost or unaccounted for by reason of leakage, theft, meter error and meter correction.
- (b) **"Pipeline Shrinkage Factor"**: is a factor calculated (as an average for all Days in the Gas Year), for any quantity to be offtaken from the Large Transporter System at the CSEP, as the sum of such quantity and the Pipeline Shrinkage attributable thereto divided by such quantity.

13 Calculation of Pipeline Shrinkage Factor

- 13.1 Not later than 1st August in each Gas Year the Pipeline Operator shall:
- (a) in good faith and as accurately as is reasonably practicable:
- (i) assess whether the Pipeline Shrinkage Factor will in the current Gas Year have accurately reflected Pipeline Shrinkage; and
- (ii) estimate (in accordance with Clause 13.2) the value of the Pipeline Shrinkage Factor to apply in the following and in each Gas Year;

- (b) provide to the Large Transporter such estimated value and assessment and details (sufficient to enable the Large Transporter to verify the same) of the basis on which such value was estimated and assessment was made.
- 13.2 The value of the Pipeline Shrinkage Factor to apply in a particular Gas Year shall be established so as to take account of the extent by which (in accordance with Clause 13.1(a)(i) it is assessed that Pipeline Shrinkage in the preceding year will be over or under-estimated.
- 13.3 Each Pipeline User acknowledges that the Pipeline Shrinkage Factor in respect of the First Gas Year is as set out in the IGTAD.
- 13.4 Each Pipeline User shall provide to the Pipeline Operator in a timely manner all relevant information in order to help the Pipeline Operator to comply with its obligations under clause 13.1(a).
- 13.5 The Pipeline Operator shall negotiate in good faith with the Large Transporter in respect of the determination of the Pipeline Shrinkage Factor, and shall use (as far as is reasonably practicable) the information provided to the Pipeline Operator by Pipeline Users in accordance with Clause 13.4.

PART G - PIPELINE TRANSPORTATION CHARGES, INVOICING, PAYMENT AND CODE CREDIT

1 Transportation Charges

1.1 For the purposes of the Code:

- (a) **"Transportation Charges"** are charges payable by a Pipeline User in respect of a transportation arrangement under the Code, and (subject to Clause 1.3) are those charges identifiable as such in the Transportation Statement; and
- (b) the **"Transportation Statement"** is the prevailing statement furnished by the Pipeline Operator to the Authority pursuant to the terms of the Pipeline Operator's Licence.

1.2 Where any element of a Transportation Charge is payable by a Pipeline User pursuant to a contract other than one made upon the terms of the Code, such element shall not in addition be payable under the Code.

1.3 The further provisions of the Code set out the basis on which Transportation Charges are payable by Pipeline Users; provided that (subject to Clause 2.2) where:

- (a) the prevailing Transportation Statement provides for any charge which is not provided for in the Code; and
- (b) the amount payable by way of such charge in any case is capable of being determined by reference to the provisions of the Code prevailing at the time

such charge shall be a Transportation Charge and shall be payable by Pipeline Users or Pipeline Users of such class in accordance with the relevant provisions of the Transportation Statement and further provided that for the avoidance of doubt, Transportation Charges are determined by

- (a) reference to the methodologies referred to in; or
- (b) as otherwise determined by

the Pipeline Operator's Licence.

1.4 For the avoidance of doubt Clause 1.3(b) shall not be taken as requiring that the Code should provide for the determination or (other than by virtue of Clause 7.8) payment of any such charge as is therein referred to.

1.5 The basis on which the Pipeline Operator will reduce any Transportation Charges pursuant to paragraph 5 of Standard Condition 7 of the Pipeline Operator's Licence is not contained in the Code; and nothing contained in the Code shall be taken to prevent the Pipeline Operator from reducing such charges in accordance with that Standard Condition.

2 Rates and amount of Transportation Charges

2.1 Subject to Clause 2.2 to 2.4, the amount or rate of any Transportation Charge payable at any time by a Pipeline User shall be determined in accordance with the Transportation Statement in force at the time such Transportation Charge accrues (irrespective of when it is due for payment); and accordingly the rate of the Transportation Charges payable by a Pipeline User may vary during the period for which the Pipeline User holds any Capacity or is the Registered User of any Supply Point.

- 2.2 The Pipeline Operator agrees that except where any other provision of the Pipeline Operator's Licence requires notice of a shorter period to be given each notice given by it to the Authority pursuant to paragraph 2(b) of Standard Condition 4 of the Pipeline Operator's Licence will be given, and published in accordance with paragraph 2(a) of Standard Condition 4 thereof, not less than 60 Days before the date on which its proposals therein referred to are (pursuant to a revised Transportation Statement) to be implemented, except where any other provision of the Pipeline Operator's Licence requires notice of a shorter period to be given.
- 2.3 In accordance with paragraph 4 of Standard Condition 4 of the Pipeline Operator's Licence, the amount or rate of any Transportation Charge may with the approval of the Authority differ from what is provided for in the Transportation Statement.
- 2.4 In respect of any Transportation Charge in respect of a point on the Pipeline:
- (a) in the case of a Transportation Charge in respect of an amount of Capacity, the "**Applicable Daily Rate**" is the daily rate of such charge, in pence per kWh/Day of Capacity; and the "**Applicable Annual Rate**" is 365 times the Applicable Daily Rate;
 - (b) in the case of a Transportation Charge which is determined by reference to a quantity of gas flow or gas offtaken, the "**Applicable Commodity Rate**" is the rate of such charge, in pence per kWh of gas flow;
- in each case in accordance with Clause 2.1 to 2.3, and (where any such rate varies according to the time of year) as applicable from time to time.
- 2.5 Subject to Clause 2.3, where the prevailing Transportation Statement does not provide for the determination of any particular Transportation Charge in any particular case, the rate of such Transportation Charge shall be deemed to be zero.

3 Invoicing

- 3.1 The amounts payable by Pipeline Users to the Pipeline Operator and by the Pipeline Operator to Pipeline Users in accordance with the Code will be invoiced and payable in accordance with this Part G.
- 3.2 The Pipeline Operator will submit to each Pipeline User Invoice Documents in respect of each Billing Period in accordance with this Part G. For IGT Transportation Charges Invoices the Pipeline Operators will use the IGT Transportation Invoice Charges Template.
- 3.3 For the purposes of this Part G:
- (a) subject to Clause 3.4, a "**Billing Period**" is a calendar month;
 - (b) a "**Billing Day**" is a Day in a Billing Period;
 - (c) an "**Invoice Document**" is an invoice or an invoice supporting document or data submitted by the Pipeline Operator to a Pipeline User pursuant to this Part G;
 - (d) an "**Invoice Item**" is an item (in respect of all charges of a particular kind) shown as payable by the Pipeline Operator or by a Pipeline User in an Invoice Document;
 - (e) the "**Invoice Amount**" in relation to an Invoice Item is the amount shown as payable by the Pipeline User or the Pipeline Operator in respect of that item under the relevant Invoice Document.

- (f) an **"IGT Transportation Charges Invoice"** is an invoice submitted by the Pipeline Operator to a Pipeline User pursuant to this Part G for "IGT Transportation Charges".
- (g) the **"IGT Transportation Invoice Charges Template"** is the IGT UNC Ancillary Document 'RPC Invoice Template'.
- (h) The **"RPC Supporting Data"** is invoice supporting data and is an **Invoice Document**
- (i) **"System Failure"** is an event or circumstance affecting:
 - (i) the Computer System of a Pipeline Operator that affects the ability of that Pipeline Operator to generate information for communication or to give or receive communications associated with that information: or
 - (ii) the ability of the CDSP to generate and communicate accurate information in whole or in part to the Pipeline Operator in the form and by the method set out in the Data Services Contract between the Pipeline Operator and the CDSP (unless the Pipeline Operator and the CDSP have agreed otherwise); or
 - (iii) the CDSP managed and operated communication mechanism and the ability of the CDSP or the Pipeline Operator to receive or send the RPC Supporting Data to the Pipeline User as required in this Clause 3.

For the avoidance of doubt, planned Computer System downtime that has been notified by the Pipeline Operator or by the CDSP to the Pipeline Operator does not constitute System Failure.

- 3.4 A reference to a Billing Period in the context of an Invoice Document containing an adjustment pursuant to Clause 8 or interest payable pursuant to the provisions of this Part G is to the period from the date of accrual of the first to that of the last accruing amount contained in such Invoice Document.

4 Invoice Document

- 4.1 Each Invoice Document will specify:

- (a) the identity of the Pipeline User;
- (b) the Billing Period to which the Invoice Document (other than as respects any Invoice Credit) relates;
- (c) in respect of each Invoice Item, the Invoice Amount;
- (d) a unique number by which the Invoice Document may be identified, and a reference number for each Invoice Item;
- (e) the amount of Value Added Tax (if any) payable in respect of each Invoice Item and any further details required pursuant to the Value Added Tax Regulations 1995;
- (f) the current date; and
- (g) the Invoice Due Date.

- 4.2 Adjustments by way of credit ("**Invoice Credit**") in respect of an Invoice Amount will unless the Pipeline Operator's Network Code provides otherwise be contained in separate Invoice Documents.

- 4.3 An Invoice Document which contains an Invoice Credit will also identify the Invoice Document and Invoice Item to which the Invoice Credit relates and the amount of Invoice Credit.
- 4.4 An Invoice Document shall take effect as a separate invoice in respect of each Invoice Item, but without prejudice to Clause 16.
- 4.5 Unless the Pipeline Operator's Network Code provides otherwise, (in which case the Invoice Remittance Advice will be provided and completed by the Pipeline User, each Invoice Document will be accompanied by a remittance advice ("**Invoice Remittance Advice**") to be completed by the Pipeline User.
- 4.6 The Pipeline Operator will submit RPC Supporting Data to the Pipeline User by the communication method in the form and manner described in Clause 4.11. Where the Pipeline Operator's Network Code so provides, the Pipeline Operator will submit the other Invoice Documents to Pipeline Users by System Communication in the form and the manner described in the Manual and subject to Clause 4.7 will be accompanied by the supporting data (not including the RPC Supporting Data) specified in respect of each item in the Manual (the supporting data in respect of any such System Communication comprising all data contained therein other than that described in Clause 4.1 and the RPC Supporting Data). Pipeline Users are required to ensure that Invoice Documents submitted by Pipeline Operators in the manner specified can be received.
- 4.7 An Invoice Document submitted pursuant to Clause 4.6 will not be invalid solely by reason of its not being accompanied by any particular item of supporting data but (in accordance with Clause 17(c)(i)), the specificity of any Invoice Query will depend on the extent to which such data was provided.
- 4.8 Where Clause 4.6 does not apply, Invoice Documents will be submitted in the manner and format determined by the Pipeline Operator.
- 4.9 Subject to PART CI paragraph 7.1 and PART CV paragraphs 2.3 and 2.9 and PART G paragraphs 9.1 and 9.2, where an invoice is issued to a Pipeline User that relates to use of a Pipeline for the period commencing on or after the Project Nexus Implementation Date the IGT UNC Operator must ensure that any Transportation Charges for a Supply Meter Point are only included in the invoice where the Supply Meter Point is recorded in the name of that elected Pipeline User by the Pipeline Operator Agency for the entire period to which the Transportation Charges relate.
- 4.10 Subject to PART CI paragraph 7.1 and PART CV paragraphs 2.3 and 2.9 and PART G paragraphs 9.1 and 9.2, where a Supply Meter Point is recorded in the name of an elected Pipeline User by the Pipeline Operator Agency for the entire period to which the Transportation Charges relate then that Pipeline User is liable to pay such Transportation Charges.
- 4.11 Where the Pipeline Operator is required to send RPC Supporting Data to the Pipeline User as required in this Part G the Pipeline Operators will submit the RPC Supporting Data via the secure communication mechanism provided in UK Link according to the UK Link Manual.

5 Invoice Timing

- 5.1 The Pipeline Operator shall render to the Pipeline User by no later than 5pm on the 5th Business Day after each Billing Period the Invoice Documents in respect of that Billing Period.

- 5.2 No delay by the Pipeline Operator in submitting an Invoice Document shall prejudice the liability (once such an Invoice Document has been submitted) of the Pipeline Operator or the Pipeline User for the amounts shown subject thereto.
- 5.3 Where the deadline in paragraph 5.1 cannot be met for the RPC Supporting Data the Pipeline Operator shall provide the data to the Shipper at the earliest opportunity and in the event of a delay the Pipeline Operator shall provide daily updates in respect of the delay to the relevant Pipeline User's contact for the duration of the delay.

6 Value Added Tax

All amounts expressed as payable by a Pipeline User or the Pipeline Operator pursuant to the Code, and whether the amount thereof is set out in the Code or determined by reference to the Transportation Statement or Metering Charges Statement or otherwise, are exclusive (unless expressly otherwise stated) of any applicable Value Added Tax (and accordingly Value Added Tax shall be paid by the paying party where payable in respect of any such amount).

7 Termination and Insolvency

- 7.1 The Pipeline Operator may at any time (whether before or after the User Discontinuance Date) after submitting to a Pipeline User a Termination Notice under Part K submit to that Pipeline User any Invoice Document in respect of any Billing Period or part of a Billing Period ending at or before the time at which the Pipeline Operator submits such Invoice Document.
- 7.2 Where the Pipeline Operator has submitted a Termination Notice to a Pipeline User, all amounts payable by that Pipeline User to the Pipeline Operator or by the Pipeline Operator to the Pipeline User (whether the Invoice Document in which such amounts are shown was submitted before or after the date of the Termination Notice) shall be immediately payable notwithstanding Clause 10.
- 7.3 Notwithstanding Clause 5, the Pipeline Operator may, at any time on or following the occurrence of any of the events set out in Part K7.1(c) in relation to any Pipeline User, submit to that Pipeline User any Invoice Document in respect of any Billing Period or part of a Billing Period ending at or before the time at which the Pipeline Operator submits such Invoice Document.
- 7.4 In relation to a Pipeline User, on the occurrence of any of the events set out in Part K7.1(c), all amounts payable to the Pipeline Operator (whether the Invoice Document in which such amounts are shown was submitted before or after the date of the occurrence of any of the events set out in Part K7.1(c)) shall be immediately payable notwithstanding Clause 10.
- 7.5 Where a Pipeline User has been given notice (a "User Premises Termination Notice") and is a Premises Termination User in accordance with paragraph 4.8.9 of UNC TPD Section G, the following UNC provisions shall apply with regards to User Premises Termination:
- UNC TPD Section D paragraph 6.1.2.
 - UNC TPD Section E paragraphs 10.1.1, 10.1.2, 10.2.1 10.2.2 and 10.3.1.
 - UNC TPD Section G paragraphs 4.8.1, 4.8.2 to 4.8.11
 - UNC TPD Section G paragraphs 4.8.12 a) b) i) ii) iv) and v)
 - UNC TPD Section G paragraphs 4.8.13 to 4.8.16, 5.1.3, 5.7.8, 5.8.2 and 5.8.3.

8 Invoice adjustment

- 8.1 Subject to Clause 8.3 where it appears to the Pipeline Operator that any Invoice Amount has been incorrectly stated in an Invoice Document, the Invoice Amount will be adjusted.
- 8.2 An adjustment (by way of debit) representing an increase in an Invoice Amount shall be a new Invoice Amount in respect of which the Invoice Due Date will be the Invoice Due Date of the relevant Invoice Document.
- 8.3 In the absence of fraud, after the expiry of 18 months (or any other period agreed between the Pipeline Operator and the Pipeline User) after the Invoice Due Date (in accordance with Clause 10.1) in respect of any Invoice Document:
- (a) no adjustment may be made to an Invoice Amount under that Invoice Document, other than:
 - (i) an adjustment of which the Pipeline Operator has given notice to the Pipeline User; or
 - (ii) an adjustment pursuant to an Invoice Query raised by a Pipeline User (in accordance with Clause 16)before the expiry of such period;
 - (b) no Invoice Query may be raised in respect of the Invoice Document; and
 - (c) the Invoice Document shall (subject to any adjustments already made and any permitted under paragraph (a)) be deemed to be final and conclusive as to the amounts shown as payable thereunder.

9 Contingencies

9.1 Estimated invoicing

- 9.1.1 Subject to paragraph 9.1.4, in the event that, as a result of a System Failure under 3.3(i)(i), the Pipeline Operator is unable to produce or submit any Invoice Documents within 7 Days after the expected date (in accordance with paragraph 5) of submissions thereof;
- (a) The Pipeline Operator may prepare and submit an Invoice Document containing estimated Invoice Amount(s);
 - (b) Such an Invoice Document will be a valid Invoice Document; and
 - (c) Supporting data will be provided with the Invoice Document together with an explanation of the basis of estimation.
- 9.1.2 Where the Pipeline User believes that the Pipeline Operator's estimate or basis of estimation is materially inaccurate, the Pipeline User shall as soon as reasonably practicable after receiving the Invoice Document (and in any event before the Invoice Due Date) contact the Pipeline Operator and discuss the estimate or basis of estimation with a view to agreeing upon a more accurate estimate of the amount which is payable, which amount (if so agreed) shall be the amount payable by the Pipeline User in respect of the Invoice Document issued in accordance with paragraph 9.1, but without prejudice to paragraph 8.1 or 18.
- 9.1.3 Where (following discussion under paragraph 9.1.2) the Pipeline User raises an Invoice Query under paragraph 17.1:
- (a) paragraph 17.1 (c)(i) shall apply on the basis of the detail provided of the basis of estimation; and

- (b) for the purposes of paragraph 17.1 (c)(ii), the Pipeline User shall specify the amount by which the Pipeline User reasonably believes the Pipeline Operator's estimate to be under- or over-stated.
- 9.1.4 Except with the agreement of a Pipeline User, the Pipeline Operator may not on the occurrence of any System Failure described by paragraph 3.3(i)(i) submit Invoice Documents containing estimated Invoice Amounts under this paragraph 9.1 in respect of consecutive Billing Periods.
- 9.1.5 For the avoidance of doubt paragraph 9.1.4 shall not apply in respect of an event described by paragraph (3.3(i)(ii).

9.2 Contingency Invoicing

- 9.2.1 In the event of any System Failure under paragraph (3.3(i)(ii), that has occurred at any time during the current, or a previous Billing Period, but that has not yet been rectified before Actual Invoicing takes place, the Pipeline Operator will invoke Contingency Invoicing provisions, as set out in this section 9.2.
- 9.2.2 "**Actual Invoicing**" is the process of generating and submitting Invoice Documents to Pipeline Users using data updates provided by the CDSP to the Pipeline Operator. For the avoidance of doubt, Actual Invoicing is the business as usual process for creating and submitting Invoice Documents as set out in paragraphs 3 and 4 of this Part G.
- 9.2.3 "**Contingency Invoicing**" is the process of generating and submitting Invoice Documents where Actual Invoicing cannot be undertaken due to any occurrence of System Failure under paragraph 3.3(i)(ii) that has not been rectified within a single billing period, and therefore inhibits the ability of the Pipeline Operator to produce Invoice Documents using actual data updates. Any Invoice Documents produced under the Contingency Invoice process will be known as "Contingency Invoices", or "Contingency Invoice Documents" and take the same meaning as within this definition.
- 9.2.4 The Pipeline Operator must, at all times during the Contingency Invoicing process, follow the process as described in this paragraph 9.2.4;
 - (a) The amount payable on the Contingency Invoice will be the same as the amount paid on the last actual Invoice Document issued by the Pipeline Operator and subsequently paid by the Pipeline User, before System Failure, plus any New Supply Points with a Supply Point Registration Date that falls within the period covered by the Contingency Invoice, if included.
 - (b) Where the Pipeline Operator identifies that Actual Invoicing is not possible, and in any case prior to the Contingency Invoice being presented to the Pipeline User, the Pipeline Operator will issue an email notification to the Pipeline User advising them accordingly. The email notification will include:
 - i. The reason for invoking Contingency Invoicing processes,
 - ii. Confirmation that the System Failure is in line with paragraph 3.3(i)(ii),
 - iii. That the appropriate System Failure has been escalated to the CDSP, and has been confirmed as a P1, P2, or P3 incident in accordance with the UK Link Manual, along with date of escalation and date of confirmation that the System Failure was confirmed to be a P1, P2, or P3 incident by the CDSP,
 - iv. The CDSP issued incident number,
 - v. The expected date of System Failure fix, if known,

- vi. The Billing Period and Invoice Document number that the Contingency Invoice Document refers to; and,
 - vii. Confirmation that New Supply Points will or will not be included in the Contingency Invoice.
- (c) Where the System Failure is so recent that the CDSP has not yet categorised the incident as meeting P1, P2, or P3 criteria, the Pipeline Operator will state that they will provide the information set out in paragraph 9.2.4(b)(iv) and 9.2.4(b)(v) to the Pipeline User as soon as it has been provided by the CDSP.
 - (d) Unless otherwise requested by the Pipeline User, the Pipeline Operator will issue the notification to the iGT UNC Contract Manager.
 - (e) The B14 and B15 Charge Types contained within the RPC Invoice Template will only be used for the purposes of Contingency Invoicing where System Failure has occurred in accordance with paragraph 3.3(i)(ii).
 - (f) Any Invoice Queries raised to the Pipeline Operator by the Pipeline User must clearly reference the Contingency Invoice number that the query is related to.
 - (g) Where the system of the Pipeline Operator allows, New Supply Points will be highlighted as a separate line on the Contingency Invoice.
 - (h) After periods of System Failure where Contingency Invoicing provisions have been invoked, the Pipeline Operator will issue, ahead of reverting to Actual Invoicing, a closure email notification that will contain:
 - i. The CDSP issued incident number,
 - ii. Confirmation that the incident has been closed,
 - iii. The date of the CDSP incident closure,
 - iv. The Contingency Invoice number(s) and Billing Period(s) that the Contingency Invoices relate to; and,
 - v. Confirmation that Contingency Invoicing has ceased, and that Actual Invoicing will resume with Contingency Invoice adjustments as necessary.
 - (i) In reconciliation of the Contingency Invoice, any retrospective charges and/or credits not previously accounted for within the B14 Charge Type will be levied by way of an adjustment using the B15 Charge Type. All Contingency Invoice adjustments will be completed by the Pipeline Operator within 6 months of the resolution of the System Failure under paragraph 3.3(i)(ii) and of the resuming provision of accurate data to the Pipeline Operator by the CDSP.
 - (j) During Contingency Invoicing, or at any time during Contingency Invoicing reconciliation, interest will not be applied on balances owed to either the Pipeline Operator or the Pipeline User.
 - (k) The Contingency Invoicing process should continue for no longer than 6 consecutive full Billing Periods. The Pipeline Operator and other relevant industry parties will work with the CDSP and, where appropriate the Pipeline User, to ensure that each instance of System Failure under paragraph 3.3(i)(ii) is fully rectified no later than the 6 month period following the incident being created. For the avoidance of doubt, where an instance of System Failure under paragraph 3.3(i)(ii) has concluded and the subsequent Billing Period is maintained via Actual Invoicing, and is then followed by a further new instance

of System Failure under paragraph 3.3(i)(ii), the principles in this Part G 9.2 shall be followed as if it was an initial failure.

- 9.3 Paragraphs G4.9 and G4.10 shall not apply where there has been an instance of System Failure that results in either an Invoice Document containing estimated Invoice Amounts as set out under 9.1 or a Contingency Invoice Document as set out under 9.2 being issued.
- 9.4 Where a System Failure described in 3.3(i)(iii) prevents the Pipeline Operator from providing the RPC Supporting Data via the secure communication mechanism provided by UK Link by the deadline specified in Clause 5.1 the Pipeline Operator
- (a) will inform the relevant Pipeline User's contact of the circumstances of the System Failure.
 - (b) may submit the RPC Supporting Data in the format required in the UK Link Manual by System Communication in the form and the manner described in the Manual, where provided by the Pipeline Operator's Network Code, or email.

10 Invoice Due Date

- 10.1 Subject to Clauses 7.3, 7.4 and 17.2, the Invoice Amounts under each Invoice Document shall be paid (by the Pipeline User to the Pipeline Operator or by the Pipeline Operator to the Pipeline User, as the case may be) on or before the Invoice Due Date.
- 10.2 The **"Invoice Due Date"** in respect of an Invoice Document is the date ending at 24:00 hours on:
- (a) subject to paragraph (b), whichever is the later of:
 - (i) the 12th Day after the Day on which the Invoice Document was deemed to be received in accordance with the provisions of the Code; and
 - (ii) the 20th Day after the last Day of the Billing Period to which the Invoice Document relates;
 - (b) where the Day (the **"target due date"**) determined under paragraph (a) is not a Business Day:
 - (i) subject to paragraph (ii), the Business Day (whether before or after the target due date) which is nearest to the target due date; or
 - (ii) if the nearest Business Days before and after the target date are equally near, the nearest Business Day after the target due date.

11 Payment Details

- 11.1 Payment of any amount payable under the Code shall be made in pounds sterling in same day funds to the account of the payee at the bank in the United Kingdom notified to the paying party in accordance with Clause 11.2.
- 11.2 The Pipeline Operator will notify each Pipeline User, and each Pipeline User shall notify the Pipeline Operator, of the account name and number, and the name, address and sort code of the account bank, to which payments to the Pipeline Operator by such Pipeline User or (as the case may be) to such Pipeline User by the Pipeline Operator are to be made, within 5 Business Days after the User Accession Date, and of any change in such details not less than 30 Days before such change occurs.

- 11.3 The payer shall instruct the bank remitting payment of any amount payable under the Code to quote the number (under Clause 4.1(d)) of the relevant Invoice Document to the payee's bank when remitting such payment.
- 11.4 Where a Pipeline User is an Affiliate of the Pipeline Operator, the Pipeline Operator may permit payment by internal accounting transfer or other mechanism.

12 Deductions, withholdings, taxes etc

- 12.1 Without prejudice to Clause 17.2, amounts payable under the Code shall be paid:
- (a) free and clear of any restriction, reservation or condition; and
 - (b) except to the extent (if any) required by law, without deduction or withholding in respect of tax or on account of any amount due or to become due to the paying party, whether by way of set off, counterclaim or otherwise.
- 12.2 If, in respect of payment to be made to the Pipeline Operator by a Pipeline User, any deduction or withholding is required to be made by the law of any country other than a country of the United Kingdom, the Pipeline User shall:
- (a) ensure that the amount of such withholding or deduction does not exceed the minimum so required;
 - (b) forthwith pay the Pipeline Operator such additional amounts as will ensure that the net amount received by the Pipeline Operator will be equal to that which would have been received had no deduction or withholding been made; and
 - (c) pay the amount withheld or deducted to the relevant authority in accordance with the relevant requirement of law, and provide to the payee a receipt issued by such authority or (if such receipt is not available) a certificate in respect of such payment.

13 Remittance Advice

- 13.1 Where payment of any amount is made pursuant to an Invoice Document, the Pipeline User shall complete and submit to the payee the Invoice Remittance Advice not later than the Day on which payment is made (but no inability of the Pipeline User to do so shall affect its obligation to make payment).
- 13.2 The completed Invoice Remittance Advice shall specify:
- (a) the date when payment is to be made;
 - (b) the amounts, by reference to each Invoice Item (payable to the Pipeline Operator) specified in the Invoice Document, in respect of which the payment is to be made, and the total amount to be paid;
 - (c) any amount or amounts, by reference to each Invoice Item, in respect of which payment is not being made pursuant to Clause 17.2.
- 13.3 Where the Pipeline Operator makes payment of any amount pursuant to an Invoice Document, the Pipeline Operator will not later than the date on which payment is made notify the Pipeline User of details equivalent to those to be specified in an Invoice Remittance Advice pursuant to Clause 13.2 (but no inability of the Pipeline Operator to do so shall affect its obligation to make payment).
- 13.4 Where the Pipeline Operator or a Pipeline User makes a payment under more than one Invoice Document on the same Day, it shall secure that a separate remittance is made in respect of each Invoice Document.

- 13.5 Where the Invoice Document number is not quoted (in accordance with Clause 13.4) with any remittance made by or on behalf of a Pipeline User, and no Invoice Remittance Advice corresponding to the remittance is submitted, the Pipeline Operator will endeavour to obtain the Pipeline User's instructions (by telephone or email) as to the application thereof; but if it has not (by the Business Day following the Day of the remittance) obtained such instructions, the Pipeline Operator will apply the amount remitted to or towards Invoice Amount(s) in order of Invoice Due Date (the earliest first) and proportionately as between Invoice Amounts with the same Invoice Due Date, but applying such amount last to any Invoice Amounts which are subject to an Invoice Query

14 Late Payment

- 14.1 Without prejudice to Part K7, subject to paragraph G9.2.4(j) where any amount payable under an Invoice is not paid on or before the Invoice Due Date, the paying party shall pay interest, after as well as before judgement at the Applicable Interest Rate, on the unpaid amount from the Invoice Due Date until the Day on which payment is made.
- 14.2 For the avoidance of doubt Clause 14.1 shall not be construed as permitting late payment of any Invoice Amount.
- 14.3 Without prejudice to any other rights of the Pipeline Operator under the Code, including without limitation those under Part K7, where in relation to any amount (or amounts in aggregate) of not less than £10,000 which has become due for payment by a Pipeline User under the Code (excluding for the avoidance of doubt amounts which are the subject of an Invoice Query which by virtue of Clause 17.2 have not become due for payment) and the relevant Pipeline User has not paid the amount in full by the due date for payment, the Pipeline Operator shall be entitled to:
- (a) reject or refuse to accept an application by the relevant Pipeline User for increased DM Capacity under Part CII;
 - (b) give the CDSP a Registration Block Notice which shall be effective from the day after the due date for payment until such time as the relevant Pipeline User has paid the amount due for payment in full.

15 Interest

- 15.1 Where pursuant to any provisions of this Part G interest is payable by the Pipeline Operator or a Pipeline User, such interest shall accrue on a daily basis and on the basis of a 365 day year.
- 15.2 Interest payable under this Part G will be compounded to the extent and by virtue of being invoiced (not more frequently than each calendar month) in an Invoice Document, late payment of which will itself be subject to interest under this Clause 15.
- 15.3 The **"Applicable Interest Rate"** is the rate of interest, expressed as a percentage rate per annum, payable in respect of amounts overdue for payment, or subject to repayment, under the Code.
- 15.4 The Applicable Interest Rate shall be:
- (a) except as provided in paragraph (b) the rate of interest set for the relevant period as the statutory interest rate for the purposes of the Late Payment of Commercial Debts (Interest) Act 1998;
 - (b) for the purposes only of Clauses 17 and 18, the base rate for the time being of Barclays Bank Plc plus one (1) percentage point per annum.

16 Invoice Queries

- 16.1 For the purpose of this Part G an **"Invoice Query"** is any question or dispute as to the proper calculation of any amount shown as payable by a Pipeline User or the Pipeline Operator under an Invoice Document or as to whether any such amount is or was properly payable and references to the amount of an Invoice Query are to the amount by which the Pipeline User submitting the Invoice Query considers the Invoice Amount to be incorrect.
- 16.2 A Pipeline User may notify an Invoice Query (subject to Clause 16.3) by telephone or by Conventional Notice.
- 16.3 Where a Pipeline User notifies an Invoice Query by telephone, the Pipeline Operator may (at the time of the telephone communication) require that the Invoice Query be notified by Conventional Notice, in which case the Invoice Query shall be deemed not to have been raised for the purposes of Clause 17.1 until so notified.
- 16.4 The Pipeline Operator and the relevant Pipeline User will endeavour to resolve Invoice Queries by agreement.
- 16.5 Any reference in this Part G:
- (a) to the resolution of an Invoice Query is a reference to the resolution thereof by agreement (at any time) between the Pipeline Operator and the relevant Pipeline User or by determination thereof (in accordance with paragraph (b));
 - (b) to the determination of an Invoice Query is a reference:
 - (i) to the resolution of a dispute in respect thereof under any provision of Part K where applicable;
 - (ii) except as provided in paragraph (i), to the outcome of any proceedings commenced by the Pipeline Operator or the relevant Pipeline User in respect thereof.

17 Invoice Queries before Payment

- 17.1 Where a Pipeline User wishes to raise any Invoice Query in respect of an amount shown as payable by the Pipeline User under an Invoice Document, the Pipeline User may, not later than the Day before the Invoice Due Date, notify (in accordance with Clause 16.2 and 16.3) such Invoice Query to the Pipeline Operator, specifying:
- (a) the date and number of the Invoice Document;
 - (b) the Invoice Item to which the Invoice Query relates;
 - (c) an explanation of the basis on which the Invoice Query arises, and the amount of the Invoice Amount which is subject to the Invoice Query:
 - (i) identified by reference to the particular item of supporting data in respect of which the Invoice Query arises, on the basis of the level of greatest detail of such supporting data provided to the extent that such data was provided by the Pipeline Operator; and
 - (ii) where the basis of the Invoice Query is that the value of any parameter by reference to which the Invoice Amount is determined is incorrectly stated in such supporting data, the amount (estimated accurately as is reasonably practicable) by which such value is incorrectly stated;
 - (d) the amount of the Invoice Amount which is not subject to the Invoice Query, determined on the basis that only so much of the Invoice Amount as is identified in paragraph (c) is subject to the Invoice Query.

- 17.2 Where a Pipeline User raises an Invoice Query in accordance with the requirements of Clause 17.1 (but not otherwise), the amount subject to the Invoice Query (in accordance with Clause 17.1(c)) shall not be payable on the Invoice Due Date, but without prejudice to Clause 17.4.
- 17.3 Except as provided in Clause 17.2, but without prejudice to Clause 18.1, the whole amount shown as payable by a Pipeline User in any Invoice Document shall be payable on the Invoice Due Date.
- 17.4 Where pursuant to Clause 17.2 any amount is not paid on the Invoice Due Date by a Pipeline User, the amount (if any) which is agreed or determined (following resolution of the Invoice Query) to be payable by the Pipeline User shall be payable upon such resolution, and interest from the Invoice Due Date shall be payable in accordance with Clause 14 (but subject to Clause 17.5) on such amount.
- 17.5 For the purposes of Clause 17.4, where it is agreed or determined that the question or dispute the subject of the Invoice Query pursuant to Clause 17.2 was a bona fide question or dispute, the Applicable Interest Rate shall be the rate under Clause 15.4(b) until the expiry of 2 Business Days after the date of resolution of the Invoice Query.

18 Other Invoice Queries

- 18.1 Subject to Clause 8.3, nothing in this Part G shall prevent a Pipeline User from raising any Invoice Query other than pursuant to Clause 17.1, including in respect of any amount after payment has been made in respect of such amount, or from paying any such amount at the same time as notifying an Invoice Query in respect thereof; provided that (without prejudice to the resolution of the Invoice Query) no constructive trust or other implied term as to the receipt or application by the payee of the amount paid shall arise.
- 18.2 Where, upon the resolution of an Invoice Query or otherwise, it is agreed or determined that any amount or part of any amount paid should not have been paid, the payee shall repay such overpaid amount with interest at the Applicable Interest Rate from the date on which payment was made to it or if later the Invoice Due Date until the date of such repayment.

19 Invoicing of resolved Queries

- 19.1 As soon as reasonably practicable after any Invoice Query is resolved, and in any event by the end of the second following month, the Pipeline Operator will prepare and submit to the relevant Pipeline User an appropriate Invoice Document in respect of the amount (if any) agreed or determined to be payable to or repayable (including the amount (if any) of any interest payable) by the Pipeline Operator or the relevant Pipeline User.

20 Portfolio Extract

- 20.1 The Pipeline Operators shall provide a Portfolio Extract to each Pipeline User by the fifth Business Day of each month with details of Supply Meter Points as of the first Business day of that month. The Portfolio Extract shall be issued in either comma separated value or spreadsheet format.
- 20.2 For the purposes of the Code:
- “Portfolio Extract” means the Supply Meter Point data as detailed in Appendix G2 pertaining to each Pipeline User.

21 Code Credit Rules

21.1 Provision of Cover

For the purposes of this Part G:

- (a) "Code Credit Rules" are the rules so entitled and established and revised from time to time by the Pipeline Operator;
- (b) "Code Credit Limit" is an amount representing a Pipeline User's limit of indebtedness to the Pipeline Operator as more particularly defined in the Pipeline Operator's Network Code.

21.1.1 If by the Pipeline Operator, the Pipeline User shall deliver to the Pipeline Operator one or more of the following forms of Collateral and the following conditions of this Clause 21 shall apply. Such that the aggregate value of such Collateral is equal to or greater than the sum notified to the Pipeline User by the Pipeline Operator as the Pipeline User's Value at Risk to the extent that it exceeds the Pipeline User's Credit Allowance:

- (a) a Letter of Credit or equivalent bank guarantee (available for an initial period of not less than six months);
- (b) an Escrow Account Deposit;
- (c) a Cash Deposit; or
- (d) any other form of Collateral as agreed between the Pipeline Operator and the Pipeline User from time to time, including but not limited to performance bonds, bilateral insurance, and independent security. The Pipeline Operator may rate the effectiveness of such Collateral as being between 0% and 100%. Where the effectiveness of such Collateral is rated as less than 100%, its contribution to the aggregate level of Cover provided shall be reduced accordingly.

21.1.1.1 For clarity, the provisions of this Clause 21 refers only to Collateral collected against Transportation Charges.

21.1.2 Any dispute raised by the Pipeline User or the Pipeline Operator on the form of Collateral provided under Clause 21.1.1(d) or on the rating of any such Collateral shall be dealt with under Clause 21.8. Any requirement for payment to be made under such Collateral shall be dealt with in accordance with Clause 21.4.

21.1.3 The Pipeline User may increase the value of Collateral provided or provide additional forms of Collateral at any time during the term of this agreement.

21.1.4 Where:

- (a) There is any reduction in the amount of Collateral provided by the Pipeline User as cover; or
- (b) the Pipeline Operator makes a demand against such Collateral following a Payment Default by the Pipeline User,

the Pipeline User shall provide additional Collateral to ensure that the Pipeline User's Indebtedness Ratio is equal to or lower than the Indebtedness Ratio Limit according to the provisions of this Clause 21.

21.1.5 Notwithstanding Clause 21.1.4, where at any time as a direct consequence of an unanticipated increase in a Pipeline Users registered aggregate "Supply Point Capacity", a Pipeline User's Value at Risk increases materially, a Pipeline User will

have one calendar month from the date of notice given by the relevant Pipeline Operator, to provide additional surety or security and after expiry of such date, or Clauses 21.1.4 (a) and (b) shall apply.

21.2 Calculation of Cover

21.2.1 For the duration of this agreement's application, the Pipeline Operator shall calculate and maintain a record of each of the following values with respect to the Pipeline User, that is to say :

- (a) the Pipeline User's Value at Risk;
- (b) the Pipeline User's Credit Allowance; and
- (c) the Pipeline User's Indebtedness Ratio,

in such manner as will enable the Pipeline Operator, upon request by the Pipeline User, to provide a written and up-to-date statement of such values without delay.

21.2.2 At any time, the Pipeline User's Value at Risk shall be aggregate of:

- (a) billed but unpaid charges and which have been billed to the Pipeline User according to an established billing cycle operated by the Pipeline Operator pursuant to this Clause 21; plus
- (b) the Fifteen Days' Value, which shall be the estimated value of the charges that would be incurred by the Pipeline User for a further 15 days from that time, based on the average daily charges billed to the Pipeline User (whether under this agreement or any use of system agreement applying between the Pipeline User and the Pipeline Operator immediately before this agreement became effective) using the latest available bill raised in respect of a full calendar month (or a number of days that approximates to a full calendar month), according to the established billing cycle operated by the Pipeline Operator; less
- (c) any credit notes and any amounts paid to the Pipeline Operator by the Pipeline User in the form of a Prepayment or an Advance Payment.

21.2.3 The Pipeline User's Credit Allowance (CA here below) shall be calculated according to the following formula: $CA = 5 \text{ times Annual Transportation Revenue} \times 2\% \times CAF$; and CAF is the Credit Allowance Factor (which is to be expressed as a percentage determined pursuant to Clause 21.2.4 or 21.2.5).

21.2.4 Where the Pipeline User has a Credit Rating from an Approved Credit Referencing Agency that is Ba3/BB- or above, CAF shall be determined according to the following table.

Credit Rating		CAF %
Moody's	Standard and Poor's	
Aaa to Aa2	AAA to AA	100
Aa3 to A3	AA- to A-	40
Baa1	BBB+	20
Baa2	BBB	19
Baa3	BBB-	18

Ba1	BB+	17
Ba2	BB	16
Ba3	BB-	15

21.2.5 Where the Pipeline User does not have a Credit Rating from an Approved Credit Referencing Agency that is Ba3 / BB– or above, CAF shall be determined as follows:

- (a) where there is, at the time of such determination, an Independent Credit Assessment that was carried out within the preceding 12 months and the Pipeline User has not requested that the Pipeline Operator use the Pipeline User's Payment Record Factor, CAF shall be determined by reference to the Independent Credit Assessment procured pursuant to Clause 21.2.7 and in accordance with the table set out in Clause 21.2.10; or
- (b) where the Pipeline User has requested that the Pipeline Operator use the Pipeline User's Payment Record Factor or there is not, at the time of such determination, an Independent Credit Assessment that was carried out within the preceding 12 months, CAF shall equal the Payment Record Factor (which shall be determined in accordance with the provisions of Clauses 21.2.12 to 21.2.14).

21.2.6 For the purposes of determining CAF pursuant to Clause 21.2.5(a), the Pipeline User may, once a year, request that the Pipeline Operator obtain an Independent Credit Assessment from a Recognised Credit Assessment Agency chosen by the Pipeline User.

21.2.7 As soon as reasonably practicable following such request (or within such other period as the Pipeline Operator and the Pipeline User may agree), the Pipeline Operator shall procure from that Recognised Credit Assessment Agency (and shall provide to the Pipeline User) a credit assessment of the Pipeline User. Where a Recognised Credit Assessment Agency offers more than one credit assessment product, the Pipeline Operator shall procure an assessment on the basis of the product that the Pipeline Operator and the Pipeline User agree (each acting reasonably) provides the most appropriate assessment of the creditworthiness of the Pipeline User when all factors are taken into consideration.

21.2.8 Where the Recognised Credit Assessment Agency that is used is listed in the table below, and it undertakes an assessment on the basis of one of its credit assessment products listed below, the results of such assessment will give rise to the corresponding Credit Assessment Score set out below:

Credit Assessment Score	Equivalence of the Credit Assessment Score to credit scores provided by Recognised Credit Assessment Agencies in their Independent Credit Assessments.				
	Check It (ICC) – Credit Score Report	Dunn & Bradstreet Report	Equifax	Experian – Business IQ Report	Creditsafe Report
10	95-100	5A1/	A+	95-100	86-100

9	90-94	5A2/4A1	A/A-	90-94	71-85
8	80-89	5A3/4A2/3A1	B+	80-89	61-70
7	70-79	4A3/3A2/2A1	B/B-	70-79	51-60
6	60-69	3A3/2A2/1A1	C+	60-69	41-50
5	50-59	2A3/1A2/A1	C/C-	50-59	30-40
4	40-49	1A3/A2/B1	D+	40-49	25-29
3	30-39	A3/B2/C1	D/D-	30-39	21-24
2	20-29	B3/C2/D1	E+	20-29	15-20
1	10-19	C3/D2/E1	E/E-	10-19	10-14
0	Below 10	E2 to Z inclusive	Below E-	Below 10	Below 10

21.2.9 Where the Recognised Credit Assessment Agency that is used is not listed in Clause 21.2.8 (or where the credit assessment product is not listed in Clause 21.2.8), the Pipeline Operator shall (acting reasonably) determine the applicable Credit Assessment Score on an equivalent basis to that set out in Clause 21.2.8.

21.2.10 Where the value of CAF is to be determined in accordance with Clause 21.2.5(a), the value of CAF shall be that which corresponds in the following table to the Credit Assessment Score set out below.

Credit Assessment Score	CAF (%)
10	20
9	19
8	18
7	17
6	16.66
5	15
4	13.33
3	10
2	7
1	3.33
0	0

- 21.2.11.1 During the 12-month period following completion of an annual Independent Credit Assessment pursuant to Clause 21.2.6, the Pipeline User may request that the Pipeline Operator procure further Independent Credit Assessments for the purpose of requiring the Pipeline Operator recalculate the Pipeline User's Credit Allowance. Where the Pipeline User so requests, Clauses 21.2.7 to 21.2.10 shall apply (provided that, where the Pipeline Operator so requests, the Pipeline User shall pay the Pipeline Operator's reasonable costs in procuring such Independent Credit Assessments. In any event, the Pipeline Operator will set the Pipeline User's Credit Allowance no higher than the lower of the credit value recommended within the Independent Credit Assessment and the credit value calculated by applying the Credit Allowance Factor.
- 21.2.11.2 Where a Pipeline User's Credit Allowance has been revised downwards in accordance with Clause 21.2.7 above, the Pipeline Operator will notify the Pipeline User accordingly on the next Business Day following the occurrence of the event described in Clause 21.2.7.
- 21.2.12 Where the Pipeline User's Payment Record Factor is to be used to determine the Credit Allowance Factor in accordance with Clause 21.2.5(b), the Credit Allowance Factor shall equal the value of the Payment Record Factor determined in accordance with Clauses 21.2.13 to 21.2.15.
- 21.2.13 The Payment Record Factor shall equal the number of months since the Good Payment Performance start date (as specified in Clause 21.2.14) multiplied by 0.033% (that is to say, by 0.4% per annum), subject to the following provisos and caps:
- (a) during the first 36 months from the first relevant account, the Payment Record Factor shall be capped at a maximum value of 1.2% (i.e. the maximum which could be earned in that period);
 - (b) during months 37 to 48 (inclusive) following such first relevant account, the Payment Record Factor shall be capped at a maximum value of 0.7%;
 - (c) during months 49 to 60 (inclusive) following such first relevant account, the Payment Record Factor shall be capped at a maximum value of 0.4%;
 - (d) from and including the 61st month following such first relevant account, the Payment Record Factor shall always be zero; and
 - (e) on each occasion that the User fails to pay the Charges on or before the date by which such payment is required to be made under this agreement (but for which the delay in payment is not so great as to create a new Good Payment Start Date under Clause 21.2.14), the Payment Record Factor that would otherwise apply shall be reduced as follows:

Age of debt (days)	Value of debt as a percentage of previous month's charges*	Effect on Good Payment Performance
1 to 3	<25%	Loss of 25% of previously accrued Good Payment Performance
	≥25% and <75%	Loss of 50% of previously accrued Good Payment Performance
	≥75%	Loss of 100% of previously accrued Good Payment Performance

- 21.2.13A The Pipeline Operator shall give the Pipeline User notice of any adverse change in the calculation of the Payment Record Factor pursuant to Clause 21.2.14.

- 21.2.14 The Good Payment Performance start date shall for Pipeline Users, where the Pipeline User fails, or has failed, on any occasion to pay any relevant account relating to undisputed charges in full on the applicable Payment Date, (and does not remedy that failure within 3 Working Days such that Clause 21.2.13(e) applies) be the date on which a relevant account is submitted in a month subsequent to the month in which such payment failure is remedied (unless having regard to all the circumstances, including in particular the value, duration, and frequency of failure, the Pipeline Operator reasonably determines an earlier date).
- 21.2.15 Where any unpaid disputed invoice is found to have been disputed without merit, a failure to have paid the relevant account in accordance with the terms of this agreement shall be treated as a failed payment and the provisions of Clause 21.2.14 shall apply accordingly.
- 21.2.16 The Credit Code Limit for the Pipeline User shall equal the Credit Allowance plus the aggregate value of the Collateral provided on any day.
- 21.2.17 The Pipeline User's Indebtedness Ratio shall equal the Pipeline User's Value at Risk as a percentage of the Credit Code Limit.
- 21.2.18 If, on any day, the Pipeline User's Indebtedness Ratio equals or is greater than 85% of the Pipeline User's Indebtedness Ratio Limit, the Pipeline Operator shall give notice of this to the Pipeline User.
- 21.2.19 Where credit support is provided for the Pipeline User through a Qualifying Guarantee by a third party (the Credit Support Provider), the maximum Pipeline User's Credit Allowance shall be calculated in accordance with Clause 21.2.3 but substituting the Credit Support Provider for the Pipeline User in all such calculations. Where the value of the Qualifying Guarantee is lower than the Pipeline User's Credit Allowance calculated pursuant to Clause 21.2.3, the Pipeline User's Credit Allowance shall be the maximum value of the Qualifying Guarantee.
- 21.2.20 Where a Credit Support Provider provides a Qualifying Guarantee for the Pipeline User and for other Pipeline Users of the Pipeline Operator's network, the aggregate of all Qualifying Guarantees so offered shall not exceed the maximum Credit Allowance that could be determined for that Credit Support Provider pursuant to Clause 21.2.3.
- 21.2.21 Where the Pipeline User disputes the Pipeline Operator's calculation of their Value at Risk or their Credit Allowance, the provisions of Clause 21.8 shall apply.

21.3 Increase or Decrease of Cover Requirement

- 21.3.1 The following provisions have effect in relation to cover requirements pursuant to the circumstances specified under the relevant headings in this Clause 21.3.
- 21.3.2 If, on any Business Day, the Pipeline User's Indebtedness Ratio equals or is greater than its Indebtedness Ratio Limit because of either (a) an increase in the Pipeline User's Value at Risk; or (b) a decrease in the Credit Allowance Factor, then (in either) the Pipeline Operator shall give notice of this to the Pipeline User on the following Business Day and the Pipeline User shall take all appropriate action to ensure that its Indebtedness Ratio is equal to or below 80% within two Business Days of its receipt of such notice.
- 21.3.3 It shall be a Cover Default if the Pipeline User fails to remedy a default under Clause 21.3.2 within the prescribed timescale.
- 21.3.4 Following a Cover Default under Clause 21.3.3, the Pipeline User's Indebtedness Ratio Limit shall be decreased to 80% for one year following rectification of the default, after which time it shall be increased back to 100%.
- 21.3.5 In addition to any other remedies available to it, the Pipeline Operator shall be entitled to take the following actions following a Cover Default (provided that, where Pipeline User's right to take on new supplies has been suspended at any time after Day 0 + 5, the Pipeline Operator must, as soon as the Cover Default has been remedied, take such steps as are within its power to initiate the restoration of such Pipeline User supply points:

Working Days after Cover Default	Action within the Pipeline Operators rights
Day 0	Date of default
Day 0 + 1	Interest and administration fee start to apply
Day 0 + 1	Issue notice of default to Pipeline User contact containing a statement of the Indebtedness Ratio and send a copy of such notice to the Authority
Day 0 + 3	Formal Pipeline User response required

- 21.3.6 The Pipeline Operator shall give the Pipeline User one month's written notice of its intention to use a new Annual Transportation Revenue value to calculate the Credit Allowance according to Clause 21.2.3. Such notice shall state the new Annual Transportation Revenue value and the date on which the Pipeline Operator will begin to use that value in such calculation.
- 21.3.7 The Pipeline User may by notice to the Pipeline Operator decrease the amount of Collateral at any time provided that such decrease would not cause the Indebtedness Ratio to exceed the Indebtedness Ratio Limit.
- 21.3.8 The Pipeline Operator shall, within two Business Days of its receipt of a notice from the Pipeline User pursuant to Clause 21.3.7, undertake actions to facilitate the reduction, or the return to the Pipeline User, of such Collateral.
- 21.3.9 Not later than 10 Business Days before any outstanding Letter of Credit is due to expire, the Pipeline User shall either procure to the satisfaction of the Pipeline Operator that it (or a suitable replacement Letter of Credit which meets the Pipeline Operator's reasonable requirements) will be available for a further period of not less

than six months, or provide an alternative form of Collateral as set out in Clause 21.1.1.

- 21.3.10 Upon the Pipeline User ceasing to be a party to this agreement, and once all the amounts owed by the Pipeline User in respect of charges and any other amount owed by the Pipeline User to the Pipeline Operator under this agreement have been duly and finally paid, including interest, the Pipeline User shall be released from the obligation to maintain Cover in respect of the Pipeline Operator and the Pipeline Operator shall consent to the revocation of any outstanding Qualifying Guarantee or Letter of Credit, and the Pipeline User shall be entitled to withdraw the balance (if any) (including interest credited thereto) outstanding to the credit of the Pipeline User in the Escrow Account at the relevant date and to request the return or termination of any other form of Collateral provided.

21.4 Use of Cover Following Payment Default

- 21.4.1 This Clause applies if, after 17:30 hours on any Payment Date, the Pipeline Operator has been notified by the Pipeline User or otherwise has reason to believe that the Pipeline User has not remitted to it by close of banking business on the Payment Date all or any part (the amount in default) of any amount which has been notified by the Pipeline Operator to the Pipeline User as being payable by the Pipeline User by way of the charges on the relevant Payment Date, or any other amounts owing under this agreement.
- 21.4.2 Where Clause 21.4.1 applies, a Payment Default exists and the Pipeline Operator shall (in addition to any other remedies available to it) be entitled to act in accordance with the following provisions (or whichever of them may apply) in the order in which they appear below until the Pipeline Operator is satisfied that the Pipeline User has discharged its obligations in respect of charges or such other amounts under this agreement which are payable in respect of the relevant account.
- (a) the Pipeline Operator, to the extent that the Pipeline User is entitled to receive payment from the Pipeline Operator pursuant to this agreement (unless it reasonably believes that such set-off would be unlawful), shall be entitled to set off the amount of such entitlement against the amount in default;
 - (b) the amount of funds then standing to the credit of the Escrow Account or the amount of any Cash Deposit (excluding any interest accrued thereon to the benefit of the Pipeline User) shall be released to the Pipeline Operator and set off against the amounts unpaid by the Pipeline User, and for that purpose the Pipeline Operator shall be entitled to place such funds in any account of the Pipeline Operator at its sole discretion and shall notify the Pipeline User accordingly;
 - (c) the Pipeline Operator may demand payment under any Letter of Credit for a sum not exceeding the amount of the Cover;
 - (d) the Pipeline Operator may demand payment under any outstanding Qualifying Guarantee provided for the benefit of the Pipeline User pursuant to Clause 21.2.19; or
 - (e) the Pipeline Operator may demand payment under any other form of Collateral provided under Clause 21.1.1(d) in the manner which the Pipeline Operator and the Pipeline User have previously agreed as appropriate in relation to that particular form of Collateral or, in the absence of such agreement, in a manner which the Pipeline Operator (acting reasonably) considers appropriate in relation thereto.

21.5 Calculation of Cover

21.5.1 In addition to the provisions of Clause 21.4, if a Cover Default occurs in respect of the Pipeline User in accordance with this Clause 21, the Pipeline Operator shall be entitled.

- (a) to demand payment of any of the charges and any other amounts owed by the Pipeline User under this agreement which are outstanding, whether or not the Payment Date in respect of them has passed; and
- (b) to make demand under any outstanding Qualifying Guarantee or a call under any outstanding Letter of Credit supplied by the Pipeline User,
and the funds in the Escrow Account to the extent that they represent Cover provided by the Pipeline User shall be released to the Pipeline Operator and set off against the Charges and any other amount owed by the Pipeline User under this agreement that is unpaid by the Pipeline User, and for that purpose the Pipeline Operator shall be entitled to place any such amount released to it from the Escrow Account to any account of the Pipeline Operator as in its sole discretion it thinks fit.

21.6 Pipeline User's Right to Withdraw Funds

21.6.1 If the Pipeline User is not in default in respect of any amount owed to the Pipeline Operator in respect of the charges or any other amount owed by the Pipeline User under this agreement, the Pipeline Operator shall permit the release to the Pipeline User, within two Business Days of receiving the Pipeline User's written request for it, of any amount of cash provided by the Pipeline User by way of Cover which exceeds the amount which the Pipeline User is required to provide in accordance with this Clause 21.

21.6.2 Interest on the amount deposited in an Escrow Account (at a rate to be agreed by the Pipeline User with the bank at which such account is held) or on the amount of a Cash Deposit (at a rate to be agreed between the Pipeline Operator and the Pipeline User) shall accrue for the benefit of the Pipeline User.

21.7 No Security

21.7.1 Nothing in this Part G 21 shall be effective to create a charge on or any other form of security interest in any asset comprising part of the Pipeline User's business.

21.8 Disputes

21.8.1 The Pipeline Operator and the Pipeline User shall attempt to resolve in good faith any dispute that may arise under or in relation to the provisions of this agreement.

21.8.2 Where any such dispute remains unresolved after 30 Business Days, either of the Pipeline Operator or the Pipeline User may refer the matter for determination in accordance with Part K, Clause 8.

21.8.3 A determination under this Clause 21.8 shall be final and binding.

21.9 Notices

21.9.1 Contact details for notices issued under Clause 21, and the form of such notices and the manner of their service, shall be as agreed between the Pipeline Operator and the Pipeline User. Where no such agreement exists, the provisions of the Pipeline Operation Standards of Service Query Management – Operation Guidelines shall apply.

Appendix G-1 RPC Invoice Template

This appendix was removed during the implementation of IGT UNC v7.2 (28th June 2013).
For information the Template is now held within the IGT UNC Ancillary Document 'IGT
Transportation Invoice Charges Template'.

Appendix G-2 Portfolio Extract file format

The file is to be ordered in Network, MPR and descending start date order

	Field Name	Data Item Definition	Mandatory/Optional/Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
1.	Transaction Type	A code identifying the type of request that this record represents.	M	T	3	0	Example SPE
2.	Issue Date	Date and Time Stamp	M	D	8	0	YYYYMMDD HHMM
3.	Gas Transporter id	Gas Transporter short code identifying the Gas Transporter, per Market Participant Identities List in UNC..	M	T	3	0	Suppliers hold original IGT Example - 'xxx'
4.	CSEP No		M	T	10	0	
5.	CSEP ID	Xoserve unique reference for the MPR	M	T	12	0	
6.	Shipper	Shipper short code identifying the shipper, per Market Participants List in UNC.	M	T	3	0	Example - 'GUK'
7.	Supplier	Supplier short code identifying the shipper, per Market Participant List in UNC.	C	T	3	0	Example - 'GUK'
8.	MPR	DEFINITION: A system generated unique identifier for the point at which a meter is, has been or will be connected to the gas network. CONTEXT: The reference of the Meter Point whose Billing Critical attributes have been updated.	M	N	10	0	
9.	Free_Text_Line_1	Text to include developer details	C	T	256	0	
10.	Free_Text_Line_2	Text to include plot address/	C	T	256	0	
11.	Sub Building	Sub Building Name as defined in PAF.	C	T	30	0	
12.	Building Number	This item follows the naming of a PAF field, and will have a corresponding meaning and use, i.e. this will include only fully numeric building numbers, e.g. 7 but not 7A.	C	N	6	0	

	Field Name	Data Item Definition	Mandatory/Optional/Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
13.	Building Name	This item follows the naming of a PAF field, and will have the same meaning and use. This item should hold any genuine building name and not a residential house name created as an alternative to the combination of a Building Number and a Street Name. Premises with a building name and a number range should be held as	C	T	50	0	
14.	Dependent thoroughfare	This is likely to be requested not to be sent for the address type to which this translation is being applied. Where this is the case no translation is required for this field. Otherwise this is concatenated with the Thoroughfare value and entered into the Principal Street.	C	T	35	0	
15.	Thoroughfare	See above – either: _ this will be a direct translation (where the commercial agreement is that this will not be used) or this and the Thoroughfare will be entered into the Principal street. In this case the values in these two fields will overwrite anything in the Principle street, therefore where either of the fields need updating, both need to be sent.	C	T	35	0	

	Field Name	Data Item Definition	Mandatory/Optional/Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
16.	Double Dependent Locality	This is likely to be requested not to be sent for the address type to which this translation is being applied. Where this is the case no translation is required for this field. Otherwise this is concatenated with the Double Dependent Locality value and entered into the Dependent Locality.	C	T	35	0	
17.	Dependent locality	See above – either: _ this will be a direct translation (where the commercial agreement is that this will not be used) or _ this and the Thoroughfare will be entered into the Principal street. In this case the values in these two fields will overwrite anything in the Principle street, therefore where either of the fields need updating, both need to be sent.	C	T	35	0	
18.	Post Town	The post town in which the street lies. CONTEXT: Post Town as defined in PAF.	M	T	35	0	
19.	County	The county within which the street lies. The meaning is equivalent to that of the PAF field of the same name. Known problems: Conditions for the presence or absence of "Postally Optional Counties" have yet to be agreed.	C	T	35	0	
20.	Post Outcode	Standard PAF outcode as defined in the PAF digest. Note validation requirements between outcode and incode.	M	T	4	0	
21.	Post Incode	Standard PAF incode as defined in the PAF digest. Note validation requirements between incode and outcode.	C	T	4	0	

	Field Name	Data Item Definition	Mandatory/ Optional/ Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
22.	Start Date	Supply start date	C	D	8	0	YYYYMMDD
23.	End Date	Supply end date	C	D	8	0	YYYYMMDD
24.	Legacy/RPC/ Infill	Charging Status	M	T	1	0	"L" for Legacy, "R" for RPC, "I" for Infill
25.	LDZ	Unique reference code for the Local Distribution Zone (LDZ).	M	T	2	0	
26.	Exit Zone	A unique reference for the Exit Zone.	M	T	3	0	
27.	EUC	A unique reference for the End User Category.	M	T	8	0	
28.	SOQ	The maximum rate of gas flow (measured in kWh), for the Non Daily Metered (NDM) portion of the Supply Point, as derived by xoserve. This is for non-domestic only.	C	N	10	0	
29.	Original Meter Point AQ	For RPC Sites Only. AQ in accordance with NExA Tables or otherwise agreed between Shippers and IGTs for domestic in-fill and I&C Premises	M	N	12	0	
30.	Current Meter point AQ		M	N	12	0	
31.	xoserve Nominated Maximum CSEP AQ (Provided by lead IGT within Nest)	Maximum AQ value held by xoserve taking into account the aggregated sum of all Nested CSEPs. (cumulative total)	C	N	12	0	N.B. these are engineering figures.
32.	Supply Type Code	A code which identifies whether the gas is to be delivered Firm or Interruptible. CONTEXT: The current supply of gas for the DM portion of the Supply Point.	M	T	4	0	VALUES: TNI – xoserve Nominated Interruptible, SNI - System User Nominated Interruptible, FIRM - Firm.
33.	Market Sector Code	DEFINITION: A code that specifies that the site is used for domestic or industrial and commercial purposes	M	T	1	0	"D" for DOMESTIC or "I" for NON DOMESTIC
34.	Meter Point Status Code	Code identifying the status of the meter point. As specified in the Energy Market Data Specification under Meter Point Status Code.	M	T	2	0	Definitions CA - Capped DE -Dead LI - Live OT -Other PL - Planned SP -Spin Capped

	Field Name	Data Item Definition	Mandatory/ Optional/ Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
35.	Meter Point Read Frequency	A code identifying a valid meter reading frequency. Default would be Annual.	C	T	1	0	CONTEXT: The frequency that the System User wishes to read all the meters on Non Daily Metered (NDM) Meter Points in the Supply Point. VALUES: D - Daily, W - Weekly, M - Monthly, B - Bi-monthly, Q - Quarterly, 6 - Six-monthly, A - Annually.
36.	Gas Act Owner (Meter Asset Owner)		M	T	1	0	"S" – Shipper, "T" – Transporter, "U" – Unknown, "C" - Consumer
37.	MAM id	Per Market Participant Identities List in UNC.	C	T	3	0	
38.	MAM effective date		C	D	8	0	YYYYMMDD
39.	Meter Bypass		C	T	1	0	(O)pen, (C)lose, (U)nchecked, (N)o bypass fitted.
40.	Meter Installation Date		C	D	8	0	YYYYMMDD
41.	Meter Serial No	DEFINITION: The Manufacturer's meter serial number. CONTEXT: The serial number of the meter from which the read was taken.	C	T	16	0	

	Field Name	Data Item Definition	Mandatory/ Optional/ Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
42.	Meter Location Code	A code representing the location of a meter.	C	N	2	0	VALUES: 00 - Other, 01 - Cellar, 02 - Under Stairs, 03 - Hall, 04 - Kitchen, 05 - Bathroom, 06 - Garage, 07 - Canteen, 08 - Cloakroom, 09 - Cupboard, 10 - Domestic Science, 11 - Front Door, 12 - Hall Cupboard, 13 - Kitchen Cupboard, 14 - Kitchen under Sink, 15 - Landing, 16 - Office, 17 - Office Cupboard, 18 - Outside WC, 19 - Pantry, 20 - Porch, 21 - Public Bar, 22 - Rear of Shop, 23 - Saloon Bar, 24 - Shed, 25 - Shop Front, 26 - Shop Window, 27 - Staff Room, 28 - Store Room, 29 - Toilet, 30 - Under Counter, 31 - Waiting Room, 32 - Meter Box (Outside), 99 - Outside.
43.	Meter Type	Code to define the type	C	T	3	0	"C" for CREDIT or "P" for PREPAYMENT
44.	Meter Manufacturer	Short Code version of meter manufacturer's name for the meter, as specified in the Energy Market Data Specification under Manufacturer Code.	C	T	3	0	
45.	Year of manufacture	Year of manufacture for the asset as stamped on the asset e.g. 1999. This is mandatory for certain assets e.g. Meters.	C	T	4	0	YYYY
46.	Meter Model Code	The model type of the meter as specified in the Energy Market Data Specification under Model Code.	C	T	10	0	Example, U6, U16

	Field Name	Data Item Definition	Mandatory/ Optional/ Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
47.	Meter Units	Indicates whether the meter measures the volume of gas in imperial or metric units	C	T	1	0	Set to "M" for METRIC or "I" for IMPERIAL
48.	No. of Dials	Number of dials or digits on the meter which are considered during meter reading.	C	N	2	0	Used to validate meter readings and to determine the number of complete units consumed. Printed on meter reading sheets (and may be printed on meter work documents).
49.	Meter Reading Multiple	The factor which converts the metered volume into units of 100cu ft or cubic meters	C	N	3	3	1, 10.0.1
50.	Date of last inspection	The date on which the meter installation was last inspected. Condition 17 – (2 Year Inspection).	C	D	8	0	YYYYMMDD
51.	Corrector Serial No.	The manufacturers corrector serial number – NOT USED FOR DOMESTIC	O	T	16	0	
52.	Corrector No of Dials / Digits	The corrected number of dials or digits for the corrector.	O	N	2	0	
53.	Corrector Correction Factor	A fixed factor applied where no corrector is fitted and the meter reading needs to be corrected for pressure, altitude and/or temperature.	O	N	9	6	
54.	Corrector Effective From Date		O	D	8	0	YYYYMMDD
55.	Data Logger Present	Indicator to acknowledge the presence of a Data Logger Asset	M	T	1	0	"Y" or "N"
56.	Free text line 3		O	T	256	0	
57.	Free text line 4		O	T	256	0	

	Field Name	Data Item Definition	Mandatory/ Optional/ Conditional	Domain T = Text, N = Numeric, D = Date	Field Length	Decimal	Comments/Format
58.	Last Valid Actual Meter Reading	Last Actual Meter Reading accepted by the Pipeline Operator	C	N	12	0	FORMAT: The index should be right justified and be the same length as the number of digits/ dials present on the meter. This may mean the index provided is left padded with zeros to equate the length of the values to the actual number of digits/dials. Where the number of digits/dials is less than 12 the remaining characters should be set to spaces e.g. for a 4 digit dial display the index would be formatted as ' 0012 This excludes any estimates.
59.	Last Valid Actual Meter Reading Date	The Date of the Last actual meter reading held by the Pipeline Operator	C	D	8	0	YYYYMMDD

PART H - SYSTEM MAINTENANCE AND PLANNING

1 Programmed maintenance

1.1 For the purposes of this Part H:

- (a) **"Maintenance Programme"**: is a programme (or updated programme) of planned maintenance of the Pipeline;
- (b) references to maintenance of any part of the Pipeline include any inspection, repair, replacement, reinstatement and recommissioning thereof, and works preparatory to such maintenance and testing of the same and any works required for the return to service of such part of the Pipeline after such maintenance.

1.2 The Pipeline Operator may require Pipeline Users to provide information to the Pipeline Operator in accordance with this Part H for the purposes of enabling the Pipeline Operator:

- (a) to plan (on a weekly basis) the operation of the Pipeline;
- (b) to comply with its obligations pursuant to applicable Legal Requirements in relation to the maintenance of the Pipeline;
- (c) to prepare Maintenance Programmes.

2 Maintenance Programme

2.1 Each year the Pipeline Operator will establish and update a Maintenance Programme as it considers necessary.

2.2 The Pipeline Operator will use reasonable endeavours to co-ordinate its Maintenance Programme with the maintenance of the Large Transporter System in accordance with Section L4 of the UNC.

2.3 For the avoidance of doubt Force Majeure affecting the Pipeline Operator will include maintenance by the Upstream System Operators of the Upstream Systems affecting the Connection Point and/or the Pipeline Delivery Facility Operator of the Pipeline Delivery Facility affecting the Pipeline Entry Point.

2.4 The Pipeline Operator will notify the Pipeline Users as soon as reasonably practicable of any maintenance affecting the Connection Point and/or Pipeline Entry Point notified to it by any Upstream System Operator and/or Pipeline Delivery Facility Operator.

2.5 The Pipeline Operator will use reasonable endeavours to co-ordinate its Maintenance Programme with the maintenance of a Pipeline Delivery Facility in accordance with the relevant Pipeline Entry Agreement.

3 Programmed Maintenance

3.1 Subject to Clause 3.3 maintenance of any part of the Pipeline carried out by the Pipeline Operator on any Day is **"Programmed Maintenance"** as respects any Pipeline User in relation to a Supply Point where:

- (a) such Day was a Day on which maintenance was planned under the Maintenance Programme; or
- (b) in the case of a Day on which maintenance was not planned under the Maintenance Programme:
 - (i) in the case of a Supply Point whose Annual Quantity does not exceed 73,200 kWh (2,500 therms) the Pipeline Operator gives to the

Consumer not less than seven Days notice (or with the Consumer's consent less notice) of the carrying out of such maintenance on such Day and the Pipeline Operator is not required to give any notice thereof to the Registered User but shall endeavour to inform the Registered User of what has been agreed with the Consumer;

- (ii) in the case of a Supply Point whose Annual Quantity exceeds 732,000 kWh (25,000 therms), the Pipeline Operator gives to the Pipeline User the notification required under Clause 3.2 not less than 30 Days before the Day on which maintenance is carried out ("**maintenance day**"); or
- (iii) in the case of a Supply Point whose Annual Quantity exceeds 73,200 kWh (2,500 therms) but does not exceed 732,000 kWh (25,000 therms), the Pipeline Operator gives to the Pipeline User the notification required under Clause 3.2 not less than 7 Days before the maintenance day.
- (iv) in the case of the Connection Point and/or Pipeline Entry Point the the Pipeline Operator gives to the Pipeline User the notification required under Clause 3.2 not less than 30 Days before the maintenance day.

3.2 For the purposes of Clause 3.1(b):

- (a) the notification required is a notification that the availability of gas for offtake, or (in the case of the Connection Point and/or Pipeline Entry Point) ability of the Pipeline Operator to accept delivery of gas will be affected by the carrying out of such maintenance;
- (b) in respect of a Supply Point, the notification is required to be given only where at the time the notification is required to be given, the Pipeline User is the Registered User of such Supply Point.

3.3 Where in respect of a Day maintenance by the Upstream System Operators of the Upstream Systems affects the Connection Point, or maintenance by the Pipeline Delivery Facility Operator of a Pipeline Delivery Facility affects a Pipeline Entry Point, Pipeline Users acknowledge that the Pipeline Operator may not be able to give the period of notice required pursuant to Clause 3.2. Accordingly, in such circumstances, the Pipeline Users agree that the Pipeline Operator shall be entitled to give such lesser period of notice in respect of maintenance on such Day as it is practicable for the Pipeline Operator to give and that maintenance in respect of such Day shall, notwithstanding such lesser period of notice, be Programmed Maintenance.

4 Offtake of gas during Programmed Maintenance

4.1 To the extent that on any Day by reason of Programmed Maintenance it is not feasible for the Pipeline Operator to make available gas for offtake from the Pipeline by a Pipeline User at a Supply Meter Point or to accept into the Pipeline at the Connection Point and/or a Pipeline Entry Point gas tendered for delivery by a Pipeline User or, in either case, its ability to do so is restricted:

- (a) such Supply Meter Point, Pipeline Entry Point or Connection Point is a "**Maintenance Affected Point**"; and
- (b) subject to Clause 4.2, the Pipeline Operator will be relieved of its obligations to make gas available for offtake from the Pipeline at such Supply Meter Point.

4.2 Subject to Clause 4.3 and Part K, the Pipeline Operator will not be relieved by virtue of Clause 4.1(b) of its obligations therein referred to in respect of a Maintenance Affected Point:

- (a) in the case of the Connection Point (where the maintenance is on the Pipeline and not on the Upstream System) or a Pipeline Entry Point (where the maintenance is on the Pipeline and not on the Pipeline Delivery Facility) on more than the number of Days identified in the Maintenance Programme
 - (b) in the case of a Supply Point whose Annual Quantity exceeds 732,000 kWh (25,000 therms), on more than 8 Days in any Gas Year or on more than 20 Days in any three consecutive Gas Years;
 - (c) in the case of a Supply Point whose Annual Quantity exceeds 73,200 kWh (2,500 therms) but does not exceed 732,000 kWh (25,000 therms) on more than 5 Days in any Gas Year or on more than 10 Days in any 5 consecutive Gas Years; or
 - (d) in the case of a Supply Point whose Annual Quantity does not exceed 73,200 (2,500 therms) for a period exceeding twenty-four (24) hours (or any longer period requested by the Consumer) on any one occasion.
- 4.3 Where for reasons of Force Majeure, including any failure of a Consumer after being so requested to provide any required access to Supply Point Premises, the Pipeline Operator is unable to commence or to complete any Programmed Maintenance in respect of any Supply Meter Point:
- (a) the relevant number of Days or period specified in or pursuant to Clause 4.2 shall be increased by such period for which the completion of the Programmed Maintenance was delayed by reasons of Force Majeure;
 - (b) if the Pipeline Operator has commenced such Programmed Maintenance, for so long as the Pipeline Operator is unable to carry out or to continue to carry out the Programmed Maintenance, such point shall nevertheless continue to be a Maintenance Affected Point.
- 4.4 For the avoidance of doubt a Pipeline User will remain liable to pay Transportation Charges in respect of Capacity notwithstanding that the Pipeline Operator is unable to accept delivery of gas or make gas available for offtake at such point by reason of the carrying out of maintenance of the Pipeline.
- 4.5 If requested by the Pipeline Operator the Registered User will co-operate with the Pipeline Operator with a view to ensuring that the offtake of gas is discontinued at any Supply Point which is (and for so long as it continues to be) a Maintenance Affected Point.

5 Co-operation

- 5.1 Where the operation of any Pipeline inspection or maintenance equipment in either any Upstream System or the Pipeline requires for a period a specific even rate of offtake of gas from the Upstream System at the Connection Point, or any Pipeline Delivery Facility or the Pipeline requires for a period a specific even rate of delivery of gas from the Pipeline Delivery Facility at the Pipeline Entry Point, the Pipeline User will (and will procure that any Upstream System User from whom it acquires gas at the Connection Point and/or any Delivering Pipeline User from whom it acquires gas at a Pipeline Entry Point will) co-operate as far as reasonably practicable with the Upstream System Operator, the Pipeline Delivery Facility Operator, and/or the Pipeline Operator with a view to ensuring that such rate of offtake or delivery is maintained for such period.

6 System Planning

- 6.1 Each year the Pipeline Operator will make assumptions in respect of the demand for gas (including shrinkage) and in respect of the Pipeline and its use.

- 6.2 Each Pipeline User will co-operate with the Pipeline Operator in the provision of information reasonably available to such Pipeline User to enable the Pipeline Operator to comply with its obligations pursuant to the Act and the Pipeline Operator's Licence in relation to the development of the Pipeline and to make assumptions pursuant to Clause 6.1.

PART I - EMERGENCIES

1 Emergency

- 1.1 The provisions of this Part I shall apply for the purposes of a Local Emergency and/or an Emergency.
- 1.2 A "**Local Emergency**" is a local gas supply emergency as referred to in the NEC Safety Case affecting the Pipeline which is not an Emergency for the purposes of the UNC.
- 1.3 A "**Large Firm Supply Point**" is a Firm Supply Point whose Annual Quantity is greater than 732,000 kWh (25,000 therms)
- 1.4 The "**NEC**" means the person from time to time who is the network emergency co-ordinator in accordance with the Regulations.
- 1.5 The "**NEC Safety Case**" means the safety case (in accordance with Regulation 2(5)) of the NEC.
- 1.6 "**Regulations**" means the Gas Safety (Management) Regulations 1996 and reference to particular Regulations shall be construed accordingly.
- 1.7 Reference to an "**Emergency**" shall mean a "Gas Supply Emergency" as defined in the UNC.
- 1.8 "**Network Gas Supply Emergency**" shall have the same meaning as in the UNC.
- 1.9 The Pipeline Operator confirms that in its opinion any Local Emergency will constitute a pipeline system emergency (in accordance with paragraph 1(b) of standard condition 5 of the Shipper's Licence) affecting the Pipeline.
- 1.10 Pipeline Users acknowledge that in respect of any Emergency for the purposes of the UNC instructions from the Large Transporter will be complied with pursuant to the UNC.
- 1.11 Pipeline Users agree that in the circumstances of an Emergency which also affects the Pipeline, the Large Transporter may give instructions to Consumers in relation to the reduction or discontinuance of offtake at Supply Points. Pipeline Users shall secure in contract with Consumers at Larger Supply Points that the Consumer shall use best endeavours to reduce or discontinue from using gas immediately upon being instructed to do so by the Large Transporter.
- 1.12 In the circumstances described in Clause 1.11, Registered Users of Large Firm Supply Points further agree that the Pipeline Operator may provide to the Large Transporter such details in respect of such Large Firm Supply Points as the Large Transporter may require to enable them to secure reduction or discontinuance of offtake at such Large Firm Supply Points.
- 1.13 The Pipeline Operator may agree pursuant to the IGTAD or otherwise with an Upstream System Operator, a Pipeline Delivery Facility Operator, or a Downstream System Operator upon a procedure or steps to be taken in a Local Emergency and/or an Emergency and may give effect to such procedure or steps in addition to or in lieu of any Emergency Steps pursuant to this Part I.
- 1.14 The provisions of the Manual (if any) as to the giving of Code Communications are without prejudice to the provisions of the Local Emergency Procedures and such other requirements as the Pipeline Operator may specify for communicating in an Emergency, Network Gas Supply Emergency or Local Emergency.
- 1.15 Agency Functions of the CDSP to support implementation of this Part I are:
 - (a) Maintaining a record of Pipeline User emergency contact details.

2 Local Emergency Procedures

- 2.1 **"Local Emergency Procedures"** are procedures issued to Pipeline Users by the Pipeline Operator from time to time relating to information flows and steps to be taken in the event of a Local Emergency.
- 2.2 Nothing in the Local Emergency Procedures or the Code shall limit the ability of the Pipeline Operator to take any action or step necessary in its judgement in the interests of safety to the public or property in the event of a Local Emergency.
- 2.3 The existence of a Local Emergency shall be determined by the Pipeline Operator in its sole judgment and irrespective of the cause of and of whether the Pipeline Operator or any other person may have caused or contributed to the Local Emergency.
- 2.4 A Local Emergency will continue until such time as the Pipeline Operator determines that the circumstances which resulted in or might result in a supply emergency (as defined in the Regulations) no longer apply, that no further Emergency Steps are required and that normal operation of the Pipeline and implementation of the Code may be resumed.

3 Emergency Steps

- 3.1 For the purposes of the Code **"Emergency Steps"** are steps to be taken by the Pipeline Operator or a Pipeline User:
 - (a) to avert and/or to reduce the probability of or the probable scale of a Local Emergency and/or an Emergency and/or to prepare for the occurrence of a Local Emergency and/or an Emergency; or
 - (b) to overcome or contain a Local Emergency and/or an Emergency and/or to avert or reduce the hazard presented by it and/or restore gas supply and normal operation of the Pipeline and facilitate appropriate reinstatement of the provisions of the Code following the taking of any such steps.
- 3.2 No Emergency Step taken or other thing done or not done by the Pipeline Operator or any Pipeline User pursuant to (and in compliance with any requirements under) this Part I or paragraph 2 of Condition 5 of the Shipper's Licence shall be a breach of any provision of the Code; and in particular the Pipeline Operator will not be required to accept gas tendered for delivery to the Pipeline or to make gas available for offtake from the Pipeline to the extent that (as a result of any such step taken or thing done or not done) gas tendered for delivery is not accepted or gas is not made available for offtake and in accordance with the applicable specification requirements referred to in Part J.

4 Priority Consumers

- 4.1 For the purposes of this Part I:
 - (a) a **"Priority Consumer"** is a Consumer whose name appears on the list established (and from time to time amended) by the Pipeline Operator in accordance with the Pipeline Operator's Licence; and the relevant Supply Point is a **"Priority Supply Point"**.
 - (b) **"Priority Criteria"** means the criteria designated by the Secretary of State and, if the Secretary of State has not designated criteria, or to the extent that such designated criteria are not expressed to be exhaustive, any other criteria which the Pipeline Operator may from time to time notify to Pipeline Users for the purposes of assisting the Pipeline Operator to determine which Consumers should be given priority in accordance with the Pipeline Operator's Licence.

5 Pipeline User emergency contacts

- 5.1 Each Pipeline User shall provide to the Pipeline Operator:
- (a) a single telephone number and a single email address by means of each of which the Pipeline Operator may contact, 24 hours a Day, a representative of the Pipeline User in an Emergency or Local Emergency for any purpose pursuant to this Part I;
 - (b) the name(s) or title(s) of the Pipeline User's representatives who may be contacted at such numbers.
- 5.2 Each such representative shall be a person having appropriate authority and responsibilities within the Pipeline User's organisation to act as the primary contact for the Pipeline Operator in the event of a Local Emergency.
- 5.3 The details required under Clause 5.1 shall be provided by an Applicant User before becoming a Pipeline User and shall at all times be maintained up to date; and for these purposes the Pipeline User shall notify to the Pipeline Operator any change to such details promptly and where possible in advance.
- 5.4 Pipeline Users are required to comply with the requirements in Clauses 5 to 10 with a view to ensuring an adequate level of preparedness for the occurrence of a Local Emergency.

6 User compliance with Local Emergency Procedures

- 6.1 Each Pipeline User shall secure that all of its relevant personnel are familiar with the Local Emergency Procedures.
- 6.2 For the purposes of Clause 6.1 a Pipeline User's relevant personnel are personnel employed or engaged by the Pipeline User whose functions or areas of responsibility are such that (in order to enable the Pipeline User to comply with any requirement of this Part I) they are likely to be required to take any decision or action in a Local Emergency.

7 User procedures

- 7.1 Each Pipeline User shall establish and maintain such procedures as may be necessary:
- (a) to facilitate compliance by the Pipeline User with the requirements of this Part I;
 - (b) to enable the Pipeline User to comply with the requirements of the Pipeline Operator in the event of a Local Emergency.
- 7.2 Each Pipeline User shall take all reasonable steps within its power to ensure that, in so far as may be necessary to give effect to the requirements of this Part I and the Local Emergency Procedures, the procedures established by it under Clause 7.1 are co-ordinated:
- (a) with the Local Emergency Procedures; and
 - (b) with any procedures established by the Large Transporter relating to Emergencies pursuant to the UNC; and
 - (c) with any procedures established by the NEC in relation to a Network Gas Supply Emergency;
 - (d) if the Pipeline Operator shall so notify the Pipeline User identifying the other person(s) and specifying the co-ordination required, with the procedures established by other Pipeline Users, Pipeline Delivery Facility Operators,

Upstream System Operators and Downstream System Operators under this Clause 7; and shall consult with such other parties accordingly.

- 7.3 The Pipeline User shall if requested by the Pipeline Operator provide to the Pipeline Operator a copy of the procedures from time to time established by it under Clause 7.1; and the Pipeline Operator shall be at liberty to disclose to and discuss with any Competent Authority any such procedures provided to it.
- 7.4 Each Pipeline User shall ensure that Suppliers supplying gas at Supply Points of which the Pipeline User is the Registered User are aware of the terms of this Part I in so far as they may be affected thereby.

8 Large Firm Supply Points

- 8.1 A Pipeline User shall in respect of each Large Firm Supply Point of which it is the Registered User provide to the Pipeline Operator:
- (a) the name and (in the case of a corporation) registered office of the Consumer;
 - (b) in accordance with Clause 8.2, the names and job titles of representatives of the Consumer ("**emergency contacts**") each of which has the power and authority to comply with any direction given pursuant to Regulation 6(4);
 - (c) at least one (but not more than four) telephone numbers for each emergency contact by means of which the Pipeline Operator may contact, 24 hours a day, at least one emergency contact; and
 - (d) in the case of a Large Firm Supply Point, the Annual Quantity of which is greater than 1,464,000 kWh (*50,000 therms*), one email address, for the purposes of receiving communications pursuant to this Part I which is able to receive transmissions 24 hours a day.
- 8.2 For the purposes of Clause 8.1(b):
- (a) in the case of a Large Firm Supply Point in respect of any site which is manned 24 hours a day, the Registered User will provide to the Pipeline Operator the name(s) and job title(s) of at least 1 but not more than 5 emergency contacts; and
 - (b) in the case of a Large Firm Supply Point in respect of any site which is not manned 24 hours a day, the Registered User will provide to the Pipeline Operator the name(s) and job title(s) of at least 3 but not more than 5 emergency contacts.
- 8.3 A Pipeline User shall comply with the requirements of Clause 8.1:
- (a) where the Pipeline User becomes the Registered User in respect of a Large Firm Supply Point, when submitting the Registration Nomination;
 - (b) where for any Gas Year a Supply Point of which a Pipeline User is Registered User becomes (by virtue of a change in its Annual Quantity or being designated as Firm) a Large Firm Supply Point, as soon as reasonably practicable and in any event not later than 30th September in that Gas Year.
- 8.4 The details required under Clause 8.1 shall at all times be maintained up to date; and for these purposes the Pipeline User shall notify to the Pipeline Operator any change in such details as soon as reasonably practicable and where possible in advance of such change.

9 Interruptible Supply Points

- 9.1 A Pipeline User shall in respect of each Interruptible Supply Point of which it is the Registered User provide to the Pipeline Operator:

- (a) the name and (in the case of a corporation) registered office of the Consumer;
- (b) in accordance with Clause 9.2, the names and job titles of representatives of the Consumer (“**emergency contacts**”) each of which has the power and authority to comply with any direction given pursuant to Regulation 6(4);
- (c) at least one (but not more than four) telephone numbers for each emergency contact by means of which the Pipeline Operator may contact, 24 hours a day, at least one emergency contact; and
- (d) one email address, for the purposes of receiving communications pursuant to Parts C and I, which is able to receive transmissions 24 hours a day.

9.2 For the purposes of Clause 9.1(b):

- (a) in the case of any Interruptible Supply Point in respect of any site which is manned 24 hours a day Registered User will provide to the Pipeline Operator the name(s) and/or job title(s) of at least 1 but not more than 4 emergency contacts; and
- (b) in the case of any Interruptible Supply Point in respect of any site which is not manned 24 hours a day the Registered User will provide to the Pipeline Operator the name(s) and/or job title(s) of at least 3 but not more than 4 emergency contacts.

9.3 A Pipeline User shall comply with the requirements of Clause 9.1 where the Pipeline User becomes the Registered User in respect of a Interruptible Supply Point, when submitting the Registration Nomination.

9.4 The details required under Clause 9.1 shall at all times be maintained up to date; and for these purposes the Pipeline User shall notify to the Pipeline Operator any change in such details as soon as reasonably practicable and where possible in advance of such change.

10 Priority Supply Points

10.1 Each Pipeline User shall:

- (a) take all reasonable steps to ascertain, in relation to any Supply Point in respect of which the Pipeline User submits a Base Registration Nomination, or of which it is the Registered User, whether the Consumer satisfies or (as the case may be) has come to satisfy the Priority Criteria;
- (b) where it believes that the Consumer does satisfy the Priority Criteria, (where it is the Registered User, promptly upon forming that belief) so notify the Pipeline Operator stating the identity of the Consumer and the basis for its belief; and
- (c) where:
 - (i) a Pipeline User becomes the Registered User at a Supply Point in relation to which the Consumer is a Priority Consumer; or
 - (ii) the Pipeline Operator confirms pursuant to Clause 10.2 that a Consumer in relation to which that Pipeline User is Registered User is a Priority Consumer;

notify that Consumer (in terms reasonably specified by the Pipeline Operator having regard to the terms of the Pipeline Operator's Licence) of the circumstances in which it need not comply with instructions to reduce or cease, or in which it may resume or increase, the consumption of gas in a Local Emergency.

- 10.2 Where the Pipeline Operator adds the name of a Consumer to the list described in Clause 4.1(a), it shall inform the Registered User in relation to that Consumer of such addition.
- 10.3 The Registered User shall promptly inform the Pipeline Operator if it becomes aware (and shall take reasonable steps to ensure that it does become aware) that the Consumer at a Priority Supply Point ceases to satisfy the Priority Criteria.
- 10.4 Where the Pipeline Operator removes the name of a Consumer from the list described in Clause 4.1(a), it shall inform the Pipeline User that is the Registered User in relation to that Consumer of such removal.
- 10.5 Where the Pipeline Operator informs a Pipeline User that a Consumer in relation to which that Pipeline User is the Registered User has been removed from the list described in Clause 4.1(a), that Pipeline User shall notify the Consumer of the change to the circumstances in which it may reduce, cease, resume or increase the consumption of gas in a Local Emergency.
- 10.6 Each Pipeline User shall (subject to the other requirements of this Part I), in respect of each Priority Supply Point of which it is the Registered User, provide to the Pipeline Operator the name and/or title of one representative of the Consumer, together with a telephone number by means of which the Pipeline Operator may contact such representative during normal working hours on a Business Day.
- 10.7 A Pipeline User may not designate a Priority Supply Point as Interruptible except as otherwise set out in the Priority Criteria.

11 Obligations in a Local Emergency

- 11.1 Where a Local Emergency arises the Pipeline Operator will:
 - (a) inform Pipeline Users, in accordance with the Local Emergency Procedures as soon as reasonably practicable, of the commencement of the Local Emergency and (in so far as reasonably practicable) of the nature, extent and expected duration thereof;
 - (b) thereafter keep Pipeline Users reasonably informed as to material changes to the information provided under paragraph (a) and material developments in respect of the Local Emergency;
 - (c) inform Pipeline Users as soon as reasonably practicable when the Pipeline Operator has determined that the Local Emergency is no longer continuing.
- 11.2 Upon being informed of a Local Emergency, a Pipeline User shall brief all relevant personnel (as defined in Clause 6.2) as to the existence and nature of the Local Emergency.
- 11.3 During a Local Emergency each Pipeline User is required:
 - (a) to comply with the Local Emergency Procedures in so far as applicable to the Pipeline User in the circumstances;
 - (b) to comply (in so far as applicable) with the requirement to take Emergency Steps in relation to the delivery and offtake of gas to and from the Pipeline;
 - (c) to cooperate with the Pipeline Operator, to the extent within the Pipeline User's power (and without thereby rendering the Pipeline User unable to comply with any requirement to take Emergency Steps itself) so as to enable the Pipeline Operator to take Emergency Steps in accordance with the Local Emergency Procedures; and

- (d) in so doing to comply with the Pipeline Operator's instructions and requests (made for the purposes of paragraphs (a) (b) and (c)) as soon as reasonably practicable.
- 11.4 Where there is any conflict between any requirements under this Part I or the Local Emergency Procedures as to anything to be done by a Pipeline User, the Pipeline Operator may decide which requirement is to prevail and will inform the relevant Pipeline User of its decision, which decision will relieve the Pipeline User of any obligation under the Code to comply with the conflicting requirement.
- 11.5 Where Emergency Steps include the reduction or discontinuance of offtake of gas at Firm as well as Interruptible Supply Points such steps will (in so far as is practicable and as may be required by the Pipeline Operator's Licence) be applied in the following order:
 - (a) first, at Interruptible Supply Points (in so far as offtake has not already been interrupted at such points);
 - (b) secondly, at Large Firm Supply Points other than Priority Supply Points;
 - (c) thirdly, at all other Supply Points including Priority Supply Points.
- 11.6 In a Local Emergency, unless the Pipeline Operator instructs a Pipeline User otherwise, instructions to Consumers in relation to the reduction or discontinuance of offtake at Supply Points will be given by the Pipeline Operator except in the case of Interruptible Supply Points where instructions will be given by Pipeline Users.
- 11.7 Without prejudice to the Pipeline Operator's ability to take any Emergency Step, the Pipeline Operator may take steps physically to isolate any Large Firm Supply Point where the Consumer does not comply with any instruction given under Clause 11.6.
- 11.8 Pipeline Users acknowledge that in a Local Emergency their business interests will be subordinate to the need to take appropriate steps in accordance with this Part I.

12 Return to normal operation

- 12.1 The order in which during a Local Emergency offtake of gas at Supply Points is restored will (so far as is practicable and subject to any requirements in relation to Priority Supply Points) be the inverse of that under Clause 11.5.

13 Consequences of an Emergency or a Local Emergency

- 13.1 In respect of each Day or part of a Day during a Local Emergency or an Emergency the Pipeline Operator may by notice to Pipeline Users suspend the implementation (as respects all Pipeline Users) of:
 - (a) any provision of Parts C, D, E, F, G, J and Q; and
 - (b) any other provision of the Code which the Pipeline Operator considers (in its reasonable opinion) it appropriate to suspend in the circumstances of an Emergency or Local Emergency.
- 13.2 The Pipeline Operator and Pipeline Users acknowledge that during a Local Emergency or Emergency it may be necessary for each of them to divert resources from other activities which may potentially result in a temporary impairment of their abilities subsequently to perform their respective obligations pursuant to the Code; and acknowledge that any such impairment resulting from such diversion of resources may be Force Majeure for the purposes of Part K.

PART J - DELIVERY AND OFFTAKE OF GAS

1 Delivery of gas into Pipeline at Connection Points

- 1.1 Title and risk in gas delivered to the Pipeline at the Connection Point shall pass to the Pipeline Operator at the Connection Point.
- 1.2 Each Pipeline User warrants to the Pipeline Operator:
 - (a) that such Pipeline User will have title (at the point of delivery) to all gas delivered or tendered for delivery to the Pipeline at the Connection Point by that Pipeline User; and
 - (b) that all such gas will (at such point) be free of any lien, charge, encumbrance or adverse claim (as to title or otherwise), including any claim for any tax, royalty or other charge in respect of the production, gathering, processing and tendering of gas arising on or before delivery thereof to the Pipeline.
- 1.3 Each Pipeline User shall indemnify the Pipeline Operator and hold it harmless against any loss, liability, damage, claim, action, proceeding, cost and expense suffered or incurred by or made or brought against the Pipeline Operator in consequence of any breach of the warranties in Clause 1.2.

2 Offtake from Pipeline

- 2.1 The point of offtake in respect of each Supply Meter Point shall be the outlet of the customer control valve on the service pipe and in respect of a Downstream System Exit Point shall be the point agreed as such by the Pipeline Operator and the Downstream System Operator except where a point of offtake is in respect of an NTS Supply Meter Point (in which case Part R 3.7 applies).
- 2.2 Title and (without prejudice to Clause 2.3) risk in gas offtaken from the Pipeline shall pass to the Pipeline User at the relevant point of offtake in accordance with Clause 2.1.
- 2.3 The Pipeline Operator warrants to each Pipeline User that the Pipeline Operator will have title (at the point of offtake) to all gas made available for offtake from the Pipeline by that Pipeline User, and that all such gas will (at such point) be free of any lien, charge, encumbrance or adverse claim (as to title or otherwise), including any claim for any tax, royalty or other charge in respect of the production, gathering, processing and tendering of gas arising on or before offtake thereof from the Pipeline.
- 2.4 The Pipeline Operator shall indemnify each Pipeline User and hold it harmless against any loss, liability, damage, claim, action, proceeding, cost and expense suffered or incurred by or made or brought against such Pipeline User in consequence of any breach of the warranty in Clause 2.3.

3 Obligation of Pipeline Operator in relation to the availability of gas for offtake

- 3.1 Subject to the provisions of the Code, the Pipeline Operator will make gas available for offtake by Pipeline Users from the Pipeline at the point of offtake (in accordance with Clause 2) in accordance with the requirements of Clause 4.1.
- 3.2 The Pipeline Operator shall not be in breach of its obligations pursuant to Clause 3.1 in the circumstances set out in Clause 3.3.
- 3.3 The circumstances referred to in Clause 3.2 are:
 - (a) Force Majeure as defined in Part K;
 - (b) where the Pipeline is affected by maintenance in accordance with Part H;

- (c) in the event, of any steps taken in the context of an Emergency or Local Emergency, in accordance with Part I;
- (d) in the event of failure of or defect in the Supply Meter Installation;
- (e) where the Pipeline Operator is acting under any entitlement or obligation pursuant to the Act (including the Gas Code) or other Legal Requirement;
- (f) in the event of a Registered User's Registered DM Capacity or DM Offtake Rate being exceeded or the occurrence of a threshold rate increase as referred to in Part CII;
- (g) in the event of Siteworks pursuant to Part CV;
- (h) in the event of a breach of Part R3.10; and
- (h) any other case provided in the Code in respect of which the Pipeline Operator is relieved from its obligations.

4 Off-spec gas

- 4.1 The gas made available for offtake will (subject to Clause 4.2) conform to the specification requirements set out in the UNC.
- 4.2 Where gas delivered to the Pipeline at the Connection Point and/or Pipeline Entry Point does not comply with such specification requirements ("**off-spec gas**") the Pipeline Operator shall not be liable to Pipeline Users for any such lack of compliance.
- 4.3 Pipeline Users acknowledge that the Pipeline Operator does not operate a compensation scheme in respect of off-spec gas, and that any compensation is to be sought from the Large Transporter pursuant to the UNC or from CSEP Users.

5 Delivery of off-spec gas

- 5.1 The UNC provides for certain payments to be made by the Large Transporter to CSEP Users where off-spec gas offtaken by CSEP Users at the CSEP causes the incurring of expenses, including by the Pipeline Operator in cleaning up the Pipeline.
- 5.2 Pipeline Users agree that they shall procure that such compensation shall (as provided in Clause 6) be passed on to the Pipeline Operator to the extent required to hold harmless the Pipeline Operator against any expenses incurred by the Pipeline Operator in cleaning up the Pipeline.

6 Compensation for delivery of off-spec gas

- 6.1 This Clause 6 applies where off-spec gas is offtaken from the Large Transporter System by the Pipeline User or by a CSEP User which is passed to the Pipeline User at the CSEP and delivered into the Pipeline.
- 6.2 The Pipeline User will (or will procure that the CSEP User(s) from whom it is acquiring gas at the CSEP will):
 - (a) comply with the provisions of Section J3.4.5 of the UNC;
 - (b) pay over to the Pipeline Operator forthwith such proportion of all amounts payable by the Large Transporter to the Pipeline User (or to the relevant CSEP User) under Section J3.3.4 of the UNC as relates to the Pipeline.
- 6.3 The Pipeline User agrees to indemnify the Pipeline Operator for all reasonable costs and expenses incurred by the Pipeline Operator:
 - (a) in clearing or cleaning any part of the Pipeline;

- (b) in taking reasonable measures to secure that the Pipeline can be operated in accordance with applicable Legal Requirements notwithstanding the offtake or continued offtake of such off-spec gas.

7 Failure to make gas available for offtake

- 7.1 Clauses 7 and 8 apply where the Pipeline Operator is or has been in breach of its obligation to make gas available for off-take from the Pipeline at a Supply Point.
- 7.2 For the avoidance of doubt, in accordance with Part K 31.4, the Pipeline Operator shall not be in breach of its obligation to make gas available for off-take from the Pipeline where gas is not delivered to the Connection Point and/or Pipeline Entry Point for any reason beyond the Pipeline Operator's reasonable control.

8 Compensation for failure to make gas available

- 8.1 Pipeline Users acknowledge that the Pipeline Operator is required to make payments to certain Consumers (which payments may be made to the relevant Pipeline User for onward transmission to Consumers via the relevant Supplier) as set out in the Gas (Standards of Performance) Regulations 2001 (as amended) and that accordingly such payments are not set out in this Code.

9 Pipeline User offtake obligations: DM Supply Point

- 9.1 A Pipeline User is not entitled to offtake gas from the Pipeline at a DM Supply Point at a rate which exceeds the DM Offtake Rate, and shall take all reasonable steps to ensure that gas is not offtaken at such a rate.

- 9.2 Where:

- (a) the Pipeline Operator believes on reasonable grounds that gas is being or will be offtaken from the Pipeline at a DM Supply Point at a rate which exceeds the DM Offtake Rate; and
- (b) in the Pipeline Operator's reasonable judgment the security of the Pipeline may be prejudiced as a result,

the Pipeline Operator may take any steps available to it to secure the required reduction in the rate of or the discontinuance of the offtake of gas from the Pipeline at the Supply Point.

- 9.3 The steps referred to in Clause 9.2 include the disconnection of the relevant premises; but (without prejudice to any provisions of the Gas Code) the Pipeline Operator will endeavour not to take this step where alternative steps are available and adequate in the circumstances.
- 9.4 The Pipeline Operator will not be obliged under any provision of the Code to make gas available for offtake from the Pipeline by a Pipeline User at a DM Supply Point:
 - (a) at any time, at a rate which exceeds the DM Offtake Rate for that Supply Point;
 - (b) on any Day, in a quantity which exceeds the Pipeline User's Registered DM Capacity.

10 Antifluctuators, etc

- 10.1 Each Pipeline User shall as soon as reasonably practicable notify the Pipeline Operator if such Pipeline User becomes aware in relation to any Supply Meter Point of which it is the Registered User:

- (a) that any requirement applying to the relevant Consumer under paragraph 17 of the Gas Code has not been or is not being complied with, or
 - (b) of circumstances in which the Pipeline Operator would be entitled to exercise its rights under paragraph 18 of the Gas Code.
- 10.2 Where pursuant to paragraph 17 of the Gas Code the Pipeline Operator seeks to give any notice to or exercise any other entitlement in relation to any Consumer the Registered User in respect of the relevant Supply Point agrees to extend reasonable co-operation to the Pipeline Operator so as to facilitate the exercise of such entitlements (and in particular but without limitation agrees if so requested to secure that there is conveyed on behalf of the Pipeline Operator to the relevant Consumer any communication to be given by the Pipeline Operator pursuant to such paragraph 17).
- 10.3 The Pipeline Operator will inform the Registered User before or as soon as reasonably practicable after giving any notice to or exercising any other entitlement in relation to any Consumer pursuant to paragraph 17 or 18 of the Gas Code.
- 10.4 Pipeline Users acknowledge that where there is an agreement in force between the Pipeline Operator and the Consumer or the Pipeline Operator and the Registered User in respect of a Supply Point that such agreement may provide for additional terms in respect of the matters subject to paragraphs 17 and 18 of the Gas Code.
- 10.5 If so requested on reasonable grounds by the Pipeline Operator, the Registered User in respect of any Supply Point shall (within a reasonable period specified by the Pipeline Operator) make reasonable enquiries of the Consumer or Supplier with a view to ascertaining and obtaining reasonable evidence as to whether the requirements of paragraph 17 of the Gas Code are applicable or (where applicable) are being complied with, and inform the Pipeline Operator of the outcome of such enquiries; and where the Registered User fails so to make reasonable enquiries or inform the Pipeline Operator of such outcome within such period the Pipeline User shall reimburse to the Pipeline Operator any expenses reasonably incurred by the Pipeline Operator in ascertaining any such matter itself (including without limitation any expenses paid by the Pipeline Operator pursuant to paragraph 17(6) of the Gas Code).

PART K - GENERAL

1 Pipeline User Admission requirements

- 1.1 In order to become a Pipeline User a person (the "**Applicant User**") must:
- (a) satisfy or secure satisfaction of the requirements in Clause 1.2; and
 - (b) accede to the Framework Agreement and thereby agree to be bound by the Code.
- 1.2 The requirements referred to in Clause 1.1(a) are as follows:
- (a) the Applicant User shall have applied to the Pipeline Operator in such form as the Pipeline Operator may from time to time prescribe, giving the following details:
 - (i) the name of the Applicant User;
 - (ii) the legal nature of the Applicant User, and where the Applicant User is not a company incorporated under the Companies Act 1985 (as amended), such further information concerning the constitution of the Applicant User as the Pipeline Operator may reasonably require;
 - (iii) the address and telephone and email addresses of the Applicant User, and the individual for whose attention notice is to be marked, for the purposes of notices under Part K;
 - (iv) where the Applicant User is not a company incorporated under the Companies Act 1985 (as amended), an address for service in accordance with Part K39;
 - (b) either:
 - (i) a Shipper's Licence shall have been granted to the Applicant User which is in force and in respect of which no notice of revocation has been given, and the Applicant User shall have provided a copy of such licence to the Pipeline Operator; or
 - (ii) a Shipper's Licence shall be treated as having been granted to the Applicant User pursuant to a scheme made under paragraph 15 or 16 of Schedule 5 to the Gas Act 1995;
 - (c) the Applicant User shall have provided the emergency contact details required under Part I.
 - (d) the Applicant User shall have obtained from the Pipeline Operator one or more copies of the Code and such other documents referred to in the Code or the Framework Agreement as the Pipeline Operator shall from time to time prescribe for the purposes of this paragraph (d);
 - (e) the Applicant User shall have warranted to the Pipeline Operator that there is in force a transportation arrangement between it and the Upstream System Operator pursuant to the Upstream System Operator's Network Code;
 - (f) the Applicant User shall have warranted to the Pipeline Operator that there is in force a transportation arrangement between it and the Upstream System Operator or a Pipeline Delivery Facility Operator that is a gas transporter that is not a party to UNC IGTD as set out in Part Q 1.2.1 (c).

2 Admission of User

- 2.1 The Applicant User will become a Pipeline User with effect from the Day ("**User Accession Date**") which is 3 Business Days after satisfaction of the last of the requirements under Clauses 1.1 and 1.2 to be satisfied.

2.2 Upon the Applicant User's becoming a Pipeline User pursuant to Clause 2.1 the Pipeline Operator will so notify:

- (a) the Applicant User, specifying:
 - (i) the Pipeline Operator's notice details for the purposes of Part K; and
 - (ii) the names of all other Pipeline Users and their prevailing notice details in accordance with Part K;
- (b) all other Pipeline Users as soon as reasonably practicable thereafter, specifying the name of the Applicant User, its notice details provided under Clause 1.2(a)(iii) and the User Accession Date.

3 Restricted authorisation of Pipeline User

3.1 Where the Shipper's Licence held by a Pipeline User limits or restricts the premises to which the Pipeline User may arrange for the conveyance of gas by the Pipeline or in any other way limits or restricts the activities which the Pipeline User is authorised to carry on:

- (a) the Pipeline User shall be solely responsible for compliance with such limit or restrictions and (subject to paragraph (b)) the Pipeline Operator shall not in the implementation of the Code as respects such Pipeline User be concerned with such limit or restriction; but
- (b) the Pipeline Operator shall be at liberty in its discretion to (but shall not be required to) withhold from the Pipeline User any right or entitlement pursuant to the Code so as to give effect to such limit or restriction.

4 Single User admission

4.1 Unless expressly otherwise provided in the Code or agreed by the Pipeline Operator, a person may only be one Pipeline User, and accordingly a person who is for the time being a Pipeline User may not make a further application to be admitted as a Pipeline User.

5 Discontinuing Users

5.1 A Pipeline User may cease to be a Pipeline User pursuant to Clauses 6 or 7; and for the purposes of the Code a **"Discontinuing User"** is a Pipeline User who so ceases to be a Pipeline User and the **"User Discontinuance Date"** is the date with effect from which (in accordance with Clause 6 or 7) a Discontinuing User ceases to be a Pipeline User.

5.2 Upon a Pipeline User's ceasing to be a Pipeline User (save as provided in the Code), the Framework Agreement shall cease to bind the Discontinuing User and (as respects the Discontinuing User) the Pipeline Operator.

5.3 The Pipeline Operator will as soon as reasonably practicable after the User Discontinuance Date notify all other Pipeline Users of a Pipeline User's ceasing to be a Pipeline User.

6 Voluntary discontinuance

6.1 A Pipeline User may at any time by giving notice (**"Discontinuance Notice"**) to the Pipeline Operator apply to cease to be a Pipeline User.

6.2 A Pipeline User may not cease to be a Pipeline User under this Clause 6 until such time as:

- (a) all amounts payable or (other than in respect of any recurrent charge becoming payable by reason only of the lapse of time after the date on which the last of the other requirements of this Clause 6.2 is satisfied) which may

- become payable by the Pipeline User to the Pipeline Operator pursuant to any provision of the Code or the Framework Agreement have been paid in full;
 - (b) the Pipeline User is not the Registered User in respect of any Supply Point;
 - (c) any outstanding breach, capable of remedy and of which the Pipeline Operator has given notice to the Pipeline User, by the Pipeline User of any provision of the Code or the Framework Agreement shall have been remedied.
- 6.3 Where a Pipeline User has given notice under Clause 6.1:
- (a) the Pipeline User and the Pipeline Operator shall remain bound by the Code and the Framework Agreement to which the Pipeline User is party until the requirements of Clause 6.2 are satisfied;
 - (b) the Capacity which the Pipeline User is registered as holding shall not be reduced or cancelled other than in accordance with the relevant provisions of the Code (and the Pipeline User will remain liable for payment of Transportation Charges in respect thereof but may elect to make prepayment thereof).
- 6.4 Where a Pipeline User has given notice under Clause 6.1, after the satisfaction of the last of the requirements of Clause 6.2 to be satisfied:
- (a) with effect from the 5th Business Day following such satisfaction, the Pipeline User will cease to be a Pipeline User;
 - (b) without prejudice to Clause 6.5, the Pipeline Operator will as soon as reasonably practicable (and where possible before such date) inform the Pipeline User of the date on which it ceases to be a Pipeline User under paragraph (a).
- 6.5 Notwithstanding Clause 6.4, without prejudice to Clause 6.3(a), the Pipeline Operator or (as the case may be) the Discontinuing User shall remain liable, subject to and in accordance with the Code, to the other and (in the case of the Discontinuing User, subject to Clause 26.1) to each other Pipeline User, after the User Discontinuance Date:
- (a) for any amount which was or becomes payable under the Code in respect of any period before the User Discontinuance Date; and
 - (b) in respect of any outstanding breach of any provision of the Code, or the Framework Agreement where such breach was not (for the purposes of Clause 6.2(c)) capable of remedy or (notwithstanding that Clause) was capable of remedy but was not remedied.

7 Termination

- 7.1 For the purposes of this Clause 7 there shall have occurred a **"User Default"** in relation to a User (the **"Defaulting User"**) in any of the following events or circumstances:
- (a) where in relation to any payment which has become due for payment by the Defaulting User under the Code (excluding for the avoidance of doubt amounts the subject of an Invoice Query which have not become due for payment) the Defaulting User has not paid the amount in full by the fifteenth (15th) Business Day after the due date for payment; or
 - (b) where the Defaulting User is in material breach of a material provision of the Code which (if capable of remedy) has not been remedied within 14 Days of notice from the Pipeline Operator to do so;

- (c) save if and to the extent the provisions of section 233B of the Insolvency Act 1986 apply, where:
 - (i) the Defaulting User is unable to pay its debts (within the meaning of Section 123(1) or (2) of the Insolvency Act 1986, but subject to Clause 7.2), or any voluntary arrangement is proposed in relation to it under Section 1 of that Act or it enters into any composition or scheme of arrangement (other than for the purpose of a bona fide solvency reconstruction or amalgamation); or
 - (ii) the Defaulting User has a receiver (which expression shall include an administrative receiver within the meaning of Section 29 of the Insolvency Act 1986) of the whole or any material part of its assets or undertaking appointed; or
 - (iii) the Defaulting User has an administration order under Section 8 of the Insolvency Act 1986 made in relation to it; or
 - (iv) the Defaulting User passes any resolution for winding-up (other than for the purpose of a bona fide solvent reconstruction or amalgamation); or
 - (v) the Defaulting User becomes subject to an order by the High Court for winding-up; or
 - (vi) the Defaulting User becomes subject to a bankruptcy order; or
 - (vii) the Defaulting User becomes subject to an event made in a jurisdiction outside of England and Wales equivalent or analogous to any one or more of those events listed in paragraphs (i) to (vi) above;
- (d) where the Shipper's Licence granted to the Defaulting User is determined or revoked or otherwise ceases to be in force for any reason whatsoever, or such licence is assigned unless such assignment is contemporaneous with an assignment by the Pipeline User of all its rights and obligations under the Code and the Framework Agreement in accordance with Clause 19;
- (e) where the Pipeline Operator becomes aware that there is not in force in respect of the Pipeline User either a transportation arrangement with the Upstream System Operator pursuant to the Upstream System Operator's Network Code or an arrangement with an Upstream System User for the delivery of gas at the Connection Point;
- (f) where the Pipeline Operator becomes aware that there is not in force in respect of the Pipeline User either a transportation arrangement with a Pipeline Delivery Facility Operator pursuant to the Pipeline Delivery Facility Operator's Network Code (where such Pipeline Delivery Facility Operator has a Gas Transporter Licence)_or an arrangement with a Pipeline Delivery Facility User for the delivery of gas at the Pipeline Entry Point.

7.2 For the purposes of Clause 7.1(c)(i), the Defaulting User shall not be deemed to be unable to pay its debts for the purposes of that paragraph if any such demand as is mentioned in Section 123(1)(a) of the Insolvency Act 1986 is being contested in good faith by the Defaulting User with recourse to all appropriate measures and procedures.

- 7.3 Upon the occurrence of a User Default, and at any time after such occurrence at which the User Default is continuing, the Pipeline Operator may (subject to the provisions of section 233B of the Insolvency Act 1986) give notice ("**Termination Notice**") to the Defaulting User to the effect that the Pipeline User shall cease to be a Pipeline User with effect from the date (which may be any date on or after the date on which the notice is given) specified in the notice.
- 7.4 Where the Pipeline Operator gives Termination Notice to a Defaulting User, with effect from the date specified in the notice, the Pipeline User will cease to be a Pipeline User and Clause 5.2 shall apply.
- 7.5 The giving of a Termination Notice and the application of Clause 7.4 shall not affect the rights and obligations of the Pipeline Operator and the Defaulting User under the Code, the Framework Agreement and any Ancillary Agreement (including rights and obligations in respect of the User Default, and in respect of amounts including interest payable by either Party, and rights and obligations arising pursuant to any provision of the Code in respect of the Pipeline User's ceasing to be a Pipeline User) accrued up to the date referred to in Clause 7.4, which shall continue to be enforceable notwithstanding that Clause.
- 7.6 Where the Pipeline Operator has given a Termination Notice it shall be entitled to inform such persons as it thinks fit that it has done so, including the Upstream System Operator, a Pipeline Delivery Facility Operator, and the Supplier and Consumer in relation to any Supply Point of which the Defaulting User was Registered User.

8 Expert determination

- 8.1 A dispute which is to be referred to or resolved by an expert ("**Expert Determination**") shall be determined by a person appointed as expert in accordance with Clauses 8 to 17.
- 8.2 No person shall be nominated as a proposed expert under Clauses 9.2 or 9.3 unless that person has the requisite qualifications to resolve a dispute referable under the Code to Expert Determination by virtue of their education, experience and training.
- 8.3 For the purposes of this Part K:
- (a) a "**dispute**" is any dispute or difference arising between the Pipeline Operator and any Pipeline User or Pipeline Users under or in connection with the Code or the Framework Agreement or any Ancillary Agreement;
 - (b) in respect of any dispute "**parties**" means the Pipeline Operator and the Pipeline User or Pipeline Users party to such dispute, and "party" shall be construed accordingly.
- 8.4 Where the Code or any Ancillary Agreement provides or the parties have agreed that a dispute is to be referred to or resolved by Expert Determination subject to Clause 8.5 no party shall commence proceedings in any court in respect of or otherwise in connection with such dispute.
- 8.5 Nothing in this Clause shall prevent any party from seeking interim or interlocutory relief in any court.

9 Initial notice and selection of expert

- 9.1 Any party to a dispute which is to be resolved by or referred to Expert Determination may give notice of the dispute in accordance with Clause 9.2.
- 9.2 The notice shall be given to each other party and shall:
- (a) provide brief details of the issues to be resolved; and

- (b) nominate four persons as proposed experts.
- 9.3 Within 5 Business Days after any notice under Clause 9.2 was given, each party (other than the party giving such notice) shall by notice to each other party nominate four persons as proposed experts.
- 9.4 The parties shall endeavour within 10 Business Days after the notice under Clause 9.1 was given to agree upon the selection of an expert, and may meet for this purpose.
- 9.5 If within 10 Business Days after the notice under Clause 9.1 was given the parties shall not have agreed upon the selection of an expert, any of the parties may request the President for the time being of the Law Society to select an expert.

10 Appointment of the Expert

- 10.1 Upon the selection under Clause 9 or 10 of an expert, the parties shall forthwith notify the expert selected of their selection and request they confirm within 5 Business Days whether or not they are willing and able to accept the appointment.
- 10.2 The notification to the expert shall include the following:
 - (a) the names of the parties and a summary of the dispute;
 - (b) a request that the expert provide the confirmation required under Clause 13;
 - (c) a request for confirmation of the expert's scale of fees;
 - (d) a statement that the expert's fee and expenses will be paid as provided in Clause 15;
 - (e) a statement that the information disclosed in the notification is confidential and that it should not be disclosed, copied or revealed whether the appointment is accepted or not;
 - (f) a copy of Clauses 8 to 17, and
 - (g) a request for confirmation that the expert is able and willing to act in accordance with the procedure set out herein.
- 10.3 If the selected expert is unwilling or unable to accept the appointment, or shall not have confirmed their willingness and ability to accept such appointment within the period required under Clause 10.1, or the amount of their remuneration or terms of their appointment are not agreed within the period required under Clause 10.4, the parties shall endeavour to agree upon the selection of another expert within 3 Business Days, failing which another expert shall be selected in accordance with Clause 9.5.
- 10.4 The parties shall use their best endeavours to ensure that the terms of the contract of appointment of the expert are agreed with them within 10 Business Days following their confirmation of ability and willingness to act, and agree that if the parties are unable to agree with the expert the amount of their remuneration or any other terms of their appointment then:
 - (a) if one or more of the parties is willing to agree what the expert proposes, such amount or terms shall be determined by the President for the time being of the Law Society whose decision shall be final and binding on the parties to the dispute and whose costs of such reference shall be borne by the parties to the dispute equally;

- (b) if none of the parties is willing to agree what the expert proposes, or the expert is not willing to agree what is determined pursuant to paragraph (a), another expert shall be selected in accordance with Clause 10.3.
- 10.5 The expert shall be an independent contractor and the relationship of the parties and the expert shall in no event be construed to be that of principal and agent or master and servant.
- 10.6 The expert shall not act as an arbitrator (and accordingly the provisions of the Arbitration Act 1996 shall not apply) nor as mediator.

11 Timetable and Procedure

- 11.1 No later than 5 Business Days following their appointment, the expert shall by giving reasonable notice to each party convene a meeting with the parties at which the expert shall raise any matters upon which they require clarification and discuss with the parties any additional procedural requirements they or the parties may have.
- 11.2 The parties shall, not later than 10 Business Days after the appointment of the expert, submit to the expert and to each other party written submissions of not more than 10 pages in length together with all supporting documentation, information and data which they wish to submit in respect of the dispute; and the parties may also submit a statement of facts which they have agreed between themselves to the expert.
- 11.3 Each party may, not later than 20 Business Days after the appointment of the expert, submit to the expert and each other party written submissions of not more than 10 pages in length, together with any additional supporting documentation, information and data, in reply to the submissions made under Clause 11.2.
- 11.4 The expert shall disregard any documentation, information, data or submissions supplied or made (other than pursuant to Clause 11.9) by any party later than 20 Business Days after their appointment unless the same are provided in response to a request from the expert.
- 11.5 If the expert shall wish to obtain independent professional and/or technical advice in connection with the dispute:
 - (a) they shall first provide the parties with details of the name, organisation and estimated fees of the professional or technical adviser; and
 - (b) they may engage such adviser with the consent of the parties which consent shall not be unreasonably withheld for the purposes of obtaining such professional and/or technical advice as they as the expert may reasonably require.
- 11.6 The expert may at their discretion and at any time request information from any of the parties orally but shall only do so in the presence of the other parties.
- 11.7 At any time after the period referred to in Clause 11.3 expires, with the written consent of the parties, the expert may (but shall not be required to) convene a hearing upon giving the parties reasonable notice.
- 11.8 The expert shall provide a draft of their determination, which shall be a report in writing giving reasons for the determination, to the parties not later than 35 Business Days following their appointment.
- 11.9 Each party may, within 10 Business Days following delivery of the draft determination, submit to the expert any documentation, information, data, submissions or comments on or in respect of the draft determination.

- 11.10 The expert shall submit their final determination, which shall be a report in writing giving reasons for their determination of the dispute, to the parties not later than 50 Business Days following their appointment.
- 11.11 If the expert fails to submit the final determination by the time required under Clause 11.10, at the request of any party another expert may be appointed in accordance with the provisions of Clauses 8 to 17 and the appointment of the previous expert shall cease unless before the appointment of the new expert, the previous expert shall have submitted their final determination hereunder, in which case the new expert shall be forthwith informed that their services will not be required.

12 Effect of determination

- 12.1 The expert's final determination shall (unless given after the appointment of another expert under Clause 11.11) be final and binding on the parties except in the event of fraud or where it is so clearly erroneous on its face that it would be unconscionable for it to stand, in which case another expert may be appointed in accordance with the provisions of Clauses 8 to 17.
- 12.2 Except as provided in Clause 12.1, no party shall commence proceedings in respect of or refer to any court any finding by the expert, whether made at any time after their appointment or in their determination, as to the dispute or the construction of or otherwise in respect of the Code or any Ancillary Agreement.

13 Conflict of interest

- 13.1 The expert shall confirm to the parties before their appointment that they do not hold any interest or duty which would or potentially would conflict with the performance of their duties under their contract with the parties.
- 13.2 If after their appointment the expert becomes aware of any interest or duty which conflicts or potentially conflicts with the performance of their duties under their contract with the parties, the expert shall inform the parties forthwith of such conflict giving full details thereof.
- 13.3 Any party may within 5 Business Days of the disclosure of any such conflict or potential conflict object to the appointment or continued appointment of an expert, in which case the expert shall not be or shall cease to be appointed and a new expert shall be selected and appointed in accordance with Clauses 8 to 17 (and the rejected expert shall not be nominated for such selection).

14 Confidentiality

- 14.1 The parties and the expert shall keep the fact that the Expert Determination is taking place and its outcome confidential.
- 14.2 All documentation, information, data, submissions and comments disclosed or delivered whether in writing or otherwise by any party to the expert or to any other party either in connection with or in consequence of the appointment of the expert shall be regarded and treated as confidential; and the expert and the parties shall not disclose any or all of the documentation, information, data, submissions and comments including the contents and copies thereof in any form except in connection with any proceedings in any court which a party is not prohibited under this Part K from commencing.

15 Costs

- 15.1 Each party shall bear its own costs including costs of providing documentation, information, data, submissions or comments under Clauses 8 to 17 and all costs and expenses of all witnesses and other persons retained by it.

- 15.2 The expert shall provide the parties with a breakdown of:
- (a) their fees;
 - (b) their reasonable expenses, including the fees of and reasonable expenses incurred by any technical or professional advisers.
- 15.3 The expert's fees and expenses under Clause 15.2 shall be payable by the parties in equal amounts, unless the expert (having regard to the conduct of the parties with respect to the dispute in question) shall direct in their final determination that such costs and expenses should be borne by one or some only of the parties, in which case the parties shall pay such fees and expenses in accordance with such direction.
- 15.4 If the terms of the expert's appointment provide for the payment of their fees and expenses before the delivery of the final determination, the parties shall pay such fees and expenses in equal amounts, and shall make adjustment payments inter se following any such direction as is referred to in Clause 15.3.

16 Miscellaneous

- 16.1 The expert shall not be held liable for any act or omission unless it shall be shown that the expert has acted fraudulently or in bad faith.

17 Communications

- 17.1 Except where otherwise provided in Clauses 8 to 17 any notice, submission, statement or other communication relating to any dispute to be given pursuant to Clauses 8 to 17 by or to any party an expert or a Pipeline User shall be in writing and may not be given as a System Communication.
- 17.2 Where two or more Pipeline Users are parties to a dispute any such notice, submission, statement or communication to be given by them may be given by them jointly (and any reference to the party or parties by whom and to whom it is to be given shall be construed accordingly).
- 17.3 For the purposes of any limit under Clauses 8 to 17 on the length of any submission or statement or any attachments thereto a "**page**" is a single-sided A4 sheet which may contain single spaced type in a normal font size.

18 Suppliers and Consumers

- 18.1 Where:
- (a) the Code provides for the Pipeline Operator to do anything at or affecting any Supply Point Premises or the offtake of gas from the Pipeline at any Supply Point;
 - (b) in doing that thing the Pipeline Operator complies with the requirements of the Code and any other agreement with the Pipeline User, Supplier or Consumer in relation thereto, does not act unlawfully and is not negligent; and
 - (c) by reason of the Pipeline Operator's doing that thing the Consumer or Supplier suffers loss or damage or claims to have done so or otherwise makes any claim or complaint or brings any action or proceeding against the Pipeline Operator (other than pursuant to a contract between the Pipeline Operator and such Consumer or Supplier)

the Pipeline User or each Pipeline User which is (at the time at which the Pipeline Operator does such thing) the Registered User in respect of the relevant Supply Point shall indemnify the Pipeline Operator and hold it harmless against any liability to such Consumer or Supplier in respect of any such loss damage, claim, complaint, action or proceeding, and all costs and expenses incurred in connection therewith.

- 18.2 Nothing in the Code or the Framework Agreement or (except as may be expressly provided therein) an Ancillary Agreement shall be construed as imposing upon the Pipeline Operator any obligation or duty to or enforceable by a Consumer or a Supplier; and no Pipeline User shall make any commitment to any Supplier or Consumer binding on or purporting to bind the Pipeline Operator.
- 18.3 Nothing in the Code the Framework Agreement or any Ancillary Agreement shall prevent the Pipeline Operator from exercising any right or remedy which it may have against a Consumer or Supplier at law or pursuant to the Act or otherwise.
- 18.4 Where a Pipeline User receives a distributed payment for consumer compensation it will relay the distributed payment to the Supplier, or in the absence of any Supplier direct to the end consumer, within 10 working days of receipt of the distributed payment

19 Assignment

- 19.1 Subject to Clause 19.4 a Party may assign its rights under the Code, the Framework Agreement and any Ancillary Agreement:
- (a) to a 33⅓ % Affiliate of such Party, provided that the assigning Party shall continue to be bound by and liable under the Code, the Framework Agreement and any such Ancillary Agreement;
 - (b) subject to Clause 19.5, with the prior agreement in writing of each relevant other Party, which shall not unreasonably be withheld, to any person.
- 19.2 For the purpose of this Clause 19.2 a relevant other Party is:
- (a) where the assigning Party is the Pipeline Operator, each other Pipeline User
 - (b) where the assigning Party is a Pipeline User, the Pipeline Operator.
- 19.3 Except as provided in Clause 19.1, a Party shall not assign or transfer and shall not purport to assign or transfer any of its rights or obligations under the Code the Framework Agreement or (except as may be expressly permitted thereby) any Ancillary Agreement.
- 19.4 No assignment shall be made to a person unless:
- (a) where the assigning Party is the Pipeline Operator, that person holds a Gas Transporter's Licence;
 - (b) where the assigning Party is a Pipeline User, that person holds a Shipper's Licence and has complied with the other requirements with which (if the person were an Applicant User) it would be required under Clause 1 to comply.
- 19.5 Where a Party assigns its rights under the Code the Framework Agreement and any Ancillary Agreement to a person (including a 33⅓ % Affiliate) pursuant to Clause 19.1(b);
- (a) it shall be a condition precedent to such assignment that such person shall enter into an agreement with each relevant other Party consenting to be bound by the Code, the Framework Agreement and any such Ancillary Agreement;
 - (b) the assigning Party shall be released from obligations under the Code, the Framework Agreement and any such Ancillary Agreement arising after the time at which the assignment is effective, but shall remain liable for any obligations accruing up to such time.
- 19.6 A reference in the Code the Framework Agreement or any Ancillary Agreement to any Party shall include a reference to that Party's successors and assigns.

20 Waiver

- 20.1 No delay by or omission of any Party in exercising any right, power, privilege or remedy under the Code, the Framework Agreement or any Ancillary Agreement shall operate to impair such right, power, privilege or remedy or be construed as a waiver thereof.
- 20.2 Any single or partial exercise of any such right, privilege or remedy shall not preclude any other or future exercise thereof or the exercise of any other right, power, privilege or remedy.

21 Severance

- 21.1 If any provision of the Code, the Framework Agreement or any Ancillary Agreement is or becomes invalid, unenforceable or illegal, or is declared to be invalid, unenforceable or illegal by any court of competent jurisdiction or by order of any other Competent Authority, such invalidity, unenforceability or illegality shall not prejudice or affect the remaining provisions of the Code the Framework Agreement or any Ancillary Agreement, which shall continue in full force and effect notwithstanding the same.

22 Entire agreement

- 22.1 The Code, the Framework Agreement and (as respects the Parties thereto) each Ancillary Agreement contain or expressly refer to the entire agreement between the Parties with respect to the subject matter thereof, and supersede all previous agreements or understandings between the Parties with respect thereto; and any warranty, condition or other term implied at law or by custom is (to the fullest extent permitted by law) expressly excluded therefrom.
- 22.2 Each Party acknowledges that in entering into the Framework Agreement and any Ancillary Agreement it does not rely on any representation, warranty, or other understanding not expressly contained in the Code, the Framework Agreement or such Ancillary Agreement.
- 22.3 Nothing contained in a document (other than the Framework Agreement or an Ancillary Agreement) referred to in the Code, beyond what is expressly contemplated by the Code as being contained in such document or is necessary for the purposes of giving effect to a provision of the Code, shall modify or have any effect for the purposes of the Code or be construed as relevant to the interpretation of the Code.

23 Information and confidentiality

- 23.1 Each party shall secure that Protected Information is:
 - (a) not disclosed to any person other than (strictly in accordance with Clause 24) the Permitted Categories;
 - (b) not used by it for any purpose other than the Permitted Purpose.
 - (c) sent using password protection as detailed in the IGT UNC Ancillary Document "Password Protection Protocols" when the Pipeline Operator or Pipeline User sends such data by email.
- 23.2 For the purposes of the Pipeline Operator's obligations under Clause 23.1 and with reference to Clause 23.5:
 - (a) **"Protected Information"** means
 - i. any information relating to the affairs of a Pipeline User which is obtained by the Pipeline Operator pursuant to or in the course of the negotiation, implementation or performance of the Code, the

Framework Agreement or any Ancillary Agreement to which that Pipeline User is party. For the sake of clarity this includes IGT Transportation Charges Invoices and Portfolio Extracts sent by email between the Pipeline User and Pipeline Operator; or

- ii. any information relating to a Consumer or a Supply Meter Point Reference Number defined as personal in the Data Protection Act 2018;

(b) **"Permitted Categories"** means an officer or employee of the Pipeline Operator or any Party on whose behalf the Pipeline Operator acts as an agent who is engaged in the Permitted Purposes or a professional adviser of or consultant to the Pipeline Operator or (but without prejudice to any requirement under the Pipeline Operator's Licence) any Affiliate (other than an Affiliate which is the holder of a Shipper's Licence or a gas Suppliers licence) of the Pipeline Operator;

(c) **"Permitted Purposes"** means the carrying on of the transportation business (as defined in the Pipeline Operator 's Licence) the operation administration, maintenance and development of the Pipeline facilitation of connections to the Pipeline and the implementation and performance of the Code, the Framework Agreement, any Ancillary Agreement and any Siteworks Contract;

23.3 For the purposes of the Pipeline User's obligations under Clause 23.1 and with reference to Clause 23.5:

(a) **"Protected Information"** means

- i. any information relating to the affairs of the Pipeline Operator or of another Pipeline User which is obtained by the Pipeline User pursuant to or in the course of the negotiation, implementation or performance of the Code, the Framework Agreement or any Ancillary Agreement to which that Pipeline User is party; or
- ii. any information relating to a Consumer or a Supply Meter Point Reference Number defined as personal in the Data Protection Act 2018;

(b) **"Permitted Categories"** means an officer or employee of the Pipeline User whose province it is to know the same in the proper execution of their duties and responsibilities, or a professional adviser of or consultant to or any Affiliate of that Pipeline User (provided that such persons are not the holder of a Gas Transporter's Licence) or (subject to Clause 23.4) a Consumer or a Supplier;

(c) **"Permitted Purposes"** means any purpose expressly contemplated by the Code or any Ancillary Agreement or Siteworks Contract to which such Pipeline User is party

23.4 Protected Information to a consumer or an appropriate person to the extent designated by the authority within Standard Special Condition A31 of the Gas Transporter's Licence and a supplier shall be an appropriate person pursuant to Standard Special Condition A31((2)(d)(ii) where its application is for the receipt of data for change of supplier purposes.

23.5 For the purposes of Clause 23.2 and 23.3:

(a) information obtained by a Party in the course of the negotiation of the Code or the Framework Agreement shall be Protected Information only insofar as such information was obtained in writing;

- (b) the following information shall be treated as information relating to the affairs of a Pipeline User:
 - (i) the identity, address and any other details of a Supplier or Consumer, or any representative thereof, insofar as disclosed by the Pipeline User to the Pipeline Operator pursuant to or for the purposes of the Code;
 - (ii) information provided by the Pipeline User to the Pipeline Operator pursuant to Parts C and H, the Pipeline User's Code Credit Limit (if any) and record of payment of charges under the Code;
 - (c) the terms of the Code and the Framework Agreement are not Protected Information.
- 23.6 The CDSP are authorised to disclose such data as is set out within Data Permissions Matrix, as per paragraph 2.6 of General Terms D of the UNC to the holder of the "smart meter communications licence" as defined by the Statutory Instrument 2012 No.2400: The Electricity and Gas (Smart Meters Licensable Activity) Order 2012. Such data may relate to all Supply Meter Points regardless of status. The CDSP are authorised to appoint a third-party agent (i.e. Xoserve) to manage the collation and transmission of the data set out within Annex V-10 of the UNC on to the holder of the "smart meter communications licence".
- 23.7 Where in respect of any access to Supply Point data by the holder of the "smart meter communications licence" the CDSP will disclose such data in accordance with paragraph 2.6 of General Terms D of the UNC.
- 23.8 Confidentiality as between a Party or Parties and the CDSP is governed by the DSC and not the Code.
- 23.9 The Pipeline Operators are authorised to disclose such data as is required for the reports as are specified in the Performance Assurance Report Registers Schedules 1A, 1B, 2A and 2B in accordance with paragraph 16.4 of UNC TPD Section V.

23.10 Disclosure of Historic Meter Point Read Information

Where in respect of any Supply Point, the CDSP is requested by the Registered User to disclose Historic Supply Meter Point Asset and Read Information such disclosure will be in accordance with paragraph 4.4 of UNC TPD Section M.

24 Terms of permitted disclosure

- 24.1 For the purposes of this Clause 24 **"Disclosing Party"** and **"Protected Party"** shall be construed as follows;
- (a) for the purposes of the Pipeline Operator's obligations under Clause 23.1, the Disclosing Party is the Pipeline Operator and the Protected Party is the Pipeline User to whose affairs any Protected Information directly relates;
 - (b) for the purposes of a Pipeline User's obligations under Clauses 23 to 25 the Disclosing Party is such Pipeline User and the Protected Party is the Party (either the Pipeline Operator or another Pipeline User) to whose affairs any Protected Information directly relates.
- 24.2 Where Protected Information is disclosed as permitted under Clause 23.1 the Disclosing Party shall (without prejudice to its obligations under Clause 23.1) take all reasonable steps to secure that the person to whom the information is disclosed:

- (a) is aware of the Disclosing Party's obligations under Clause 23.1 in relation thereto, and
- (b) does not use or disclose the information other than as is permitted of such party in accordance with Clause 23.1.

24.3 Nothing in Clause 23.1 shall apply:

- (a) to the disclosure or use by the Disclosing Party of Protected Information to which the Protected Party has consented in writing;
- (b) to any Protected Information which;
 - (i) before it is obtained by the Disclosing Party is in the public domain; or
 - (ii) after it is obtained by the Disclosing Party enters the public domain, in either case otherwise than as a result of a breach by the Disclosing Party of its obligations under Clause 23.1;
- (c) to the disclosure of any Protected Information to any person if and to the extent that the Disclosing Party is required to make such disclosure to such person;
 - (i) in compliance with the duties of the Disclosing Party under the Act or any other requirement of a Competent Authority; or
 - (ii) in compliance with the conditions of the Pipeline Operator's Licence or (as the case may be) Shipper's Licence held by the Disclosing Party or any document referred to in such licence with which the Disclosing Party is required by virtue of the Act or such licence to comply; or
 - (iii) in compliance with any other Legal Requirement; or
 - (iv) in response to a requirement of any stock exchange or regulatory authority or the Panel on Take-overs and Mergers; or
 - (v) pursuant to any provision of Clauses 8 to 17 or pursuant to any judicial or other arbitral process or tribunal having jurisdiction in relation to the Disclosing Party; or
- (d) to any Protected Information to the extent that the Disclosing Party is expressly permitted or required to disclose that information under the terms of any agreement or arrangement made with the Protected Party or to which it is party (including the Code, the Framework Agreement and any Ancillary Agreement to which the Protected Party is party);
- (e) to the disclosure of Protected Information to any lending or other financial institution proposing to provide or arrange the provision of finance to the Disclosing Party, where and to the extent that the disclosure of such information is reasonably required for the purposes of the provision or arrangement of such finance, and provided that the person to whom the information is disclosed undertakes in writing to and in terms reasonably satisfactory to the Protected Party to maintain the confidentiality of such information;
- (f) to the disclosure of any Protected Information to the Authority, where the Disclosing Party considers in good faith that the Protected Party may be in breach of a condition of the Pipeline Operator's Licence or (as the case may be) the Shipper's Licence, to the extent reasonably necessary to draw such possible breach to the attention of the Authority;
- (g) to any person pursuant to the Modification Rules;

- (h) to the disclosure of any Protected Information to any person proposing to make a connection directly or indirectly to the Pipeline where and to the extent that the disclosure of such information is reasonably required for the purposes of supporting the Pipeline Operator's charges or requirement to allow such proposed connection to the Pipeline to be made and provided that the person to whom the information is to be disclosed is informed in writing of the confidentiality of such information and that prior to disclosure such person has entered into a confidentiality agreement with the Pipeline Operator which prohibits use or disclosure of such Protected Information in terms no less onerous than those contained in Clauses 23 and 24;
 - (i) to an Upstream System Operator, a Pipeline Delivery Facility Operator that has a Gas Transporter Licence, or Downstream System Operator to the extent required to enable such Operator to fulfil its Gas Transporter Licence requirements, the requirements of its Network Code or its duties under any Legal Requirement.
- 24.4 The provisions of Clauses 23 to 24.3 shall continue, for a period of 3 years after the User Discontinuance Date, to bind a Discontinuing User and (as respects the Discontinuing User) the Pipeline Operator and each other Pipeline User, notwithstanding that the Discontinuing User has ceased to be a Pipeline User and irrespective of the reason for such cessation.
- 24.5 Nothing in the Code, the Framework Agreement or any Ancillary Agreement shall be construed as requiring the Pipeline Operator to disclose or use any information in breach of any requirement of the Pipeline Operator Licence.

24.6 Data Permissions Matrix

- 24.6.1 Nothing in Clause 23.1 shall apply to the disclosure of Protected Information by the CDSP in accordance with the provisions of the Data Permissions Matrix.
- 24.6.2 For the avoidance of doubt, a Modification is required to add a new User type to the Data Permissions Matrix.
- 24.6.3 The CDSP may only disclose information to DPM User types who are not also signatories to the DSC if they have entered into Third-Party Services agreements which comply with the Third-Party and Additional Services Policy.
- 24.6.4 The CDSP shall, no later than 31 March in each year, publish a report identifying those DPM User which have a Third-Party Services agreement in place with the CDSP for the disclosure of information as contemplated pursuant to clause 24.6.3.

25 Data ownership

- 25.1 Subject to Clause 25.2(a) the data, including metering data, which is
- (a) processed by or recorded or maintained on the Computer System or any other computer system of the Pipeline Operator; and
 - (b) processed by, or recorded or maintained on any computer system of, a third party on behalf of the Pipeline Operator
- (including all intellectual property rights in such data) shall belong to the Pipeline Operator; and subject to Clause 25.2(b) the Pipeline Operator may, but without prejudice to Clause 23 or any other requirement of the Code, use and deal with such data as it thinks fit.

- 25.2 Where pursuant to the Code a Pipeline User provides or arranges for the provision of data to the Pipeline Operator:
- (a) such data (as provided to the Pipeline Operator by the Pipeline User) shall belong to the Pipeline User;
 - (b) the Pipeline User hereby grants to the Pipeline Operator a perpetual, non-exclusive, royalty-free licence (which shall survive the User Discontinuance Date) in respect of such data and all intellectual rights therein to use, copy, adapt and deal with such data for the purposes of performance and implementation of the Code and for other purposes contemplated by the Code, but not otherwise;
 - (c) Clause 25.1 shall apply in respect of data derived (pursuant to any process) by the Pipeline Operator from such data and in all compilations created by or on behalf of the Pipeline Operator of such data.
- 25.3 Where pursuant to the Code the Pipeline Operator provides data to a Pipeline User or data which is recorded or maintained on the Computer System is available to a Pipeline User, the Pipeline User shall (but without prejudice to Clause 25.2) be entitled without charge to use such data for the purposes of performance and implementation of the Code, and for other purposes contemplated by the Code, but not otherwise.

26 Liability

- 26.1 Except where the Code expressly provides otherwise or disapplies this Clause 26.1 or as may be provided in an Ancillary Agreement, neither the Code nor the Framework Agreement nor any Ancillary Agreement creates contractual rights or liabilities between Pipeline Users inter se.
- 26.2 Subject to the further provisions of Clauses 26 to 30, each Party agrees and acknowledges that:
- (a) no Party shall be liable to any other Party for loss arising from any breach of the Code the Framework Agreement or an Ancillary Agreement other than (but without prejudice to any other provision of the Code or an Ancillary Agreement which excludes or limits liability in respect of any breach) for loss directly resulting from such breach and which at the relevant date was reasonably foreseeable as not unlikely to occur in the ordinary course of events from such breach in respect of:
 - (i) physical damage to the property of any other Party, and/or
 - (ii) the liability (in law) of any other such Party to any other person for loss in respect of physical damage to the property of such person;
 - (b) no Party shall in any circumstances be liable in respect of any breach of the Code the Framework Agreement or any Ancillary Agreement to any other Party for:
 - (i) any loss of profit, loss of revenue, loss of use, loss of contract, loss of goodwill, loss arising from business interruption of any person or increased cost of working;
 - (ii) any indirect or consequential loss; or
 - (iii) except as provided in Clauses 26.2(a)(ii) and 26.6, loss resulting from the liability of any other Party to any other person howsoever and whenever arising.

- 26.3 For the purpose of Clause 26.2(a) the **"relevant date"** is the date of accession by the Pipeline User except that where the breach in question would not have been a breach of the Code but for a modification (pursuant to the Modification Rules or the Pipeline Operator's Licence) of the Code, the relevant date shall be the date of such modification.
- 26.4 The amount or amounts for which a Party may be liable to any other Party or Parties pursuant to Clause 26.2(a) in respect of any one event or circumstance constituting or resulting in the first Party's breach of a provision of the Code, the Framework Agreement and/or any Ancillary Agreement shall not exceed:
- (a) as respect the liability of the Pipeline Operator to any one Pipeline User or of any one Pipeline User to the Pipeline Operator £250,000;
 - (b) as respects the liability in aggregate of the Pipeline Operator to Pipeline Users collectively or of Pipeline Users collectively to the Pipeline Operator £1,000,000.
- 26.5 Clause 26.2 is without prejudice to any provision of the Code or any Ancillary Agreement which provides for any indemnity or which provides for any Party to make a payment to another.
- 26.6 Nothing in the Code or any Ancillary Agreement shall exclude or limit the liability of any Party for death or personal injury resulting from the negligence or such Party.

27 Exclusion of Certain Rights and Remedies

- 27.1 The rights and remedies of the Parties pursuant to the Code, the Framework Agreement and any Ancillary Agreement exclude and are in place of any rights or remedies of any Party in tort (including negligence and nuisance) or misrepresentation (save for those made fraudulently) in respect of the subject matter of the Code, the Framework Agreement and Ancillary Agreement and accordingly but without prejudice to Clauses 26.6 and 27.4 each Party (to the fullest extent permitted by law)
- (a) waives any rights or remedies; and
 - (b) releases each other Party from any duties or liabilities
- arising in tort or misrepresentation in respect of the subject matter of the Code, the Framework Agreement or such Ancillary Agreement.
- 27.2 Without prejudice to Clause 26.2 where any provision of the Code or any Ancillary Agreement provides for any amount to be payable by a Party upon or in respect of that Party's breach of any provision of the Code, each Party agrees and acknowledges that the remedy conferred by such provision is exclusive of and is in substitution for any remedy in damages in respect of such breach or the event or circumstance giving rise thereto.
- 27.3 For the avoidance of doubt, nothing in Clauses 26 to 30 shall prevent any Party from or restrict it in enforcing any obligation (including suing for a debt) owed to it under or pursuant to the Code, the Framework Agreement or any Ancillary Agreement.
- 27.4 Nothing in Clauses 26 to 30 shall constitute a waiver by any Party of any right or remedy it may have (other than pursuant to the Code) in respect of a breach by any other Party of any Legal Requirement.

28 Effect of Clauses 26 to 30

- 28.1 Each provision of Clauses 26 to 30 shall be construed as a separate and severable contract term and shall as respects any Discontinuing User survive that Pipeline User's ceasing to be a Pipeline User.
- 28.2 Each Party acknowledges and agrees that the provisions of Clauses 26 to 30 have been the subject of discussion and negotiation and are fair and reasonable having regard to the circumstances as at the date of the Framework Agreement.

29 Liquidated damages

- 29.1 Where any provision of the Code provides for any amount to be payable by a Party upon or in respect of that Party's breach of any provision of the Code, each Party agrees and acknowledges that such provision has been the subject of discussion and negotiation, and that the amount provided to be payable represents no more than a genuine pre-estimate of the loss of the Party to which such amount is payable.

30 Indemnities

- 30.1 The amount or amounts for which a Party may be liable to any other Party or Parties pursuant to any indemnity provided for in the Code in respect of any one event or circumstance giving rise to liability under such indemnity shall not exceed:
- (a) as respects the liability of the Pipeline Operator to any one Pipeline User or of any one Pipeline User to the Pipeline Operator £250,000;
 - (b) as respects the liability in aggregate of the Pipeline Operator to Pipeline Users collectively or of Pipeline Users collectively to the Pipeline Operator £1,000,000.
- 30.2 For the avoidance of doubt nothing in this Code shall make or be construed as making the Pipeline Operator liable for any loss of any nature (including any indirect or consequential loss) which occurs downstream of the Connection Point and/or Pipeline Entry Point but which arises as a result of or is caused by the act or omission of any person in relation to any obligation owed by or to that person upstream of the Connection Point and/or Pipeline Entry Point and which loss would but for that act or omission not have also been caused by a breach of the Code by the Pipeline Operator .

31 Meaning of Force Majeure

- 31.1 For the purposes of the Code, subject to Clause 31.2, "**Force Majeure**" means any event or circumstance or any combination of events and/or circumstances, the occurrence of which is beyond the reasonable control of and could not have been avoided by steps which might reasonably be expected to have been taken by a Party (the "**Affected Party**") and which causes or results in the failure of the Affected Party to perform or its delay in performing any of its obligations owed to any other Party or Parties (each an "**Other Party**") under the Code, including:
- (a) war declared or undeclared, threat of war, act of public enemy, terrorist act, blockade, revolution, riot, insurrection, civil commotion, public demonstration, sabotage, act of vandalism;
 - (b) act of God;
 - (c) strike, lockout or other industrial disturbance;
 - (d) explosion, fault or failure of plant, equipment or other installations which the Affected Party could not prevent or overcome by the exercise of the degree of skill, diligence, prudence and foresight which would reasonably and ordinarily

be expected from a skilled and experienced Pipeline Operator engaged in the same kind of undertaking under the same or similar circumstances;

- (e) governmental restraint or the coming into force of any Legal Requirement.

31.2 Inability (however caused) of a Party to pay shall not be Force Majeure.

31.3 The act or omission of:

- (a) any agent or contractor of a Party; or
- (b) in relation to a Pipeline User, the Upstream System Operator, Pipeline Delivery Facility Operator, or any Supplier or Consumer

shall not be Force Majeure unless such act or omission is caused by or results from events and/or circumstances which would be Force Majeure within the meaning of Clause 31.1 if such person were the Affected Party.

31.4 For the avoidance of doubt, in respect of the Pipeline Operator, **"Force Majeure"** shall include the failure of delivery of gas to the Connection Point and/or Pipeline Entry Point for any reason beyond the Pipeline Operator 's control (including any Excluded Offtake Circumstances).

32 Effect of Force Majeure

32.1 Subject to Clause 32.2 the Affected Party shall be relieved from liability (including any requirement under the Code to make payment of any sum or to take any other action) for any delay or failure in the performance of any obligation under the Code or any Ancillary Agreement which is caused by or results from Force Majeure.

32.2 The Affected Party shall be relieved from liability under Clause 32.1 only for so long as and to the extent that the occurrence of Force Majeure and/or the effects of such occurrence could not be overcome by measures which the Affected Party might reasonably be expected to take with a view to resuming performance of its obligations.

33 Information provision following a Force Majeure event

33.1 Following any occurrence of Force Majeure the Affected Party shall:

- (a) as soon as reasonably practicable notify each Other Party of the occurrence and nature of the Force Majeure, the expected duration thereof (insofar as the same can reasonably be assessed) and the obligations of the Affected Party performance of which is affected thereby; and
- (b) from time to time thereafter provide to each Other Party reasonable details of:
 - (i) developments in the matters notified under paragraph (a), and
 - (ii) the steps being taken by the Affected Party to overcome the Force Majeure occurrence or its effects and to resume performance of its relevant obligations.

34 Notices and communications

34.1 References in Clauses 34.1 and 34.3 to 34.5 to a notice are to any Code Communication or other notice or communication to be given by one Party to another under the Framework Agreement or an Ancillary Agreement, other than one which is given as a System Communication or by telephone.

- 34.2 Where the Pipeline Operator has in place a Manual, the particular means by which each Code Communication is to be given is set out in the Manual (subject to the provisions of the Pipeline Operator's Network Code) and except where the means by which a Code Communication is to be given is specified in the Code provided that where in any such case such means is not so specified, such Communication shall be given as a Conventional Notice.
- 34.3 Any notice shall be in writing and shall be addressed to the recipient Party and sent to the recipient Party's address or email address referred to in Clause 34.4 and marked for the attention of the representative (identified by name or title) referred to in that paragraph or to such other address or email address and/or marked for such other attention as the recipient Party may from time to time specify by notice given in accordance with this Clause 34.1 to the Party giving the notice.
- 34.4 The initial address or email address of a Party and representative for whose attention notices are to be marked shall be as specified by a Pipeline User pursuant to Clause 1 or by the Pipeline Operator pursuant to Clause 2.
- 34.5 Any notice shall be given by letter delivered by hand or sent by first class prepaid post (airmail if overseas) or by email and shall be deemed to have been received:
- (a) in the case of delivery by hand, when delivered; or
 - (b) in the case of first class prepaid post, on the second Day following the Day of posting or (if sent airmail overseas or from overseas) on the fifth Day following the Day of posting; or
 - (c) in the case of email, on acknowledgement by the recipient Party's email receiving equipment.
- 34.6 Subject to Clause 34.7, a Code Communication which is given after 24:00 hours, or such other time as may be specified in the Manual (if any) in respect of such Code Communication, on a Day may be deemed to have been received on the following Business Day.
- 34.7 Clause 34.6 does not apply in respect of:
- (a) a communication to be made (in accordance with Part I) during an Emergency; or
 - (b) any other communication to be made by System Communication or by telephone or by email where the context requires that such communication be treated as received within the Day on which it is given.
- 34.8 Where any provision of the Code specifies any requirement to be complied with by any Party in respect of any specific Code Communication, such requirement shall be in addition to and (to the extent inconsistent) in substitution for the provisions of Clauses 34 to 36.
- 34.9 Where under any provision of the Code, a Code Communication may be given in the form of a computer disk, it shall be given by delivering or sending by post, such disk in accordance with Clauses 34.3 to 34.5 (and shall be treated for the purposes of Clause 34.3 as being in writing) but without prejudice to any procedure which the relevant Parties may agree for the purposes of ensuring that it is received in appropriately readable form.

35 Communication by telephone

- 35.1 For the purpose of enabling Code Communications to be given (where required or permitted to be so given) by telephone:

- (a) the Pipeline Operator shall provide to each Pipeline User and each Pipeline User shall provide to the Pipeline Operator not more than 3 telephone numbers (or such other number as they may agree) and details (by name or title) of the representative to whom the Party giving such a communication should speak;
 - (b) each Party shall use reasonable endeavours to ensure that a Party seeking to give such communication will at any time be able to contact a representative (of the first Party) by means of one of such telephone numbers;
 - (c) the Pipeline Operator and each Pipeline User shall, if either of them shall so request, establish such further procedures as may be reasonable and appropriate for the purposes of ensuring:
 - (i) that a Code Communication being given by telephone may be identified by the recipient as such; and/or
 - (ii) that such communications may be given securely without delay and effectively.
- 35.2 Where a Party seeking to give a Code Communication by telephone is unable to contact a representative of the receiving Party, such Party must give the communication by email and the communication will not be deemed to have been given except in accordance with Clause 34.5(c).
- 35.3 Unless otherwise agreed between the relevant Parties a telephone notice may not be given as a message recorded on a telephone answering device.
- 35.4 Where a Code Communication is given by telephone:
- (a) the Pipeline Operator will promptly after the telephone communication is completed make and keep a record in which the time and content of the telephone notice is logged but may do so by recording the telephone communication where it has notified the Pipeline User (on the occasion or on a standing basis) of its intention to do so;
 - (b) the Code Communication shall be treated as given at the time at which the telephone communication is completed.

36 Communication by other means

- 36.1 Subject to Clause 36.2 the Pipeline Operator and any Pipeline User may agree to send and receive notices by means other than those specified in Clauses 34 and 35.
- 36.2 Any such means of communication must be capable of being audited, and the Pipeline Operator and the relevant Pipeline User shall agree on such auditing procedures as may be reasonable and appropriate.
- 36.3 The means by which Pipeline Users may obtain information pursuant to the Incident Procedure shall be as set out therein.

37 Language

- 37.1 Every Code Communication, and every notice or other communication to be given by one Party to another under the Framework Agreement, shall be in the English language.

38 Governing law

- 38.1 The Code and the Framework Agreement shall be governed by, and construed in all respects in accordance with, English law.

39 Jurisdiction

- 39.1 Subject and without prejudice to the provisions of Clauses 8 to 17 as to Expert Determination, all the Parties irrevocably agree that the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Code, the Framework Agreement and any Ancillary Agreement and that accordingly any suit, action, proceeding (collectively "proceedings") arising out of or in connection with the Code and the Framework Agreement and any Ancillary Agreement may be brought in such courts.
- 39.2 Each Party irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any proceedings in any such court as is referred to in Clause 39.1 and any claim that any such proceedings have been brought in an inconvenient forum and further irrevocably agrees that a judgement in any proceedings brought in the English courts shall be conclusive and binding upon such Party and may be enforced in the courts of any other jurisdiction.
- 39.3 Any Party which is not a company incorporated under the Companies Act 1985 shall provide to the Pipeline Operator an address in England or Wales for service of process on its behalf in any proceedings.

40 Communication of Incidents

- 40.1 The Pipeline Operator shall as soon as reasonably practicable after the occurrence of an incident resulting in a failure to supply more than 50 Supply Points at any one time (subject always to any obligations of confidentiality and to any obligations (whether pursuant to any Legal Requirement or otherwise) which the Pipeline Operator may reasonably determine have a higher priority in the event of an incident) provide to relevant Pipeline Users such information regarding the incident as is set out in the document "Shipper Incident Communication Procedure" as such document may be amended from time to time by the Pipeline Operator upon notice to Pipeline Users (the "**Incident Procedure**")

41 Rights of Third Parties

- 41.1 Unless expressly otherwise provided, the Pipeline Operator and Pipeline Users do not intend that any term of the Code, or the Framework Agreement or any Ancillary Agreement shall be enforceable solely by virtue of the Contracts (Rights of Third Parties) Act 1999 by any person who is not a party.
- 41.2 Notwithstanding any express provision of the Code pursuant to which Clause 42.1 is disapplied, in relation to a term of the Code, or the Framework Agreement or any Ancillary Agreement, the Pipeline Operator and Pipeline Users may rescind, vary, waive, release, assign, novate or otherwise dispose of all or any of their respective rights or obligations.

42 General Provisions Relating to IGT UNC Ancillary Documents

42.1 Purpose

An "IGT UNC Ancillary Document" is one that is listed in Appendix K2.

42.2 Publication Requirements

Each IGT UNC Ancillary Document shall be kept up to date and published by the IGT UNC Operators on the IGT UNC website.

42.3 Modifications

Any modification to an IGT UNC Ancillary Document must be raised in accordance with and subject to the procedures described in Part L (Modification Rules) of the Code.

43 Standards of Service

- 43.1 Both the Pipeline Operators and Pipeline Users will adhere to the principles and supporting business rules, in relation to standards of service for query management as set out in the IGT UNC Ancillary Document Pipeline Operator Standards of Service Query Management.

44 Temporary Measures

44.1 Coronavirus (COVID-19)

For the purposes of this Clause 44.1 the provisions of part VI of UNC Transition Document shall apply.

44.2 Central Switching Service (CSS) Implementation

For the purposes of this Clause 44.2 the provisions of Part IIH of UNC Transition Document shall apply with the following changes:

"CSS Modification" means the Code Modification to the UNC and the Modification to the IGT UNC the purposes of which are to give effect to the changes required to facilitate implementation of the REC and the CSS to be implemented with effect from the CSS Implementation Date within the IGT UNC;

"Old Rules" means the provisions of Part C of the IGT UNC and the provisions of TPD Section G of the UNC as they apply prior to the CSS Modifications.

"New Rules" means the provisions of Part C of the IGT UNC and the provisions of TPD Section G of the UNC as they apply following the CSS Modifications.

For the purposes of this clause 44.2 any reference to:

"Association Data Cut-Off Date" shall have the meaning ascribed thereto in the UNC

"CSS Implementation Date" or **"CSSID"** means the 'CSS Go-Live Date' as defined in the UNC;

"Supply Point System Business Day" is a reference to a Day other than a Saturday, Sunday or a bank holiday in England or Wales.

In this Clause 44.2 a defined term which is defined only in the New Rules has the meaning under the New Rules

(a) Modification of the Supply Point Register

In addition to Part IIH Clause 2.1 of the UNC this clause 44.2(a) shall apply:

The Registered User of a Supply Point may not amend the Supply Point Register for the purposes specified in Section CI Clause 12.10 (a) and (b) after the Day falling three (3) Supply Point Business Days prior to the CSSID.

(b) Registration

For the purposes of Part IIH Clause 2.2 of the UNC the reference to:

Section G6.5.1 of the UNC in Part IIH Clause 2.2.1(c) of the UNC shall be replaced by Part CI Clause 11 of the IGT UNC.

Section G4.4.4 in Part IIH Clause 2.2.3 of the UNC shall be applied as described under Part CI Clause 18 of the IGT UNC.

Section G4.6.11 in Part IIH Clause 2.2.3 of the UNC shall be applied as described under Part CI Clause 21 of the IGT UNC.

Sections G8.2.4, G8.4.3 and G8.5.4 of the UNC in Part IIH Clause 2.2.3 shall be applied as described under Part CIV Clause 7 of the IGT UNC.

For the purposes of Part IIH Clause 2.2 of the UNC the provisions of Clause 2.2.3 shall not apply.

(c) Association Data

For the purposes of Part IIH Clause 2.4 of the UNC the references to "Transporter" in paragraphs 2.4.1(b) shall be interpreted as a reference to the "Large Transporter" and "IGT UNC Operators"

44.3 CSS P1 Incident (July 2023)

For the purposes of this Clause 44.3 the provisions of Part II Transitional Rules Paragraph 32 of the UNC Transition Document shall apply with the following changes:

Paragraph 32.2.6 shall be replaced with:

Following determination of the Metered Quantity referred to in paragraph 32.2.5, the CDSP shall notify such to the Pipeline Operator, the incoming User and the outgoing User and the IGT Transportation Charges and the Metering Charges where relevant payable in respect of the Adjustment Period shall be the responsibility of the incoming User, and the Pipeline Operator shall (in accordance with Part G Pipeline Transportation Charges, Invoicing, Payment and Code Credit, and Part D Supply Meter Installation and by credit or debit) make such adjustments as are required to the IGT Transportation Charges and Metering Charges payable by the incoming User and the outgoing User in relation to the Adjustment Period. The Pipeline Operator will make such adjustments no earlier than the later of

- i. the date of the Metered Quantity notification or
- ii. the date of introduction of this paragraph 44.3 into the Code.

Paragraph 32.2.7 shall be replaced with:

No other adjustment shall be made to the IGT Transportation Charges and the Metering Charges where relevant payable by the incoming User or outgoing User due to a relevant DRN in relation to relevant Supply Meter and the Adjustment Period following submission on any other Meter Reading with a Read Date which falls in the Adjustment Period.

Paragraph 32.2.8 shall be replaced with:

Paragraph 32.2.6 shall not apply provided both the incoming User and the outgoing User notify the CDSP prior to the Adjustment Assessment Date that no adjustment should be made to IGT Transportation Charges and the Metering Charges where relevant relating to the Adjustment Period.

44.4 Change of System Communication for Invoice Documents Implementation

For the purposes of this Clause 44.4

- (a) RPC Supporting Data created prior to the implementation date and time of Modification IGT173 are to be submitted to the Pipeline User in accordance with the Manual if provided by the Pipeline Operator under the terms of their Network Code.
- (b) RPC Supporting Data created on or after the implementation date and time of Modification IGT173 are to be submitted to the Pipeline User in accordance with UK Link Manual as directed in the implementation of the Modification.

45 Reporting

45.1 For the purposes of this Clause 45 the provisions of clauses 14.1.1 and 14.1.4 to 14.1.12 of Section V of the UNC TPD shall apply.

45.1.1 Pipeline Operators shall be able to produce a report (at the end of each reporting month) on theft of gas detection performance for Pipeline Operators containing the information in Annex V-6 of the UNC in respect of each Pipeline Operator (on an attributable basis) ("Independent Gas Transporter TOG Report").

45.1.2 For the purposes of this paragraph 45, "reporting month" shall mean each calendar month for which any report pursuant to paragraph 45.1.1 shall be published.

45.1.3 Pipeline Operators shall produce the report for the time interval specified (in reporting months) at the request of the Authority, within 1 month of the request being made.

46 Demand Side Response Arrangements

46.1 For the purposes of this Clause 46.1 the provisions of clauses 5, 7 and 8 of TPD Section D of the UNC shall apply.

Appendix K-1 Operational Data

Column	Name	Description			
1	Data	Data definition and indication of the time period to which the data corresponds			
2	Timing	Initial publication timing and where appropriate timing of updates if the data is subject to any change			
3	Format	Tabular, graphical, other			
4	Presentation	Manner in which data is to be presented			
5	Disclosure	Public or restricted (and if restricted, list of entities to whom the data can be released)			
Data		Timing	Format	Presentation	Disclosure
NONE SPECIFIED

PART L - MODIFICATION RULES

Introduction

The Pipeline Operator has agreed with each other Gas Transporter which has incorporated the IGT UNC into its Network Code (the **"Other IGTs"**) to establish, develop and operate arrangements pursuant to which the Modification Rules of the Pipeline Operator and the Other IGTs are administered on a common, joint or co-ordinated basis so that inter alia a Modification Proposal made in respect of the Code of one IGT UNC Operator is to be treated as a Modification Proposal in respect of the Codes of all IGT UNC Operators (unless the Modification Proposal has been raised in respect of an Individual Network Code).

1 Status of Modification Rules and Application

- 1.1 Standard Condition 9(5) of the Gas Transporter's Licence requires the establishment and operation by the Pipeline Operator of certain procedures for the modification of the Code so as to better facilitate the achievement of the Relevant Objectives.
- 1.2 The Modification Rules set out in this Part L constitute such procedures and the network code modification procedures (as defined in Standard Condition 9.7(a) of the Gas Transporter's Licence).
- 1.3 The Modification Rules do not apply to any modification which the Pipeline Operator may from time to time be required to make pursuant to Standard Condition 9.11 of the Gas Transporter's Licence.

2 Interpretation

- 2.1 In addition to terms defined elsewhere in the IGT UNC, the following terms and expressions have the following meanings in this Part L:

"Affected Person": in relation to a Modification Proposal, a person (other than a Pipeline User) likely to be materially affected were such a Proposal to be implemented;

"Agenda": an agenda detailing amongst other things the nature of the matters and materials to be discussed at the meeting of the IGT UNC Modification Panel to which the agenda relates;

"Alternate": the meaning set out in Clause 5.4;

"Alternative Modification Proposal": the meaning set out in Clause 15.1;

"Appeal": an appeal made by an Appealing Party to the IGT UNC Modification Panel of a determination by the IGT UNC Modification Panel under Clause 23.3.8(a) in respect of a Self-Governance Modification Proposal;

"Appeal Criteria": the following criteria in respect of an Authority Appeal:

- (a) the Authority Appeal has been made within the time specified in these Modification Rules;
- (b) in the opinion of the Authority:
 - (i) the Appealing Party is, or is likely to be, unfairly prejudiced by the implementation or non-implementation of the Self-Governance Modification Proposal;
 - (ii) the Authority Appeal has been made on the grounds that the Appealing Party reasonably believes that:

- 1) where the IGT UNC Modification Panel has made the determination to implement the proposal, the proposal does not better facilitate the achievement of at least one of the Relevant Objectives; or
 - 2) where the IGT UNC Modification Panel has made the determination not to implement the proposal, the proposal does better facilitate the achievement of at least one of the Relevant Objectives; and
- (iii) the Authority Appeal has not been made for reasons that are trivial, frivolous or vexatious; and
- (iv) the Authority Appeal has a reasonable prospect of success.

“Appeal Procedures”: the procedures for the making of an Appeal and an Authority Appeal as set out in Clause 30;

“Appealing Party”: in relation to an Appeal or an Authority Appeal, a Pipeline Operator, a Pipeline User, or a Third Party Participant making such appeal;

“Authority Appeal”: an appeal to the Authority made by the Appealing Party under Clause 30.5;

“Authority Guidance on Code Modification Prioritisation” means the guidance published by the Authority from time to time on Code Modification Prioritisation.

“Best Practice Guidelines”: means the Modification Proposal Best Practice Guidelines as published on the IGT UNC webpage;

“Carbon Costs Guidance”: guidance published by the Authority from time to time on the treatment of carbon costs and the evaluation of Greenhouse Gas emissions including the document entitled ‘Guidance on the treatment of carbon costs under current industry code objectives’;

“Chairperson’s Guidelines”: a set of standing guidelines governing the conduct of meetings of the IGT UNC Modification Panel and Work Groups as determined by the IGT UNC Modification Panel and amended from time to time by Panel Majority;

“Change Administrator”: means a person appointed by each Pipeline Operator and each Pipeline User to receive Modification Proposals in accordance with Clause 2.6;

“Close out Date”: means the final date for receiving written comments in relation to Modification Proposals, or any related documentation, that the Code Administrator has issued for comment;

“Code Administrator”: is the party appointed by the IGT UNC Operators to manage the administration of the IGT UNC and any Individual Network Code;

“Code of Practice”: means the Code Administration Code of Practice approved by the Authority and developed, maintained and published by the Code Administrator and other code administrators, as may be amended with the Authority’s approval;

“Consequential Change”: means a change proposal or modification to an Energy Code which the Cross Code Steering Group has designated as such, and which they consider is necessary to give full and timely effect to a potential change proposal or modification to a different Energy Code;

“Consultation”: the seeking of the views of the persons referred to in Clause 14.1;

“Consumers’ Representative”: the individual if any from time to time notified to the Code Administrator by the National Consumer Council or any successor body thereto or in the absence of the same, such individual as may be designated by the Authority;

“Critical Friend”: means the obligation of the Code Administrator as set out in the Code Administrator’s Code of Practice to provide assistance, where reasonably practical and on reasonable request, to Pipeline Users (and in particular Small Participants), Pipeline Operators or a Consumers’ Representative;

“Cross Code Steering Group” also known as the CCSG: means the group of that name described in the Change Management Schedule to the Retail Energy Code;

“Data Item”: means the most granular level of data defining a specific attribute in respect of a data type, the permissible values for which are defined and controlled in the Energy Market Data Specification;

“Development”: the examination in more detail and further development of a Modification Proposal pursuant to the process determined in a particular case by the IGT UNC Modification Panel;

“Draft Modification Report”: prepared in accordance with Clause 23.2.1;

“Energy Code”: means a code or agreement maintained pursuant to one or more of the energy Licences;

“Energy Market Data Specification”: means the data specification which forms part of the Retail Energy Code;

“European Modification Proposal”: has the meaning set out in Clause 10.1.7;

“Fast Track Self-Governance Criteria”: has the meaning set out in Standard Licence Condition 9, paragraphs 12G and 23 of the Gas Transporter’s Licence;

“Fast Track Self-Governance Modification Proposal”: means a Modification Proposal meeting the Fast Track Self-Governance Criteria;

“Final Modification Report”: prepared in accordance with Clause 23.3.1;

“Greenhouse Gas”: has the meaning given in section 24(1) of the Climate Change Act 2008 to the term ‘targeted greenhouse gas’;

“Group of Companies”: means a “parent undertaking” and its “subsidiary undertakings” which expressions shall have the meanings in Section 258 of the Companies Act 1985;

“IGT Shipper Standing Work Group”: is the forum for IGTs and Shippers to meet and review issues and Modifications in accordance with the Terms of Reference on the IGT UNC Website and which may include one or more Work Groups referred to the IGT Shipper Standing Work Group by the IGT UNC Modification Panel in accordance with paragraph 18.7(b) in accordance with each Work Group’s Terms of Reference;

“IGT UNC”: Parts A to M of this document and including the Transition Document;

“IGT UNC Modification Panel”: the modification panel established and constituted from time to time pursuant to and in accordance with the Modification Rules;

“IGT UNC Modification Workstream”: a group including Pipelines Users and IGT UNC Operators, chaired by the Code Administrator and operating within the Chairperson’s Guidelines, which is convened monthly (unless otherwise convened by panel pursuant to Clause 19.5) incorporating one or more Work Groups referred to the IGT UNC Modification Workstream by the IGT UNC Modification Panel in accordance with paragraph 18.7(b) in accordance with each Work Group’s Terms of Reference;

“IGT UNC Operators”: the Pipeline Operator and the Other IGTs and “IGT UNC Operator” means any of them;

“IGT UNC Operators’ Representative”: any individual for the time being appointed by the IGT UNC Operators, or the Relevant Designated Person as a Member;

“Individual Network Code”: an IGT UNC Operator's Network Code excluding the terms of the IGT UNC;

“Large Transporter Representative”: the individual, if any, from time to time notified to the Code Administrator by the Secretary of the UNC Modification Panel to represent National Grid Gas plc and DN Operators;

“Legally binding decisions of the European Commission and/or the Agency for the Cooperation of Energy Regulators”: shall have the meaning ascribed thereto in the UNC;

“Lead Code”: means the Energy Code which the Cross Code Steering Group has designated as being the Lead Code for the purpose of progressing a change proposal or modification that is likely to have an impact on any other Energy Codes;

“Market Message”: means messages transacted on interfaces between market participants and central service providers or other market participants under one or more Energy Codes;

“Market Participant Identities List” shall have the meaning ascribed thereto into the UNC;

“Member”: an individual appointed to the IGT UNC Modification Panel;

“Metadata Owner”: means an Energy Code responsible for the control of the metadata associated with the Data Item or Market Message. Changes to the metadata are administered via the change management or modification process under the relevant Energy Code, in conjunction with the REC Code Manager's administration of the Energy Market Data Specification as described in the REC Change Management Schedule;

“Modification”: any Modification of the IGT UNC or, as the case may be, an Individual Network Code, made pursuant to these Modification Rules;

“Modification Procedures”: the provisions relating to Modifications and Modification Proposals set out in these Modification Rules and, as the context may require, any of these provisions;

“Modification Proposal”: a proposal for the modification of the IGT UNC or an Individual Network Code pursuant to the Modification Rules;

“Modification Report”: prepared in relation to an Urgent Modification Proposal in accordance with Clause 17.2;

“Non-voting Member”: a Member of the IGT UNC Modification Panel which is not a Voting Member;

“Ofgem Representative”: the Individual, if any, for the time being appointed by the Authority to the IGT UNC Modification Panel;

“Panel Chairperson”: the person appointed as chairperson of the IGT UNC Modification Panel by the IGT UNC Operators and, as the context may require, shall include a deputy chairperson;

“Panel Majority”: in relation to any matter to be determined at a quorate and duly convened meeting of the IGT UNC Modification Panel, a majority (in number) of the votes exercisable by the Voting Members present at that meeting and voting in favour of such matter;

“Pipeline Users’ Representatives”: each of those individuals for the time being appointed as a Member pursuant to Clause 4.6;

“Prioritisation Criteria” has the meaning given to that term by the Authority Guidance on Code Modification Prioritisation.

“Prioritisation Category” has the meaning given to that term by the Authority Guidance on code modification prioritisation. **“Proposer”**: in relation to a Modification Proposal or Review Proposal, the person initiating such Proposal;

“RECCo”: means the 'REC Company' established in accordance with the Retail Energy Code;

“REC Code Manager”: means the person or persons to be appointed by the RECCo under the Retail Energy Code and to be known as the 'Code Manager';

“Retail Energy Code” also referred to as the “REC”: means the retail energy code referred to in Standard Licence Condition 14 granted by Ofgem to the gas transporters, which provides (among other things) for the Central Switching System (CSS) as defined therein;

“Regulation”: has the meaning defined in the Gas Transporter’s Licence;

“Relevant Designated Person”: means in the case of:

(a) the Pipeline Users’ Representatives and the Suppliers’ Representative:

- (i) subject to paragraph (ii) below, the Code Administrator or
- (ii) any other individual of whose identity the Panel Chairperson may be notified by the Authority;

(b) the IGT UNC Operators Representatives;

“Relevant IGT UNC Operator”: for the purpose of the Modification Rules only, in relation to an Individual Network Code Modification Proposal means the IGT UNC Operator which is the owner or operator of the Pipeline to which the Individual Network Code relates.

“Relevant Objectives”: means:

- (a) the relevant objectives defined in Standard Condition 9(1) of the Gas Transporter’s Licence; and
- (b) in relation to a proposed modification of the Modification Rules, the requirements in Standard Condition 9(9) and 9(12) of the Gas Transporter’s Licence (to the extent that they do not conflict with the relevant objectives referred to in (a) above;

“Relevant Pipeline User”: for the purposes of the Modification Rules only, in relation to an Individual Network Code Modification Proposal means a Pipeline User which is party to the relevant Framework Agreement by which such Pipeline User becomes bound by the Individual Network Code;

“Review”: the consideration and discussion of any matter or any Modification Proposal;

“Review Group”: a Work Group which is tasked to carry out a Review;

“Review Proposal”: the meaning set out in Clause 18.1.1;

“Review Proposal Procedures”: the meaning set out in Clause 22.4;

“Secretary of the UNC Modification Panel”: the person appointed as secretary to the Modification Panel as defined in and constituted under the UNC;

“Self-Governance Criteria”: has the meaning given to “self-governance criteria” in Standard Licence Condition 9 (paragraphs 12D and 23) of the Gas Transporter’s Licence;

“Self-Governance Modification Proposal”: a Modification Proposal or an alternative to such proposal which:

- (a) the IGT UNC Modification Panel has determined satisfies the Self-Governance Criteria under Clause 18.7(e) (including after any variation of such proposal under Clause 16) and in respect of which the Code Administrator on behalf of the IGT UNC Modification Panel has submitted to the Authority a Self-Governance Statement (which has not been withdrawn by the Code Administrator on behalf of the IGT UNC Modification Panel or rejected by the Authority by the Self-Governance Modification Proposal Determination Date); or
- (b) the Authority has determined satisfies the Self-Governance Criteria under Clause 11.5;

“Self-Governance Modification Proposal Determination Date”: the date on which the IGT UNC Modification Panel:

- (a) makes a determination to implement or not to implement a Self-Governance Modification Proposal under Clause 23.3.8(a) or a Fast Track Self-Governance Modification Proposal under Clause 12.4; or
- (b) for the purpose of Clause 30.5, decided, under Clause 30.4(a), to confirm its determination under Clause 23.3.8(a);

“Self-Governance Statement”: has the meaning given to “self-governance statement” in Standard Licence Condition 9 (paragraphs 12D(a)(i) and 23) of the Gas Transporter’s Licence and which identifies the Proposed Self-Governance Modification Proposal Determination Date in respect of the relevant proposal;

“Send Back”: shall have the meaning set out in Clause 26.1;

“Significant Code Review”: means complex changes to the Industry Codes led by the Authority and as set out in Standard Licence Condition 9 12A to C (inclusive) of the Gas Transporter’s Licence;

“Significant Code Review Modification Proposal”: a Modification Proposal made in accordance with Clause 10.1.3(b) or pursuant to the direction of the Authority in accordance with Clause 10.1.5 which is made further to a Significant Code Review;

“Significant Code Review Suspended Modification Proposal”: a Modification Proposal made by the Authority in accordance with Standard Licence Condition 9 paragraph 12CB and which is subject to Clause 32.

“Significant Code Review Phase”: has the meaning given in Standard Licence Condition 9 (paragraphs 12A and 23) of the Gas Transporter’s Licence;

“Small Participant”: shall have the meaning set out in Standard Licence Condition 9, paragraph 23, of the Gas Transporter’s Licence;

“Sub Group”: a Work Group that is subject to the Sub Group Terms of Reference tasked with carrying out further detailed work or analysis as required to aid in the Development of a given Modification Proposal, the output of which is presented back to the IGT UNC Modification Workstream;

“Sub Group Terms of Reference”: a standard set of terms of reference maintained by the Code Administrator, that apply to all Sub Groups formed pursuant to Clause 19.12 and changes to which are approved by Panel Majority;

“Suggested Text”: means indicative legal text, in respect of a Modification Proposal, which has been provided by the Proposer other than legal text which is prepared under clause 21.1;

“Suppliers’ Representative”: the individual if any from time to time notified to the Code Administrator by the Relevant Designated Person to represent independent supplier organisations and not affiliated to a Pipeline User which has a representative on the IGT UNC Modification Panel;

“Terms of Reference”: means those terms of reference assigned to either a Work Group or IGT Shipper Standing Work Group pursuant to Clause 20;

“Third Party Modification Proposal”: a proposal to modify (by adding or removing from the list of operational data items set out in) Part K Appendix K-1 made by a recognised Third Party Participant which the Proposer considers would better facilitate the achievement of the Relevant Objectives;

“Third Party Participant”: any person or body who is not a Pipeline User but who is a representative of interested third parties, as may be designated in writing for this purpose by the Authority, from time to time, and maintained on a register held by the Authority;

“Urgent Modification Proposal”: the meaning set out in Clause 17.1.1;

“User Discontinuance Date”: is the date with effect from which a Pipeline User ceases to be a Pipeline User;

“Variation Request”: the meaning set out in Clause 16.1(c);

“View”: the views of the Authority referred to in Standard Condition 9;

“Voting Member”: any IGT UNC Operator’s Representative (other than the Panel Chairperson and deputy chairperson) and any Pipeline Users’ Representative;

“Work Group”: a group which may include but shall not be limited to Pipeline Users and IGT UNC Operators, Third Party Participants and Non-Code parties. For the avoidance of doubt Work Group business may be included under an agenda item of the IGT Shipper Standing Work Group;

“Work Group Assessment”: those provisions of the Modification Procedures set out in Clause 19;

“Work Group Report”: the report of a Work Group in relation to a Modification Proposal referred to it by the IGT UNC Modification Panel prepared pursuant to Clause 19.3.

- 2.2 References in the Modification Rules to the Pipeline Operator, the IGT UNC Operators or any of them doing certain things within certain time periods shall be construed as the Pipeline Operator, the IGT UNC Operators or such IGT UNC Operator agreeing to endeavour to do such things within such time limits.
- 2.3 Where for the purpose of the Modification Rules the IGT UNC Operators are required to undertake any obligation, such obligation shall be construed as an obligation on the Pipeline Operator to endeavour to undertake such obligation on a common joint or co-ordinated basis with the other IGTs.

- 2.4 The IGT UNC Operators will appoint from time to time a person or persons (the **"Code Administrator"**) (and may remove and replace any person so appointed) to administer the Modification Rules on behalf of the IGT UNC Operators and to act as secretary to the IGT UNC Modification Panel. The identity and contact details of the Code Administrator will be notified as soon as reasonably practicable after appointment, to Pipeline Users and the Authority. The IGT UNC Operators may from time to time appoint (and may revoke the appointment of) a person or persons as a deputy to the Code Administrator and references to the "Code Administrator" include any such deputy.
- 2.5 Where for the purpose of the Modification Rules the Pipeline Operator is or the IGT UNC Operators are required to undertake any obligation, it is acknowledged that it or they may discharge the performance of that obligation through the Code Administrator.
- 2.6 Each Pipeline Operator and each Pipeline User shall notify to the Code Administrator a Change Administrator including details of their electronic mail address.
- 2.7 The Code Administrator shall:
 - (a) in conjunction with other code administrators, maintain, publish, review and (where appropriate) amend from time to time the Code of Practice approved by the Authority;
 - (b) facilitate these Modification Rules; and
 - (c) have regard to, and in particular (to the extent relevant) be consistent with the principles contained in, the Code of Practice.
- 2.8 Where the Code Administrator undertakes any obligation for the purposes of these Modification Rules, the Code Administrator shall do so in compliance with the Code of Practice unless it conflicts with these Modification Rules.

3 Critical Friend

- 3.1 In carrying out its obligations including under these Modification Rules and in compliance with the Code of Practice, the Code Administrator shall act as Critical Friend and provide such assistance as a Pipeline User (and in particular Small Participants), a Pipeline Operator or a Consumers' Representative may reasonably require, which shall include but not be limited to assistance in relation to:
 - (a) the drafting of a Modification Proposal;
 - (b) the provision of advice in relation to the operation and effect of the IGT UNC or an Individual Network Code;
 - (c) the Pipeline User or Pipeline Operator's participation, involvement and representation in the Modification Procedures (including but not limited to IGT UNC Modification Panel and/or Work Group meetings);
 - (d) accessing information relating to a Modification Proposal, Modifications and the Modification Procedures;
 - (e) the drafting or application of a Derogation Application; and
 - (f) the provision of advice in relation to the operation and effect of an IGT UNC Derogation if implemented in the IGT UNC.

4 Composition of the IGT UNC Modification Panel

- 4.1 The IGT UNC Modification Panel shall be composed of:
- (a) the Panel Chairperson being a non-voting Member;
 - (b) up to three (3) IGT UNC Operators' Representatives being Voting Members;
 - (c) if appointed, up to three (3) Pipeline Users' Representatives, being Voting Members;
 - (d) if appointed, the Ofgem Representative being a non-voting Member
- 4.2 The IGT UNC Modification Panel may invite to attend for a particular meeting or on a standing basis any or all of the following:
- (a) one Consumer Representative;
 - (b) one Suppliers' Representative; and
 - (c) one Large Transporter Representative.
- Subject to Clause 4.3, none of such persons shall have any right to vote or to attend a meeting of the IGT UNC Modification Panel in the absence of any such invitation.
- 4.3 If any of the persons referred to in Clause 4.2 wishes to attend a meeting of the IGT UNC Modification Panel to which they have not been invited, they may do so if they have been given permission by the Panel Chairperson.
- 4.4 It is expected that each Voting Member shall, as appropriate, represent and inform the IGT UNC Modification Panel of the view of that Member's appointer(s) in relation to Modification Proposals and Review Proposals. It is expected that any Consumers' Representative, Suppliers' Representative and Large Transporter Representative attending a meeting of the IGT UNC Modification Panel shall inform the IGT UNC Modification Panel of the views of those persons whom they represent.
- 4.5 The IGT UNC Operators or in the absence of such appointments the Relevant Designated Person shall appoint up to three (3) representatives to the IGT UNC Modification Panel.
- 4.6 The Relevant Designated Person shall have the right to appoint on behalf of Pipeline Users up to three (3) Pipeline Users' Representatives.
- 4.7 For the avoidance of doubt and without prejudice to Clause 5.1, the processes or rules (if any) pursuant to which a person or body appoints (or revokes the appointment of) an individual as an IGT UNC Operator Representative, Pipeline Users' Representative, Ofgem Representative, Consumer Representative, Suppliers' Representative or Large Transporter Representative are outside of the IGT UNC.
- 4.8 The Code Administrator shall attend meetings of the IGT UNC Modification Panel and any person acting as their deputy may attend any meeting of the IGT UNC Modification Panel at which the Code Administrator is also in attendance.
- 4.9 The IGT UNC Operators shall appoint (and as the case may be remove and reappoint) one person from time to time as the Panel Chairperson and one person from time to time as the deputy Panel Chairperson. The IGT UNC Operators may appoint the Code Administrator as Panel Chairperson or deputy Panel Chairperson.
- 4.10 No company or Group of Companies may have more than one Member on the IGT UNC Modification Panel.

- 4.11 The Code Administrator shall notify the Authority of any changes in the composition of the IGT UNC Modification Panel.

5 Period of Appointment and Alternates

- 5.1 Each Member shall remain as a Member until the earlier of;
- (a) the date which is two (2) years after the date on which that Member was appointed;
 - (b) the date on which that Member's appointment is revoked by the person(s) or body appointing them; or
 - (c) date on which the Member ceases to be a Member pursuant to Clause 5.3 and Clause 5.9.
- 5.2 If at any time less than three (3) individuals are appointed:
- (a) as Pipeline Users' Representatives, the Relevant Designated Person; or
 - (b) as IGT UNC Operators' Representatives, the IGT UNC Operators or the Relevant Designated Person
- may by notice to the Code Administrator identify any individual to fill any vacancy.
- 5.3 If any individual shall for whatever reason notify the Code Administrator that they wish to cease to be a Member, they shall cease to be a Member in accordance with the notice and the Code Administrator shall send a copy of such notice to the Designated Person and inform in due course, any other relevant persons determined by the Code Administrator.
- 5.4 Each Member may, from time to time, by notice to the Code Administrator appoint (or revoke the appointment of) an individual (including, but without limitation, another Member other than the Panel Chairperson) to act on behalf of the Member as their alternate (an "**Alternate**"). The appointment (and revocation of the appointment) of any individual as an Alternate shall be conditional upon and shall only be effective upon receipt of notice by the Code Administrator.
- 5.5 A Member who is, by reason of also being an Alternate of a Voting Member, entitled to exercise more than one (1) vote shall not be required to exercise all the votes which that Member is entitled to exercise, or to exercise all of the votes which that Member is entitled to exercise in the same way.
- 5.6 In addition to notices sent to Members, each Alternate for the time being shall be entitled to be sent notices.
- 5.7 An Alternate may attend any meeting of the IGT UNC Modification Panel which is not also attended by the Member (in their capacity as a Member) who appointed them. If that Alternate is the Alternate of a Voting Member, they may also vote and generally at any such meeting shall have and shall be able to exercise and discharge any and all of the functions, powers and duties of the Member who has appointed that Alternate. Alternates of Voting Members may sign written resolutions pursuant to Clause 7.7 provided that if an Alternate of a Voting Member and the Voting Member who appointed them shall sign a written resolution the signature of the Voting Member shall be effective and the signature of the Alternate shall be disregarded.
- 5.8 If a Member ceases, for whatever reason to be a Member, the appointment of any Alternate of the Member shall also cease.
- 5.9 A Member shall cease to be a Member if:
- (a) the Member fails, in person or by Alternate, to attend three (3) consecutive

meetings of the IGT UNC Modification Panel that have been duly convened;

- (b) an IGT UNC Operator or Pipeline User ceases to be an IGT UNC Operator or Pipeline User, or has its Gas Transporter or Shipper's Licence revoked, and the Member is employed by either:
 - (i) that IGT UNC Operator or Pipeline User; or
 - (ii) an affiliate of that IGT UNC Operator or Pipeline User;
- (c) the Member ceases to be in the employment of the IGT UNC Operator or Pipeline User, or an affiliate of the IGT UNC Operator or Pipeline User, that they were employed by when appointed under Clause 4.5 or 4.6 of Section L.

6 Determinations of and Convening Meetings of the IGT UNC Modification Panel

- 6.1 Except as otherwise provided in the Modification Rules and Derogation Rules as set out in Part O:
 - (a) determinations of the IGT UNC Modification Panel shall be made by Panel Majority;
 - (b) Work Groups may be created or dissolved by Panel Majority.
- 6.2 Other than as expressly provided in the Modification Rules and Derogation Rules as set out in Part O, the IGT UNC Modification Panel shall have no ability to determine any matter and no competence to discharge any function or to exercise any power.
- 6.3 Subject to Clauses 6.7 and 6.8 the Code Administrator shall convene meetings of the IGT UNC Modification Panel by notice to the Members not less frequently than once every month unless there is no matter as an Agenda item for the IGT UNC Modification Panel to discuss. In any event, a meeting of the IGT UNC Modification Panel will be convened once every three (3) months.
- 6.4 Subject to Clauses 6.7, 6.8, 17 and 31, meetings of the IGT UNC Modification Panel will be convened on not less than ten (10) Business Days' notice. This Clause 6.4 is without prejudice to Clause 7.7 which provides that resolutions of the IGT UNC Modification Panel may be made in writing in accordance with the provisions of that Clause 7.7.
- 6.5 Every notice convening a meeting of the IGT UNC Modification Panel shall specify the place, day and time of the meeting and enclose an Agenda. All relevant materials in respect of a meeting of the IGT UNC Modification Panel will be circulated not less than five (5) Business Days prior to the meeting to which they relate or subject to Clause 6.6 where in the opinion of the Code Administrator a shorter period would better facilitate the exercise by the IGT UNC Modification Panel of its powers, within such shorter period as the Code Administrator shall determine. Each Member shall subject to Clause 28.7 be entitled to receive each notice and the relevant materials. At the same time as any notice is despatched to Members a copy of such notice shall subject to Clause 28.7 be despatched by the Code Administrator to each Pipeline User and each IGT UNC Operator. There may be circumstances where materials to be despatched with a notice have pursuant to the Modification Rules already been sent to Pipeline Users or IGT UNC Operators. In any such circumstances the relevant materials may be, but do not have to be, sent with the notice.

- 6.6 Notwithstanding where the Code Administrator has determined a shorter period to circulate relevant materials in respect of a meeting of the IGT UNC Modification Panel pursuant to Clause 6.5, no new items to the Agenda shall be considered except by determination of the IGT UNC Modification Panel prior to such meeting.
- 6.7 The IGT UNC Modification Panel may at any meeting of the IGT UNC Modification Panel determine that the next following meeting of the IGT UNC Modification Panel be duly convened on shorter notice than that specified in Clause 6.4 and where the IGT UNC Modification Panel shall so determine the Code Administrator shall convene a meeting of the IGT UNC Modification Panel in accordance with that determination.
- 6.8 Without prejudice to Clause 6.7, if all Voting Members agree in writing, the Code Administrator shall duly convene a meeting of the IGT UNC Modification Panel on shorter notice than that specified in Clause 6.4.
- 6.9 Members of whom two (2) shall be IGT UNC Operators and two (2) shall be Pipeline Users' Representatives (excluding the Panel Chairperson) present at a meeting of the IGT UNC Modification Panel who can exercise four (4) votes shall be a quorum.
- 6.10 If a quorum is not present at the time for the holding of a meeting (specified in the notice convening the meeting) or at any time during the hour following that time, the meeting shall stand adjourned to such place and time which is as soon as is reasonably practicable as the Code Administrator shall notify to each Member and (for information purposes only) each Pipeline User and each IGT UNC Operator. If at such place and time the meeting so adjourned shall not be quorate in accordance with Clause 6.9 the Voting Members present shall be a quorum.
- 6.11 Any meeting of the IGT UNC Modification Panel at which a quorum is present shall be competent to discharge any and all of the functions within the competence of the IGT UNC Modification Panel.
- 6.12 Every year in January the IGT UNC Modification Panel shall agree dates for the twelve meetings to be held in the calendar year commencing at the following January.
- 6.13 Within ten (10) Business Days of the IGT UNC Modification Panel dates being agreed pursuant to Clause 6.12, the Code Administrator shall publish and maintain on the IGT UNC website dates for IGT UNC Modification Panel meetings together with dates for the subsequent publication of Modification Proposals, Draft Modification Reports, Final Modification Reports and Close Out Dates for Modification Proposals proceeding to Consultation in accordance with Clause 18.6(a).

7 Form of Meetings of IGT UNC Modification Panel

- 7.1 The Panel Chairperson or, in the absence of the Panel Chairperson, the deputy chairperson, shall preside at meetings of the IGT UNC Modification Panel.
- 7.2 The Panel Chairperson shall conduct all meetings of the IGT UNC Modification Panel in accordance with the Chairperson's Guidelines.
- 7.3 Unless the IGT UNC Modification Panel shall in respect of any meeting of the IGT UNC Modification Panel otherwise determine, meetings of the IGT UNC Modification Panel will take place in London.

- 7.4 Meetings of the IGT UNC Modification Panel may take place by means of telephone, conference telephone, video link or any other audio, audio-visual or interactive communication notwithstanding that the Members treated as being present (pursuant to Clause 7.5) by any such means of communication may not all be meeting in the same place provided that each Member shall be able to communicate to each of the other Members and be heard by each of the other Members simultaneously.
- 7.5 Any Member who shall be able to participate in the manner envisaged by Clause 7.4 in any meeting of the IGT UNC Modification Panel shall be treated as being present at such meeting and accordingly shall, if such Member is a Voting Member, be entitled to vote and shall count towards the quorum.
- 7.6 Subject to Clause 7.7, the discharge of all of the functions within the competence to the IGT UNC Modification Panel and expressed to require a determination of the IGT UNC Modification Panel shall be determined by a vote conducted on a show of hands or, the meeting takes place pursuant to Clause 7.4 on a show of hands or such other demonstration of affirmation or consent as may be appropriate. On any vote each Voting Member present shall (subject to Clauses 5.5 and 5.7) be entitled to exercise one (1) vote.
- 7.7 A resolution in writing signed by Voting Members including any Alternates appointed by such Members in accordance with Clause 5.4 shall be valid and effective for the purposes of discharging any function requiring a determination of the IGT UNC Modification Panel as if such vote were conducted in accordance with Clause 7.6 at a duly convened meeting of the IGT UNC Modification Panel provided that votes are received by the Code Administrator from such Members as would, if present, form a quorum in accordance with Clauses 6.9 and 6.10 not later than three (3) Business Days (or such shorter period as the Code Administrator may reasonably notify) following receipt by Voting Members of such documents as are necessary for the purposes of such written resolution. Such determinations may consist of several documents in the same form each such document being signed by one (1) (or more) of the Voting Members or Alternates. The Code Administrator shall, where reasonably practicable, notify Members in advance that such vote will take place and shall send copies of any such written resolutions to all non-voting Members, all Pipeline Users and all IGT UNC Operators.
- 7.8 The IGT UNC Modification Panel may, from time to time, determine to invite any individual to attend all or part of a meeting of the IGT UNC Modification Panel.
- 7.9 Any invitee to a meeting of the IGT UNC Modification Panel pursuant to Clause 7.8 shall be entitled to receive copies of any relevant minutes, Agendas, notices and Modification Proposals due to be discussed at that meeting (but shall not be entitled to participate in the business of the meeting).
- 7.10 Each Pipeline User and each IGT UNC Operator shall be entitled to appoint an individual to act as an observer at meetings of the IGT UNC Modification Panel (an observer so appointed shall not be entitled to participate in the business of the meeting). In respect of any such individual, the IGT UNC Modification Panel may from time to time, determine that such individual be excluded from all or part of a meeting of the IGT UNC Modification Panel.

8 Minutes of Meetings of the IGT UNC Modification Panel

- 8.1 The Code Administrator shall:
 - (a) ensure that all meetings of the IGT UNC Modification Panel and all determinations of the IGT UNC Modification Panel (at meetings of the IGT UNC Modification Panel) are minuted and, as regards such determinations,

that the minutes record the manner in which each Voting Member cast their vote in respect of each matter determined by the IGT UNC Modification Panel; and

- (b) issue a report of determinations of the IGT UNC Modifications Panel to each Member, each IGT UNC Operator and each Pipeline User within three (3) Business Days of the meeting of the IGT UNC Modification Panel at which such determinations were made.

8.2 The Code Administrator shall, within ten (10) Business Days following the date of the relevant meeting, send each Member, each IGT UNC Operator and each Pipeline User:

- (a) a copy of minutes of that meeting made pursuant to Clause 8.1 and
- (b) notification of any determination made pursuant to Clause 18.6.

9 Provision of Information

9.1 The IGT UNC Modification Panel may, from time to time, determine to provide (subject to Clause 28.7) to any person a document derived from the application of the Modification Rules (including but without limitation, any minutes made pursuant to Clause 8.1), or considered in accordance with the Modification Rules.

9.2 If the IGT UNC Modification Panel shall so determine the Code Administrator shall ensure that within a reasonable period of time the document which is the subject of such determination shall be sent to such person.

10 Modification Proposals

10.1 Relevant Persons

10.1.1 A Modification Proposal in respect of the IGT UNC may be initiated by;

- (a) any Pipeline User;
- (b) IGT UNC Operator;
- (c) A Third Party Participant (a Third Party Participant may only make a Third Party Modification Proposal); and
- (d) those persons specified for the purpose specified in Part L Section 33.

10.1.2 A Modification Proposal in respect of an Individual Network Code may be initiated by a Relevant Pipeline User or Relevant IGT UNC Operator.

10.1.3 A Modification Proposal in respect of the IGT UNC or an Individual Network Code may be initiated by the Authority only where:

- (a) The Authority reasonably considers the modification is necessary to comply with or implement the Regulation and/or any relevant legally binding decisions of the European Commission and/ or the Agency for the Co-operation of Energy Regulators; and/or
- (b) The modification proposal is in respect of a Significant Code Review.

10.1.4 If:

- (a) The Code Administrator in respect of any Modification Proposal considers that such Modification Proposal should be treated as an Urgent Modification Proposal; or

- (b) The Proposer shall have identified the proposal as one which the Proposer considers should be treated as an Urgent Modification Proposal,

that Modification Proposal shall be subject to Clause 17

- 10.1.5 The Authority may direct an IGT UNC Operator to make a Significant Code Review Modification Proposal in respect of the IGT UNC and/or the Individual Network Code and without prejudice to Clause 15 or Clause 16, the IGT UNC Operator shall make a proposal in accordance with that direction and such a proposal shall proceed in accordance with the Modification Procedures subject to Clause 31.
- 10.1.6 An IGT UNC Operator, a Relevant Pipeline User or a Third Party Participant may not make a Modification Proposal in respect of the IGT UNC or Individual Network Code during the relevant Significant Code Review Phase if the subject matter of such proposal relates to a matter which is the subject of a Significant Code Review, unless:
 - (a) the Authority directs that it may do so, having taken into account, among other things, the urgency of the subject matter of such proposal; or
 - (b) the Modification is made by the IGT UNC Operator in accordance with Standard Licence Condition 9 (paragraphs 12A, 12B or 12C) of the Gas Transporter's Licence.
- 10.1.7 In accordance with Standard Condition 9.7(j) of the Gas Transporter's Licence, where a Modification Proposal has been made by the Authority under Clause 10.1.3(a) or where the Proposer of a Modification Proposal is an IGT UNC Operator or a Relevant IGT UNC Operator and the Authority reasonably considers the Modification Proposal is necessary to comply with or implement the Regulation and/or any relevant legally binding decisions of the European Commission and/or the Agency for the Cooperation of Energy Regulators, that Modification shall be classified as a European Modification Proposal and be subject to Clause 31.
- 10.1.8 The Authority may direct an IGT UNC Operator or a Relevant IGT UNC Operator to make a European Modification Proposal in respect of the IGT UNC and/or an Individual Network Code and without prejudice to Clause 15 or Clause 16, the IGT UNC Operator or Relevant IGT UNC Operator shall make a proposal in accordance with that direction and such a proposal shall proceed in accordance with the Modification Rules.
- 10.1.9 In relation to a European Modification Proposal under 10.1.3(a) or a Significant Code Review Modification Proposal initiated under 10.1.3(b):
 - (a) any actions and/or decisions taken by either the Code Administrator, the IGT UNC Operators, a Relevant IGT UNC Operator or the Modification Panel; and
 - (b) any requirements relating to the contents of a Modification Proposal, Workgroup Report, Draft Modification Report or Final Modification Report; and
 - (c) any notice periods for the holding of meetings; and
 - (d) any requirements relating to the setting of an implementation date or the implementation of a Modification Proposal,

shall be in full accordance with Clause 31 and will take precedence over any other relevant actions, decisions and/or requirements set out in these Modification Rules.

10.2 Content of Modification Proposal

10.2.1 Each Modification Proposal made pursuant to Clause 10.1.1, Clause 10.1.2 or Clause 10.1.3 shall set out the information and be in the form specified on the IGT UNC Website and:

- (a) shall state the Proposer's view as to whether it should not be a Self-Governance Modification Proposal and the Proposer's reasons for such a view;
- (b) shall state the Proposer's view as to whether it should be a Fast Track Self-Governance Modification Proposal and the Proposer's reasons for such a view;
- (c) shall where it is made pursuant to a direction of the Authority state that it is so made;
- (d) shall be in writing and shall specify whether it relates to the IGT UNC or an Individual Network Code;
- (e) shall set out in reasonable but not excessive detail the case for change and the solution proposed;
- (f) shall set out on the basis upon which the Proposer considers that it would better facilitate the achievement of the Relevant Objectives;
- (g) shall detail the sections and paragraphs of the IGT UNC or the Individual Network Code which are potentially impacted by the Modification Proposal;
- (h) shall, if the Proposer considers that the Modification Proposal should be treated as an Urgent Modification Proposal, identify the Modification Proposal as such and indicate the Proposer's justification for such belief;
- (i) shall state the name of the Proposer and their contact details;
- (j) shall, without prejudice to the IGT UNC Modification Panel's right of determination pursuant to Clause 18 state the Proposer's preference as to whether the Modification Proposal should;
 - i. be subject to the Review Procedures;
 - ii. proceed to Work Group Assessment; or
 - iii. proceed to Consultation.
- (k) may state the Proposer's opinion of the likely impact of the implementation of the Modification Proposal upon Pipeline User's computer systems and/or manual processes and procedures; and
- (l) may include the Proposer's Suggested Text. This Suggested Text will be considered by the IGT UNC Operators when preparing the text of the Modification pursuant to Clause 21; and
- (m) shall include an assessment by the Proposer of the Modification Proposal against the Prioritisation Criteria;

- 10.2.2 Each Modification Proposal shall be given to the Code Administrator who shall ensure that the information has been provided pursuant to Clause 10.2.1.
- 10.2.3 Where a Modification Proposal does not comply with Clause 10.2.1 the Code Administrator may reject such Modification Proposal.
- 10.2.4 Where the Proposer requests that the Modification Proposal should proceed direct to Consultation then the Proposer shall ensure that the Modification Proposal contains all the information required by a Work Group Report in accordance with Clause 19.3 except where such information is not relevant to the Modification Proposal.
- 10.2.5 Where in the opinion of the Proposer, the impact (if any) of the Modification proposed in a Modification Proposal on Greenhouse Gas emissions is likely to be material, the Proposer shall assess the quantifiable impact of such Modification (if any) on Greenhouse Gas emissions (in accordance with Carbon Costs Guidance) for the purposes of information to be submitted in respect of the Modification Proposal.

11 Self-Governance Modification Proposals

- 11.1 Where the IGT UNC Modification Panel under Clause 18.7(e) determines that a Modification Proposal satisfies the Self-Governance Criteria, the Code Administrator shall on behalf of the IGT UNC Modification Panel submit to the Authority a Self-Governance Statement in respect of such a proposal as soon as reasonably practicable and set a proposed Self-Governance Modification Proposal Determination Date.
- 11.2 The Authority may until the Self-Governance Modification Proposal Determination Date, reject the Self-Governance Statement.
- 11.3 Where the Authority rejects a Self-Governance Statement the Modification Proposal which is the subject of such Self-Governance Statement shall:
 - (a) not be a Self-Governance Modification Proposal; and
 - (b) be subject to the Modification Procedures.
- 11.4 The IGT UNC Modification Panel may withdraw a Self-Governance Statement that it submits under Clause 11.1 at any time before the Self-Governance Modification Proposal Determination Date in respect of the related Self-Governance Modification Proposal.
- 11.5 If the Code Administrator, in respect of a Modification Proposal:
 - (a) does not submit a Self-Governance Statement under Clause 11.1; or
 - (b) withdraws a Self-Governance Statement under Clause 11.4;
 the Authority may determine that the Modification Proposal satisfies the Self-Governance Criteria and is a Self-Governance Modification Proposal and such determination shall be effective upon the giving of notice of such determination to the Code Administrator.
- 11.6 The Authority may, at any time before the Self-Governance Modification Proposal Determination Date in respect of a Self-Governance Modification Proposal, direct that its approval is required in respect of the implementation of such proposal.

12 Fast Track Self-Governance Modification Proposals

- 12.1 A Modification Proposal may be raised as a Fast Track Self-Governance Modification Proposal where it meets the Self-Governance Criteria and is properly a housekeeping modification required as a result of some error or factual change, including but not limited to:
- (a) updating names or addresses listed in the IGT UNC and/or an Individual Network Code;
 - (b) correcting minor typographical errors;
 - (c) correcting formatting and consistency errors, such as paragraph numbering; or
 - (d) updating out of date references to other documents or paragraphs.
- 12.2 The Proposer shall indicate when submitting their Modification Proposal pursuant to Clause 10, if, in their opinion the proposal meets the requirements of Clause 12.1.
- 12.3 The IGT UNC Modification Panel shall not make a determination in accordance with Clause 12.4 unless a copy of the Fast Track Self-Governance Modification Proposal has been sent to each Change Administrator, each Affected Person (if any) and the Authority in accordance with Clause 14.1(b) at least fifteen (15) Business Days before the meeting of IGT UNC Modification Panel.
- 12.4 Subject to Clause 12.3, in order for a Fast Track Self-Governance Modification Proposal to be accepted as such, the IGT UNC Modification Panel shall:
- (a) unanimously agree to the proposal meeting the Fast Track Self-Governance Criteria; and
 - (b) unanimously support implementation of the proposal.
- 12.5 Any Fast Track Self-Governance Modification Proposal approved by the IGT UNC Modification Panel pursuant to Clause 12.4, shall be implemented in accordance with Clause 27.2.
- 12.6 Where pursuant to Clause 12.4 the IGT UNC Panel does not unanimously agree to a Fast Track Self-Governance Modification Proposal meeting the Fast Track Self-Governance Criteria, does not unanimously support implementation, or an objection is received pursuant to Clause 12.7, the IGT UNC Modification Panel may:
- (a) direct that the proposal is treated as a Self-Governance Modification Proposal subject to Clause 11; or
 - (b) direct that the proposal is treated in accordance with Clause 18.7.

- 12.7 Within fifteen (15) Business Days of a Fast Track Self-Governance Modification Proposal being issued by the Code Administrator pursuant to Clause 14.1(b), a Pipeline User, a Pipeline Operator or a Third Party Participant may, in writing to the Code Administrator, object to the proposed Fast Track Self-Governance Modification Proposal being made via the fast track self-governance route. Such notice must identify the Fast Track Self-Governance Modification Proposal which is subject to the objection and include any representations the objecting party wishes to make in support of their objection.
- 12.8 Where an objection to a Fast Track Self-Governance Modification Proposal is received by the Code Administrator within the period referred to in Clause 12.7, the Code Administrator shall send details of the objection to each Change Administrator, each Affected Person (if any) and the Authority and put discussion of the objection on the Agenda of the next meeting of the IGT UNC Modification Panel.

13 Modification Proposals made during a Significant Code Review Phase

- 13.1 Where the Authority has received a written assessment of the IGT UNC Modification Panel under Clause 18.6 in respect of a Modification Proposal, the Code Administrator shall inform the Proposer and each IGT UNC Operator, Pipeline User, Third Party Participant and Non-Code Party (if any) of the direction or re-direction it has received from the Authority.
- 13.2 Where the direction or re-direction received by the Code Administrator from the Authority is not to proceed with the Modification Proposal that Modification Proposal shall become a Significant Code Review Suspended Modification Proposal and shall continue to be so until either the end of the Significant Code Review Phase or unless the Authority directs otherwise (having taken into account, among other things not limited to, the urgency of the subject matter of such a proposal).
- 13.3 Where the Authority:
- (a) has not made a direction within twenty-eight (28) days after it has published its Significant Code Review conclusions, or has made no re-direction to proceed with the Modification Proposal; or
 - (b) directs that Standard Licence Condition 9 (paragraphs 12A, 12B or 12C) of the Gas Transporter's Licence applies to such proposal;
- such proposal shall not be or shall cease to be a Significant Code Review Suspended Modification Proposal and that Modification Proposal shall proceed in accordance with the Modification Procedures.

14 Circulation of Modification Proposals

- 14.1 The Code Administrator shall:
- (a) on receipt of a valid Modification Proposal in accordance with Clause 10.2.1 allocate a unique reference number to that proposal;
 - (b) by the later of:
 - (i) the end of the third Business Day following receipt of a Modification Proposal made pursuant to Clauses 10.1.1, 10.1.2 or 10.1.3; and
 - (ii) the end of the first Business Day following the date on which the Code Administrator receives notification of any decision of the Authority pursuant to Clause 17.1.2 or Clause 17.1.3 as to whether the Modification Proposal should be treated as an Urgent Modification Proposal,

send a copy of that Modification Proposal to each Change Administrator, each Affected Person (if any), the Authority and;

(c) subject to Clause 17 and Clause 31, put initial discussion of the Modification Proposal on the Agenda for the next meeting of the IGT UNC Modification Panel (provided the Modification Proposal is received no later than eight (8) Business Days prior to the date of the next meeting of the IGT UNC Modification Panel(unless the IGT UNC Modification Panel determines it is happy to accept the Modification Proposal as short notice business)) and the next meeting of the IGT UNC Modification Panel shall (subject to Clause 6.8) be convened pursuant to Clause 6.4; and

(d) notify the Proposer of the meeting of the IGT UNC Modification Panel at which the Modification Proposal is to be discussed, and request the attendance of the Proposer's representative.

14.2 Where:

(a) the Authority decides that a Modification Proposal should not be treated as an Urgent Modification Proposal; and

(b) at the date on which the Code Administrator receives notification of such decision, no meeting of the IGT UNC Modification Panel will, in accordance with Clause 6.3, take place within ten (10) Business Days of such date,

the Code Administrator shall seek in writing, from Members in accordance with Clause 7.7 a determination of the IGT UNC Modification Panel as to which of the procedures set out in Clause 18.7 should apply to the Modification Proposal.

15 **Alternative Proposals**

15.1 In respect of a Modification Proposal which the IGT UNC Modification Panel pursuant to Clause 18.7 has determined should be referred to a Work Group;

(a) where the Modification Proposal is made in respect of the IGT UNC, any person who is eligible to make an Alternative Modification Proposal under Clauses 10.1.1 or 10.1.3;

(b) where the Modification Proposal is made in respect of an Individual Network Code, any person who is eligible to make an Alternative Modification Proposal under Clauses 10.1.2 or 10.1.3;

being a person other than the Proposer, may make an Alternative Modification Proposal in accordance with Clause 10.2 and the Work Group shall only consider an Alternative Modification Proposal made under this Clause 15.1 if it is made no less than five (5) Business Days before the next meeting of the Work Group.

15.2 Where a Modification Proposal has been referred to a Work Group and the Work Group requests that the Modification Proposal should be amended but the Proposer of the Modification Proposal does not agree to amend the Modification Proposal, any person (other than the Proposer) who is eligible to make an Alternative Modification Proposal under Clause 15.1 may, in accordance with Clause 10.2, make an Alternative Modification Proposal under this Clause 15.2 which shall include the amendment.

15.3 Where the IGT UNC Modification Panel has determined a Modification Proposal should be referred to a Work Group and:

- (a) the Work Group Report in respect of such Modification Proposal has been sent to all Members in accordance with Clause 19.4; or
- (b) the IGT UNC Modification Panel has made a determination to refer the Work Group Report in respect of such Modification Proposal back to the Work Group for revision or further work under Clause 19.5 (b) and such Work Group Report has been sent to all Members in accordance with Clause 19.4 after such revision or further work;

an Alternative Modification Proposal shall not be made in respect of the Modification Proposal or be considered by the Work Group.

- 15.4 Where the IGT UNC Modification Panel has determined a Modification Proposal should be referred to a Work Group under Clause 18.6(b) and the Work Group Report in respect of such Modification Proposal has been sent to the IGT UNC Modification Panel an Alternative Modification Proposal shall not be made in respect of such Modification Proposal or be considered by the Work Group under Clause 15.1.
- 15.5 An Alternative Modification Proposal may not be made in respect of a Modification Proposal after the IGT UNC Modification Panel pursuant to Clause 18.6 has determined such Modification Proposal should proceed to Consultation.
- 15.6 In respect of any Modification Proposal which is withdrawn pursuant to Clause 16.1, or deemed withdrawn pursuant to Clause 16.4 or Clause 16.6, any of the parties (except for the Proposer):
 - (a) in Clause 10.1.1 (where such proposal is made pursuant to Clause 10.1.1); or
 - (b) in Clause 10.1.2 (where such proposal is made pursuant to Clause 10.1.2);

may, but shall not be required to, either raise an Alternative Modification Proposal in accordance with Clause 15.2 or adopt the withdrawn Modification Proposal (in which case the adopted Modification Proposal shall continue through the Modification Procedures from the point at which it was withdrawn).

16 Withdrawal or Variation of Modification Proposals

- 16.1 Subject to Clause 31.4, a Proposer may:
 - (a) withdraw a Modification Proposal, at any time before the Final Modification Report is circulated to the Authority pursuant to clause 23.3.5 or in respect of a Self-Governance Modification Proposal at any time before the IGT UNC Modification Panel makes a determination under Clause 18.7(e), by notice to the Code Administrator, and subject to Clause 15 any Modification Proposal so withdrawn shall lapse, or
 - (b) vary a Modification Proposal of that Proposer, at any time before the IGT UNC Modification Panel has determined to proceed to Consultation pursuant to Clause 18.7 (a), by notice to the Code Administrator, and subject to Clause 15 any Modification Proposal so varied shall replace the original Modification Proposal; or
 - (c) subject to Clause 15 request a variation to a Modification Proposal of that Proposer (“**variation request**”), at any time after the IGT UNC Modification Panel has determined to proceed to Consultation pursuant to Clause 18.7(a) and before the IGT UNC Modification Panel has made a determination in respect of such Modification Proposal pursuant to Clause 23.3.3(a), by notice to the Code Administrator, and any such variation request shall contain a description of the nature of the variation.

- 16.2 The Code Administrator shall, within a reasonable period of time following any withdrawal, variation or variation request (except where such variation request is made at the IGT UNC Modification Panel meeting) notify each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person of such withdrawal, variation or variation request (as the case may be).
- 16.3 Following receipt of the notice given pursuant to Clause 16.1(c), the Code Administrator shall submit such variation request to the appropriate IGT UNC Modification Panel which the Proposer shall attend for the purpose of explaining the variation request.
- 16.4 Subject to Clause 15 the Modification Proposal shall be varied to replace the original Modification Proposal which shall be deemed withdrawn where the IGT UNC Modification Panel:
- (a) determines by a unanimous vote that the variation request is immaterial, and in such case the varied Modification Proposal shall continue through the Modification Procedures from the point at which the original Modification Proposal was deemed withdrawn;
 - (b) does not so determine in accordance with (a), and in such case, the IGT UNC Modification Panel shall make a determination in respect of the varied Modification Proposal in accordance with Clause 18.7.
- 16.5 The Proposer of a variation request may withdraw it any time before the IGT UNC Modification Panel votes in accordance with Clause 16.4.
- 16.6 A Modification Proposal made by a Pipeline User shall be deemed withdrawn:
- (a) on the User Discontinuance Date in accordance with Part K; or
 - (b) on the date upon which the Proposer ceases to hold a Shipper's Licence or Gas Transporter's Licence.
- 16.7 The Authority, upon request by a Proposer of a Significant Code Review Modification Proposal may direct:
- (a) that the Proposer may vary, withdraw or make a variation request in respect of the relevant Significant Code Review Modification Proposal in accordance with Clause 16; or
 - (b) that the Proposer may not vary, withdraw or make a variation request in respect of the relevant Significant Code Review Modification Proposal and that such proposal shall proceed in accordance with the Modification Procedures.

17 Urgent Modification Proposals

17.1 Procedure (Urgent Modification Proposals)

- 17.1.1 If a Modification Proposal has been considered or identified pursuant to Clause 10.1.4 as one which should be treated as an Urgent Modification Proposal the Code Administrator shall within one Business Day send a copy of the Modification Proposal to the Authority, and:
- (a) following consultation with the Authority the Code Administrator shall recommend the procedure and timetable to be followed in respect of each Urgent Modification Proposal;

- (b) where the Authority requests the IGT UNC Modification Panel to provide the Authority with the opinion of the IGT UNC Modification Panel on whether or not the Modification Proposal should be considered as an Urgent Modification:
 - (i) the Code Administrator shall convene a meeting of the IGT UNC Modification Panel within five (5) Business Days of the Authority requesting the opinion of the IGT UNC Modification Panel and place such request on the Agenda for that meeting; and
 - (ii) the IGT UNC Modification Panel shall provide the Authority with its opinion.
- 17.1.2 If the Authority considers it appropriate that the Modification Proposal referred to in Clause 17.1.1 should be treated as an Urgent Modification Proposal:
- (a) the Code Administrator shall notify each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any);
 - (b) to the extent that the Authority agrees with the recommendation made in the procedure and timetable submitted by the Code Administrator, all or any of the Modification Rules (including, but without limitation, consulting with the IGT UNC Modification Panel and seeking representations from each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any)), may be deviated from or any other procedure accepted by the Authority may be followed;
 - (c) the Code Administrator shall prepare a Modification Report in a format and in accordance with a timetable accepted by the Authority; and
 - (d) the Code Administrator shall send the Modification Report to the Authority.
- 17.1.3 If the Authority does not accept that the Modification Proposal should be treated as an Urgent Modification Proposal the Code Administrator shall notify the Proposer and Clauses 18, 19 (if applicable) and Clause 23 shall apply in respect of the Modification Proposal.
- 17.1.4 Until such time as the Authority makes a decision as referred to in Clause 17.1.2 or Clause 17.1.3, no further action shall be taken pursuant to the Modification Rules in respect of the Urgent Modification Proposal.
- 17.1.5 For the avoidance of doubt, the IGT UNC Modification Panel shall not determine a Prioritisation Category for Urgent Modification Proposals and accordingly no Urgent Modification Proposal shall have a Prioritisation Category

17.2 Modification Report (Urgent Modification Proposals)

- 17.2.1 Each Modification Report and attachments (if any) prepared pursuant to Clause 17.1.2(c) shall, in addition to reporting to the extent relevant upon the matters referred to in Clause 25 detail:
- (a) the reasons why it is an Urgent Modification Proposal; and
 - (b) the procedures that the IGT UNC Operator has followed pursuant to Clause 17.1.2(b) where these differ from the Modification Procedures.

- 17.2.2 The Code Administrator may submit a Modification Report (in whole or in part) orally and/or in writing. The Code Administrator shall in respect of any Modification Report (or any part thereof) submitted orally as soon as possible confirm that oral submission in writing. The Code Administrator shall as soon as reasonably practicable send a copy of each such report to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant (if any) and each Affected Person (if any).

17.3 Modification (Urgent Modification Proposals)

- 17.3.1 The IGT UNC Operators shall modify the IGT UNC and the Relevant IGT UNC Operator shall modify an IGT Individual Network Code in accordance with each direction made and consent given by the Authority.
- 17.3.2 The Code Administrator shall as soon as possible notify each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant (if any) and each Affected Person (if any) of the urgent Modification. Each such notice shall specify the legal text of the modification

17.4 Report on Modification (Urgent Modification Proposals)

- 17.4.1 Where an urgent Modification is implemented, the Code Administrator shall at the next meeting of the IGT UNC Modification Panel report to the IGT UNC Modification Panel in respect of the urgent Modification. The IGT UNC Modification Panel may determine at that meeting that the subject matter of the urgent Modification so made shall be referred to a Work Group. If the IGT UNC Modification Panel shall so determine, the Code Administrator shall refer such proposal to the relevant Work Group together with the Terms of Reference to be applicable.

18 Discussion of Modification Proposals

- 18.1 Subject to Clause 15, Clause 17 and without prejudice to Clause 7.7, the IGT UNC Modification Panel shall discuss each new Modification Proposal at a meeting of the IGT UNC Modification Panel.
- 18.2 Subject to Clause 17, each Proposer or party making a Modification Proposal or Review Proposal (as the case may be) shall ensure the attendance of its representative at the meeting of the IGT UNC Modification Panel at which the Modification Proposal or Review Proposal is to be discussed initially; at such meeting the Proposer's representative may give a presentation in respect of the Modification Proposal or Review Proposal and shall endeavour to answer any questions which the IGT UNC Modification Panel may have in respect of the Modification Proposal or Review Proposal and any presentation given.
- 18.3 If a representative of the Proposer or party making a Modification Proposal or Review Proposal does not for whatever reason attend the meeting of the IGT UNC Modification Panel at which the relevant Modification Proposal or Review Proposal is to be discussed initially the IGT UNC Modification Panel may determine that, notwithstanding such non-attendance of the Proposer's representative, the IGT UNC Modification Panel shall proceed to discuss the Modification Proposal or Review Proposal.
- 18.4 If the IGT UNC Modification Panel shall not make a determination pursuant to Clause 18.5, the IGT UNC Modification Panel will not discuss the Modification Proposal or Review Proposal further unless the representative of the Proposer or party making a Modification Proposal or Review Proposal shall have attended a meeting of the IGT UNC Modification Panel pursuant to Clause 18.2 or the IGT UNC Modification Panel shall determine to discuss the Modification Proposal or Review Proposal further.

18.5 The IGT UNC Modification Panel shall make a determination under Clause 18.7 having:

- (a) discussed the Modification Proposal and, subject to Clause 18.3;
- (b) heard the presentation of the Proposer's representative; and
- (c) had an opportunity to ask the Proposer's representative questions in respect of the Modification Proposal and the presentation of the Proposer's representative; and
- (d) unless the Modification Proposal has been determined to be an Urgent Modification Proposal or a Fast Track Self Governance Modification Proposal, considered the Modification Proposal against the Prioritisation Criteria, giving due regard to the Proposer's assessment of the Proposal against the Prioritisation Criteria, pursuant to paragraph 10.2.1(m);

or where it has received a referral pursuant to Clause 21.3.

18.6 The IGT UNC Modification Panel shall assess whether the subject matter of a Modification Proposal made during a Significant Code Review Phase relates to a matter that is the subject of an ongoing Significant Code Review and instruct the Code Administrator to submit to the Authority as soon as is reasonably practicable a written assessment including;

- (a) representations received as to whether such proposal relates to the matter which is the subject of a Significant Code Review;
- (b) its determination as to whether such proposal relates to the matter which is the subject of a Significant Code Review;
- (c) its reasons for making such determination;
- (d) a copy of the relevant Modification Proposal; and
- (e) its assessment of whether the exceptions under Standard Licence Condition 9 (paragraph 12A) of the Gas Transporter's Licence may be applicable.

18.7 Subject to Clause 18.3 and Clause 18.9, the IGT UNC Modification Panel may, without prejudice to Clause 18.5, determine that a Modification Proposal:

- (a) should proceed to Consultation in accordance with Clause 23.1 or
- (b) should proceed to Development for Work Group Assessment in accordance with Clause 19 (and the IGT UNC Modification Panel may determine the Terms of Reference for such work (including terms as to the identity of any third parties to be consulted) and the date upon which it requires the Work Group to submit its Work Group Report); or
- (c) should be deferred to a subsequent meeting of the IGT UNC Modification Panel for further discussion; or
- (d) be subject to Review, in which case the provisions of Clause 22 shall apply; or
- (e) satisfies the Self-Governance Criteria, in which case the provisions of Clause 18.7(a) shall apply; or
- (f) be referred back to the Proposer for further development in which case the provisions of Clause 18.9 shall apply; and

- (g) unless it has been determined to be an Urgent Modification Proposal or a Fast Track Self-Governance Modification Proposal, should be treated as of being of a relevant Prioritisation Category, assessed pursuant to paragraph 18.5 (d) as compared with other Modification Proposals' assessments pursuant to paragraph 18.5 (d).
- 18.8 If the IGT UNC Modification Panel does not, at the meeting, make a determination pursuant to Clause 18.7 in respect of a Modification Proposal, the IGT UNC Modification Panel shall be deemed to have made a determination pursuant to Clause 18.7(c). If at the subsequent meeting of the IGT UNC Modification Panel a determination is still not made, the IGT UNC Operators will refer the Modification Proposal to Consultation as referred to in Clause 18.7(a).
- 18.9 If the IGT UNC Modification Panel makes a determination pursuant to Clause 18.7(f), the Modification Proposal as further developed by the Proposer shall be regarded as a variation of the original Modification Proposal and, once it is so further developed, shall be placed on the Agenda of the next following meeting of the IGT UNC Modification Panel.
- 18.10 Where the Modification Proposal is a European Modification Proposal or a Significant Code Review Modification Proposal the European Modification Proposal or Significant Code Review Modification Proposal will proceed in accordance with the Modification Rules subject to any changes required by Clause 31.

19 Modification Procedures – Work Group Assessment (Development)

- 19.1 Where the IGT UNC Modification Panel has determined that a Modification Proposal should proceed to Development subject to 18.7(b), the relevant Work Group shall be incorporated into the IGT UNC Modification Workstream and added to the Agenda of the forthcoming IGT UNC Modification Workstream and remain on the Agenda of future IGT UNC Modification Workstreams until the IGT UNC Panel determine by Panel Majority that it shall be removed.
- 19.2 The Code Administrator shall convene meetings of the IGT UNC Modification Workstream by notice to the Members not less frequently than once every month unless the IGT UNC Modification Panel determine that a monthly meeting of the IGT UNC Modification Workstream should be cancelled pursuant to Clause 19.8.
- 19.3 Every year in January the IGT UNC Modification Panel shall agree dates for the twelve IGT UNC Modification Workstream meetings to be held in the calendar year commencing at the following January.
- 19.4 Within ten (10) Business Days of the IGT UNC Modification Workstream dates being agreed pursuant to Clause 19.3, the Code Administrator shall publish and maintain on the IGT UNC website dates for IGT UNC Modification Workstream meetings.
- 19.5 The IGT UNC Modification Panel may by a Panel Majority decision determine that an IGT UNC Modification Workstream meeting be convened in addition to or in place of the monthly IGT UNC Modification Workstream meeting to discuss matters relating to one or more Work Groups. The Code Administrator will circulate details of the meeting together with an Agenda and any relevant materials as soon as reasonably practical after the panel decision was taken to convene an IGT UNC Modification Workstream meeting pursuant to this Clause 19.5. For the avoidance of doubt an IGT UNC Modification Workstream meeting convened pursuant to this Clause 19.5 may form part of an IGT Shipper Standing Work Group meeting.

- 19.6 The Code Administrator shall be responsible for chairing IGT UNC Modification Workstream meetings.
- 19.7 The Code Administrator, or in the case of 19.8(b) the relevant IGT UNC Operator or Pipeline User, shall ensure that each Work Group meeting held during the IGT UNC Modification Workstream is minuted and that each Member, each IGT UNC Operator and each Pipeline User is sent a copy of the minutes recorded pursuant to this Clause 19.7 within five (5) Business Days.
- 19.8 Where for an IGT UNC Modification Workstream meeting the Code Administrator is unable to provide:
- (a) a chairperson pursuant to Clause 19.6; or
 - (b) a secretariat to record the minutes pursuant to Clause 19.7;
- the Code Administrator must notify each Member, each IGT UNC Operator and each Pipeline User accordingly and arrange for an IGT UNC Operator or a Pipeline User to take on the vacant role for that meeting.
- 19.9 If after consulting IGT UNC Modification Panel Members the Code Administrator considers there to be insufficient business to warrant holding an IGT UNC Modification Workstream meeting, the Code Administrator shall:
- (a) cancel such meeting; or
 - (b) move such meeting to one that is solely held by the use of telephone, conference telephone, video link or any other audio, audio-visual or interactive communication;
- notifying each Member, each IGT UNC Operator and each Pipeline User of the change no later than five (5) Business Days prior to the planned date of such meeting.
- 19.10 Where Work Group members reach the consensus that the Development of a Modification Proposal may be better facilitated through a Sub Group, the Work Group Chairperson may direct that such a Sub Group is formed.
- 19.11 Where a Sub Group is formed pursuant to Clause 19.10 the Work Group chairperson shall ensure that:
- (a) a chairperson is elected to lead the Sub Group;
 - (b) all parties wishing to become Sub Group members are recorded as being members of the relevant Sub Group;
 - (c) the deliverables of the Sub Group are recorded in the minutes of the Work Group meeting;
 - (d) that a date is established and minuted for the Sub Group chairperson to report back to Work Group with the Sub Group's work and/or findings; and
 - (e) the Code Administrator provides assistance to the Sub Group chair to communicate information to IGT UNC parties.
- 19.12 All Sub Groups shall be bound by the IGT UNC Sub Group Terms of Reference.
- 19.13 Each Work Group shall conduct its business in such manner as to allow any person to attend and participate in meetings of the Work Group, including the use of telephone, conference telephone, video link or any other audio, audio-visual or interactive communication.
- 19.14 The Code Administrator shall ensure that the Authority is notified of all meetings of each Work Group. The Authority (or any representative of the Authority) shall be invited to all meetings of all Work Groups;

19.15 Composition of Work Group Reports:

- (a) without prejudice to Clause 19.3 (c) the Code Administrator shall prepare a Work Group Report which shall set out the information, and be in the form, specified on the IGT UNC Website;
- (b) the Code Administrator and the Work Group shall together use their reasonable endeavours to complete the Work Group Report in the timescale determined in accordance with Clause 20.2; and
- (c) if two (2) or more Modification Proposals shall have been considered together by the Work Group, the Work Group Report shall report on each Modification Proposal.

19.16 Each Work Group Report shall (subject to Clauses 6.7 and 6.8) be sent to all Members as soon as reasonably practicable but in any event not less than eight (8) Business Days prior to the meeting of the IGT UNC Modification Panel at which that report is to be discussed.

19.17 Having discussed the Work Group Report and allowed any members of the relevant Work Group (in attendance at the meeting of the IGT UNC Modification Panel) to express any views on the substance of the Work Group Report or the conduct of the consideration of the Modification Proposal by the Work Group, the IGT UNC Modification Panel may determine:

- (a) that the Modification Proposal shall proceed to Consultation in accordance with Clause 23.1;
- (b) to refer the Work Group Report back to the Work Group for revision or further work; or
- (c) to continue to consider or to consider further the Work Group Report at a subsequent meeting of the IGT UNC Modification Panel.

20 Terms of Reference

20.1 The Terms of Reference for each Modification Proposal referred to a Work Group shall:

- (a) detail the Modification Proposal;
- (b) detail the work to be undertaken by the Work Group, to enable the Work Group to prepare its Work Group Report; and
- (c) specify any matters, in addition to those referred to in the Chairperson's Guidelines (available on the IGT UNC Website), which the Work Group, should address in its Work Group Report
- (d) detail other matters (if any) to be considered or reviewed by the Work Group;
- (e) state whether the Work Group, should consult with any other person for the purposes of its Work Group Report, and if so, detail the extent to which and identify which person (or persons) it should consult with, but this shall not require the Code Administrator to engage or remunerate any person so consulted;
- (f) set a timetable in accordance with which the work of the Work Group is to be done and its Work Group Report prepared; and
- (g) specify when the Work Group, is to comment upon the legal text of the Modification, provided to the Work Group pursuant to Clause 21.

- 20.2 Unless the IGT UNC Modification Panel shall otherwise determine, the timetable referred to in Clause 20.1(f) shall consist of a period of up to six (6) months. Where the IGT UNC Modification Panel determines that such timetable should be extended so that it exceeds a period of six (6) months in aggregate, it shall notify the Authority and the timetable shall be so extended unless the Authority objects. Where the Authority objects to such extension, the IGT UNC Modification Panel shall make a determination under Clause 18.7 in respect of the relevant Modification Proposal at the next meeting of the IGT UNC Modification Panel.
- 20.3 The IGT UNC Modification Panel may, from time to time, determine:
- (a) to change the Terms of Reference of any Work Group; or
 - (b) if the Terms of Reference of the relevant Work Group so anticipate, that the Work Group should undertake new or further work or consider new matters (whether or not related to any earlier work undertaken by that Work Group).

21 Legal Text for Modification

- 21.1 In relation to each Modification Proposal, the IGT UNC Operators shall prepare the legal text of the Modification:
- (a) Where requested by the IGT UNC Modification Panel by way of Panel Majority vote at any time prior to a determination under Clause 23.3.3(a) or where directed by the IGT UNC Modification Panel, for inclusion in the Draft Modification Report prepared pursuant to Clause 23.2.1 (unless the IGT UNC Modification Panel has determined that legal text is not required pursuant to Clause 23.1.1(a) or Clause 23.2.3); or
 - (b) If requested or directed to do so by the Authority.
- In the case of Clause 21.1(a) the IGT UNC Operators shall provide the legal text within 15 Business Days of such request unless the IGT UNC Operators confirm at that meeting of the IGT UNC Modification Panel that existing legal text provided is suitable for inclusion in the Draft Modification Report.
- 21.2 Subject to Clause 17, the Suggested Text and/or any legal text provided by the IGT UNC Operators pursuant to Clause 21.1 prior to a determination under Clause 23.1 of each Modification shall be considered by the relevant Work Group to which such Modification Proposal has been referred in accordance with these Modification Rules. If the Suggested Text and/or legal text provided by the IGT UNC Operators pursuant to Clause 21.1 prior to a determination under Clause 23.1 of a Modification is not considered by Work Group prior to that Work Group's Work Group Report being discussed by the IGT UNC Modification Panel pursuant to Clause 19.5, the Work Group shall, where requested by the IGT UNC Modification Panel, having considered the legal text of a Modification and prior to the preparation of the Draft Modification Report pursuant to Clause 23.2.1, prepare a supplemental report commenting as appropriate on the legal text.
- 21.3 If it is considered that the Modification Proposal is not sufficiently clear or complete to enable the preparation of the legal text, a written report setting out the reasons for this will be prepared by the Code Administrator and the Code Administrator shall refer the Modification Proposal to the next IGT UNC Modification Panel for determination pursuant to Clauses 23.2.3 and 23.2.5.
- 21.4 At any time following a request for legal text pursuant to Clause 21.1(a) and prior to a determination under Clause 23.3.3(a) the IGT UNC Operators may provide revised legal text in relation to a Modification Proposal and such legal text shall replace all earlier versions of legal text provided by the IGT UNC Operators.

22 Review

22.1 Purpose

22.1.1 These Review Proposal Procedures provide a means by which a person who is eligible to be a Proposer may submit a request for consideration of a matter that may be (but is not as at the date such request is made) the subject of a Modification Proposal in respect of the IGT Uniform Network Code or an Individual Network Code (as the case may be) for consideration by the IGT UNC Modification Panel (a “Review Proposal”)

22.2 Review Proposals

22.2.1 The IGT UNC Modification Panel may determine that any matter or Review Proposal discussed at a meeting of the IGT UNC Modification Panel should be subject to the Review Proposal Procedures.

22.2.2 A Review Proposal may be withdrawn at any time before a Modification Proposal is deemed to have been made in respect of the Review Proposal under Clause 22.4.4(a).

22.2.3 The Code Administrator shall allocate to each Review Proposal a unique reference number.

22.3 Form of Review Proposal

22.3.1 Each Review Proposal shall:

- (a) be in writing;
- (b) be in the form set out in the Best Practice Guidelines available on the IGT UNC website; and
- (c) set out in reasonable detail the nature of the matter which is the subject of the Review Proposal.

22.3.2 The Code Administrator may, from time to time, stipulate the form which a Review Proposal should take.

22.4 Review Proposal Procedures

22.4.1 Following the submission of a Review Proposal, the IGT UNC Modification Panel may determine:

- (a) that such Review Proposal be subject to consideration by a Work Group with such Terms of Reference, procedures and such timetable as the IGT UNC Modification Panel shall determine; or
- (b) that such Review Proposal be subject to consideration by the IGT Shipper Standing Work Group; or
- (c) subject to Clauses 22.4.4 (a) and (b), the Review Proposal shall lapse and in such case the Code Administrator shall notify the person making the Review Proposal.

22.4.2 Following review by a Work Group, the Work Group shall submit a Work Group Report to the IGT UNC Modification Panel which shall set out or append in full any draft form of Modification Proposal developed by the Work Group in relation to the Review Proposal.

22.4.3 Following submission of a Work Group Report under Clause 22.4.2, the IGT UNC Modification Panel shall consider the Work Group Report, and in the event that the IGT UNC Modification Panel does not determine that a further assessment be undertaken by the Work Group, the Code Administrator shall circulate the Work Group Report to the person making the Review Proposal, **each IGT UNC Operator,**

each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any).

22.4.4 Where the Work Group Report submitted in accordance with Clause 22.4.2 contains a recommendation in the form of a draft Modification Proposal and the IGT UNC Modification Panel:

- (a) determines to support such recommendation, a Modification Proposal shall be deemed to have been made by the person making the Review Proposal and such Modification Proposal shall be dealt with in accordance with Clause 23.1; or
- (b) makes no determination, the Work Group may reconsider and resubmit the Work Group Report (whether or not containing a new recommendation) for reconsideration by the IGT UNC Modification Panel and Clause 22.4.3 shall apply.

23 Consultation Procedures

23.1 Modification Proposal to proceed to Consultation

23.1.1 If the IGT UNC Modification Panel determines pursuant to Clause 18.7(a) that a Modification Proposal should proceed to Consultation:

- (a) the IGT UNC Modification Panel shall be deemed to have requested that the IGT UNC Operators provide legal text unless the IGT UNC Modification Panel determines that legal text is not required for the purposes of the Draft Modification Report or Final Modification Report (which may be the case where Suggested Text has been provided by the Proposer and is sufficient in the view of the IGT UNC Modification Panel); and
- (b) the IGT UNC Modification Panel shall inform the Code Administrator if it determines that the time periods set out in Clauses 19.2 and 19.3 for Consultation should, in its opinion, be deviated from in relation to the relevant Modification Proposal.
- (c) where the Modification Proposal is *not* a Self-Governance Modification Proposal, the Code Administrator may invite each IGT UNC Operator, each User, Affected Person (if any) to make representations in respect of whether such Modification Proposal should not be a Self-Governance Modification Proposal.

23.2 Draft Modification Report Consultation

23.2.1 Following determination of the IGT UNC Modification Panel that a Modification Proposal should proceed to Consultation under Clause 23.1, the Code Administrator shall prepare a Draft Modification Report in accordance with Clause 25 within:

- (a) fifteen (15) Business Days, where the IGT UNC Modification Panel has determined that legal text is required; or
- (b) three (3) Business Days, where the IGT UNC Modification Panel has determined that legal text is not required,

and such other time period as the IGT UNC Modification Panel shall determine.

23.2.2 Where the IGT UNC Modification Panel has determined that legal text is required, then within one Business Day of receiving such Draft Modification Report the Code Administrator shall circulate the Draft Modification Report to the next meeting of the IGT UNC Modification Panel and subject to Clause 23.2.3, within one (1) Business Day following the date upon which the IGT UNC **Modification Panel meeting is**

convened, the Code Administrator shall circulate it to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) inviting them to make (or withdraw earlier) representations to the IGT UNC Operators within fifteen (15) Business Days following the date of that invitation.

23.2.3 Where the Modification Proposal has been referred to the IGT UNC Modification Panel in accordance with Clause 21.3 it may determine legal text is not required with the Draft Modification Report.

23.2.4 Where the Modification Proposal has been referred to the IGT UNC Modification Panel in accordance with Clause 21.3 it may determine that legal text is required, should this be the case the Code Administrator shall advise either the Proposer or the relevant Work Group of the reason(s) why the legal text cannot be provided, the Proposer or the relevant Work Group shall thereafter liaise with the IGT UNC Operators in order to resolve the issues and allow legal text to be provided.

23.2.5 Where the IGT UNC Modification Panel has determined that legal text is not required:

- (a) pursuant to Clause 23.1.1 (a), within one (1) Business Day of receiving the Draft Modification Report;
 - (b) pursuant to Clause 23.2.3, within one (1) Business Day of such determination;
- the Code Administrator shall circulate the Draft Modification Report to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) inviting them to make (or withdraw earlier) representations to the IGT UNC Operators within fifteen (15) Business Days following the date of that invitation.

23.3 Final Modification Report Consultation

23.3.1 Within five (5) Business Days following the last day for representations to the Draft Modification Report in accordance with Clause 23.2.2 or 23.2.5 the Code Administrator shall:

- (a) subject to 23.3.1 (d), prepare a Final Modification Report in accordance with Clause 25 for approval of the IGT UNC Modification Panel;
- (b) submit a copy of that Final Modification Report to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) that submitted (and not so withdraw) a representation with regard to the Draft Modification Report pursuant to Clauses 23.2.2 or 23.2.5; and shall attach to that Final Modification Report all representations (if any) so received (and not so withdrawn);
- (c) add the Modification Proposal as an Agenda item for the IGT UNC Modification Panel to discuss; and
- (d) where the Code Administrator considers that any representation made identifies issues that may arise through implementation of the proposal which have not been identified in other responses to the same proposal then the Code Administrator shall record such issues and include them in the Final Modification Report and the Code Administrator shall submit it to the next IGT UNC Modification Panel for determination pursuant to Clause 23.3.2;

23.3.2 Where the IGT UNC Modification Panel determines that views on such issues should be obtained by the relevant Work Group then the Code Administrator shall:

- (a) submit the Final Modification Report to the relevant Work Group and to obtain a report containing their views; and
- (b) within three (3) Business Days following receipt of such report submit a copy of the Final Modification Report to each IGT UNC Operator, each Member,

each Pipeline User, each Third Party Participant and each Affected Person (if any) that submitted (and not so withdraw) a representation with regard to the Draft Modification Report pursuant to Clauses 23.2.2 or 23.2.5; and shall attach to that report all representations (if any) so received (and not so withdrawn); and the report (if any) received pursuant to this Clause 23.3.2; and

- (c) add the Modification Proposal as an Agenda item for the IGT UNC Modification Panel to discuss.

23.3.3 Upon receipt of the Final Modification Report under Clause 23.3.1 or 23.3.2 the IGT UNC Modification Panel shall assess whether the Final Modification Report complies with Clause 25, and if it is compliant, shall:

- (a) determine whether or not to recommend the implementation of the Modification Proposal to the Authority;
- (b) submit to the Authority its determination under Clause 23.3.3(a) and the factors which (in its opinion), justify its determination and which shall include details of the IGT UNC Modification Panel's reasoning for determining whether or not the Modification Proposal better facilitates achievement of the Relevant Objectives or not;
- (c) subject to Clause 31, provide a date for the implementation of the Modification Proposal, either by endorsement of the Proposer's recommended implementation date, or pursuant to Clause 23.3.4; and
- (d) instruct the Code Administrator to send the Final Modification Report, together with its recommendation to the Authority.

23.3.4 If the IGT UNC Modification Panel does not determine by unanimous vote to agree the Proposer's recommended implementation date pursuant to Clause 23.3.3 (c), it will unanimously agree a date, beginning with the earliest practical date (if not that recommended by the Proposer) and ending with a date 5 releases from Authority direction to implement. If no agreement can be reached the implementation date shall be 6 releases from Authority direction to implement, unless unanimous agreement can be achieved on a date further in the future.

23.3.5 The Code Administrator shall circulate to the Authority, each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) the following:

- (a) a copy of the Final Modification Report and any other attachments; and
- (b) a copy of the IGT UNC Modification Panel's recommendation to the Authority seeking a determination of the Authority as to whether the Modification should be implemented or not.

23.3.6 Where a Final Modification Report is received by the Authority, the Authority may determine whether the proposed Modification shall be implemented and may give notice of its decision to the Code Administrator, in which case on receipt of such notice from the Authority:

- (a) If the notice confirms the Authority's determination not to implement the proposed Modification, the Code Administrator shall circulate to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) a non-implementation notice; and
- (b) If the notice confirms the Authority's determination to implement the Modification, the Code Administrator shall circulate to each IGT UNC

Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) an implementation notice.

23.3.7 Where the Modification Proposal is a Self-Governance Modification Proposal:

- (a) The Code Administrator shall submit all representations received in respect of such proposal during Consultation to the Authority (unless the Authority directs otherwise) at least seven (7) days before the Proposed Self-Governance Modification Proposal Determination Date for such proposal; and
- (b) Clause 23.3.3, Clause 23.3.5, Clause 23.3.6 and Clause 24 shall not apply to such proposal.

23.3.8 The IGT UNC Modification Panel shall upon receipt of the Final Modification Report under Clause 23.3.1 or 23.3.2 in respect of a Self-Governance Modification Proposal:

- (a) assess whether the Final Modification Report complies with Clause 25.3, and if compliant, shall make a determination as to whether or not the Self-Governance Modification Proposal should be implemented (having regard to whether or not the Self-Governance Modification Proposal better facilitates the achievement of the Relevant Objectives) no earlier than the Proposed Self-Governance Modification Proposal Determination Date;
- (b) where the Panel has made a determination that the Self-Governance Modification Proposal should be implemented, provide a date for the implementation of the Modification Proposal, either by endorsement of the Proposer's recommended implementation date, or pursuant to Clause 23.3.8 (c) ;
- (c) if the IGT UNC Modification Panel does not determine by unanimous vote to agree the Proposer's recommended implementation date pursuant to Clause 23.3.8 (b), it will unanimously agree a date, beginning with the earliest practical date (if not that recommended by the Proposer) and ending with a date 5 releases from the date of the Panel decision to implement. If no agreement can be reached the implementation date shall be 6 releases from the date of the Panel decision to implement, unless unanimous agreement can be achieved on a date further in the future;
- (d) instruct the Code Administrator to include such determination and the IGT UNC Modification Panel's reasoning for such determination in the Final Modification Report; and
- (e) instruct the Code Administrator to circulate an implementation notice or a non-implementation notice (as the case may be) in respect of such proposal to each IGT UNC Operator, each Pipeline User, each Member, each Third Party Participant, each Affected Person (if any) and the Authority within three (3) Business Days of the Self-Governance Modification Proposal Determination Date.

23.3.9 Subject to Clause 23.3.10, where the IGT UNC Modification Panel makes a determination in respect of a Self-Governance Modification Proposal under Clause 23.3.8(a), an Appealing Party may appeal such determination in accordance with the Appeal Procedures and the Self-Governance Modification Proposal shall not be implemented until:

- (a) the IGT UNC Modification Panel has made a determination under Clause 30.1 and (where no subsequent Appeal is made to the Authority under Clause

- 30.5) and implementation notice has been sent in accordance with Clause 30.4; or
 - (b) the Authority has made a determination in respect of an appeal made under Clause 30.5 and an implementation notice has been sent in accordance with Clause 30.11.
- 23.3.10 For the avoidance of doubt, an Appealing Party may not submit more than one Appeal and one Authority Appeal in respect of the same Self-Governance Modification Proposal.
- 23.3.11 Clauses 23.3.8 to 23.3.11 (inclusive) shall not apply to a Self-Governance Modification Proposal where the Authority has directed under Clause 11.6 that its approval is required in respect of the implementation of such proposal.

24 Further Consultation

- 24.1 If, in respect of a Modification Proposal which is the subject of a Final Modification Report previously submitted to the Authority by the Code Administrator in accordance with Clause 23.3.5 or Clause 17.2:
- (a) the Authority has not given notice of its decision in respect of that Final Modification Report within two (2) calendar months (in the case of Urgent Modification Proposals), or four (4) calendar months (in the case of non-Urgent Proposals) from the date upon which the relevant Final Modification Report was submitted to it; or
 - (b) the Authority, or any Voting Member, by notice to the Code Administrator expresses the reasonable opinion that the circumstances relating to that Modification have materially changed,
- the Code Administrator shall place that Modification Proposal on the Agenda for consideration at the next IGT UNC Modification Panel meeting.
- 24.2 Having considered the circumstances relating to the Modification Proposal which is subject to Clause 24.1, the IGT UNC Modification Panel may determine that:
- (a) the Code Administrator should request the Authority to give an indication of the likely date by which the Authority's decision shall be made; or
 - (b) the Code Administrator should within five (5) days of the date of the IGT UNC Modification Panel meeting prepare and circulate a notice to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) outlining the change in circumstances or reasons for delay and inviting further representations within ten (10) Business Days of the date of the notice; or
 - (c) the Code Administrator should place the Modification Proposal on the Agenda for further consideration at a future meeting of the IGT UNC Modification Panel as determined by the IGT UNC Modification Panel.
- 24.3 If the IGT UNC Modification Panel makes a determination in accordance with Clause 24.2(a) then the Code Administrator shall within five (5) Business Days formally request a response from the Authority and place the Modification Proposal on the Agenda for further consideration at the next IGT UNC Modification Panel meeting, it being recognised at all times that the Authority is not obliged, as a result of a request pursuant to Clause 24.2(a), to provide any response or indication.

- 24.4 If the IGT UNC Modification Panel makes a determination in accordance with Clause 24.2(b) the Code Administrator shall within five (5) Business Days of the date upon which the invitation for representations closed prepare a supplemental report (which need not be in the form of a Final Modification Report) and submit that report and copies of any representations received to the Authority and circulates a copy to each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any).
- 24.5 Any report submitted to the Authority under Clause 24.4 shall be supplemental to the Final Modification Report. Supplemental reports may, but need not, express a view and recommendation which confirms those expressed in the Final Modification Report to which it refers.

25 Content of Modification Reports

- 25.1 Each Draft Modification Report or Final Modification Report shall set out the information, and be in the form, specified on the IGT UNC Website and:
- (a) shall in relation to a recommendation of the IGT UNC Modification Panel under Clause 23.3.3(b), include details of the IGT UNC Modification Panel's reasoning for determining whether or not the Modification Proposal better facilitates achievement of the Relevant Objectives; and
 - (b) state whether or not a determination has been made by the IGT UNC Modification Panel under Clause 23.3.3(a) and the number of Voting Members in favour of, and the number of Voting Members present and not voting in favour of, the implementation of the Modification Proposal;
 - (c) where it [the modification report] relates to a Modification Proposal that is neither a Self-Governance Modification Proposal nor a Fast Track Self-Governance Modification Proposal, state that fact together with the reasons why the proposal failed to satisfy both the Self-Governance Criteria and Fast Track Self-Governance Criteria and whether such failure was determined by the IGT UNC Modification Panel or the Authority; and
 - (d) state whether the Modification Proposal is made pursuant to a direction of the Authority in respect of a Significant Code Review and
 - (e) where it has been determined, state the Prioritisation Category attached to the Modification Proposal and the reasons for this determination.
- 25.2 Where two or more Modification Proposals have proceeded through the Modification Procedures together (and neither proposal has been withdrawn and all work has not been discontinued following a decision of the IGT UNC Modification Panel in respect of either proposal) the Final Modification Report shall, in addition to the analysis referred to in Clause 25.1(b), provide an analysis as to which of the Modification Proposals would in the opinion of the IGT UNC Modification Panel better facilitate the achievement of the Relevant Objectives. Where two (2) Modification Proposals were proceeding through the Modification Procedures together and the IGT UNC Modification Panel shall have determined that only one (1) of the Modification Proposals should proceed, the Final Modification Report shall provide a commentary as to the circumstances in which the IGT UNC Modification Panel so determined.
- 25.3 In preparing any Draft Modification Report or Final Modification Report, the Code Administrator shall:
- (a) do so on the basis set out in these Modification Rules; and

- (b) not be required to have regard (other than as expressly provided in these Modification Rules) to the consequences of any Modification on any person or persons.

25.4 Where a Work Group Report has been prepared in accordance with Clause 19.3 the IGT UNC Modification Panel may determine that it shall constitute the Draft Modification Report.

26 Authority Send Back

- 26.1 The Authority shall have the power to Send Back a Final Modification Report to the IGT UNC Panel where it determines that it cannot properly form an opinion on the approval of the Modification Proposal.
- 26.2 Where pursuant to Clause 26.1 a Final Modification Report is returned to the IGT UNC Panel, the Code Administrator shall circulate as soon as practical the details to each IGT UNC Operator, each Pipeline User, each Member, each Third Party Participant, each Affected Person (if any) and, subject to Clause 6.5, place the matter on the Agenda of the next IGT UNC Panel Meeting for discussion.
- 26.3 Pursuant to Clause 26.2 and subject to Clause 31.5 and Clause 32.3 the IGT UNC Panel shall review the comments provided by the Authority and either:
 - (a) refer the matter to the appropriate Work Group for further development; or
 - (b) re-issue the Modification Proposal for further Consultation, highlighting the concerns raised by the Authority; or
 - (c) subject to the agreement of IGT UNC Panel, amend the Final Modification Report to address the concerns raised by the Authority.
- 26.4 Any Work Group Report re-issued pursuant to Clause 26.3(a) shall be subject to Clause 19.4 and Clause 19.5.
- 26.5 Any Modification Proposal re-issued for further Consultation shall be subject to Clause 23.1.
- 26.6 Subject to the conclusion of the relevant referral, pursuant to 26.3, the Code Administrator shall resubmit the amended Final Modification Report to the Authority.

27 Modification Proposal Implementation

- 27.1 The IGT UNC Operators shall in respect of the IGT UNC and the Relevant IGT UNC Operator shall in respect of an Individual Network Code, where so directed to implement by the Authority, or in the case of a Self-Governance Modification Proposal or Fast Track Self-Governance Modification Proposal by the IGT UNC Modification Panel, implement subject to Clause 27.2 a Modification Proposal (or Alternative Modification Proposal), and will within 5 Business Days after receipt of such direction notify all Pipeline Users of such decision including where there is a direction to implement, details of the implementation date and a copy of the changes to be made.
- 27.2 Unless otherwise determined by the Code Administrator, having consulted the IGT UNC Operators and Pipeline Users, and subject to Clause 31, the IGT UNC Operators shall only be entitled in each year to implement Modification Proposals pursuant to Clause 22.1 on three occasions, such occasions to occur on dates to be specified by the Code Administrator in the months of February, June and November. A Modification Proposal shall not be implemented earlier than:

- (a) for changes to documentation only, two months after:
 - (i) the date of direction or consent by the Authority; or
 - (ii) in respect of a Self-Governance Modification Proposal a determination made by the IGT UNC Modification Panel, subject to Clause 23.3.9; or
 - (iii) in respect of Fast Track Self-Governance Modification Proposal a determination made by the IGT UNC Modification Panel.
 - (b) for changes that involve operational changes, four months after;
 - (i) the date of direction or consent by the Authority; or
 - (ii) in respect of a Self-Governance Modification Proposal a determination made by the IGT UNC Modification Panel, subject to Clause 23.3.9; or
 - (iii) in respect of Fast Track Self-Governance Modification Proposal a determination made by the IGT UNC Modification Panel.
 - (c) in all other cases, six months after;
 - (i) the date of direction or consent by the Authority; or
 - (ii) in respect of a Self-Governance Modification Proposal a determination made by the IGT UNC Modification Panel, subject to Clause 23.3.9; or
 - (iii) in respect of Fast Track Self-Governance Modification Proposal a determination made by the IGT UNC Modification Panel.
- 27.3 The Code Administrator will provide to each Pipeline User in the months of January, May and October, a copy of the plan for the next implementation of the Modification Proposals to be implemented pursuant to Clause 27.2.
- 27.4 The IGT UNC Operators will endeavour to publish or release a revised IGT UNC within 30 Business Days after the date of each implementation of Modification Proposals in February, June and November.
- 27.5 The IGT UNC Operators shall not modify the IGT UNC except pursuant to a direction or otherwise with the consent or at the direction of the Authority, or in respect of a Self-Governance Modification Proposal or Fast Track Self-Governance Modification Proposal pursuant to a determination made by the IGT UNC Modification Panel.

28 General

- 28.1 Members may propose amendments to the Chairperson's Guidelines from time to time by notice in writing to the Code Administrator who shall place such proposed amendments on the Agenda for the next following meeting of the IGT UNC Modification Panel. If such proposed amendments are approved by determination of the IGT UNC Modification Panel, the Code Administrator shall amend the Chairperson's Guidelines as appropriate and circulate to Members, each IGT UNC Operator and Pipeline Users the Chairperson's Guidelines within ten (10) Business Days of such meeting.
- 28.2 No accidental omission or neglect in sending any document or notice or other communication to or (other than in the case of any document or notice or communication submitted by the IGT UNC Operators or any of them to the Authority) non-receipt of any document or notice or other communication by, any person shall be capable of invalidating any act or thing done pursuant to these Modification Rules.

- 28.3 All representations (and any withdrawal of the same) made by each Pipeline User and each IGT UNC Operator pursuant to these Modification Rules shall be readily identifiable as representations (or, as the case may be, a withdrawal thereof) shall identify the unique reference designation on the Modification Proposal to which they relate.
- 28.4 Unless otherwise expressly provided, any document, notice or other communication to be given to or made by any person pursuant to or in accordance with the Modification Rules shall be made in accordance with Part K. Unless the IGT UNC Modification Panel determines otherwise, it is agreed that documents, notices or other communications made under the Modification Rules may be submitted by electronic mail.
- 28.5 Subject to Clause 31, notwithstanding any time periods specified in these Modification Rules in respect of any Modification Proposal, Third Party Modification Proposal or Review Proposal the IGT UNC Modification Panel may, from time to time, determine to shorten or lengthen the time period within which any (or all) of the procedures under the Modification Rules are to be undertaken. If the IGT UNC Modification Panel shall so determine, the IGT UNC Operators shall, so far as consistent with the Modification Rules and the Gas Transporter's Licence, do all acts and things which the Modification Rules specify as acts and things to be done by the IGT UNC Operators within such shorter or longer period of time so as to give effect to such determination.
- 28.6 Any person who provides any information for the purposes of or pursuant to the Modification Rules may require that such information may only be made available subject to such confidentiality undertakings as such person may require.
- 28.7 Any question arising under the Modification Rules as to whether:
- (a) (in the context of representations) a Pipeline User or other person is likely to be materially affected by a Modification Proposal were that proposal to be implemented; or
 - (b) representations made (and not withdrawn) pursuant to the Modification Rules in relation to a Modification Proposal have been properly considered by the IGT UNC Operators or Relevant IGT UNC Operator;
- shall be determined by the Authority.

29 View from the Authority

- 29.1 At any stage prior to the production of the Final Modification Report in respect of a Modification Proposal that is not a Self-Governance Modification Proposal or Fast Track Self-Governance Modification Proposal, the IGT UNC Operators or Relevant IGT UNC Operator as the case may be may decide to seek a View from the Authority on any matter connected with such Modification Proposal.
- 29.2 If the IGT UNC Operators or Relevant IGT UNC Operator decide to seek a View pursuant to Clause 28.1, the Code Administrator shall:
- (a) forward an application to the Authority setting out the IGT UNC Operators' or Relevant IGT UNC Operator's own views and reasons for seeking a View from the Authority;
 - (b) if the IGT UNC Modification Panel shall so determine, suspend (in whole or in part) the consideration of the Modification Proposal by a Work Group;
 - (c) notify each IGT UNC Operator, each Pipeline User and each Affected Person (if any) of such decision to seek a View.

- 29.3 If, in respect of a View sought pursuant to this Clause 29, the Authority expresses the View that the Modification Proposal should not proceed, the Modification Proposal shall lapse and the IGT UNC Operators shall within five (5) Business Days following receipt of the View prepare and circulate notification of such lapse.
- 29.4 If, in respect of a View sought pursuant to this Clause 24, the Authority shall not express any View as to how the Modification Proposal should proceed or expresses the View that the Modification Proposal should proceed to Consultation, the Modification Proposal shall proceed to Consultation in which case the provisions of Clause 23 shall apply.
- 29.5 If the Authority expresses any other View the Modification Proposal shall proceed in accordance with such View.

30 Self-Governance Appeal Procedures

- 30.1 No later than fifteen (15) Business Days after the Self-Governance Modification Proposal Determination Date, a User, IGT UNC Operator or Third Party Participant may make an Appeal by giving written notice of the Appeal to the Code Administrator, such notice to identify:
 - (a) the Self-Governance Modification Proposal or which is the subject of the Appeal;
 - (b) any representations which the Appealing Party wishes to make in support of the Appeal; and
 - (c) evidence supporting the Appealing Party's view that it will be unfairly prejudiced by the modification proposed in the relevant Self-Governance Modification Proposal.
- 30.2 Subject to the Appeal being made within the period referred to in Clause 30.1, the Code Administrator shall, on receipt of a notice under Clause 30.1 notify each IGT UNC Operator, User, Member, Third Party Participant and Non-Code Party (if any) and the Authority that an Appeal has been made and the Code Administrator shall put discussion of the Appeal on the Agenda of the next meeting of the IGT UNC Modification Panel which shall be convened pursuant to Clause 6.4.
- 30.3 The IGT UNC Modification Panel shall decide, at the meeting referred to in Clause 30.2, whether to confirm or reverse its determination under Clause 23.3.8(a) having regard to any representations made by the Appealing Party in support of the Appeal.
- 30.4 The IGT UNC Modification Panel shall, upon deciding whether to confirm or reverse its determination under Clause 23.3.8(a), notify the Code Administrator and the Appealing Party of its decision as soon as reasonably practicable following receipt of the Appeal, and where the IGT UNC Modification Panel:
 - (a) confirms its determination under Clause 23.3.8(a), the Code Administrator shall notify each IGT UNC Operator, User, Member, Third Party Participant and Non-Code Party (if any) and the Authority of the IGT UNC Modification Panel's confirmation of its determination and send each such person an implementation or (as the case may be) non-implementation notice under Clause 23.3.8(a) confirming the implementation or (as the case may be) non-implementation of the proposal;
 - (b) reverses its determination under Clause 23.3.8(a), the Code Administrator shall notify each IGT UNC Operator, User, Member, Third Party Participant

and Non-Code Party (if any) and the Authority of the IGT UNC Modification Panel's determination and send each such person an implementation or (as the case may be) non-implementation notice, which shall have effect in place of the implementation or (as the case may be) non-implementation notice issued pursuant to the IGT UNC Modification Panel's initial determination under Clause 23.3.8(a).

- 30.5 Following the determination of the IGT UNC Modification Panel under Clause 30.4(a) but no later than fifteen (15) Business Days after that determination the Appealing Party may make an Appeal to the Authority; such Appeal to identify the Self-Governance Modification Proposal which is the subject of the Appeal and include any representations which the Appealing Party wishes to make in support of the Appeal.
- 30.6 If the Authority determines the Authority Appeal satisfies the Appeal Criteria, the Authority may consider the Authority Appeal having regard (without limitation) to:
- (a) the Self-Governance Modification Proposal;
 - (b) the Final Modification Report in respect of the Self-Governance Modification Proposal;
 - (c) any representations made by the Appealing Party in support of the Authority Appeal; and
 - (d) the determination made by the IGT UNC Modification Panel under Clause 30.4(a).
- 30.7 Following such determination in accordance with Clause 30.6, the Authority may:
- (a) confirm the IGT UNC Modification Panel's determination under Clause 30.4(a); or
 - (b) quash the IGT UNC Modification Panel's determination under Clause 30.4(a) and rule that the IGT UNC Modification Panel's determination should have no further effect for the purposes of these Modification Rules.
- 30.8 The Authority shall notify the Code Administrator and the Appealing Party of its decision under Clause 30.7 in respect of the Authority Appeal as soon as reasonably practicable following receipt of the Authority Appeal, and the decision of the Authority shall be final unless an appeal against the decision is brought to the Competition Commission under Section 173 of the Energy Act 2004 or in accordance with any other right which permits such an appeal against the Authority's decision.
- 30.9 Where Clause 30.7(b) applies the Authority may:
- (a) remit the Self-Governance Modification Proposal which is the subject of the IGT UNC Modification Panel's quashed determination under Clause 30.4(a) back to the IGT UNC Modification Panel for reconsideration and re-determination; or
 - (b) determine that the proposed modification to the IGT UNC and/or Individual Network Code should be made; or
 - (c) determine that the proposed modification to the IGT UNC and/or Individual Network Code should not be made; and

In the case of Clauses 30.9(b) and (c), for the purposes of Standard Licence Condition 9 (paragraph 12D) of the Gas Transporter's Licence, the IGT UNC Modification Panel's determination under Clause 30.4(a) shall be treated as the Final Modification Report submitted to the Authority under Clauses 23.3.3 and 23.3.5 and as a recommendation as to whether or not a Self-Governance Modification Proposal should be implemented.

30.10 Where the Authority:

- (a) confirms the IGT UNC Modification Panel's determination under Clause 30.4(a), the Code Administrator shall notify each IGT UNC Operator, User, Member, Third Party Participant and Non-Code Party (if any) of the Authority's confirmation of the IGT UNC Modification Panel's determination under Clause 30.4(a) confirming the implementation or (as the case may be) non-implementation of the Self-Governance Modification Proposal;
- (b) quashes the IGT UNC Modification Panel's determination under Clause 30.4(a), the Code Administrator shall notify each IGT UNC Operator, User, Member, Third Party Participant and Non-Code Party (if any) of the Authority's decision and send each such person an implementation notice or (as the case may be) a non-implementation notice, which shall have effect in place of the IGT UNC Modification Panel's determination under Clause 30.4(a).

30.11 Where the Code Administrator, under Clause 30.9(a) gives notice of the Authority's confirmation of the IGT UNC Modification Panel's determination under Clause 30.4(a) confirming the implementation of a Self-Governance Modification Proposal or under Clause 30.9(b) sends an implementation notice, Clause 27.1 shall apply.

31 European Modification Proposal Procedures and Significant Code Review Modification Procedures

31.1 Notwithstanding any time periods specified in these Modification Rules, in respect of a European Modification Proposal or a Significant Code Review Modification Proposal:

- (a) The Authority may, by direction to an IGT UNC Operator or a Relevant IGT UNC Operator, specify and/or amend the timetable to apply to all or any of the relevant Modification Rules (including, but without limitation, IGT UNC Modification Panel decisions, Code Administrator actions on behalf of the IGT UNC Operators, notice periods, preparation of legal text and seeking representations from each IGT UNC Operator, each Member, each Pipeline User, each Third Party Participant and each Affected Person (if any) and setting the implementation date of such European Modification Proposal or Significant Code Review Modification Proposal); and
- (b) Where such direction has been issued, the IGT UNC Modification Panel, the IGT UNC Operators and the Relevant IGT UNC Operator will comply with the direction and ensure that any decisions and /or actions taken are in accordance with such timetable and/or implementation date.

31.2 Where the Authority makes a direction referred to in Clause 31.1(a) and such direction specifies:

- (a) A timetable in respect of all of the relevant procedures specified in these Modification Rules as applying to such European Modification Proposal or a Significant Code Review Modification Proposal, the European Modification

Proposal or Significant Code Review Modification Proposal shall progress in accordance with the timetable specified in such direction (and not the timetable set out in these Modification Rules);

- (b) A timetable in respect of some (but not all) of the relevant procedures specified in these Modification Rules as applying to such European Modification Proposal or Significant Code Review Modification Proposal (and does not direct that the relevant procedures in respect of which no timetable is directed are not to apply to such European Modification Proposal or Significant Code Review Modification Proposal), then such European Modification Proposal shall proceed on the basis of the timetable specified in the direction (in respect of the relevant procedures specified in the direction) and the timetable set out in these Modification Rules (in respect of all other relevant procedures specified in these Modification Rules as applying to such European Modification Proposal or Significant Code Review Modification Proposal);
- (c) An implementation date in respect of such European Modification Proposal or Significant Code Review Modification Proposal but specifies no timetable to apply to such European Modification Proposal or Significant Code Review Modification Proposal in relation to these Modification Rules, then the IGT UNC Operator or the Relevant IGT UNC Operator to whom the direction is made by the Authority shall notify the Code Administrator of the timetable that the IGT UNC Operator or the Relevant IGT UNC Operator reasonably believes ought to apply to such European Modification Proposal or Significant Code Review Modification Proposal in order to achieve the directed implementation date, and such notified timetable shall apply for the purposes of these Modification Rules in relation to such European Modification Proposal or Significant Code Review Modification Proposal.

31.3 Until such time as the Authority makes a direction referred to in Clause 31.1(a) the European Modification Proposal or Significant Code Review Modification Proposal shall proceed in accordance with the Modification Procedures.

31.4 Where the Proposer of a European Modification Proposal or Significant Code Review Modification Proposal is an IGT UNC Operator or a Relevant IGT UNC Operator then;

- (a) the Proposer may not withdraw the Modification Proposal without the Authority's prior consent; and
- (b) in relation to a Significant Code Review Modification Proposal the Authority may issue a direction (a "backstop direction") which requires such proposal and any alternative(s) to be withdrawn and which causes the Significant Code Review Phase to re-commence.

31.5 The IGT UNC Modification Panel will revise and re-submit a report provided in accordance with Clause 23.3.3 where the Authority determines that it cannot properly form an opinion on the approval of the modification proposal.

31.6 Where a European Modification Proposal or a Significant Code Review Modification Proposal is implemented, then:

- (a) Where the Modification was subject to a timetable directed by the Authority, the Code Administrator shall at the next meeting of the IGT UNC Modification Panel report to the IGT UNC Modification Panel in respect of that Modification; and

- (b) The IGT UNC Modification Panel may determine at that meeting that the subject matter of the Modification so made shall be referred to a Work Group. If the IGT UNC Modification Panel shall so determine, the Code Administrator shall refer such proposal to the relevant Work Group together with the Terms of Reference to be applicable.

32 Consideration of Significant Code Review Authority Modification Proposals by the IGT UNC Operators and the Panel

- 32.1 Where the Authority submits a Significant Code Review Authority Modification Proposal to the IGT UNC Modification Panel, the Code Administrator will add the Modification Proposal as an Agenda item for the IGT UNC Modification Panel to discuss at its next scheduled meeting. Subsequent to such discussion the Code Administrator will prepare a report to the Authority which will include the following:
- (a) a recommendation by the panel as to whether the proposed Significant Code Review Authority Modification Proposal should or should not be made, and the factors which (in the opinion of the Panel) justify the making or not making of the proposed modification, which shall include:
 - (b) a detailed explanation of whether and, if so how, the proposed modification would better facilitate the achievement of the relevant objectives;
 - (c) where the impact is likely to be material, an assessment of the quantifiable impact of the proposed modification on greenhouse gas emissions, to be conducted in accordance with any such guidance (on the treatment of carbon costs and evaluation of greenhouse gas emissions) as may be issued by the Authority from time to time; and
 - (d) Where such information is available, the views of the Panel on:
 - i. industry impacts and costs associated with the implementation of the Significant Code Review Authority Modification Proposal;
 - ii. anticipated impacts of the Significant Code Review Authority Modification Proposal specifically on consumers; and
 - iii. the anticipated impact of the Significant Code Review Authority Modification Proposal on all parties (such as Transporters, Shippers, central systems, customers) in terms of the costs and benefits of a range of implementation options where appropriate.
- 32.2 Where so directed by the Authority the IGT UNC Operators will implement, subject to Clause 27.2 and Clause 32.4, the Significant Code Review Authority Modification Proposal.
- 32.3 Where the Authority determines that it cannot properly form an opinion on the approval of the Significant Code Review Authority Modification Proposal it may request the IGT UNC Operators to revise and re-submit the report as set out in Clause 32.1.
- 32.4 Where the Authority makes a direction the IGT UNC Operators and (where applicable) the Panel shall comply the timetable specified in such direction in respect of each or any of the procedural steps outlined in Clauses 32.1, 32.2 and 32.3. Such a direction will replace any timetable set out in these Modification Rules.

- 32.5 The Authority's published conclusions and any Significant Code Review Authority Modification Proposal shall not fetter the voting rights of the members of the panel or the recommendation procedures informing the recommendation of the IGT UNC Panel set out in Clause 32.1(a).

33 Cross Code Implications and the Cross Code Steering Group Considerations

- 33.1 The IGT UNC Modification Panel shall from time to time nominate to the REC Code Manager one or more representatives to be included in the Cross Code Steering Group. The IGT UNC Modification Panel shall ensure that each such individual has the appropriate skills, knowledge and experience to participate in accordance with the Cross Code Steering Group's terms of reference.
- 33.2 Where the Cross Code Steering Group determines that this governance code is to be the Lead Code for a Modification Proposal and the related Consequential Changes:
- (a) the IGT UNC Modification Panel shall progress that Modification Proposal in accordance with this Code, and
 - (b) the Code Administrator shall coordinate with the code administrators of the other affected Energy Codes so that they can manage the processes under their Energy Codes in parallel with the process under this Code, and
 - (c) where the IGT UNC Modification Panel
 - i. approves the lead Modification Proposal, and
 - ii. one or more of the Consequential Changes raised under another Energy Code is not approved,

then the approval of the lead Modification Proposal shall be dependent upon the appeal of the Consequential Change(s), and the IGT UNC Modification Panel may, within 30 days of the decision under this Code (or, if later, the decision under the other Energy Code), refer the Modification Proposal and all associated Consequential Changes to the Authority for a decision in accordance with the standard process for Authority-decision modifications as described in Part L Section 23.3.3 of this code.

- 33.3 Where the Cross Code Steering Group determines that another Energy Code is to be used as the Lead Code for a Modification to this code and Consequential Changes, then the Modification shall be deemed to be a Consequential Change within this code and the IGT UNC Panel shall progress the relevant Modification in accordance with this Code, but subject to the following:
- (a) the Code Administrator shall progress the Modification Proposal in parallel with the change under the Lead Code, and subject to the timetable determined under the Lead Code;
 - (b) the Modification Proposal shall be approved if (i) the IGT UNC Modification Panel approves the change, and (ii) the change to the Lead Code is approved by the Lead Code and (iii) the other related Consequential Changes in other Energy Codes are approved (subject to any appeal mechanism under this code or the Lead Code or the other Energy Codes); and
 - (c) where the change to the Lead Code is approved, and one or more Consequential Changes are rejected, the Lead Code may, within 10 Working Days of the decision under the Lead Code, refer all the related Consequential Changes to the Authority for decision.

- 33.4 Where a Consequential Change to this code is identified as being required by the Cross Code Steering Group, the Code Administrator or the REC Code Manager may raise a Modification Proposal to satisfy the identified requirement.
- 33.5 The IGT UNC Modification Panel shall ensure that all metadata for relevant Market Messages and Data Items utilised under this code in interfaces between Parties and central service providers or other market participants are defined within the Energy Market Data Specification, and (if necessary) shall raise a change under the REC Change Management Schedule to rectify any errors or omissions.
- 33.6 Where a Modification Proposal is progressed in relation to metadata defined within the Energy Market Data Specification, the relevant Metadata Owner shall be defined as the Lead Code.

34 Review of Prioritisation Category of Modification Proposals

- 34.1 The Code Administrator shall schedule a bi-annual review of the Prioritisation Category of Modification Proposals as part of the IGT UNC Panel agenda and, following the IGT UNC Panel's determinations, adjust the relevant modification timetable.

35 Modification Register

- 35.1 The Code Administrator shall prepare and publish an updated Modification Register on the IGT UNC Website which shall include:
- (a) Whether each Modification Proposal has been determined to be an Urgent Modification Proposal, or, where a Modification Proposal is not an Urgent Modification Proposal or a Fast Track Self-Governance Modification Proposal, its Prioritisation Category;
 - (b) the reasons for the IGT UNC Modification Panel's determinations where they have been made in regard to the Prioritisation Category of Modification Proposals; and
 - (c) where the Prioritisation Category of a Modification Proposal is changed, confirmation of the change alongside the reasons for the change.

PART M - DEFINITIONS

The following definitions shall apply:

“the Act” the Gas Act 1986 as amended;

“Actual Invoicing” shall have the meaning in Part G9.2.2;

“Additional Customer Services” shall have the meaning in Part N 2.1.1(b)(iii);

“Adjustment Assessment Date” shall have the meaning ascribed thereto in the UNC;

“Adjustment Period” shall have the meaning ascribed thereto in the UNC;

“Adjustment Review Date” shall have the meaning ascribed thereto in the UNC;

“Advanced Meter” shall have the same construction as that set out in Standard Condition 12.22 of the Gas Suppliers Licence published by the Authority;

“Advance Payment” means a deposit of funds by or on behalf of the Pipeline User as early payment relating to any invoice issued but not yet due into a bank account specified by the Pipeline Operator, in the name of the Pipeline Operator.

“Affected Person” shall have the meaning in Part L 2.1;

“Affiliate” in relation to a body corporate is another body corporate which holds not less than the specified percentage (or where no percentage is specified, the majority) of the voting rights of the first body corporate, or subsidiary of the first body corporate or that other body corporate and for these purposes “voting rights”, “holding” voting rights and “subsidiary” are to be construed in accordance with Section 736A of the Companies Act 1985;

“Agenda” shall have the meaning in Part L 2.1;

“Agency Charging Statement” shall have the meaning ascribed thereto in the UNC;

“Agency Functions” shall have the meaning in Part N 2.2.1(a);

“Agency Services” shall have the meaning in Part N 1.3.6(b);

“Agreed Opening Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Aggregate EUC CSAQ” is the amount of the aggregate of the Annual Quantities of the Relevant EUC Supply Meter Points multiplied by the applicable Pipeline Shrinkage Factor;

“Aggregate CSEP Capacity” shall have the meaning in Part B4.4;

“Aggregate Pipeline Capacity” shall have the meaning in Part CV4.3;

“Alternate” shall have the meaning in Part L 2.1;

“Alternative Modification Proposal” shall have the meaning in Part L 2.1;

“Ancillary Agreement” an agreement between the Pipeline Operator and one or more Pipeline Users setting out any terms of a transportation arrangement (as defined in Standard Condition 1 of the Pipeline Operator’s Licence in relation to the Pipeline:

entered into pursuant to any provision of the Code which contemplates that such an agreement may be entered into; or

which expressly provides that it is to be a Network Code Ancillary Agreement.

For the avoidance of doubt the LDZ CSEP Ancillary Agreement is not an Ancillary Agreement for the purposes of the Code;

“Annual Quantity” or **“AQ”** shall have the meaning ascribed to it in the UNC;

“Annual Transportation Charges” means the aggregate of Transportation Charges (as defined in Part G) payable by all Pipeline Users to the Pipeline Operator for the preceding 12-month period from the date such calculation is made.

“anticipated normal offtake pressure” shall have the meaning in Part R2.2.3;

“Applicable Daily Rate” shall have the meaning in Part G2.4(a);

“Applicable Annual Rate” shall have the meaning in Part G2.4(a);

“Applicable Commodity Rate” shall have the meaning in Part G2.4(b);

“Applicable Interest Rate” shall have the meaning in Part G15.3;

“Applicable Liability Gas Price” shall have the meaning ascribed thereto in the UNC;

“applicant Party” shall have the meaning in Part O 2.1.2(a);

“Applicable Offtake Requirements” shall have the meaning in Part R2.1.1;

“Applicable Offtake Pressure” shall have the meaning in Part R2.1.4;

“Applicant User” shall have the meaning in Part K1.1;

“Approved Credit Referencing Agency” means Moody’s Investors Service or Standard and Poor’s Ratings Group or such replacement agency as may be notified by the Authority from time to time for the purposes of Part G, Clause 21.

“Association Data Cut-Off Date” shall have the meaning ascribed thereto in the UNC

“Authority” the Gas and Electricity Markets Authority established under Section 1 of the Utilities Act 2000 or any successor thereof;

“Authority Guidance on Code Modification Prioritisation” means the guidance published by the Authority from time to time on code modification prioritisation;

“backstop date” shall have the meaning in Part O 2.1.2(e);

“Base Registration Nomination” shall have the meaning ascribed thereto in the UNC;

“Billing Day” shall have the meaning in Part G3.3(b);

“Billing Period” shall have the meaning in Part G3.3(a);

“Bottom Stop” shall have the meaning ascribed thereto in the UNC;

“Business Day” means (except for the purposes of Parts C, D and E) a Day other than a Saturday or a Sunday or a Day which begins at 05:00 hours on a bank holiday in England and Wales;

“C&D Information”: shall have the meaning ascribed thereto in the UNC;

“C&D Notification”: shall have the meaning ascribed thereto in the UNC;

“Calculated Gas Card Reading” shall have the meaning in Part E1.2;

“Capacity” shall have the meaning in Part B2.1;

“Capacity Ratchet Amount” shall have the meaning in Part CII5.5;

“Capacity Reduction Period” shall have the meaning ascribed thereto in the UNC;

“Capacity Revision Application” shall have the meaning ascribed thereto in the UNC;

“Capacity Variable Component” shall have the meaning (if any) in the Pipeline Operator's Network Code;

“Cash Deposit” means a deposit of funds by or on behalf of the Pipeline User into a bank account in the name of the Pipeline Operator.

“CDSP Services” shall have the meaning in Part N 1.3.1;

“Central Data Services Provider” or **“CDSP”** shall have the meaning in N1.2.1(a);

“Central Despatch” shall have the meaning in Part R5.8.1;

“CSEP NExA Table Review Work Group” shall have the meaning as set out in Section 2 of the IGT UNC Ancillary Document entitled the **IGT CSEP NExA Table Review Procedures**;

“Chairperson’s Guidelines” shall have the meaning in Part L 2.1;

“Change Administrator” shall have the meaning in Part L 2.1;

“Change of Shipper Request” shall have the meaning ascribed in the REC;

“Class 1 Requirement” shall have the meaning ascribed thereto in the UNC;

“Class 1 Read Provider” shall have the meaning in Part CI 3.2(c);

“Class 1 Meter Read Requirements” shall have the meaning ascribed thereto in the UNC;

“Close out Date” shall have the meaning in Part L 2.1;

“Code” shall have the meaning in Part A2.3;

“Code Administrator” shall have the meaning in Part L 2.1;

“Code Communication”: any communication to be given by the Pipeline Operator or any Pipeline User under the Code including where so provided by and in accordance with the Pipeline Operator's Network Code, any System Communication;

“Code Credit Limit” shall have the meaning in Part G21.2;

“Code Credit Rules” shall have the meaning in Part G21.2;

“Code Services” shall have the meaning in Part N 1.3.5;

“conditional” shall have the meaning in Part O 2.1.2(f);

“Collateral” means the implements (excluding parent Pipeline Operator guarantees) through which the Pipeline User can provide Cover, as set out in Part G, Clause 21.1.1 and as may be amended or added to from time to time by the Pipeline Operator with the Authority's approval;

“Competent Authority” the Authority, or any local, national or supra-national agency, authority, department, inspectorate, minister, official, court, tribunal or public or statutory person (whether autonomous or not) of the United Kingdom (or the government thereof) or the European Communities which has jurisdiction over the Pipeline Operator or a Pipeline User or the subject matter of the Code;

“Completion Date” shall have the meaning in Part CV1.2(c);

“Computer System” the computer systems (if any) described in the Manual as from time to time modified in accordance with the Pipeline Operator's Network Code, operated by the Pipeline Operator to support implementation of certain provisions of the Code and the giving of certain communications;

“Connected Offtake System” shall have the meaning ascribed thereto in the UNC;

“Connected System Exit Point” shall have the meaning ascribed thereto in the UNC;

“Connection Point”: the CSEP or the US Connection Point;

“Connections Work” shall have the meaning in Part CV 1.2(e);

“Consultation” shall have the meaning in Part L 2.1;

“Consumer” is a reference to:

A consumer (as defined in the Gas Code) who is supplied with gas conveyed to particular premises by means of the Pipeline;

In the context of a particular Supply Point or Supply Meter Point, the consumer who is supplied with gas offtaken from the Pipeline at the relevant point; or

In the context of Pipeline User, the consumer in respect of a Supply Point of which the Pipeline User is Registered User;

“Consumer’s Plant” in respect of any Supply Meter, the plant and/or equipment in which gas offtaken from the Pipeline at that point is to be used (including any plant or equipment in which gas is compressed or otherwise treated before being consumed);

“Consumer’s Representative” shall have the meaning in Part L2.1;

“Consumption Adjustment” shall have the meaning ascribed thereto in the UNC;

“Contingency Invoices” shall have the meaning in Part G9.2.3;

“Contingency Invoicing” shall have the meaning in Part G9.2.3;

“Contingency Invoice Documents” shall have the meaning in Part G9.2.3;

“Contract Management Committee” shall have the meaning ascribed thereto in the UNC;

“Conventional Notice” a notice or communication which is or may be given by any of the means in Part K34.2;

“Core Customer” shall have the meaning in Part N 1.2.1(d);

“Core Services” shall have the meaning in Part N 1.3.1(a);

“Coronavirus or COVID-19” shall have the meaning ascribed thereto in the UNC;

“Cover” means the aggregate amount of Collateral which the Pipeline User is required to provide and maintain in accordance with the provisions of Part G, Clause 21;

“Cover Default” has the meaning given to that term in Part G Clause 21.3.3; **“Credit Allowance (CA)”** has the meaning given to that term in Part G Clause 21.2.3;

“Credit Allowance Factor (CAF)” has the meaning given to that term in Part G Clause 21.2.3;

“Credit Assessment Score” means a Credit Assessment Score as determined pursuant to Part G Clause 21.2.8 or 21.2.9;

“Credit Code Limit” has the meaning given to that term in Part G Clause 21.2.16;

“Credit Rating” means a long-term debt rating from an Approved Credit Referencing Agency;

“Credit Support Provider” has the meaning given in Part G Clause 21.2.19;

“CSEP” the Connected System Exit Point agreed as such between the Large Transporter and the Pipeline Operator being the point(s) on the Pipeline at which gas can flow into the Pipeline from the Large Transporter System;

“CSEP NExA Tables” shall have the meaning in Part CI 1.1;

“CSEP User” shall have the meaning ascribed thereto in the UNC;

“CSS Process” shall have the meaning in Part CI 1.5.8;

“CSS Provider” shall have the meaning in Part CI 1.5.3;

“CSS Implementation Date” or **“CSSID”** means the 'CSS Go-Live Date' as defined in the UNC;

“CSS Modification” means the Code Modification to the UNC and the Modification to the IGT UNC the purposes of which are to give effect to the changes required to facilitate implementation of the REC and the CSS to be implemented with effect from the CSS Implementation Date within the IGT UNC;

“CSS Supply Meter Point” shall have the meaning in Part CI 1.5.4;

“CSS Supply Point” shall have the meaning in Part CI 1.5.5;

“Current Year Minimum Supply Point Capacity” shall have the meaning ascribed thereto in the UNC;

“Customer Charge” is a charge (if any) payable by reason of being the Registered User of a Supply Point;

“Customer Class” shall have the meaning in Part N 1.2.1(e);

“Customer Group” shall have the meaning in Part N 1.2.1(f);

“Daily Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Daily Read Equipment” shall have the meaning in Part CI 3.2(a);

“DAM” shall have the meaning ascribed in the REC;

“Data Communications Company” or “DCC” has the meaning given thereto in the UNC

“Data Permission Matrix” or “DPM” shall have the meaning in Part N2.5.1(b);

“Data Services Contract” or “DSC” shall have the meaning ascribed thereto in the UNC;

“Day” means the period from 05:00 hours on one day until 05:00 hours on the following day;

“day of issue” shall have the meaning in Part CI 20.1;

“day of notification” shall have the meaning in Part CI 20.1;

“Defaulting User” shall have the meaning in Part K7.1;

“Demand Model” shall have the meaning ascribed thereto in the UNC;

“Deregistration Request” shall have the meaning of **“Registration Deactivation Request”** ascribed thereto in the REC;

“Derogation Application” shall have the meaning in Part O 2.1.1;

“Derogation Eligibility Criteria” means the eligibility criteria set out in the IGT UNC Innovation Derogations Guidance;

“Derogation Guidance Document” is an IGT UNC Ancillary Document prepared and maintained under the Modification Procedures containing guidance in relation to IGT UNC Derogation Applications and called IGT UNC Innovation Derogations Guidance;

“Derogation Period” shall have the meaning in Part O 2.2.1;

“Derogation Use Case” means a use for which a derogation might be applied and listed in Part O paragraph 2.5 of the IGT UNC;

“Detail Registration Nomination” shall have the meaning ascribed thereto in the UNC;

“Detail Registration Response” shall have the meaning ascribed thereto in the UNC;

“Developer” shall have the meaning in Part CI 13.2(a);

“Development” shall have the meaning in Part L 2.1;

“Direct Functions” shall have the meaning in Part N 2.1.1(a);

“Direct Services” shall have the meaning in Part N 1.3.6(a);

“Directive” means any present or future directive, request, requirement, instruction, code of practice, direction or rule of any Competent Authority (but only, if not having the force of law, it is reasonable in all the circumstances for it to be treated as though it had legal force) and any modification, extension or replacement thereof;

“Discontinuance Notice” shall have the meaning in Part K6.1;

“Discontinuing User” shall have the meaning in Part K5.1;

“DM Capacity” shall have the meaning in Part B 2.3(c);

“DM CSEP” shall have the meaning in Part F1.1(b);

“DM Demand” shall have the meaning in Part F2.2;

“DM Offtake Rate” means Supply Point Offtake Rate;

“DM Output Nomination” shall have the meaning ascribed thereto in the UNC;

“DM Supply Meter Point” is a Supply Meter Point in respect of which Daily Read Equipment has been installed;

“DM Supply Point” shall have the meaning in Part C11.1;

“DN Operator” shall have the meaning ascribed thereto in the UNC;

“domestic premises” premises at which a supply is taken or to be taken wholly or mainly for domestic purposes;

“Downstream System” is a pipeline or pipeline system operated by a person other than the Pipeline Operator which is or is to be connected downstream of the Pipeline whether connected directly or indirectly to it via another pipeline or pipeline system and where gas flow from the Pipeline into that pipeline or pipeline system is not metered;

“Downstream System Operator” is in respect of a Downstream System, the person which owns or operates that Downstream System;

“Downstream System Exit Point” is a point or points (which are not Supply Meter Points) on the Pipeline at which gas leaves the Pipeline for onward conveyance in a Downstream System;

“Draft Final Modification Report” shall have the meaning in Part L 2.1;

“Draft Modification Report” shall have the meaning in Part L 2.1;

“DRN” shall have the meaning ascribed thereto in the UNC;

“Emergency” shall have the meaning in Part I1.7;

“Emergency Contacts” shall have the meaning in Part I8.1(b);

“Emergency Steps” shall have the meaning in Part I3.1;

“End User Category” or “EUC” shall have the meaning ascribed thereto in the UNC;

“Energy Market Data Specification” shall have the meaning described in Part L Section 2;

“Energy Supplier” shall have the meaning ascribed thereto in the REC;

“EPG Scheme Services” shall have the meaning described in Part N 1.3.1(c);

“Escrow Account” means a separately designated bank account in the name of the Pipeline User at such branch of any bank in the United Kingdom as the Pipeline Operator shall specify (the Bank) (on terms to be approved by the Pipeline Operator and which provide, amongst other things, that the funds held in the Escrow Account may be released by the Bank to the Pipeline Operator in the circumstances envisaged in Clauses 21.3 and 21.4 with the right to direct payments from the Escrow Account in favour only of the Pipeline Operator until the events specified in Clause 21.3.10 have occurred) to which all deposits required to be made by the Pipeline User pursuant to Part G, Clause 21 shall be placed, provided that such proceeds are not to be withdrawn by the Pipeline User save in accordance with the provisions of Part G, Clause 21

“Escrow Account Deposit” means a deposit of funds by or on behalf of the Pipeline User into an Escrow Account.

“Estimated Meter Reading Charge” shall have the meaning in Part G1.6;

“Excluded Code Provision” shall have the meaning in Part O 1.2.1(d); **“Existing Registered User”** shall have the meaning ascribed thereto in the UNC;

“Existing Supply Point” shall have the meaning ascribed thereto in the UNC;

“Expert Determination” shall have the meaning in Part K8.1; **“Fifteen Days’ Value”** has the meaning given to that term in Part G Clause 21.2.2.1(b);

“Final Modification Report” shall have the meaning in Part L 2.1;

“Firm CSEP” shall have the meaning ascribed thereto in the UNC;

“Firm Supply Point” shall have the meaning in Part CIII3.2(c);

“first application” shall have the meaning in Part O2.1.14;

“First Supply Point Registration Date” shall have the meaning in Part CV2.4;

“fixed date period” shall have the meaning in Part O 2.1.2(d)i;

“Formula Year Annual Quantity” shall have the meaning ascribed thereto in the UNC;

“Formula Year Supply Point Capacity” means the Supply Point Capacity calculated by the Pipeline Operator with reference to the Formula Year Annual Quantity;

“Framework Agreement” the agreement between the Pipeline Operator and Pipeline Users, pursuant to which such Pipeline Users become bound by the Pipeline Operator's Network Code;

“Frequency Response” shall have the meaning in Part R5.8.1;

“Frequency Response Period” shall have the meaning in Part R5.8.2(d);

“Gaining Supplier” shall have the meaning ascribed thereto in the REC;

“gas” shall have the meaning ascribed thereto in the UNC;

“Gas Act Owner” is the Consumer, holder of a gas transporter's Licence or relevant supplier that owns the meter (and for the purposes of this definition includes a lessee) and which in accordance with the Gas Code is responsible for keeping it in proper order for correctly registering the quantity of gas supplied;

“Gas Card” shall have the meaning ascribed thereto in the UNC;

“Gas Card Reading” shall have the meaning ascribed thereto in the UNC;

“Gas Code” the Gas Code in Schedule 2B to the Act;

“Gas Enquiry Service” has the meaning given in the REC;

“Gas Flow Day” means in relation to the application of any provision of the Code, the Day in relation to deliveries, offtakes or flows of gas or other operations on which such provision is to apply;

“Gas Transporter” a person who holds a Gas Transporter's Licence;

“Gas Transporter's Licence” a gas transporters licence as from time to time in force granted or treated as granted pursuant to the Act;

“Gas Year” means the period from 05:00 1st October in any year until 05:00 1st October in the following year;

“Good Payment Performance” has the meaning given to that term in Part G Clause 21.2.14;

“GRDA Functions” are functions assigned to the CDSP as ‘Gas Retail Data Agent’ in the Retail Energy Code and shall have the meaning ascribed thereto in the UNC;

“Group of Companies” shall have the meaning in Part L2.1;

“Historic Supply Point Meter Asset and Read Information” shall have the meaning ascribed thereto in the UNC;

“hour” shall have the meaning ascribed thereto in the UNC;

“IGE Meter Recommendation” shall have the meaning in Part D1.3(b);

“IGTAD” shall have the meaning ascribed thereto in the UNC;

“IGT CSEP NExA Table Review Procedures” shall have the meaning in Part CI 6.4(b);

“IGT UNC” shall have the meaning in Part A 1.1;

“IGT UNC Ancillary Document” shall have the meaning in Part K 42.1;

“IGT UNC Contract Manager” is the person appointed by a Pipeline User as set out in the IGT UNC Ancillary Document Pipeline operator standards of Service Query Management;

“IGT UNC Implementation Date” shall have the meaning in the Transition Document;

“IGT UNC Modification Panel” shall have the meaning in Part L 2.1;

“IGT UNC Modification Workstream” shall have the meaning in Part L 2.1;

“IGT UNC Operators” shall have the meaning in Part L 2.1;

“IGT UNC Operators’ Representative” shall have the meaning in Part L 2.1;

“IGT Transportation Charges” shall have the meaning in Part G3.3(f)

“IGT Transportation Charges Invoice” shall have the meaning in Part G3.3(f)

“Incident Procedure” shall have the meaning in Part K41.1;

“Indebtedness Ratio” has the meaning given to that term in Part G Clause 21.2.17;

“Indebtedness Ratio Limit” shall be 100% unless otherwise notified by the Pipeline Operator under the provisions of Part G, Clause 21;

“Independent Credit Assessment” means a credit assessment of the Pipeline User procured by the Pipeline Operator at the Pipeline User’s request in accordance with Part G Clause 21.2.7 from a Recognised Credit Assessment Agency chosen by the Pipeline User;

“Individual CSEP Reconciliation” shall have the meaning ascribed thereto in the UNC;

“Individual CSEP Reconciliation Quantity” shall have the meaning ascribed thereto in the UNC;

“Individual Network Code” shall have the meaning in Part L 2.1;

“Industry Code” means a multilateral code or agreement created and maintained pursuant to a licence granted by the Aughtroty under sections 8, 7ZA or 7A of the Gas Act 1986 or section 6 of the Electricity Act 1989, including the Uniform Network Code, Retail Energy Code and the Smart Energy Code;

“Initial Registered User” is in respect of a New Supply Point, the Pipeline User in whose name the Supply Meter Point(s) comprising such New Supply Point is initially registered with the Pipeline Operator;

“Initial Registration Request” shall have the meaning ascribed thereto in the REC;

“Initial Supply Point Confirmation” is a communication by a Proposing User to the Pipeline Operator requesting Initial Supply Point Registration of a Proposed New Supply Point prior to the Supply Point Registration with the CDSP;

“Initial Supply Point Registration” is the initial registration of one or more New Supply Meter Point(s) in the name of a Pipeline User with the Pipeline Operator prior to the Pipeline User becoming the Registered User with the CDSP;

“Interruptible” shall have the meaning in Part CIII3.2(a);

“Interruptible CSEP” shall have the meaning ascribed thereto in the UNC;

“Interruptible Supply Point” shall have the meaning in Part CIII3.2(b);

“interruption” shall have the meaning in Part CIII3.2(e);

“Interruption Allowance” shall have the meaning ascribed thereto in the UNC;

“Invoice Amount” shall have the meaning in Part G3.3(e);

“Invoice Credit” shall have the meaning in Part G4.2;

“Invoice Document” shall have the meaning in Part G3.3(c);

“Invoice Due Date” shall have the meaning in Part G10.2;

“Invoice Item” shall have the meaning in Part G3.3(d);

“Invoice Query” shall have the meaning in Part G16.1;

“Invoice Remittance Advice” shall have the meaning in Part G4.5;

“Isolated” Shall be construed accordingly in relation to **“Isolation”**,

“Isolation” shall have the meaning ascribed thereto in the UNC;

“kWh” shall have the meaning ascribed thereto in the UNC;

“Large Firm Supply Point” shall have the meaning in Part I1.3;

"Large Transporter" National Gas Transmission plc and/or as the context permits the DN Operator which operates the pipeline system immediately upstream of the CSEP;

"Large Transporter CDSP Licence Condition" shall have the meaning in Part N 1.2.1(b);

“Large Transporter Representative” shall have the meaning in Part L 2.1;

"Large Transporter System" the main pipeline systems operated by National Gas Transmission plc and the DN Operators the conveyance of gas through which is authorised by one or more gas Transporter Licences;

“Larger Supply Point” shall have the meaning in Part CI 1.1;

"Last Resort User" shall have the meaning in Part CI 11.1;

“Legally Binding Decisions” shall have the meaning ascribed thereto in the UNC;

“Legal Requirement” any Act of Parliament, regulation, licence or Directive of a Competent Authority;

“Letter of Credit” means an unconditional irrevocable standby letter of credit in such form as the Pipeline Operator may reasonably approve issued for the account of the Pipeline User in sterling in favour of the Pipeline Operator, allowing for partial drawings and providing for the payment to the Pipeline Operator forthwith on demand by any United Kingdom clearing bank or any other bank which in each case has a long-term debt rating of not less than single A by Standard and Poor’s Ratings Group or by Moody’s Investors Service, or such other bank as the Pipeline Operator may approve and which shall be available for payment at a branch of the issuing bank;

"LCAA Supply Meter Point" is a Supply Meter Point in respect of which there are provisions in force relating to the offtake of gas at the Supply Meter Point and contained in a LCAA.

“LDZ Capacity” shall have the meaning ascribed thereto in the UNC;

“LDZ CSEP Ancillary Agreement” or “LCAA” means an agreement between

(j) One or both of the relevant Large Transporter and Pipeline Operator; and

- (ii) One or more of the relevant Registered User, Consumer, Large Transporter or Pipeline Operator; and

entered into pursuant to any provision of the Code which contemplates that such an agreement may be entered into or entered into pursuant to the provisions of IGTAD Section E Clause 2.2(a) of the UNC; and is not a Network Code “Ancillary Agreement”.

“Local Emergency” shall have the meaning in Part I1.2;

“Local Emergency Procedures” shall have the meaning in Part I2.1;

“Local Distribution Zone” shall have the meaning ascribed thereto in the UNC;

“Maintenance Affected Point” shall have the meaning in Part H4.1(a);

“maintenance day” shall have the meaning in Part H3.1(b)(ii);

“Maintenance Programme” shall have the meaning in Part H1.1(a);

“Manual” the document (if any) so entitled and issued by the Pipeline Operator, as from time to time revised in accordance with the Pipeline Operator's Network Code;

“Maximum Supply Point Capacity” shall have the meaning in Part CII5.1(a);

“Maximum Supply Point Offtake Rate” shall have the meaning in Part CII5.1(b);

“maximum offtake rate” shall have the meaning ascribed thereto in the UNC;

“Member” shall have the meaning in Part L 2.1;

“Meter Asset Manager” is an organisation that works on behalf of another to install, replace, repair and maintain a Supply Meter Installation;

“Meter By Pass” shall have the meaning in Part D2.9(b);

“Meter Fit Report” shall have the meaning in Part D7.3;

“Meter Information” shall have the meaning ascribed thereto in the UNC;

“Meter Information Notification”: shall have the meaning ascribed thereto in the UNC;

“Meter Information Update Notification”: shall have the meaning ascribed thereto in the UNC;

“Metering Charges” means the Pipeline Operator's charges (if any) for the provision of Supply Meters and other services related to Supply Meters;

“Metering Charges Statement” means the document if any issued from time to time by the Pipeline Operator which is not the Transportation Statement and which sets out “Metering Charges”;

“Metered Quantity” shall have the meaning ascribed thereto in the UNC;

“Metered Volume” shall have the meaning ascribed thereto in the UNC;

“Meter Fix Date” shall have the meaning in Part CV 1.2(f);

“Meter Fix Reading” shall have the meaning ascribed thereto in the UNC;

“Meter Installation Works” shall have the meaning in Part D1.2(c);

“Meter Read” shall have the meaning ascribed thereto in the UNC;

“Modification Proposal” shall have the meaning in Part L 2.1;

“Meter Reader” shall have the meaning ascribed thereto in the UNC;

“Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Meter Work”: shall have the meaning ascribed thereto in the UNC;

“Meter Worker”: shall have the meaning ascribed thereto in the UNC;

“Minimum Aggregate Capacity” shall have the meaning in Part B4.1;

“Missing DRN” shall have the meaning ascribed thereto in the UNC;

“Missing DRN Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Modification Rules” the modification rules set out in Part L;

“NDM CSEP” shall have the meaning in Part F1.1(a);

“NDM Output Nomination” shall have the meaning ascribed thereto in the UNC;

“NDM Sampling Shipper User” shall have the meaning ascribed thereto in the UNC;

“NDM Supply Meter Point” is a Supply Meter Point which is not a DM Supply Meter Point;

“NDM Supply Meter Point Demand” shall have the meaning ascribed thereto in the UNC;

“NDM Supply Point” shall have the meaning in Part CI1.1;

“NEC” shall have the meaning in Part I1.4;

“NEC Safety Case” shall have the meaning in Part I1.5;

“Network Gas Supply Emergency” shall have the meaning in Part I1.8;

“New Rules” means the provisions of Part C of the IGT UNC and the provisions of TPD Section G of the UNC as they apply following the CSS Modifications.

“New Supply Meter Point” shall have the meaning in Part CV1.1(a);

“New Supply Point” is any Proposed Supply Point (including for the avoidance of doubt a Proposed Supply Point which includes a New Supply Meter Point

“Nominated” shall have the meaning ascribed thereto in the UNC;

“Nominated Supply Point Capacity” shall have the meaning ascribed thereto in the UNC;

“Nominated Supply Point Offtake Rate” shall have the meaning ascribed thereto in the UNC;

“Non-CSS Supply Meter Point” shall have the meaning in Part CI1.5;

“Non-CSS Supply Point” shall have the meaning in Part CI1.5;

“Non Code User Charge” means a charge determined in accordance with the Agency Charging Statement, which Agency Charging Statement is set out in the UNC;

“non domestic premises” premises which are not domestic premises;

“Non-voting Member” shall have the meaning in Part L 2.1;

“NSL” shall have the meaning in Part CIII 3.2(d);

“NTS Supply Meter Points” shall have the meaning in Part R1.1;

“Objection Deadline” shall have the meaning ascribed thereto in the UNC;

“Old Rules” means the provisions of Part C of the IGT UNC and the provisions of TPD Section G of the UNC as they apply prior to the CSS Modifications.

“off-spec gas” shall have the meaning in Part J4.2;

“Offtake Capacity” shall have the meaning in Part B2.3(b);

“Offtake Profile Notice” shall have the meaning in Part R4.5.1(a);

“Offtake Rate Change” shall have the meaning in Part R4.5.4;

“Ofgem Representative” shall have the meaning in Part L 2.1;

“On-site Meter Read” shall have the meaning ascribed thereto in the UNC;

“Opening Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Operational” shall have the meaning in Part CI3.2(b);

“PAFA Contract” shall have the meaning ascribed thereto in the UNC;

“Panel Chairperson” shall have the meaning in Part L 2.1;

“Panel Majority” shall have the meaning in Part L 2.1;

“Payment Date” means the due date for payment of any account submitted to the Pipeline User pursuant to Part G, Clause 21;

“Payment Default” has the meaning given to that term in Part G, Clause 21.4.2;

“Payment Record Factor” has the meaning given to that term in Part G, Clause 21.2.13;

“Performance Assurance Committee” or **“PAC”** is the UNC sub-committee established and described in TPD Sections V16.2 and V16.3 of the UNC;

“Performance Assurance Framework” or **“PAF”** is as defined in TPD Section V16.1.1(b) of the UNC;

“Performance Assurance Framework Administrator” or **“PAFA”** is the person appointed and whose role and terms of engagement are specified under TPD Sections V16.9 and V16.10 of the UNC;

“Performance Assurance Framework Document” or **“PAFD”** is the document established, maintained and published by the PAC and specified in TPD Sections V16.7.1, V16.7.2 and V16.7.3 of the UNC;

“Performance Assurance Objective” is as defined in TPD Section V16.1.1(b) of the UNC;

“Performance Assurance Party” is as defined in TPD Section V16.1.1(a) of the UNC and shall also include Pipeline Operators and Pipeline Users;

“Performance Assurance Report Registers Schedules” shall have the meaning ascribed thereto in the UNC;

“permitted data recipients” shall have the meaning in Part N 2.5.1.(b)ii

“Permitted Offtake Rate” shall have the meaning in Part R4.5.8;

“PExA Supply Meter Point” shall have the meaning in Part R1.5.10(a);

“Pipeline” the gas pipeline or pipeline system which is not owned or operated by a Large Transporter and which is connected to an Upstream System, the conveyance of gas through which is authorised by the Pipeline Operator's Licence and the flow of gas into which is not metered; and/ or a Pipeline Delivery Facility, the flow of gas into which is not metered;

“Pipeline Design Maximum Volume” shall have the meaning in Part CV4.1;

“Pipeline Capacity” shall have the meaning in Part B 2.3(a);

“Pipeline Delivery Facility” shall have the meaning in Part Q 1.2.1;

“Pipeline Delivery Facility Operator” shall have the meaning in Part Q 1.2.3;

“Pipeline Entry Agreement” shall have the meaning in Part Q 1.3.1;

“Pipeline Entry Point” a point on a Pipeline which is designed to permit gas from a facility other than a Large Transporter or another Pipeline to flow through a single pipe into the Pipeline and at which the flow of gas is metered;

“Pipeline Entry Provisions” shall have the meaning in Part Q 1.3.2; **“Pipeline Operator ”**: shall have the meaning in Part A 2.4;

“Pipeline Exit Agreement” shall have the meaning in Part R1.5.4;

“Pipeline Exit Provisions” shall have the meaning in Part R1.5.1;

“Pipeline Operator Agency”: shall have the meaning in Part N 1.1;

“Pipeline Operator Agency Activities”: shall have the meaning in Part N 1.2;

“Pipeline Operator's Licence”: the Gas Transporter's Licence granted to the Pipeline Operator, as from time to time in force;

“Pipeline Shrinkage” shall have the meaning in Part F12.1(a);

“Pipeline Shrinkage Factor” shall have the meaning in Part F12.1(b);

“Pipeline User”: a person other than the Pipeline Operator who is for the time being bound by the Code pursuant to the Framework Agreement;

“Pipeline Users’ Representative” shall have the meaning in Part L 2.1;

“Portfolio Extract” shall have the meaning in Part G.20.2;

“Preceding Year” in relation to any Gas Year is the Gas Year ending at the start of such Gas Year;

“Preceding Year Maximum Capacity” shall have the meaning ascribed thereto in the UNC;

“Premises Termination User” shall have the meaning ascribed in the UNC TPD G 4.8.9;

“Prepayment” means a deposit of funds by or on behalf of the Pipeline User as early payment relating to future invoices not yet issued into a bank account specified by the Pipeline Operator, in the name of the Pipeline Operator;

“Prevailing” shall have the meaning ascribed thereto in the UNC;

“Prevailing Offtake Rate” shall have the meaning in Part R4.6.1;

“Previous Registered User” shall have the meaning ascribed thereto in the UNC;

“Prioritisation Category” has the meaning given to that term by the Authority Guidance on Code Modification Prioritisation;

“Prioritisation Criteria” has the meaning given to that term by the Authority Guidance on Code Modification Prioritisation;

“Priority Consumer” shall have the meaning in Part I4.1(a);

“Priority Criteria” shall have the meaning in Part I4.1(b);

“Priority Supply Point” shall have the meaning in Part I4.1(a);

“Programmed Maintenance” shall have the meaning in Part H3.1;

“Project Summary Notification” shall have the meaning in the IGT UNC Ancillary Document entitled IGT's New Connections Domestic Sites Only for Supply Point Premises that are domestic premises or the IGT UNC Ancillary Document entitled IGT Non-Domestic New Connections for Supply Point Premises that are non-domestic premises;

“Project Summary Report” shall have the meaning in the IGT UNC Ancillary Document entitled IGT's New Connections Domestic Sites Only for Supply Point Premises that are domestic premises or the IGT UNC Ancillary Document entitled IGT Non-Domestic New Connections for Supply Point Premises that are non-domestic premises;

“Proposed CSEP NExA Table” shall have the meaning as set out in Section 1 of the IGT UNC Ancillary Document entitled the IGT CSEP NExA Table Review Procedures;

“Proposed Registration Details” shall have the meaning in Part CI14;

“Proposed Supply Point” shall have the meaning ascribed thereto in the UNC;

“Proposed Supply Point Registration” shall have the meaning in Part CI 1.3;

“Proposer” shall have the meaning in Part L 2.1;

“Proposing User” shall have the meaning ascribed thereto in the UNC;

“Provisional Maximum Supply Point Capacity” shall have the meaning in Part CII5.2;

“Qualifying Guarantee” means a guarantee in favour of the Pipeline Operator which is legally enforceable in the United Kingdom and in such form as may be agreed between the Pipeline Operator and the Pipeline User and which may specify a maximum value;

“quantity” shall have the meaning ascribed thereto in the UNC;

“Ratcheted DM Capacity” shall have the meaning in Part CII5.6;

“rate of offtake” shall have the meaning in Part R4.5.3;

“Read Date” shall have the meaning ascribed thereto in the UNC;

“Recognised Credit Assessment Agency” means any of the credit assessment agencies listed at Part G, Clause 21.2.8, or any other credit assessment agency reasonably believed by the Pipeline Operator and the Pipeline User to be fit for the purpose of providing credit assessments pursuant to Part G, Clause 21, taking account of all the circumstances applicable to the Pipeline User;

“Re-establish” shall have the meaning ascribed thereto in the UNC;

“referral notice” shall have the meaning ascribed thereto in the UNC;

“Registrable Measurement Point” shall have the meaning ascribed in the REC;

“Registered DM Capacity” shall have the meaning in Part B5.2;

“Registered Metering Applicant” shall have the meaning ascribed thereto in the UNC;

“Registered Supplier” shall have the meaning ascribed in the REC;

“Registered User” shall have the meaning in Part CI 1.1;

“Registration Block Notice” shall have the meaning ascribed in the UNC;

“Registration Deactivation Request” shall have the meaning ascribed in the REC;

“Registration Nomination” shall have the meaning ascribed in the UNC;

“Registration Request” shall have the meaning ascribed in the UNC;

“Registration Response” shall have the meaning ascribed in the UNC;

“Regulations” shall have the meaning in Part I1.6;

“relevant characteristics” shall have the meaning in Part R2.4.1(a);

“Relevant day” means in relation to a Derogation Period, a Day in such period when a conditional derogation (of any) is also in force;

“Relevant Designated Person” shall have the meaning in Part L 2.1;

“Relevant EUC Supply Meter Points” the Registered NDM Supply Meter Points belonging to an End User Category;

“Relevant IGT UNC Operator” shall have the meaning in Part L 2.1;

“Relevant Objectives” shall have the meaning in Part L 2.1;

“relevant parties” shall have the meaning in Part L 2.1;

“Relevant Person” means all Parties, all Third Party Participants, such Non-Code Parties as the Code Administrator considers appropriate in the context of a IGT UNC Derogation Application and the CDSP;

“Relevant Pipeline User” shall have the meaning in Part L 2.1;

“Relevant Quantity” shall have the meaning ascribed thereto in the UNC;

“Relevant User” shall have the meaning in Part R1.2;

“relevant variable” shall have the meaning in Part F5.1;

"Remote Meter Reading Equipment" shall have the meaning ascribed thereto in the UNC;

"Remote Meter Read" shall have the meaning ascribed thereto in the UNC;

“Replacement DRN Meter Reading” shall have the meaning ascribed thereto in the UNC;

"Retail Energy Code" (REC) shall have the meaning described in Part L Section 2;

“Retained EU Law” has the same meaning as that given by section 6(7) of the European Union (Withdrawal) Act 2018 as amended by the European Union (Withdrawal Agreement Act) 2020;

“Review” shall have the meaning in Part L 2.1;

“Review Group” shall have the meaning in Part L 2.1;

“Review Proposal” shall have the meaning in Part L 2.1;

“Rolling Annual Quantity” shall mean the quantity calculated in accordance with paragraphs 2.3.4 to 2.3.13. of Section G of the UNC;

“Rolling Supply Point Capacity” shall mean the Supply Point Capacity calculated by the Pipeline Operator with reference to the Rolling Annual Quantity;

“RPC Entry Annual Quantity” shall have the meaning in Part CI 6.2;

“RPC Supporting Data” is invoice supporting data and is an Invoice Document;

“second application” shall have the meaning in Part O2.1.14;

“Secretary of the UNC Modification Panel” shall have the meaning in Part L 2.1;

"Shipper" shall have the meaning in Part CI 13.2(b);

“Shipper’s Licence” a licence granted or treated as granted under Section 7A(1) of the Act, or in the context of any Pipeline User the licence so granted or treated as granted to that Pipeline User;

“Siteworks” shall have the meaning in Part CV1.1(b);

“Siteworks Applicant” shall have the meaning in Part CV1.2(a);

“Siteworks Contract” shall have the meaning in Part CV1.2(b);

“Smaller Supply Point” shall have the meaning in Part CI 1.1;

“Smart Meter” shall have the meaning in Part D1.2(d);

“SPAA” shall have the meaning ascribed thereto in the UNC;

"specified pressure" shall have the meaning in Part R2.2.1;

“Sub Deduct Arrangement” shall have the meaning in Part D2.9(a);

“Sub Group” shall have the meaning in Part L 2.1;

“Sub Group Terms of Reference” shall have the meaning in Part L 2.1;

“Supplier” is a reference to:
a person who supplies to premises gas offtaken from the Pipeline (including a person supplying gas to itself);

in the context of a Pipeline User, the supplier in respect of a Supply Point of which the Pipeline User is the Registered User; or

in accordance with the provisions of the Data Permissions Matrix;

"Supplier of Last Resort" shall have the meaning in Part CI 11.1;

"Suppliers' Representative" shall have the meaning in Part L 2.1;

"Supply Meter" shall have the meaning in Part D1.2(b);

"Supply Meter Installation" shall have the meaning in Part D1.2(a);

"Supply Meter Point" shall have the meaning in Part CI1.1;

"Supply Meter Point Reference Number" shall have the meaning in Part CI2.3;

"Supply Meter Point Pipeline Exit Provisions" shall have the meaning in Part R1.5.10(b);

"Supply Point" shall have the meaning in Part CI1.1;

"Supply Point Amendment" shall have the meaning ascribed thereto in the UNC;

"Supply Point Capacity" shall have the meaning in Part A 5.3.1;

"Supply Point Deregistration" shall have the meaning ascribed thereto in the UNC;

"Supply Point First Nomination" shall have the meaning ascribed thereto in the UNC;

"Supply Point Objection" shall have the meaning ascribed thereto in the UNC;

"Supply Point Premises" shall have the meaning in Part CI1.1;

"Supply Point Ratchet" means an increase in capacity pursuant to Part CII5.5;

"Supply Point Ratchet Charge" shall have the meaning in Part CII5.7;

"Supply Point Reconfirmation" shall have the meaning ascribed thereto in the UNC;

"Supply Point Register" shall have the meaning in Part CI 2.1;

"Supply Point Registration" shall have the meaning in Part CI 1.1;

"Supply Point Registration Date" shall have the meaning in Part CI 1.1;

"Supply Point Registration Number" shall have the meaning in Part CI2.3;

"Supply Point Renomination" shall have the meaning ascribed thereto in the UNC;

"Supply Point Second Nomination" shall have the meaning ascribed thereto in the UNC;

"Supply Point System Business Day" is a reference to a Day other than a Saturday, Sunday or a bank holiday in England or Wales.

"Supply Point Systems Business Day" shall have the meaning in Part CI5.4;

"Supply Point Transportation Charges" means the Transportation Charges payable in respect of a Supply Point;

"Switch Request" shall have the meaning ascribed in the REC;

"Synchronisation Message" shall have the meaning ascribed thereto in the REC;

"System Communication" is a message transmitted by means of the Computer System and may include any communications transmitted under UK Link;

"System Failure" shall have the meaning in Part G 3.3;

"Target Completion Date" shall have the meaning in Part CV1.2(d);

"target due date" shall have the meaning in Part G10.2(b);

"Terminated Supply Meter Points" shall have the meaning in Part CI 11;

“Termination Notice” shall have the meaning in Part K7.3;

“the Grid Operators” shall have the meaning in Part R5.8.1;

“threshold rate increase” shall have the meaning ascribed thereto in the UNC;

“Third Party Modification Proposal” shall have the meaning in Part L 2.1;

“Third Party Participant” shall have the meaning in Part L 2.1;

“TNI” shall have the meaning in Part CIII3.2(d);

“Transition Document” shall have the meaning in Part A2.11;

“Transportation Charges” shall have the meaning in Part G1.1(a);

“Transportation Constraint” shall have the meaning in Part Q 3.12;

“Transportation Statement” shall have the meaning in Part G1.1(b);

“Transportation Initiated Registration” shall have the meaning ascribed thereto in the REC;

“TSMP Information” shall have the meaning in Part CI 20.1;

“UDQO” shall have the meaning ascribed thereto in the UNC;

“UK Link” shall have the meaning ascribed thereto in the UNC;

“UK Link Communication” shall have the meaning ascribed thereto in the UNC;

“UK Link Manual” shall have the meaning ascribed thereto in the UNC;

“UK Link User” shall have the meaning ascribed thereto in the UNC;

“UNC” the uniform network code prepared by the Large Transporter pursuant to Standard Special Condition A11(6) of the Large Transporter’s Gas Transporters Licence;

“Unmetered CSEP” shall have the meaning ascribed thereto in the UNC;

“unspecified period” shall have the meaning in Part O 2.1.2(d)ii;

“Updated Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Upstream System” is a pipeline or pipeline system operated by a person other than the Pipeline Operator which is located upstream of the Pipeline whether connected directly or indirectly to it via another pipeline or pipeline system;

“Upstream System Operator” is in respect of an Upstream System the person which owns or operates that Upstream System;

“Upstream System Users” in respect of an Upstream System, the persons who are holders of licences granted or treated as granted under Section 7A(1) of the Act and who make arrangements for the conveyance of gas in that Upstream System;

“Urgent Modification Proposal” shall have the meaning in Part L 2.1;

“US Connection Point” the points(s) at which the Pipeline connects to an Upstream System which is not operated by the Large Transporter;

“User Accession Date” shall have the meaning in Part K2.1;

“User Default” shall have the meaning in Part K7.1;

“User Discontinuance Date” shall have the meaning in Part K5.1;

“User EUC”: in respect of any Pipeline User, each End User Category into which any Registered Supply Meter Points fall;

“User Premises Termination Notice” shall have the meaning ascribed in the UNC TPD G 4.8.9.

“Vacant Site Guidance Document” is the document established, specified under TPD Section V12.1 (g) of the UNC and maintained in TPD Section V12 of the UNC;

“Validation” shall have the meaning ascribed thereto in the UNC;

“Valid Meter Read” shall have the meaning ascribed thereto in the UNC;

“Valid Meter Reading” shall have the meaning ascribed thereto in the UNC;

“Value at Risk” has the meaning given to that term in Part G Clause 21.2.2.1;

“variation request” shall have the meaning in Part L2.1;

“View” shall have the meaning in Part L 2.1;

“volume” shall have the meaning ascribed thereto in the UNC;

“Voting Member” shall have the meaning in Part L 2.1;

“Work Group” shall have the meaning in Part L 2.1;

“1-in-20 peak day demand” is the peak day demand that in a long series of winters, with connected load being held at the levels appropriate to the winter in question, would be exceeded in one out of 20 winters, each winter being counted only once;

PART N – CDSP AND UK LINK

1 GENERAL

1.1 Introduction

1.1.1 This Section N sets out:

- (a) provisions relating to the CDSP and CDSP Services;
- (b) requirements in respect of the Data Services Contract; and
- (c) provisions in relation to UK Link.

1.2 Interpretation

1.2.1 For the purposes of the Code:

- (a) the "**Central Data Services Provider**" or "**CDSP**" is the person for the time being appointed by the Large Transporters as central data services provider pursuant to the Large Transporter CDSP Licence Condition;
- (b) the "**Large Transporter CDSP Licence Condition**" is Standard Special Condition A15A (in respect of Large Transporters, other than National Gas Transmission) and A15 (in respect of National Gas Transmission) of the Gas Transporter's Licences;
- (c) the "**Data Services Contract**" or "**DSC**" is the contract between the Parties and the as from time to time amended in accordance with its terms and the provisions of the UNC;
- (d) "**Core Customer**" means a Party to the Code, in the capacity of a party to the DSC;
- (e) "**Customer Class**" means each of the following classes of Core Customer:
 - (i) Pipeline Users;
 - (ii) Pipeline Operators;
- (f) "**Customer Group**" means a single Customer Class or a group of Customer Classes;
- (g) "**REC Code Manager**" means the person or persons to be appointed by the RECCo under the Retail Energy Code and to be known as the 'Code Manager';
- (h) "**RECCo**" means the 'REC Company' established in accordance with the Retail Energy Code; and
- (i) "**Retail Energy Code**" shall have the meaning described in Part L Section 2;
- (j) "**GRDA Functions**" are functions assigned to the CDSP as 'Gas Retail Data Agent' in the Retail Energy Code and shall have the meaning ascribed thereto in the UNC.

1.2.2 For the purposes of this Clause 1.2.2 the provisions of paragraph 1.2.2 of General Terms Section D of the UNC shall apply.

1.3 CDSP Services

1.3.1 For the purposes of the Code, subject to paragraphs 1.3.2 to 1.3.4, "**CDSP Services**" means the following services:

- (a) services ("**core services**") which consist in:
 - (i) performing functions assigned to the CDSP in; or
 - (ii) performing or facilitating performance of obligations on behalf of a Core Customer under the Code, the IGT Code, the Retail Energy Code (in respect of GRDA Functions only), a Gas Transporter's Licence, or another document designated for the purposes of Section 173 of the Energy Act 2004; and
- (b) any service which the CDSP can provide efficiently and economically by using resources and/or data used by the CDSP to provide core services and which:
 - (i) is provided to any Core Customer or Core Customers of any Customer Class;or
 - (ii) is provided to a person or persons of a class which are not Parties, where one of the following conditions is met:
 - (aa) the service is the same or substantially the same as a service which the CDSP is for the time being providing to any Core Customer or Core Customers of a Customer Class; or
 - (bb) the Code requires or authorises the CDSP to provide the service to such person(s); or
 - (cc) the provision of the service to such person(s) helps facilitate the efficient and integrated operation of the gas industry.
- (c) services which consist of, are connected with or are ancillary to the CDSP performing the role, functions and responsibilities of the EPG Scheme Administrator (and acting as the agent of the Secretary of State in respect of such role, functions and responsibilities) in connection with the Code and the Data Services Contract ("**EPG Scheme Services**").

1.3.2 Paragraph 1.3.1 is without prejudice to the provisions of this Part N and the DSC which determine which CDSP Services the CDSP actually provides.

1.3.3 If the Authority consents (under paragraph 7(b) of the CDSP Licence Condition) to the CDSP providing a service beyond what is provided in paragraph 1.3.1, and such service is provided to Core Customer(s) under the DSC, such service shall be treated as being a CDSP Service.

1.3.4 If a question arises as to whether a service being or proposed to be provided by the CDSP qualifies as a CDSP Service under paragraph 1.3.1(b):

- (a) the CDSP shall notify Core Customers of such question;
- (b) at the request of any Large Transporter the CDSP and the Large Transporters will consult the Authority on such question;
- (c) any Core Customer may send representations to the Large Transporters and the Authority in respect of such question;

and if (following such consultation) the Large Transporters are not satisfied that the service does so qualify, the CDSP in consultation with the Large Transporters shall take such steps as are necessary to cease or not to commence the provision of such service unless the Authority consents to such provision under paragraph 7(b) of the CDSP Licence Condition; and nothing done by the CDSP pursuant to this paragraph 1.3.4 shall be a breach of the DSC.

1.3.5 **"Code Services"** means the CDSP Services referred to in paragraphs 2.1.1(a) and 2.2.1(a) (being CDSP Services required under or in order to give effect to the Code or UNC).

1.3.6 CDSP Services are divided into:

- (a) services provided by the CDSP on its own account ("**Direct Services**");
- (b) services which comprise the performance by the CDSP of functions on behalf of one or more of the Pipeline Operators ("**Agency Services**").

1.3.7 For the avoidance of doubt, CDSP Services which consist in performing GRDA Functions (and which as provided in paragraph 1.3.1(a) are core services) are distinct from the services of the CSS Provider.

1.4 EPG Scheme

1.4.1 For the purposes of the Code, paragraph 1.9 of General Terms of Section D of the UNC shall apply with the following changes:

the reference to paragraph 1.3.1(c) of General Terms Section D of the UNC in paragraph 1.9.11 shall be interpreted as a reference to paragraph 1.3.1(c) in this Part N.

2 CDSP SERVICES AND ROLE OF CDSP

2.1 Direct Services

2.1.1 Direct Services comprise:

- (a) the performance of functions (other than Non-Service Functions) assigned to the CDSP in the Code ("**Direct Functions**");
- (b) the performance of GRDA Functions;
- (c) services provided under the DSC to Core Customers which are not prescribed by the Code (as the case may be), comprising:
 - (i) services provided on a uniform basis to all Core Customers or Core Customers of a Customer Class or Customer Classes;
 - (ii) services available on a uniform basis to all Core Customers or Core Customers of a Customer Class or Customer Classes, but provided only on the request of a Core Customer; and
 - (iii) services provided at the request of and as specified by an individual Core Customer ("**Additional Customer Services**"); and
- (d) services ("**Third Party Services**") provided (consistent with the policy provided for in paragraph 3.7) to persons who are not Core Customers, or to Core Customers on terms other than those of the DSC.

2.1.2 Direct Services within paragraph 2.1.1(a) comprise:

- (a) performance of the following Direct Functions under the Code:

- (i) the maintenance of the Supply Point Register and the performance of the functions of the CDSP (in connection with supply point administration) in Part C;
- (ii) the functions of the CDSP (in connection with demand estimation) in Part F;
- (iii) the functions of the CDSP (in connection with Supply Point metering, meter data and meter reading) in Part D and E;
- (iv) providing through a contract service line in the DSC Daily Meter Service Provider services and maintaining datalogged Daily Read Equipment including obtaining Meter Readings in respect of Class 1 Supply Meter Points in Part D;
- (v) the Direct Functions of the CDSP under other provisions of the Code which provide for such functions; and

2.1.3 The CDSP acts on its own account and not as agent of any Party in the provision of Direct Services, but without prejudice to paragraph 2.4.2 of Section B of the UNC General Terms.

2.2 Agency Services

2.2.1 Agency Services comprise:

- (a) the performance of certain functions of the Pipeline Operator under the Code, as the case may be (such functions to be performed by the CDSP being "**Agency Functions**";
- (b) the performance of certain functions of the Pipeline Operator pursuant to conditions of the Pipeline Operator Licence; and
- (c) the performance of certain functions of the Pipeline Operator in connection with other gas industry codes or agreements.

2.2.2 Agency Services within paragraph 2.2.1(a) comprise:

- (a) the performance of the Agency Functions of the CDSP in Sections B, C and K; and
- (b) the performance of the Agency Functions of the CDSP under other provisions of the Code which provide for such functions.

2.2.3 In relation to Agency Services which are Code Services, where the Agency Functions of the CDSP include sending or receiving Code Communications or making determinations on behalf of any Pipeline Operator:

- (a) the CDSP acts as agent of the relevant Pipeline Operator in the performance of those functions;
- (b) in accordance with paragraph (a):
 - (i) Code Communications are given between Pipeline Users and Pipeline Operators, and in sending or receiving such Code Communications the CDSP acts as agent of the Pipeline Operator or Pipeline Operators;
 - (ii) any such Code Communication given by the CDSP shall be deemed to have been given by and be binding on the Pipeline Operator, and Pipeline Users shall be entitled to rely on such Code Communication; and
 - (iii) where there is a requirement in the Code under any such provision that a Pipeline User give a Code Communication to a Pipeline Operator or the Pipeline Operators collectively, the Pipeline User shall be treated as having

complied with such requirement where the Pipeline User gives the Code Communication to the CDSP; and

(c) where the Agency Service requires the CDSP to act on behalf of the Pipeline Operators in the exercise of any discretion or rights conferred on the Pipeline Operators, the Pipeline Operators may provide guidance or instructions to the CDSP in respect thereof.

2.3 Direct Services which are Code Services – further provisions applying in relation to the Code

2.3.1 The Parties acknowledge and agree, in connection with Direct Services which are Code Services, that:

(a) the Code sets out or describes the functions of the CDSP as obligations of the CDSP (as if the CDSP were a party to the Code);

(b) the CDSP is not a Party, and is not bound by any Framework Agreement to comply with the Code; and

(c) accordingly the DSC operates to bind the CDSP to perform those functions assigned to it under the Code.

2.3.2 Where a provision of the Code referred to in paragraph 2.1.2, in relation to which the CDSP performs Direct Services, contains a rule, requirement or obligation binding on a Party and not expressed to be owed to any other Party or Parties in particular:

(a) such provision operates for the benefit of all Parties, notwithstanding that such provision may be expressed as a provision about a Code Communication to be given by or to, or a process to be followed by or with, the CDSP; and

(b) any Party which is or would be adversely affected by a breach of such provision may seek to enforce such provision (and Part K paragraph 26 does not apply to this paragraph).

2.3.3 The rights and obligations of the Parties under the Code shall not be affected by any failure or delay on the part of the CDSP in performing the Direct Services which are Code Services, so far as such rights and obligations are capable of being construed and determined notwithstanding such failure or delay, but without prejudice to any provision of the Code which expressly addresses any such failure or delay or the consequences thereof.

2.3.4 In the event of any conflict between the provisions of the Code and the provisions of the DSC:

(a) as between the Parties, the provisions of the Code shall prevail; and

(b) any Party may propose (in accordance with the applicable provisions of the DSC) an amendment to the DSC to remove such conflict.

2.3.5 In relation to Direct Services which are Code Services:

(a) the CDSP acts as the operator in its own name of the Supply Point Register; and

(b) Code Communications given or received by the CDSP under the provisions of the Code referred to in paragraph 2.1.2 are given or received by it in its own name (as such operator), and not as agent of any particular Party.

2.3.6 Where, in connection with Direct Services, a provision of the Code confers on the CDSP any discretion or choice, or requires or entitles the CDSP to make a

judgement or form an opinion, in connection with any action taken or communication given by a particular Party (the **relevant Party**):

- (a) the Contract Management Committee may prescribe principles or guidance to be followed by the CDSP in doing so;
- (b) the CDSP may request the Contract Management Committee to provide such principles or guidance (in general or in particular cases); and
- (c) subject to or in the absence of any such principles or guidance, the CDSP shall act with a view to meeting the following principles:
 - (i) to avoid undue discrimination between Parties or Parties of a particular Customer Class;
 - (ii) to avoid any significant cost or risk being imposed on any Party or Parties other than the relevant Party;
 - (iii) to avoid any significant cost or risk being incurred by the CDSP (including any risk to UK Link) which may affect other Parties;
 - (iv) to allow the relevant Party to enjoy the benefit of the relevant provision where no significant cost or risk will be imposed on any other Party or Parties, but subject to paragraph (v); and
 - (v) not to allow the relevant Party to avoid complying with the Code, as the case may be, on a persistent basis.

2.3.7 Except as expressly provided in the Code or the DSC, no provision of the Code is incorporated into the DSC and nothing in the Code shall operate to impose any obligation or confer any right on the CDSP.

2.4 Amendment of DSC by Code Modification

2.4.1 Parties acknowledge that the DSC may be amended where authorised by the relevant provisions under the UNC.

2.5 Data Permissions Matrix

2.5.1 For the purposes of the Code:

- (a) **"DAM"** is the 'Data Access Matrix' as defined in and established under the Retail Energy Code;
- (b) the **"Data Permissions Matrix"** or **"DPM"** is the document of that name which sets out:
 - (i) categories of data maintained by the CDSP in UK Link; and
 - (ii) for each such category, classes of person (not being Parties to the Code or parties to the IGT Code) to whom the CDSP is permitted to provide such data (**"permitted data recipients"**);
- (c) **"Gas Enquiry Service"** has the meaning given in the Retail Energy Code.

2.5.2 In this paragraph 2.5 references to data are to data maintained by the CDSP in the Supply Point Register pursuant to the provisions of the Code, the IGT Code, the Retail Energy Code or a Gas Transporter's Licence.

2.5.3 The Parties authorise the CDSP to provide data to permitted data recipients in accordance with the DPM, subject to the further provisions of this paragraph 2.6.

- 2.5.4 The UNC Code contains provisions equivalent to paragraph 2.5.3.
- 2.5.5 The DPM applies in respect of the provision of data by the CDSP to permitted data recipients, including pursuant to any Third Party Services.
- 2.5.6 The terms on which the CDSP provides data to permitted data recipients shall be:
- (a) in the case of data provided pursuant to the Retail Energy Code, the terms provided in or established pursuant to the Retail Energy Code;
 - (b) in the case of data provided pursuant to Third Party Services (including pursuant to the Gas Enquiry Service where provided by the CDSP), terms which comply with the Third Party and Additional Services Policy.
- 2.5.7 The CDSP shall not agree pursuant to Third Party Services to provide data to any person (other than a Core Customer) except:
- (a) to the extent permitted in the DPM;
 - (b) to the extent required for the purposes of the CDSP complying with any contract between the CDSP and RECCo relating to provision of 'CDSP Further Services' (as defined in REC);
 - (c) for the purposes of the Gas Enquiry Service (where provided by the CDSP) to the extent permitted in the DAM).
- 2.5.8 The DPM may (and may only) be modified by a decision of the Contract Management Committee.

3 UK LINK

3.1 Introduction

- 3.1.1 This paragraph 3 sets out:
- (a) requirements of the Code in respect of UK Link and the UK Link Manual; and
 - (b) the basis on which Code Communications are to be given as UK Link Communications.
- 3.1.2 For the purposes of the Code:
- (a) **"UK Link"** shall have the meaning ascribed thereto in the UNC;
 - (b) **"UK Link User"** shall have the meaning ascribed thereto in the UNC; and
 - (c) **"UK Link Communication"** shall have the meaning ascribed thereto in the UNC.

3.2 UK Link Manual

- 3.2.1 Not Used.
- 3.2.2 It shall be an obligation of a UK Link User under the Code to comply with a provision of the UK Link Manual where such provision is expressly identified in the UK Link Manual as one which is made binding on such UK Link User by this

paragraph 3.2.2, and not otherwise; but it is acknowledged that as respects all provisions of the UK Link Manual (whether or not made binding by this paragraph 3.2.2) a UK Link User may be unable to make a UK Link Communication (and so may be unable to exercise an entitlement to make a Code Communication required to be made as such) where the UK Link User does not comply with such provisions.

- 3.2.3 The UK Link Manual does not form a part of the Code (without prejudice to paragraph 3.2.2); and, in case of any conflict between the Code and the UK Link Manual, the Code shall prevail.

3.3 Code Communications

- 3.3.1 A UK Link Communication given in accordance with this paragraph 3.3 and the UK Link Manual shall be treated as an effective and valid Code Communication, and each Party confirms that it intends and agrees that UK Link Communications shall have legal effect for the purposes of the Code.
- 3.3.2 The UK Link Manual specifies in respect of each Code Communication therein listed whether it is to be given as a UK Link Communication, by Active Notification System, by Conventional Notice, by email or by telephone, and in some cases alternative such means by which it may be given; and a Code Communication may only be given by the means so specified or (where alternative such means are specified) by one of such alternative means.
- 3.3.3 Where the Code or the UK Link Manual specifies the form and/or format of UK Link Communication by which a particular Code Communication is required to be given, that Code Communication may be given only in that form and/or that format.
- 3.3.4 In the event of a Code Contingency, Code Communications shall be (and are permitted to be) given on the basis set out in paragraph 3.9.
- 3.3.5 Where a Code Communication which is required to be given as a UK Link Communication (and is not permitted to be given by another means except pursuant to paragraph 3.3.4) is not given in accordance with the requirements of this paragraph 3.3 and the UK Link Manual, and as a result is not properly received by the intended recipient, it shall be deemed not to have been given and shall be of no effect.
- 3.3.6 The failure of a UK Link User to comply with a requirement that a Code Communication be given as a UK Link Communication, or as to the form or format in which such UK Link Communication is to be given, shall not of itself be a breach of the Code (but without prejudice to paragraph 3.3.5 or to any breach which may result from the failure to give the Code Communication).

3.4 Planned UK Link downtime

- 3.4.1 For the purposes of this Clause 3.4.1 the provisions of paragraph 5.4 of Section D of the UNC General Terms shall apply with the following changes:

the reference to paragraph 5.9 of Section D of the UNC General Terms in paragraph 5.4.3 shall be interpreted as a reference to Clause 3.9 of Part N of the IGT UNC.

3.5 Access to and use of UK Link

3.5.1 For the purposes of this Clause 3.5.1 the provisions of paragraph 5.5 of Section D of the UNC General Terms shall apply.

3.6 UK Link Communications

3.6.1 For the purposes of this Clause 3.6.1 the provisions of paragraph 5.6 of Section D of the UNC General Terms shall apply.

3.8 Audit Trail

3.8.1 For the purposes of this Clause 3.8.1 the provisions of paragraph 5.8 of Section D of the UNC General Terms shall apply.

3.9 Contingency Arrangements

3.9.1 For the purposes of this Clause 3.9.1 the provisions of paragraph 5.9 of Section D of the UNC General Terms shall apply.

PART O – DEROGATION RULES

1 GENERAL

1.1 Introduction

1.1.1 This Section O sets out:

- (a) provisions relating to application and implementation of IGT UNC derogations;
- (b) provisions relating to IGT UNC derogation appeals;
- (c) provisions relating to IGT UNC derogation impacts;
- (d) provisions relating to UNC derogation impacts;
- (e) provisions relating to derogation reporting and cessation; and
- (f) derogation use cases.

1.2 Interpretation

1.2.1 For the purposes of the Code:

- (a) **"Derogation Eligibility Criteria"** means the eligibility criteria set out in the IGT UNC Innovation Derogations Guidance;
- (b) **"Derogation Guidance Document"** is an IGT UNC Ancillary Document prepared and maintained under the Modification Procedures containing guidance in relation to IGT UNC Derogation Applications and called IGT UNC Innovation Derogations Guidance;
- (c) **"Derogation Party"** means in respect of an IGT UNC Derogation, each applicant Party, and where the scope of the proposed IGT UNC Derogation relates to the offtaking of gas at specific Supply Points, any Party undertaking such activity at any such points as described in the IGT UNC Derogation;
- (d) **"Excluded Code Provision"** means:
 - (i) Part L - Modification Rules;
 - (ii) Part K – General;
 - (iii) any provision of the Code which is, at the date the application is submitted, within the scope of a Significant Code Review or the subject of a Significant Code Review Modification Proposal;
 - (iv) any provision of the Code which facilitates a consumer changing supplier or shipper and which (in the opinion of the IGT UNC Modification Panel) may be adversely impacted by a proposed IGT UNC Derogation; and
 - (v) the terms of an IGT UNC Ancillary Document.
- (e) **"Industry Code"** means a multilateral code or agreement created and maintained pursuant to a licence granted by the Authority under sections 7, 7ZA or 7A of the Gas Act 1986 or section 6 of the Electricity Act 1989, including the Uniform Network Code, the Retail Energy Code and the Smart Energy Code;

- (f) **"Derogation Use Case"** means a use for which a derogation might be applied and is listed in Part O paragraph 2.5 of the IGT UNC.
- (g) the **"Performance Assurance Committee"** or **"PAC"** is the UNC sub-committee established and described in TPD Sections V16.2 and V16.3 of the UNC;
- (h) **"Relevant Day"** means in relation to a Derogation Period, a Day in such period when a conditional derogation (if any) is also in force;
- (i) **"Relevant Person"** means all Parties, all Third Party Participants, such Non-Code Parties as the Code Administrator considers appropriate in the context of a IGT UNC Derogation Application and the CDSP;

2 DEROGATIONS

2.1 Introduction

- 2.1.1 A Party may make a written application for an IGT UNC Derogation to the Code Administrator ("Derogation Application").
- 2.1.2 A Derogation Application shall be in the form specified in the IGT UNC Innovation Derogations Guidance and shall include (inter alia) the following details:
 - (a) the identity of the Party making the application ("**applicant Party**");
 - (b) the applicable Derogation Use Case;
 - (c) each and all individual provisions of the Code from which an IGT UNC Derogation is required;
 - (d) the period in respect of which the applicant Party proposes the IGT UNC Derogation should be in force, being either;
 - (i) a period commencing on a specific date and ending on a later specified date (a "**fixed date period**"); or
 - (ii) a specified number of consecutive days (not commencing or ending on a specified date) (an "**unspecified period**");
 - (e) the date after which the IGT UNC Derogation (if implemented) is no longer to apply ("**backstop date**");
 - (f) whether the implementation of the proposed IGT UNC Derogation is conditional on the approval and coming into force of another Derogation in respect of any other Legal Requirement ("**conditional**" Derogation);
 - (g) the basis of which applicant Party demonstrates compliance with the health and safety requirements described in the Derogation guidance Document; and
 - (h) such other matters as required by the Derogation Guidance Document.
- 2.1.3 Following receipt of a Derogation Application the Code Administrator shall:
 - (a) send a copy of the application to each Relevant Person, each Member, each Non-voting Member and the Authority;

- (b) provide Critical Friend guidance in relation to the applicable Derogation Use Case and satisfaction of the Derogation Eligibility Criteria; and
 - (c) schedule consideration of the IGT UNC Derogation Application at a meeting of the IGT UNC Modification Panel occurring not less than eight (8) Business Days after a copy of the application has been sent in accordance with 2.1.3 (a). A representative from the applicant Party must be present when the IGT UNC Modification Panel consider the IGT UNC Derogation Application.
- 2.1.4 At least seven (7) days before the IGT UNC Modification Panel meeting referred to in paragraph 2.1.3 (c) the Code Administrator shall give notice to all Relevant Persons, each Panel Member and the Authority of the date on which the Modification Panel will first consider the IGT UNC Derogation Application.
- 2.1.5 At the meeting referred to in paragraph 2.1.3(c) the IGT UNC Modification Panel will either:
 - (a) reject the IGT UNC Derogation Application in accordance with paragraph 2.1.6; or
 - (b) make a determination in respect the IGT UNC Derogation Application in accordance with paragraph 2.1.7;

provided the IGT UNC Modification Panel shall not be required to independently verify any statement or representation made by the applicant Party regarding health and safety matters contained in the IGT UNC Derogation Application.
- 2.1.6 The IGT UNC Modification Panel will reject the IGT UNC Derogation Application if:
 - (a) any of the requirements of paragraph 2.1.2 are not complied with;
 - (b) the application proposes the IGT UNC Derogation apply in respect of and Excluded Provision; and/or
 - (c) IGT UNC Derogation Application is not materially different from an earlier application which the should not to implemented.
- 2.1.7 In respect of a IGT UNC Derogation Application which is not rejected in accordance with paragraph 2.1.6 the IGT UNC Modification Panel will make a determination under paragraph 2.1.8 having:
 - (a) discussed the IGT UNC Derogation Application and considered whether or not the application complies with a IGT UNC Derogation Use Case;
 - (b) considered all the information submitted by the applicant Party in support of the IGT UNC Derogation Application; and
 - (c) considered the representations of the applicant Party's representative and the responses to any questions raised by the IGT UNC Modification Panel relating to the IGT UNC Derogation Proposal.
- 2.1.8 The IGT UNC Modification Panel may determine (by Panel Majority):
 - (a) the IGT UNC Derogation Application does not comply with a IGT UNC Derogation Use Case, in which case the IGT UNC Derogation Application shall lapse and have no further effect;

- (b) additional steps need to be undertaken, or additional analysis or information is required, before the IGT UNC Derogation Application can proceed to consultation, in which case the applicant Party;
- (c) shall be invited to revise and re-submit the IGT UNC Derogation Application. Once it is so further developed, it shall be placed on the Agenda of the next following meeting of the IGT UNC Modification Panel or at a meeting of the IGT UNC Modification Panel occurring not less than eight (8) Business Days after a copy of the revised application has been sent in;
- (d) the IGT UNC Derogation Application should proceed to consultation, in which case the Code Administrator shall invite each Relevant Person to make representations in respect of the IGT UNC Derogation Application to the Code Administrator within fifteen (15) Business Days (or such other period as the IGT UNC Modification Panel may determine) of the Code Administrator's invitation. The IGT UNC Modification Panel may also determine additional consultation questions to be added to the standard consultation; or
- (e) consideration of the IGT UNC Derogation Application should be deferred to a subsequent meeting of the IGT UNC Modification Panel.

2.1.9 Where the IGT UNC Modification Panel has determined the IGT UNC Derogation Application should proceed to consultation:

- (a) the Code Administrator shall schedule consideration of the IGT UNC Derogation Application and all representations received following consultation at the next relevant meeting of the IGT UNC Modification Panel following the end of the period referred to in paragraph 2.1.8(c) (or as the IGT UNC Modification Panel may otherwise agree);
- (b) at the meeting referred to in paragraph (a) the IGT UNC Modification Panel shall first consider and assessed the requested non-compliance with the IGT UNC against:
 - (i) the impact on gas consumers including costs and risks to supply;
 - (ii) the impact on competition identifying advantages and disadvantages; and
 - (iii) the effect on other Parties including but not limited to:
 - 1) the CDSP
 - 2) Large Transporters
 - 3) Pipeline Operators
 - 4) Pipeline Users
- (c) at the meeting referred to in paragraph (a) and having considered the and assessed the IGT UNC Derogation Application in line with paragraph 2.1.9(b) the IGT UNC Modification Panel shall determine:
 - (i) by a majority vote to recommend to the Authority that the IGT UNC Derogation Application should be implemented, in which case paragraph 2.2 will apply
 - (ii) by a majority vote to recommend to the Authority that the IGT UNC Derogation Application be rejected and the IGT UNC Derogation Application lapse and have no further effect

- (iii) a final recommendation in respect of the IGT UNC Derogation Application should be made at a further meeting of the IGT UNC Modification Panel
- (iv) where an issue highlighted in the consultation responses is determined by the IGT UNC Modification Panel to be material by majority vote, the IGT UNC Modification Panel by majority vote may
 - 1) request additional information in which case the Code Administrator shall schedule consideration of the IGT UNC Derogation Application at a meeting of the IGT UNC Modification Panel occurring not less than eight (8) Business Days after the additional information is received and paragraph 2.1.8 shall apply; and/or
 - 2) determine that the IGT UNC Derogation Application be sent out for further consultation in which case paragraph 2.1.7(c) and 2.1.8 shall apply.

2.1.10 Following the IGT UNC Modification Panel's recommendation to the Authority under paragraphs 2.1.8 and 2.1.9 in relation to an IGT UNC Derogation Application, the Code Administrator shall promptly publish on the IGT UNC website and notify the applicant Party, all Relevant Person and the Authority of:

- (a) the IGT UNC Modification Panel's recommendation to the Authority to approve or not approve the UNC Derogation Application;
- (b) where the IGT UNC Modification Panel recommends implementation of the IGT UNC Derogation Application to the Authority:
 - (i) the scope and nature of the IGT UNC Derogation, the Derogation Period, the Derogation Parties and the provisions of the Code which each Derogation Party shall not be required to comply with for the Derogation Period;
 - (ii) the details of the IGT UNC Modification Panel's recommendation on the matters referred to in paragraph 2.1.9;
- (c) where the IGT UNC Modification Panel does not recommend approval of the IGT UNC Derogation Application the reasons for its recommendation.

2.1.11 Where the Authority receives an IGT UNC Derogation Application and the IGT UNC Modification Panel's recommendation pursuant to paragraph 2.1.9 or this paragraph 2.1.11, the Authority:

- (a) may direct whether or not the proposed IGT UNC Derogation should be implemented (and whether a different backstop date should apply to that proposed by the applicant Party ("Authority backstop date") and the Code Administrator shall circulate to each Relevant Person and each Member notice of:
 - (i) the Authority's direction;
 - (ii) where directed, any Authority backstop; and
 - (iii) details of any conditional derogation for which approval is a condition of an IGT UNC Derogation coming into force.

(b) may direct the IGT UNC Derogation Application should be amended and re-submitted, and where it makes such a direction it shall give notice of its decision to the Code Administrator and:

- (i) the Code Administrator shall notify the applicant Party, each Relevant Person and each Member of the Authority's direction;
- (ii) the IGT UNC Modification Panel will discuss the IGT UNC Derogation at the next meeting of the IGT UNC Modification Panel and re-submit the IGT UNC Derogation Application in accordance with the Authority's direction; and
- (iii) the Code Administrator shall send the revised IGT UNC Derogation Application to the Authority as soon as practicable.

2.1.12 An applicant Party may withdraw an IGT UNC Derogation Application by notice to the Code Administrator at any time prior to the IGT UNC Derogation coming into force, in which case the IGT UNC Derogation Application (or if already approved but not yet in force, the IGT UNC Derogation) shall lapse and have no further effect.

2.1.13 A Party may submit an IGT UNC Derogation Application notwithstanding any other IGT UNC Derogation submitted by such Party remains under consideration by the IGT UNC Modification Panel or the Authority.

2.1.14 Where a Party submits an IGT UNC Derogation Application ("second application") which is intended to replace an earlier application ("first application") submitted by the same Party:

- (a) where the IGT UNC Modification Panel has yet to make a recommendation to the Authority under paragraph 2.1.8 in respect of the first application, the first application shall lapse and have no further effect; or
- (b) where the IGT UNC Modification Panel has made a decision with regard to the first application, the first application and the second application shall each be considered by the IGT UNC Modification Panel and the Authority in accordance with the provisions of his paragraph 2.

2.1.15 An applicant Party shall ensure a representative attends each meeting of the IGT UNC Modification Panel at which the applicant Party's IGT UNC Derogation Application is considered and matters will be deferred to the next scheduled meeting of the IGT UNC Modification Panel if they are not present.

2.1.16 Notwithstanding any provision of this paragraph 1, the IGT UNC Modification Panel may determine, in its absolute discretion, the priority and timetable for any steps proposed to be undertaken by the IGT UNC Modification Panel in relation to an IGT UNC Derogation Application.

2.2 Impact of IGT UNC Derogation

2.2.1 Any IGT UNC Derogation Application that has been approved by the Authority shall be an IGT UNC Derogation and such IGT UNC Derogation shall, subject to any conditional derogation coming into force, remain in force for each Relevant Day during the period relating to such IGT UNC Derogation ("**Derogation Period**").

2.2.2 In relation to an IGT UNC Derogation the Derogation Period shall be:

- (a) where the applicant Party specified a fixed date period in the IGT UNC Derogation application:

- (i) and the Authority did not direct an Authority backstop date, the fixed date period;
 - (ii) and the Authority directed an Authority backstop date, (provided the fixed date period started before the Authority backstop date) the period:
 - A. from the start of the fixed date period;
 - B. ending on the earlier of the end of the fixed date period and the Authority backstop date;
- (b) where the applicant Party specified an unspecified period in the IGT UNC Derogation Application, the period (provided such period commences before any Authority backstop date):
 - (i) commencing on the date, no earlier than sixteen (16) Business Days after the date by which:
 - A. the applicant Party notifies the Code Administrator the IGT UNC Derogation shall come into force; and
 - B. the applicant Party or another Party notifies the Code Administrator a conditional derogation shall come into force;
 - (i) ending on;
 - A. the earlier of the end of the unspecified period and the applicant backstop date;
 - B. where any Authority backstop date is earlier than the applicant backstop date, the earlier of the end of the unspecified period and the Authority backstop date; or
 - C. where any Authority backstop date is later than the applicant backstop date, the later of the end of the unspecified period and the Authority backstop date, and the Code Administrator shall notify each Relevant Person, each Member and the Authority of the Derogation Period in relation to a IGT UNC Derogation.

2.2.3 Subject to paragraph 2.2.3, for the duration of the Derogation Period:

- (a) each Derogation Party shall be relieved of their obligation to comply with the Code to the extent permitted by the IGT UNC Derogation; and
- (b) no act or omission by a Derogation Party that would be a breach (or in the case of a User, a User Default) shall be deemed to be a breach (or User Default) of the Code to the extent only that such act or omission is permitted by an IGT UNC Derogation.

2.2.4 In respect of an IGT UNC Derogation:

- (a) a Derogation Party shall be required to comply with all provisions of the Code that are relevant to such Party and which are outside the scope of such IGT UNC Derogation;
- (b) a Derogation Party shall be required to comply with any conditions included in such IGT UNC Derogation;
- (c) such IGT UNC Derogation shall have no effect to the extent that it purports to derogate from:

- (i) any conditions of a Pipeline Operator's Gas Transporters' Licence or a Pipeline User's Shipper Licence;
- (ii) any other Industry Code (but without prejudice to any other regulatory derogation arrangements);
- (iii) any Legal Requirement; or
- (iv) any provision of this paragraph 2,

and each Derogation Party acknowledges and agrees that it shall be responsible for its compliance with any such Code provision, Licence Condition or Legal Requirement.

2.2.5 With effect from 05:00 on the day following the Derogation Period End Date, such IGT UNC Derogation shall no longer be in force and each Derogation Party shall comply with the Code in full from such time and such date.

2.2.6 The approval of an IGT UNC Derogation in respect of any Derogation Party shall not relieve any other Party (not being a Derogation Party) of all or any of its obligations under the Code.

2.2.7 Once approved by the Authority no variation to an IGT UNC Derogation shall be permitted.

2.3 Impact of UNC Derogation

2.3.1 Where:

- (a) a derogation is implemented according to General Terms Section B paragraph 7 of the UNC;
- (b) that derogation is applicable to provisions under the UNC which are also relevant provisions under the IGT UNC; and
- (c) the project for which the UNC Derogation is required will be impacting one or more Pipeline Operator's networks;

the derogation under the UNC will also be applicable in the IGT UNC where it relates to an IGT UNC Derogation Use Case in accordance with paragraph 2.5.

2.4 IGT UNC Derogation Reporting and Cessation

2.4.1 A Derogation Party shall provide the IGT UNC Modification Panel with such reports as the IGT UNC Modification Panel may require. The IGT UNC Panel may provide this report to the Performance Assurance Committee.

2.4.2 On expiry of the Derogation Period or on achievement of the objective requiring the Derogation, a Derogation Party shall provide the IGT UNC Modification Panel with a report setting out the actions it will take to resume continued compliance with the enduring Code requirements.

2.4.3 The Authority may determine following a request made by the IGT UNC Modification Panel that an IGT UNC Derogation cease to apply, as a result of being made aware that:

- (a) a Derogation Party is in breach of the IGT UNC Derogation.
- (b) there is no progress being made towards the achievement of the objective requiring the Derogation.

- 2.4.4 Where the Authority makes a determination in accordance with paragraph 2.4.3 the IGT UNC Derogation shall cease to apply from the date specified by the Authority.

2.5 IGT UNC Derogation Use Cases

An IGT UNC Derogation Application may only be made for or in relation to one or more of the Derogation Use Cases listed in this paragraph 2.5.

2.5.1 Derogation Use Case A

The IGT UNC Derogation Application relates to a project which is consistent with:

- (a) a change in national government policy (including policy of the national devolved parliaments);
- (b) a change in local government policy;
- (c) the trialling of new technologies or the making of technological advances;
- (d) facilitating the update of low carbon technologies;
- (e) any requirement contained in a local area energy plan or equivalent arrangement;

The purpose of which is to facilitate net zero and the achievement of a 100% reduction of greenhouse gas emissions (compared to 1990 levels) in the United Kingdom by 2050.

PART P – PERFORMANCE ASSURANCE

1 GENERAL

1.1 Introduction

1.1.1 This Section P sets out:

- (a) provisions relating to the Performance Assurance Objective;
- (b) provisions relating to the PAC;
- (c) requirements contained in the Performance Assurance Framework Document; and
- (d) provisions in relation to Appeals.

1.2 Interpretation

1.2.1 For the purposes of the Code:

- (a) A **"Performance Assurance Party"** is as defined in TPD Section V16.1.1(a) of the UNC and shall also include Pipeline Operators and Pipeline Users;
- (b) the **"Performance Assurance Objective"** is as defined in TPD Section V16.1.1(b) of the UNC;
- (c) the **"Performance Assurance Framework"** or **"PAF"** is as defined in TPD Section V16.1.1(b) of the UNC;
- (d) the **"Performance Assurance Committee"** or **"PAC"** is the UNC sub-committee established and described in TPD Sections V16.2 and V16.3 of the UNC;
- (e) the **"Performance Assurance Framework Document"** or **"PAF Document"** is the document established, maintained and published by the PAC and specified in TPD Sections V16.7.1, V16.7.2 and V16.7.3 of the UNC;
- (f) the **"Performance Assurance Framework Administrator"** or **"PAFA"** is the person appointed and whose role and terms of engagement are specified under TPD Sections V16.9 and V16.10 of the UNC.

2 Performance Objective

2.1 For the purposes of this clause 2.1 and in respect of the Performance Assurance Objective the provisions of TPD Section V16.1.2 to 16.1.5 of the UNC shall apply.

3 Performance Assurance Committee

3.1 For the purposes of this clause 3.1 and in respect of the functions, voting arrangements and proceedings of the Performance Assurance Committee TPD Section V16.4, V16.5 and V16.6 of the UNC shall apply.

4 Performance Assurance Framework

4.1 For the purposes of this clause 4.1 and in respect of the Performance Assurance Framework Document the provisions of TPD Section V16.7.4 and V16.7.5 of the UNC shall apply.

5 Appeals

5.1 For the purposes of this clause 5.1 the provisions of TPD Section V16.8 of the UNC shall apply.

6 Appointment of PA Representative

- 6.1 For the purposes of this clause 6.1 the provisions of TPD Section V16.11 of the UNC shall apply.

7 Disclosures for the Purpose for Performance Assurance

- 7.1 -For the purposes of this clause 7.1 the provisions of TPD Section V16.14 of the UNC shall apply.

8 Decisions of the PAC

- 8.1 For the purposes of this clause 8.1 the PAC can make decisions on Performance Assurance Parties pursuant to TPD Section V16 of the UNC and Performance Assurance Parties shall comply.
- 8.2 No decision of the Performance Assurance Committee may be made or (if made) shall be effective if the decision would cause any Party or the CDSP to be in breach of the IGT UNC.
- 8.3 For the purposes of this clause 8.3 protections for PAC and Parties shall apply pursuant to TPD Section V16.12 of the UNC.

9 Performance Assurance Reports

- 9.1 For the purposes of this clause 9.1 protections for PAC and Parties shall apply pursuant to TPD Section V16.13 of the UNC.

PART Q – PIPELINE ENTRY POINT REQUIREMENTS

1 General

1.1 Introduction

- 1.1.1 The provisions of this Part Q shall apply in respect of the delivery of gas to the Pipeline at Pipeline Entry Points.
- 1.1.2 Pipeline Users delivering gas to the Pipeline at a Pipeline Entry Point shall comply with the relevant requirements of this Part Q.
- 1.1.3 Nothing in the Code confers on any person any entitlement to have any pipeline, plant or other installation connected to the Pipeline for the purposes of delivering gas to the Pipeline.
- 1.1.4 The provisions of this Part Q shall not apply in respect of gas flows at Connection Points or to any Upstream System or Pipeline as defined in Part M.

1.2 Pipeline Delivery Facility

- 1.2.1 For the purposes of this Part Q a **"Pipeline Delivery Facility"** is a single facility or system (comprising pipeline(s), plant and/or other installations), operated by one person (or jointly operated by several persons), and connected to the Pipeline at a Pipeline Entry Point.
 - 1.2.2 Without prejudice to paragraph 1.1.3, a Pipeline Delivery Facility may be:
 - (a) a facility for processing gas produced (and transported to such facility) from offshore or onshore oil or gas fields;
 - (b) a facility for the storage of gas;
 - (c) subject to paragraph 1.1.4, the pipeline system that is not a Pipeline as defined in Part M operated by another gas transporter;
 - (d) a pipeline interconnector by which gas is transported from another country;
 - (e) any other pipeline or pipeline system that is not a Pipeline as defined in Part M;
 - (f) a facility for the commingling of gas, at which gas is offtaken from the Pipeline and commingled with other gas prior to the commingled gas being delivered to the Pipeline; or
 - (g) NOT USED
 - (h) a facility for processing gas produced (and transported to such facility) from biomethane and/or bio-synthetic natural gas from renewable gas sources.
 - 1.2.3 A **"Pipeline Delivery Facility Operator"** is the operator of a Pipeline Delivery Facility.
 - 1.2.4 A Pipeline Delivery Facility may also be a Downstream System.
- #### **1.3 Pipeline Entry Agreement**
- 1.3.1 A Pipeline User may not deliver gas to the Pipeline at any Pipeline Entry Point unless there is in force an Agreement (**"Pipeline Entry Agreement"**) to which the parties include both the Pipeline Operator and the Pipeline Delivery Facility

Operator, containing Pipeline Entry Provisions and (if not incorporated into the Pipeline Entry Provisions) Local Operating Procedures applicable in respect of the Pipeline Entry Point.

1.3.2 For the purposes of the Code "**Pipeline Entry Provisions**" are terms and conditions or other provisions which specify requirements (for the purposes of the Code) in respect of the delivery of gas to the Pipeline.

1.3.3 NOT USED

1.3.4 A Pipeline Entry Agreement may contain provisions other than Pipeline Entry Provisions.

1.3.5 The existence of a Pipeline Entry Agreement shall not relieve Pipeline Users of any obligation under the Code, and the Transporter shall not be required (for itself or for the benefit of the Pipeline Operator or any Pipeline User) to secure in a Pipeline Entry Agreement any remedy against the Pipeline Delivery Facility Operator nor to take steps to enforce any provision of a Pipeline Entry Agreement.

1.3.6 There may be other persons (in addition to the Pipeline Operator and the Pipeline Delivery Facility Operator) party to a Pipeline Entry Agreement; but a Pipeline User shall not (in its capacity as Pipeline User) be required or entitled to be a party to a Pipeline Entry Agreement.

1.3.7 NOT USED

1.4 Pipeline Entry Point

1.4.1 A Pipeline Entry Point is the Pipeline Entry Point at which a Pipeline Delivery Facility is connected to the Pipeline.

1.4.2 NOT USED

1.4.3 The Pipeline Entry Point will be specified in the applicable Pipeline Entry Provisions.

1.4.4 NOT USED

1.5 Aggregate System Entry Point

NOT USED

1.6 No Network Entry Agreement

NOT USED

1.7 DNO Users

NOT USED

1.8 Trader User

NOT USED

2 Pipeline Entry Provisions

2.1 Availability of Pipeline Entry Provisions

2.1.1 Subject to paragraph 2.1.3, the Pipeline Operator will procure that the Pipeline Delivery Facility Operator will make available to any Pipeline User wishing to deliver gas at a Pipeline Entry Point on request a copy of the Pipeline Entry Provisions and Local Operating Procedures applicable to any Pipeline Entry Point, but shall not be required to provide to any Pipeline User any other details

of a Pipeline Entry Agreement.

- 2.1.2 A Pipeline User who delivers gas to the Pipeline at a Pipeline Entry Point, shall be responsible for obtaining and shall be deemed to have obtained and to be fully informed of the applicable Pipeline Entry Provisions and Local Operating Procedures.
- 2.1.3 Paragraph 2.1.1 shall not apply in respect of any particular provision of the Pipeline Entry Provisions applicable pursuant to paragraph 2.3.3 or Local Operating Procedures where the disclosure of such provision would be materially prejudicial to the commercial interests of the Pipeline Delivery Facility Operator or where the provision contains personal or confidential information relating to individuals or refers to any other agreement to which the Pipeline Delivery Facility Operator is party.

2.2 Amendment of Pipeline Entry Provisions

- 2.2.1 Subject to paragraphs 2.2.3 and 2.3.3(a), the Pipeline Entry Provisions applicable pursuant to paragraph 2.3.1 in respect of any Pipeline Entry Point will not be modified other than by agreement between the Pipeline Operator, the Large Transporter and the relevant Pipeline Delivery Facility Operator.
- 2.2.2 The Pipeline Operator will not agree (for the purposes of paragraph 2.2.1) to a modification of the Pipeline Entry Provisions applicable pursuant to paragraph 2.3.1 except:
 - (a) NOT USED
 - (i) NOT USED
 - (ii) in accordance with paragraph 2.2.3;
 - (b) NOT USED
- 2.2.3 Where
 - (a) the Pipeline Operator, the Large Transporter, and the relevant Pipeline Facility Operator have agreed (subject to a Code Modification) upon an amendment to any such Pipeline Entry Provisions, such Pipeline Entry Provisions may be amended for the purposes of the Code by way of Code Modification pursuant to the Modification Rules;
 - (b) NOT USEDand for which purposes only the Pipeline Entry Provisions shall be deemed to form part of Code.
- 2.2.4 Such Pipeline Entry Provisions may (in accordance with the provisions of the relevant Pipeline Entry Agreement) be amended without the consent of any Pipeline User insofar as may be required to enable:
 - (a) the Pipeline Operator;
 - (b) the Large Transporter; and/or
 - (c) the relevant Pipeline Delivery Facility Operator to comply with any Legal Requirement.
- 2.2.5 Nothing in paragraph 2.2.1, 2.2.2, 2.2.3 or 2.2.4 applies to any Pipeline Entry Provisions other than those applying pursuant to paragraph 2.3.1 nor to Local Operating Procedures or any other provision of a Pipeline Entry Agreement; and such Pipeline Entry Provisions or other provisions may be amended without the

consent of any Pipeline User.

2.2.6 The Pipeline Operator will notify to all Pipeline Users:

- (a) any modification to the Pipeline Entry Provisions (other than any such provisions to which paragraph 2.1.3 applies) applicable to any Pipeline Entry Point, not later than the date upon which such modification becomes effective; and
- (b) except to the extent prevented from doing so by any duty of confidence, any requirement for modification of Pipeline Entry Provisions under paragraph 2.2.4(a) as soon as reasonably practicable after the Pipeline Operator becomes aware of such requirement.

2.2.7 NOT USED

2.3 Pipeline Entry Provisions

2.3.1 Pipeline Entry Provisions will:

- (a) identify the Pipeline Delivery Facility (by name, location or otherwise);
- (b) specify the relevant Pipeline Entry Point; and
- (c) specify for such Pipeline Entry Point:
 - (i) Gas Entry Conditions in accordance with paragraph 2.4;
 - (ii) Measurement Provisions in accordance with paragraph 2.5; and
 - (iii) the point of delivery in accordance with paragraph 3.6.1.

2.3.2 Pipeline Entry Provisions may specify (unless separately specified) Local Operating Procedures in accordance with paragraph 2.6.

2.3.3 Pipeline Entry Provisions may include:

- (a) procedures by and standards to which the Pipeline Delivery Facility is to be maintained, repaired and operated, but only insofar as material to the ability of the Pipeline Operator and/or Large Transporter safely, efficiently and economically to operate the relevant Pipeline and/or System or to comply with any Legal Requirement;
- (b) terms entitling the Pipeline Operator, the Large Transporter and the Pipeline Delivery Facility Operator to have access to each other's facilities for the purposes of verification of compliance with the requirements of the Pipeline Entry Provisions, or requiring them to procure and facilitate audit of such compliance;
- (c) terms according to which, and circumstances in which, it is permitted to deviate or depart from any other Pipeline Entry Provision;
- (d) any other terms or conditions which may be appropriate for the purposes of the Code in respect of the delivery of gas to the Pipeline and Total System or (in relation to such delivery) the Pipeline Delivery Facility; and
- (e) procedures applicable to gas flows applicable in the event of any emergency circumstances affecting the Pipeline Operator, the Large Transporter, or the Pipeline Delivery Facility Operator (including any Emergency in accordance with Part I).

2.3.4 Where and for so long as:

- (a) any requirement (other than a requirement which is to be performed by

the Pipeline Operator and/or Large Transporter, and save as regards Gas Entry Conditions where paragraph 3.3 shall apply) of the Pipeline Entry Provisions is not for the time being complied with or is incapable of being complied with (other than as a result of a failure by the Pipeline Operator and/or the Large Transporter to perform any requirement under the Pipeline Entry Agreement); and

(b) either:

- (i) such non-compliance or inability to comply materially and adversely affects the ability of the Pipeline Operator and/or the Large Transporter to operate the relevant System or to comply with any Legal Requirement or any provision (other than a provision the failure to comply with which has no significant consequences for the Pipeline Operator, the Large Transporter or any Pipeline User) of the Code; or
- (ii) upon the Pipeline Operator and/or the Large Transporter's application, on the basis that in its opinion non-compliance or inability to comply adversely affects the interests pursuant to the Code of Pipeline Users,

the Pipeline Operator and/or the Large Transporter shall be entitled to refuse (until such time as the Pipeline Operator and/or the Large Transporter is reasonably satisfied that such non-compliance has been remedied) to accept delivery by Pipeline Users to the Pipeline of gas at the relevant System Entry Point, in which case the Pipeline Operator will notify all affected Pipeline Users of such refusal and (subject to any duties of confidence) the relevant circumstances (under paragraph (a)).

2.3.5 Any requirement of the Pipeline Entry Provisions may be specified by reference to any published standard of a recognised body or other Recognised Standard, or standards or requirements from time to time published by the Pipeline Operator and/or the Large Transporter, and/or may be specified in terms of an objective or requirement to be achieved without specifying the manner by means of which such objective or requirement is to be achieved.

2.3.6 Nothing contained in a Pipeline Entry Agreement shall be taken to constrain the basis upon which the Transportation Statement may provide for the determination of any Transportation Charges.

2.3.7 Pipeline Entry Provisions may differ as between different Pipeline Entry Points.

2.3.8 Where:

- (a) NOT USED
- (b) at the relevant Pipeline Entry Point only gas which has first been offtaken from the relevant Pipeline can be delivered to the relevant Pipeline

certain Pipeline Entry Provisions may not be required.

2.4 Gas Entry Conditions

2.4.1 The "**Gas Entry Conditions**" in respect of a Pipeline Entry Point are limits or other requirements as to the composition, pressure, temperature and other characteristics of gas delivered or tendered for delivery to the Pipeline at the point of delivery (in accordance with paragraph 2.3.1(c)(iii)).

2.4.2 Gas Entry Conditions may include limits, prohibitions or requirements in respect

of the following:

- (a) composition limits:
 - Gross calorific value (maximum and minimum, MJ/m³);
 - Wobbe number (maximum and minimum, MJ/m³);
 - Hydrogen Sulphide (maximum, ppm);
 - Hydrocarbon Dewpoint (maximum °C for specified maximum pressure);
 - Water Dewpoint (maximum °C for specified maximum pressure);
 - Total Sulphur (maximum volume, ppm expressed as H₂S);
 - Oxygen (maximum volume, ppm);
 - Inert gases (maximum mol%), including:
 - Carbon Dioxide (maximum mol%); and
 - Nitrogen (maximum mol%);
- (b) delivery temperature (minimum and maximum °C);
- (c) contaminants - materials, dust or other solid or liquid matter;
- (d) odour; and
- (e) the pressure (maximum and minimum, bar g) at which and against which gas may be required to be delivered to the Pipeline.

2.4.3 Pipeline Entry Provisions will include any tolerances within which (for any person or in any circumstances) deviations from any of the Gas Entry Conditions are permitted.

2.4.4 For the purposes of this Part Q **"delivery characteristics"** are the characteristics of gas delivered or tendered for delivery to the Pipeline in respect of which Gas Entry Conditions apply in respect of any Pipeline Entry Point.

2.4.5 Where under any new or changed Legal Requirement there is any requirement, applicable to the characteristics (other than odour) of gas conveyed by means of or tendered for delivery to the Pipeline, which either does not apply or is more stringent than any which does apply under the prevailing Gas Entry Conditions, such requirement shall (unless expressly provided otherwise under any Special Delivery Arrangement) at the time at which it comes into force be deemed to be incorporated in the Gas Entry Conditions (which will be amended accordingly as soon as reasonably practicable thereafter).

2.5 Measurement Provisions

2.5.1 The **"Measurement Provisions"** in respect of a Pipeline Entry Point are the procedures, methods and standards by which:

- (a) gas delivered or tendered for delivery to the Pipeline at that point will be measured, sampled and analysed;
- (b) the volume, calorific value, quantity, and delivery characteristics of such gas will be determined; and
- (c) the Pipeline Operator, the Large Transporter and the Pipeline Delivery Facility Operator will inform each other of the determinations made

under paragraph (b).

2.5.2 **"Measurement Equipment"** is the metering, sampling, analysis and other equipment required by the Measurement Provisions to be installed (whether at the Pipeline Delivery Facility or on the Pipeline).

2.5.3 The Measurement Provisions:

- (a) provide in respect of each Pipeline Entry Point, for the ascertainment of the aggregate quantity of gas delivered to the Pipeline on a Day at that Pipeline Entry Point (the "**Pipeline Entry Point Daily Quantity Delivered**");
- (b) and will provide for the such Entry Point Daily Quantity Delivered to be determined and (if not determined by the Pipeline Operator and/or Large Transporter) communicated to the Pipeline Operator and/or the Large Transporter.

2.5.4 Measurement Provisions may include:

- (a) standards of accuracy and procedures for testing and calibration of Measurement Equipment;
- (b) terms by which volume, calorific value, quantity or any delivery characteristic of gas delivered or tendered for delivery may be estimated in the case of failure or defect of any Measurement Equipment, non-compliance with any of the Measurement Provisions or otherwise; and
- (c) terms upon which any difference or dispute between the Pipeline Delivery Facility Operator and the Pipeline Operator and/or the Large Transporter as to the volume, calorific value, quantity or delivery characteristic of gas delivered or tendered for delivery will be resolved (which may include resolution by agreement between them).

2.5.5 Each Pipeline User acknowledges that the volume, calorific value, quantity and delivery characteristics of gas delivered or tendered for delivery (by Pipeline Users in aggregate) to the Pipeline at a Pipeline Entry Point, and the compliance or non-compliance with the applicable Gas Entry Conditions in respect thereof, will be established (by the Pipeline Operator, the Large Transporter and the Pipeline Delivery Facility Operator pursuant to the Pipeline Entry Provisions) in accordance with the applicable Measurement Provisions and by means of the Measurement Equipment, and agrees to be bound (for the purposes of the Code) by what is so established.

2.6 Local Operating Procedures

2.6.1 The **"Local Operating Procedures"** in respect of a Pipeline Entry Point or Pipeline Entry Points are procedures for coordination between the Pipeline Operator, the Large Transporter and the Pipeline Delivery Facility Operator in connection with the operation of the Pipeline Delivery Facility and the part of the Pipeline at which it is connected, including the exchange of information between the Pipeline Operator, the Large Transporter and the Pipeline Delivery Facility Operator.

2.6.2 Local Operating Procedures will provide for the Pipeline Delivery Facility Operator to provide information ("Local Operating Information") to the Pipeline Operator and/or the Large Transporter as to the rates at and quantities in which gas is expected to be delivered to the Pipeline at the Pipeline Entry Point at intervals during and at the end of the Gas Flow Day.

- 2.6.3 Except with the prior written consent of the Pipeline Delivery Facility Operator the Pipeline Operator will not and will not be required to provide to any Pipeline User any information provided by the Pipeline Delivery Facility Operator under the Local Operating Procedures.
- 2.6.4 Local Operating Information (including any such information which is or appears to be inconsistent with the requirements in paragraph 3.10.2) may be relied on:
- (a) NOT USED
 - (b) by a Large Transporter in the operating and planning the operation of its System(s);
 - (c) by a Pipeline Operator in the operating and planning the operation of its Pipeline.
- 2.6.5 Local Operating Procedures may provide for the Pipeline Delivery Facility Operator and the Pipeline Operator and/or the Large Transporter to agree at any time:
- (a) for the purposes of enabling any inspection, repair or maintenance to be carried out in respect of the Pipeline Delivery Facility or any related part of a relevant Pipeline and/or Large Transporter System;
 - (b) for the purposes of avoiding a Transportation Constraint, or enabling the delivery of gas notwithstanding a Transportation Constraint; or
 - (c) in any other circumstances (affecting facilities upstream of the Pipeline Entry Point) provided for in such procedures,
- that the Pipeline Delivery Facility Operator will arrange for the quantity of gas to be delivered to the Pipeline to be delivered at a rate which will vary during the Day, and/or during a part only of the Day.
- 2.6.6 Local Operating Procedures may contain procedures pursuant to which the Pipeline Operator and the Large Transporter may permit for limited periods the delivery of gas which does not comply with the applicable Gas Entry Conditions.
- 2.6.7 The Pipeline Operator and the Large Transporter will be entitled to act in accordance with any such provision as is referred to in paragraph 2.6.5 or 2.6.6 or any agreement made with the Pipeline Delivery Facility Operator pursuant thereto, and to assume that the terms on which any Pipeline User may have purchased gas for delivery to the Pipeline or otherwise procured such delivery take account thereof.

3 Delivery of Gas to the Pipeline At Pipeline Entry Points

3.1 Delivering Pipeline Users

- 3.1.1 All gas delivered or tendered for delivery to the Pipeline at a Pipeline Entry Point on a Day shall be deemed to be delivered or tendered for delivery by the Delivering Pipeline User(s), irrespective of any act or omission of the Pipeline Delivery Facility Operator or any other person.
- 3.1.2 For the purposes of this Part Q:
- (a) The amount determined to be the Pipeline Entry Point Daily Quantity Delivered in respect of any Pipeline Entry Point for the Gas Flow Day may be revised at any time up to and including the 5th following Day, but no revision will be made to such quantity after the 5th Day after the Gas Flow Day;

- (b) in relation to a Pipeline Entry Point, a **“Delivering Pipeline User”** is a Pipeline User treated as delivering gas to the Total System at that point on that Day.

3.2 Delivered gas

- 3.2.1 The gas delivered or tendered for delivery to the Pipeline at a Pipeline Entry Point shall for all purposes of the Code be assumed to be a single homogenous gas stream.
- 3.2.2 NOT USED
- 3.2.3 NOT USED

3.3 Compliance with Gas Entry Conditions

- 3.3.1 Subject to paragraphs 2.6.6 and 3.5, a Pipeline User shall not deliver gas or tender gas for delivery to the Pipeline at a Pipeline Entry Point unless the applicable Gas Entry Conditions are complied with in respect of such gas.
- 3.3.2 Where non-compliant gas is tendered for delivery to the Pipeline at a Pipeline Entry Point (whether or not resulting from any procedures referred to in paragraph 2.6.6) the Pipeline Operator may, from time to time until such time as the relevant Gas Entry Conditions are complied with in respect of gas tendered for delivery at such point, in its discretion either:
 - (a) refuse to accept delivery or continued delivery of such gas; or
 - (b) (subject to any Legal Requirement) accept such delivery or accept such delivery as to part only of what is tendered for delivery.
- 3.3.3 The Pipeline Operator's rights under paragraph 3.3.5 shall not be prejudiced by its election to accept delivery of non-compliant gas (whether or not it is aware that the gas is non-compliant).
- 3.3.4 The Pipeline Operator shall be entitled pursuant to paragraph 3.3.2 to take any steps available to it (including any steps pursuant to Local Operating Procedures) to limit the rate at which non-compliant gas is delivered to the Pipeline or to secure that such gas is not so delivered.
- 3.3.5 Subject to paragraph 3.4.6, where non-compliant gas has been delivered on any Day to the Pipeline, each Delivering Pipeline User shall be liable to pay to the Pipeline Operator an amount determined in accordance with paragraph 3.4.
- 3.3.6 Where the Pipeline Operator first becomes aware (pursuant to the applicable Measurement Provisions or otherwise) that non-compliant gas is being or has been delivered to the Pipeline at a Pipeline Entry Point on any Day, the delivery of which is likely in the Pipeline Operator's opinion to entitle the Pipeline Operator to claim any material sum under paragraph 3.4, the Pipeline Operator will as soon as reasonably practicable inform Pipeline Users of that fact; provided that no failure by the Pipeline Operator so to inform any Pipeline User shall affect the Pipeline Operator's rights under paragraphs 3.3.5 and 3.4.
- 3.3.7 For the purposes of this paragraph 3, subject to paragraphs 3.3.8 and 3.4.6, **“non-compliant gas”** is gas delivered or tendered for delivery at a Pipeline Entry Point, in respect of which or the delivery or tendered delivery of which (after taking account of any tolerance referred to in paragraph 2.4.3) any of the relevant Gas Entry Conditions is not or was not complied with.
- 3.3.8 NOT USED

3.3.9 NOT USED

3.4 Payment in respect of non-compliant gas

- 3.4.1 Subject to paragraphs 3.4.2 and 3.4.3, the amount payable by a Delivering Pipeline User to the Pipeline Operator under paragraph 3.3.5 shall be its Delivery Proportion of all reasonable costs and expenses reasonably incurred by the Pipeline Operator in consequence of the delivery of the non-compliant gas, including (without limitation) costs and expenses incurred:
- (a) in cleaning or clearing any part of the relevant Pipeline; and/or
 - (b) in taking reasonable measures (excluding any Operational Balancing Steps) to secure that the relevant Pipeline can be operated in accordance with applicable Legal Requirements notwithstanding the delivery or continued delivery of such non-compliant gas.
- 3.4.2 The amount payable by a Delivering Pipeline User pursuant to paragraph 3.4.1 shall not exceed 10% of its Delivery Proportion of the amount calculated as the total quantity of non-compliant gas delivered to the Pipeline at the relevant Pipeline Entry Point on the relevant Day multiplied by the Applicable Liability Gas Price.
- 3.4.3 Where costs and expenses referred to in paragraph 3.4.1 are incurred in consequence of the delivery of non-compliant gas to the Pipeline at a Pipeline Entry Point on more than one Day:
- (a) NOT USED
 - (b) the reference in paragraph 3.4.2 to the total quantity of non-compliant gas delivered on the relevant Day shall be to the total quantity of non-compliant gas delivered on all such Days.
- 3.4.4 Where any amount has become payable to the Pipeline Operator pursuant to paragraph 3.3.5:
- (a) the Pipeline Operator shall as soon as reasonably practicable after the Entry Close-out Date so notify each Delivering Pipeline User specifying:
 - (i) the relevant Pipeline Entry Point and the Day or Days on which non-compliant gas was delivered to the Pipeline;
 - (ii) the total quantity of non-compliant gas referred to in paragraph 3.4.2, and reasonable details of the respect(s) in which the non-compliant gas did not comply with the applicable Gas Entry Conditions;
 - (iii) reasonable details of the costs and expenses referred to in paragraph 3.4.1 and the purposes for which they were incurred;
 - (iv) NOT USED; and
 - (b) the amounts payable by each Delivering Pipeline User shall be invoiced and are payable in accordance with Part G.
- 3.4.5 Any dispute (other than one resolved pursuant to Pipeline Entry Provisions under paragraph 2.5.4) as to anything specified by the Pipeline Operator under paragraph 3.4.4(a) shall be referred to Expert Determination.
- 3.4.6 Paragraph 3.3.5 and this paragraph 3.4 do not apply and Delivering Pipeline Users shall not be liable thereunder to the extent that the failure (of gas delivered or tendered for delivery) to comply with Gas Entry Conditions was a failure to

comply with a requirement as to pressure or odour; and references in those paragraphs to non-compliant gas shall be construed accordingly.

3.4.7 NOT USED

3.4.8 NOT USED

3.4.9 NOT USED

3.5 Special Delivery Arrangement

NOT USED

3.6 Delivery of gas

3.6.1 The applicable Pipeline Entry Provisions will identify (by description or a diagram or both) a point of delivery at each Pipeline Entry Point.

3.6.2 Title and (without prejudice to any other provision of this Part Q) risk in gas delivered to the Pipeline at a Pipeline Entry Point shall pass to the Pipeline Operator at the relevant point of delivery established in accordance with paragraph 3.6.1.

3.6.3 Each Pipeline User warrants to the Pipeline Operator:

- (a) that such Pipeline User will have title (at the point of delivery) to all gas delivered or tendered for delivery to the Pipeline at any Pipeline Entry Point by that Pipeline User; and
- (b) that all such gas will (at such point) be free of any lien, charge, encumbrance or adverse claim (as to title or otherwise), including any claim for any tax, royalty or other charge in respect of the production, gathering, processing and tendering of gas arising on or before delivery thereof to the Pipeline.

3.6.4 Each Pipeline User shall indemnify the Pipeline Operator and hold it harmless against any loss, liability, damage, claim, action, proceeding, cost and expense suffered or incurred by or made or brought against the Pipeline Operator in consequence of any breach of the warranties in paragraph 3.6.3.

3.6.5 The warranty in paragraph 3.6.3(a) shall be treated as satisfied where the Pipeline User has arranged for delivery or tender for delivery of gas to the Pipeline by a person or persons who has or jointly have title (at the point of delivery) to such gas and such person passes or persons jointly pass title to such gas to the Pipeline Operator.

3.7 Acceptance of gas delivered to the Total System

NOT USED

3.8 ISEP capability

NOT USED

3.9 Restricted delivery of gas

3.9.1 Where the Pipeline Operator determines that a Transportation Constraint is imminent or has arisen at a Pipeline Entry Point the Pipeline Operator may take any available steps to curtail (or by so informing the Pipeline Delivery Facility Operator or Pipeline Users to secure the curtailment of) gas flow rates at the relevant Pipeline Entry Point.

3.9.2 Where a Transportation Constraint affects more than one Pipeline Entry Point and the Pipeline Operator takes any steps under paragraph 3.9.1, it will do so

with a view so far as is practicable to apportioning the curtailment of gas flow rates in such manner as appears equitable to the Pipeline Operator.

- 3.9.3 Without prejudice to the applicable Local Operating Procedures and any applicable Legal Requirement, to the extent that the Pipeline Operator is not obliged (pursuant to paragraph 3.11.5) to accept delivery of gas at a Pipeline Entry Point, nothing in the Code shall be taken to require the Pipeline Operator to take any steps to prevent the increase of pressure within the Pipeline adjacent to a Pipeline Entry Point to a level at which gas will not flow from the Pipeline Delivery Facility into the Pipeline.

3.10 Rates of delivery

NOT USED

3.11 Further provisions in respect of Pipeline Entry Points

3.11.1 NOT USED

3.11.2 NOT USED

3.11.3 In respect of a Pipeline Entry Point:

(a) NOT USED

(b) a Delivering Pipeline User will pay the relevant transportation charge (if any) as set out in the Transportation Statement.

3.11.4 A Delivering Pipeline User wishing to deliver gas at a Pipeline Entry Point acknowledges and shall be subject to the terms of the Pipeline Entry Provisions.

3.11.5 Subject to the provisions of the Code and the Pipeline Entry Provisions, the Pipeline Operator will accept at a Pipeline Entry Point at any time gas entered for delivery by a Delivering Pipeline User at a rate (in kWh/Day) not exceeding the maximum permitted flow in accordance with the Pipeline Entry Provisions.

3.11.6 NOT USED

3.11.7 NOT USED

3.11.8 NOT USED

3.11.9 For the avoidance of doubt, the Pipeline Operator will not be in breach of its obligations under paragraph 3.11.5 in circumstances which render it unable to accept delivery of gas at a Pipeline Entry Point, including compliance with the Pipeline Entry Provisions or the taking steps for the curtailment of gas flow rates where a Transportation Constraint is imminent or has arisen.

3.12 Transportation Constraint

3.12.1 A “**Transportation Constraint**” is a constraint in or affecting any part of the Pipeline at any time, as a result of which (having regard to operational requirements as to pressures in any part of the Pipeline) gas flows in any part of the Pipeline are or (but for anything done by a Pipeline Operator) would be restricted, whether such constraint results from the size of any part of the Pipeline, the operation or failure to operate any part of the Pipeline, or the extent or distribution of supply or demand in any part of the Pipeline

3.12.2 A Pipeline Entry Point is “affected” by a Transportation Constraint where the Pipeline Operator is or (but for anything done by that Pipeline Operator or any other Pipeline Operator) would be unable to accept delivery of gas or make available gas for offtake at that System Point, or its ability to do so is impaired, by

reason of a Transportation Constraint.

3.12.3 A Transportation Constraint includes a constraint which arises by reason of Programmed Maintenance or other maintenance (but without prejudice to the provisions of Part H).

3.12.4 In determining whether there is at any time a Transportation Constraint all gas flows planned by any Pipeline Operator shall be taken into account.

PART R – EXIT REQUIREMENTS FOR NTS SUPPLY METER POINTS

1 General

1.1 Introduction

The provisions of this Part R shall only apply in respect of the offtake of gas from a Pipeline at IGTS Supply Meter Point(s) situated downstream of an Unmetered IGT-NTS System Point ("**NTS Supply Meter Points**").

1.2 Relevant User

For the purposes of this Part R "**Relevant User**" means the Registered User.

1.3 Not used

1.4 Not used

1.5 Pipeline Exit Provisions

1.5.1 For the purposes of this Part R "**Pipeline Exit Provisions**" are provisions relating to or to the offtake of gas from a Pipeline at a Supply Meter Point, made between the Pipeline Operator and the consumer.

1.5.2 Pipeline Exit Provisions are required to be in force in respect of any NTS Supply Meter Point and where Pipeline Exit Provisions are required to be in force a Pipeline User will not be entitled to offtake gas from the Pipeline at the relevant Supply Meter Point unless there are such provisions in force.

1.5.3 Pipeline Exit Provisions may be in force in respect of any other Supply Meter Point.

1.5.4 Pipeline Exit Provisions are to be contained in a "**Pipeline Exit Agreement**" and references to Pipeline Exit Provisions being in force shall be construed accordingly.

1.5.5 Not used

1.5.6 Not used

1.5.7 A Pipeline Exit Agreement in respect of a Supply Meter Point may be made with a person other than or in addition to the consumer, where such person is the operator of the Consumer's Plant; and in such a case references in paragraph 5 of this Part R to the consumer shall be construed as references to such person.

1.5.8 Not used

1.5.9 References in this Part R to the termination, suspension or expiry of Pipeline Exit Provisions are to the termination, suspension or expiry of the relevant Pipeline

Exit Agreement.

1.5.10 For the purposes of this Part R:

- (a) **"PExA Supply Meter Point"** is a Supply Meter Point in respect of which there are Pipeline Exit Provisions in force; and
- (b) **"Supply Meter Point Pipeline Exit Provisions"** are Pipeline Exit Provisions in respect of a Supply Meter Point.

2 OFFTAKE REQUIREMENTS

2.1 Applicable Offtake Requirements

2.1.1 For the purposes of this Part R, the **"Applicable Offtake Requirements"** are:

- (a) subject to paragraph 2.1.1(b):
 - (i) Not used
 - (ii) Subject to Part R paragraph 2.1.5, as respects the pressure of gas made available for offtake:
 - 1. at NTS Supply Meter Points, a pressure of 25 bar;
- (b) to the extent inconsistent with paragraph 2.1.1(a), but subject to paragraph 2.1.5;
 - (i) Not used
 - (ii) Not used
 - (iii) any provision contained in Pipeline Exit Provisions as to the pressure of gas made available for offtake at a Supply Meter Point.

2.1.2 Not used

2.1.3 Pipeline Exit Provisions or an Ancillary Agreement may include any tolerances within which (for any periods or in any circumstances) deviation from any of the Applicable Offtake Requirements are permitted.

2.1.4 The **"Applicable Offtake Pressure"** is the requirement as to pressure of gas made available for offtake from the Pipeline at an PExA Supply Meter Point for the time being applicable in accordance with this paragraph 2.1.

2.1.5 Where at any time, by reason of any building, mining or engineering developments (other than a development planned by the Pipeline Operator), or changes in population density, in the vicinity of any part of the Pipeline, it is not or ceases or will cease to be feasible safely or in accordance with any Recognised

Standard to maintain at any PEXA Supply Meter Point a pressure of at least the Applicable Offtake Pressure (applicable at the time in accordance with paragraph 2.1.1 or this paragraph 2.1.5:

- (a) the Pipeline Operator will, as soon as reasonably practicable after becoming aware that (by reason of such circumstances) such pressure cannot be maintained, so inform the Relevant User(s) specifying the date with effect from which it will be necessary to reduce such pressure and the reduced pressure which can (after such date) be so maintained; and
- (b) with effect from the date specified by the Pipeline Operator (and as respects any Pipeline User who may become the Relevant User), the reduced pressure so specified shall be the Applicable Offtake Pressure.

2.1.6 The Pipeline Operator will not be in breach of its obligation to make gas available for offtake from a Pipeline at a PEXA Supply Meter Point if for any reason the pressure of the gas immediately downstream of the point of offtake (in accordance with paragraph 3.7) exceeds the Applicable Offtake Pressure.

2.2 Special offtake pressure

2.2.1 Upon the request of the Registered User in respect of a PEXA Supply Meter Point, specifying (in respect of a Supply Meter Point comprised in the Supply Point) a particular pressure (the "**specified pressure**") greater than the prevailing Applicable Offtake Pressure, the Pipeline Operator will advise the Pipeline User:

- (a) whether the anticipated normal offtake pressure is greater or less than the specified pressure; and
- (b) insofar as it is reasonably practicable to do so, of the circumstances (other than where Part J7.2 applies) in which the Pipeline Operator anticipates at the time of the request that the pressure of gas available for offtake at the PEXA Supply Meter Point may fall below the specified pressure.

2.2.2 Where the Pipeline Operator has advised a Pipeline User under paragraph 2.2.1 that anticipated normal offtake pressure is not less than the specified pressure, the Pipeline Operator will advise the Pipeline User, not less than 36 months before such change, of any reduction in anticipated normal offtake pressure below the specified pressure (but without prejudice to the Applicable Offtake Pressure).

2.2.3 In this paragraph 2.2, "anticipated normal offtake pressure" means the pressure or (within a range of pressures) lowest pressure at which the Pipeline Operator expects (having regard to the period of notice of any reduction required under paragraph 2.2.2) that, under normal Pipeline operating conditions, gas will be available for offtake at a Supply Meter Point.

2.3 Not Used

2.4 Notice of specification change

2.4.1 Where:

- (a) the Registered User wishes to be informed of changes in particular characteristics ("relevant characteristics") of gas offtaken from the Pipeline at a Supply Meter Point comprised therein; and
- (b) the Pipeline User so requests the Pipeline Operator, specifying the Supply Meter Point and the relevant characteristics,

the Pipeline Operator will, where in its reasonable opinion it is feasible to do so, and upon such reasonable terms (if any) as it may notify to the Pipeline User, agree that paragraph 2.4.3 shall apply.

2.4.2 Where the Pipeline Operator notifies any terms to the Pipeline User pursuant to paragraph 2.4.1, paragraph 2.4.3 shall apply only if the Pipeline User notifies the Pipeline Operator of its acceptance of such terms, which terms (if so accepted) shall form an Ancillary Agreement between the Pipeline Operator and such Pipeline User.

2.4.3 Where this paragraph applies, the Pipeline Operator will use reasonable endeavors to notify the Registered User as soon as reasonably practicable after the Pipeline Operator becomes aware that a change in relevant characteristics of gas available for offtake at the Supply Meter Point has occurred or will occur.

2.4.4 Where paragraph 2.4.3 applies the Pipeline Operator reserves the right at any time and from time to time to make a charge to the Pipeline User (for so long as it is the Registered User) in respect of the reasonable costs incurred by the Pipeline Operator in performing its obligations under that paragraph.

3 OFFTAKE OF GAS FROM THE PIPELINE

3.1 Not used

3.2 Not used

3.3 Not used

3.4 Not used

3.5 Not used

3.6 Not used

3.7 Point of offtake

3.7.1 The point of offtake in respect of each NTS Supply Meter Point shall be:

- (a) ;
 - (i) not used
 - (ii) where there is in force a Pipeline Exit Agreement which identifies (by description or a diagram or both) the point(s) of offtake, the point or points so identified;

3.8 Not used

3.9 Not used

3.10 Pipeline User offtake obligations: PExA Supply Meter Points

3.10.1 The Pipeline User will (or will procure that the CSEP User(s) from whom it is acquiring gas at the CSEP will) comply with the provisions of TPD Section J3.10.2 (b) of the UNC.

3.10.2 Not used

3.10.3 Not used

3.10.4 Not used

3.10.5 The Pipeline Operator will not be obliged under any provision of the Code to make gas available for offtake from an NTS Supply Meter Point by a Pipeline User:

- (a) Not used;
- (b) Not used
- (c) Not used
- (d) at any time, at a rate which exceeds the Maximum NTS Exit Point Offtake Rate.

4 REQUIREMENTS UNDER PIPELINE EXIT PROVISIONS

4.1 General

4.1.1 Requirements (further to those in the foregoing provisions of Part E and this Part R) in respect of the plant and equipment to be installed at and the offtake of gas from the relevant Pipeline at certain Supply Meter Points are set out in this paragraph 4 and in paragraph 5.

4.1.2 The relevant requirements referred to in paragraph 4.1.1 apply:

- (a) in the case of a PExA Supply Meter Point, as and to the extent so required by the Pipeline Operator pursuant to the Pipeline Exit Provisions (and, in the case of each of paragraphs 4.5 to 4.7 and 5.6 to 5.8, where the Pipeline Exit Provisions contains provisions, whether or not expressly referring to such paragraph, by reference to which such paragraph is capable of applying);

4.1.3 For the purposes of any provision of paragraphs 4.5 to 4.7, a "relevant" Supply Meter Point is a PExA Supply Meter Point in respect of which such provision is (in accordance with paragraph 4.1.2) to apply.

4.2 Failure to comply

4.2.1 Where and for so long as:

- (a) any requirement applying pursuant to this paragraph 4 or paragraph 5 (other than a requirement applying to the Pipeline Operator) of the Pipeline Exit Provisions is not for the time being complied with or is incapable of being complied with in relation to a PExA Supply Meter Point; and
- (b) in the Pipeline Operator's reasonable opinion such non-compliance or inability to comply may prejudice the security of the relevant Pipeline

the Pipeline Operator shall (until such time as it is reasonably satisfied that such non-compliance has been remedied) be entitled to require by notice to the Relevant User that the offtake of gas shall, subject to any contrary provisions in the Pipeline Exit Provisions, be discontinued or its rate reduced, and may in any event take any steps available to it to secure such discontinuance or reduction, provided that where the Pipeline Operator takes such steps it will so notify the Relevant User as soon as reasonably practicable after so doing.

4.3 Pipeline Exit Provisions

4.3.1 Pipeline Exit Provisions in respect of a PExA Supply Meter Point:

- (a) will specify the point of offtake in accordance with paragraph 3.7.1(a);
- (b) will specify the plant and equipment installed pursuant to paragraph 4.4;
- (c) may provide (whether by express reference to such provisions or otherwise) for the application of any of paragraphs 4.5 to 4.7;
- (d) not used
- (e) may specify requirements (without prejudice to paragraph 2.1.5) as to the pressure at which gas is to be made available for offtake from the relevant Pipeline, and/or stipulate that the point at which the Applicable Offtake Pressure is to apply is a point other than the point of offtake;

- (f) may specify site specific maintenance requirements above and beyond those set out in Part H;
- (g) may specify other matters relating to the offtake of gas for purposes of commissioning the Consumer's Plant or (as the case may be) downstream Pipeline, or any plant or equipment referred to in paragraph (b); and
- (h) may specify procedures applicable in the event of any emergency circumstances affecting the Pipeline Operator or the consumer (including any Emergency in accordance with Part I).

4.3.2 Pipeline Exit Provisions may also provide for:

- (a) the Pipeline Operator and the consumer to have access to each other's facilities for the purposes of verification of compliance with the requirements of the Pipeline Exit Provisions;
- (b) terms according to which and circumstances in which the Pipeline Exit Provisions may be terminated or expire; and
- (c) any other terms or conditions which may be appropriate for the purposes of the Code in respect of the offtake of gas from the Pipeline or (in relation to such offtake) the Consumer's Plant or (as the case may be) downstream Pipeline.

4.3.3 Not used

4.3.4 In the case of a PExA Supply Meter Point the Pipeline Operator shall not be required (for itself or for the benefit of any Pipeline User) to secure in the Pipeline Exit Agreement any remedy against the relevant consumer nor to take any steps to enforce any provision of such a Pipeline Exit Agreement.

4.3.5 The Pipeline Operator will not be required to make gas available for offtake at a PExA Supply Meter Point where (other than by reason of a breach by the Pipeline Operator thereof) the applicable Pipeline Exit Provisions have been suspended or terminated in accordance with its terms.

4.4 Plant and equipment

4.4.1 The plant and equipment installed at a PExA Supply Meter Point may include:

- (a) Not used
- (b) remote isolation valve, by means of which National Gas Transmission and/or Pipeline Operator may remotely cause the offtake of gas to be discontinued;
- (c) calorimetric equipment, by means of which the calorific value of gas

offtaken may be continuously monitored;

4.4.2 The plant and equipment installed or to be installed pursuant to paragraph 4.4.1 will be specified in the relevant Pipeline Exit Provisions (and may where so provided in such Pipeline Exit Provisions be or have been furnished and installed by the Pipeline Operator).

4.4.3 Not used

4.4.4 Where a remote isolation valve is installed pursuant to paragraph 4.4.1(b), the Pipeline Operator and/or National Gas Transmission may, but (subject to any provision of the Pipeline Exit Provisions) shall not be required to, operate such valve in any circumstances in which, in accordance with the Code or the Act, the Pipeline Operator is permitted to interrupt or cause the discontinuance or reduction of offtake, or disconnect the premises.

4.4.5 The Pipeline Operator will not be in breach of its obligation to make gas available for offtake at the PEXA Supply Meter Point:

(a) where and to the extent that:

- (i) any plant or equipment installed pursuant to paragraph 4.4.1 operates (in accordance with any provisions of the Pipeline Exit Provisions as to such operation or the control or setting of such plant or equipment) so as to limit or discontinue the offtake of gas from the Pipeline; or
- (ii) the Pipeline Operator takes any action in accordance with any provisions of this paragraph 4 or of Pipeline Exit Provisions which limits or discontinues the offtake of gas from the Pipeline; and

(b) in the event of any failure of or defect in any plant or equipment installed by the Pipeline Operator at the PEXA Supply Meter Point, or requirement for maintenance thereof, until and unless:

- (i) the Pipeline User or the consumer has notified the Pipeline Operator of such failure, defect or requirement; and
- (ii) following such notice the Pipeline Operator has not, within 24 hours after such notification or such other period as may be provided in the Pipeline Exit Provisions, and subject to having such access as shall be reasonable in the circumstances, repaired or replaced the relevant plant or equipment or carried out the required maintenance (but so that nothing in the Code or the Pipeline Exit Provisions shall require the Registered User to pay for any such repair, replacement or maintenance).

4.5 Offtake Profile Notice

4.5.1 In relation to a relevant Supply Meter Point, unless National Gas Transmission

notifies the Pipeline Operator that this clause 4.5 is not to apply:

- (a) a notification ("Offtake Profile Notice") shall be provided to National Gas Transmission, not later than the time on the Preceding Day specified in the Pipeline Exit Provisions, setting out rates of offtake throughout the Gas Flow Day, and
- (b) a notification ("End of Day Demand Forecast Notice") shall:
 - (i) Not used
 - (ii) not later than 12:00 hours on the Preceding Day, be secured by the Pipeline User in respect of any other relevant Supply Meter Point, and submitted to National Gas Transmission setting out the estimated total amount of gas to be offtaken at that Supply Meter Point during the Gas Flow Day.

4.5.2 The rates of offtake set out in an Offtake Profile Notice (or revised such notice) shall not exceed the Permitted Offtake Rate.

4.5.3 For the purposes of this paragraph 4, "rate of offtake" means the instantaneous rate (expressed in MW or, in the case of notifications to National Gas Transmission only, expressed in MW, MCM, GWh or such other units of rate of offtake as set out in the Pipeline Exit Provisions) of offtake of gas from a Pipeline at a relevant Supply Meter Point (and references to the rate of offtake include a rate of zero where gas is not offtaken, and references to a change in rate of offtake shall be construed accordingly).

4.5.4 In relation to a relevant Supply Meter Point, the Pipeline Exit Provisions will prescribe a period of notice to be given (by way of modified Offtake Profile Notice) to National Gas Transmission of any change ("Offtake Rate Change"), by reference to the prevailing Offtake Profile Notice, in the rate of offtake of gas, which period of notice may depend:

- (a) on whether the Offtake Rate Change is an increase or a decrease in rate of offtake;
- (b) on the amount of the Offtake Rate Change, expressed as an absolute amount or a percentage of a rate determined from the Permitted Offtake Rate or otherwise; and
- (c) on whether any earlier change in the rate of offtake has been notified or occurred within any specified period before the Offtake Rate Change.

4.5.5 The Offtake Profile Notice may be modified, as to the rate of offtake from and after any time, by notice before that time of the period referred to in paragraph 4.5.4 but (without prejudice to paragraph 5.6 or 5.8 where either applies) not otherwise.

4.5.6 Where, upon a request to that effect, National Gas Transmission determines that

it is feasible, consistently (so far as National Gas Transmission can judge in the circumstances) with the expectation in paragraph 4.5.7 to make gas available for offtake:

- (a) at the relevant Supply Meter Point at a changed rate of offtake (specified in such request) upon a lesser period of notice than that referred to in paragraph 4.5.4, the Offtake Profile Notice may be modified in accordance with such request;

4.5.7 The expectation referred to in paragraph 4.5.6 is that:

- (a) for the purposes of paragraph 4.5.6(a), the change in rate of offtake on such lesser period of notice
- (b) for the purposes of paragraph 4.5.6(b), the offtake of gas at the rates of offtake in the requested Offtake Profile Notice should not, of itself and at the time, give rise to an Operational Balancing Requirement (but it is recognised that such change in rates of offtake may contribute to any such requirement at any later time).

4.5.8 In this paragraph 4.5 "Permitted Offtake Rate" means in relation to a NTS Supply Meter Point, the maximum permitted rate of offtake in accordance with paragraph 3.10.2(b).

4.5.9 Without prejudice to this paragraph 4, a Pipeline User shall at times ensure that as much notice as is reasonably practicable is given to National Gas Transmission of any change in the rate of offtake.

4.6 Prevailing Offtake Rate

4.6.1 At any time on the Gas Flow Day the "Prevailing Offtake Rate" is the rate of offtake set out in respect of such time in the Offtake Profile Notice (as from time to time modified pursuant to paragraph 4.5.5).

4.6.2 Subject (in the case of a PExA Supply Meter Point) to paragraph 5.6 and 5.8, gas may not be offtaken from a Pipeline:

- (a) at a relevant PExA Supply Meter Point; and
- (b) Not used
- (c) at any time on any Day at a rate of offtake (or aggregate rate of offtake) which exceeds or is less than the Prevailing Offtake Rate (or aggregate of the Prevailing Offtake Rates) by more than the relevant tolerance specified (for the purposes of this requirement) in the Pipeline Exit Provisions.

4.6.3 Subject (in the case of a PExA Supply Meter Point) to paragraph 5.8, the Pipeline Operator will not be required to make gas available for offtake from the Pipeline at a relevant PExA Supply Meter Point at any time on any Day at a rate of offtake

(or aggregate rate of offtake) which exceeds the Prevailing Offtake Rate (or aggregate of the Prevailing Offtake Rates).

4.7 Ramp Rates

- 4.7.1 Pipeline Exit Provisions may prescribe maximum rates of change (expressed in MW/minute or other units of rate of change) of the rate of offtake.
- 4.7.2 In relation to a relevant Supply Meter Point, subject (in the case of a PExA Supply Meter Point) to paragraph 5.8, at any time on the Gas Flow Day at which there is a change (pursuant to the Offtake Profile Notice) in the Prevailing Offtake Rate, the rate of change of the rate of offtake shall not exceed the rate of change prescribed (in accordance with paragraph 4.7.1) in the Pipeline Exit Provisions.
- 4.7.3 Subject (in the case of a PExA Supply Meter Point) to paragraph 5.8, the Pipeline Operator will not be required to make gas available for offtake from the Pipeline at a relevant Supply Meter Point at an increasing rate the rate of change of which exceeds the rate of increase prescribed (in accordance with paragraph 4.7.1) in the Pipeline Exit Provisions.

5 PEXA SUPPLY METER POINTS – SPECIAL PROVISIONS

5.1 General

- 5.1.1 Subject to paragraph 5.6, nothing in paragraph 4 or this paragraph 5 affects the application of any provision of the Code to any Supply Meter Point that is not a PExA Supply Meter Point.

5.2 Pipeline Exit Provisions – general provisions

- 5.2.1 Where Supply Meter Point Pipeline Exit Provisions made with the consumer are in force and there is a Registered User in respect of the PExA Supply Meter Point, the Pipeline Operator will not agree to any modification of the Pipeline Exit Provisions except in accordance with the terms of the PExA.
- 5.2.2 Where a Pipeline User submits a Supply Point Nomination or (as the case may be) a Detail Registration Nomination in respect of a Proposed Supply Point which comprises a PExA Supply Meter Point, the Pipeline Operator will inform the Pipeline User of the existence (but not of the terms) of the Pipeline Exit Provisions, and the Pipeline User shall be responsible for ascertaining the terms thereof from the relevant consumer; and where the Pipeline User subsequently becomes Registered User of the Supply Point the Pipeline User shall be deemed to be fully informed of such terms.
- 5.2.3 Except as provided in paragraph 5.2.2 the Pipeline Operator will not, unless the terms of the Pipeline Exit Provisions expressly so permit, disclose the provisions of Supply Meter Point Pipeline Exit Provisions to any Pipeline User (including a Pipeline User who has submitted a Supply Point Nomination or Supply Point Confirmation or (as the case may be) a Base Registration Nomination or Detail Registration Nomination) other than the Registered User.

5.3 Application

- 5.3.1 The Registered User shall be responsible for securing that the requirements of paragraphs 4.5, 4.6, 4.7 and 5.7 are complied with in respect of a PExA Supply Meter Point.

5.4 Further Pipeline Exit Provisions

- 5.4.1 Pipeline Exit Provisions in respect of a PExA Supply Meter Point:

- (a) Not used
- (b) may specify details and/or standards for the design, specification and manufacture and/or the accuracy of the Supply Meter, and/or contain provisions (which may differ from those of Part D) as to any of the matters provided for in Part D;
- (c) where the Consumer's Plant is generating plant, will specify the basis for determining the date at which commissioning of the Consumer's Plant shall be treated as completed (by reference to the successful completion of that part of the commissioning programme which tests the ability of the Consumer's Plant to run reliably for a continuous period of 30 days).

5.5 Not used

5.6 Not used

5.7 Intertipping and forced outages

- 5.7.1 Pipeline Exit Provisions may prescribe particular circumstances in which, by reason of a sudden interruption in the operation of the Consumer's Plant, the rate of offtake may be reduced suddenly.
- 5.7.2 Where this paragraph 5.7 applies, in such circumstances and subject to such requirements as may be so prescribed in the Pipeline Exit Provisions:
- (a) the requirements (as to notice and rate of reduction of rate of offtake) of paragraphs 4.5.4 and 4.7 shall not apply; and
 - (b) the requirements (as to notice of increase of rate of offtake) of paragraph 4.5.5 shall not apply in respect of a subsequent increase in the rate of offtake not exceeding such amount, and within such period (after the occurrence of the sudden interruption referred to in paragraph 5.7.1), as may be prescribed in the Pipeline Exit Provisions.

5.8 Frequency Response

- 5.8.1 Where the Consumer's Plant is gas fired generating plant subject to Central Despatch by National Grid Electricity Transmission plc, Scottish and Southern Energy plc or Scottish Power plc acting as operators of the electricity

transmission in Great Britain ("the Grid Operators"), it may be required, at the request of the Grid Operators, to respond automatically and rapidly to changes in the electrical frequency of such system by rapidly increasing or subsequently decreasing the rate of offtake, by up to 25% of the Supply Point Offtake Rate ("Frequency Response"). "Central Despatch" is the process of scheduling and issuing direct instructions by the Grid Operators in accordance with their grid codes.

5.8.2 Where this paragraph 5.8 applies:

- (a) there shall be Pipeline Exit Provisions in force at the PEXA Supply Meter Point;
- (b) the Registered User of the PEXA Supply Meter Point shall notify the Pipeline Operator by Conventional Notice that it requires the Frequency Response service subject to the conditions set out in paragraphs (c) to (i) below;
- (c) the Registered User shall pay such amount (if any) as is identified in the Transportation Statement for Frequency Response;
- (d) where the Registered User has so elected, the requirements of paragraphs 4.6.2, 4.7 and 5.6 shall be disapplied during any period (not exceeding one hour) when the Consumer's Plant is responding to a specific request by a Grid Operator to provide Frequency Response ("Frequency Response Period");
- (e) except as set out in this paragraph 5.8 the requirements set out in the Pipeline Exit Agreement shall apply;
- (f) during any Frequency Response Period any provision contained in the Pipeline Exit Agreement as to the pressure of gas made available for offtake at the PEXA Supply Meter Point shall be suspended;
- (g) during any Frequency Response Period any provision contained in the Pipeline Exit Agreement as to the ramp rates, in accordance with paragraph 4.7, shall be amended such that the rate of increase or decrease in the rate of offtake shall not exceed 25% of the maximum offtake rate in a period of 10 seconds during any Frequency Response Period;
- (h) in respect of any Frequency Response Period any provision contained in the Pipeline Exit Agreement as to the period of notice to be given to the Pipeline Operator in accordance with paragraph 4.5.4 shall be amended such that:
 - (i) the Registered User(s) shall notify the Pipeline Operator within 30 minutes of a Frequency Response Period having commenced at the PEXA Supply Meter Point; and

(ii) the Offtake Profile Notice submitted on the Day following any Day on which a Frequency Response Period was actually provided shall state the time and duration of any period(s) of Frequency Response; and

(i) during any Frequency Response Period any provision contained in the Pipeline Exit Agreement as to the temperature of gas, where preheating equipment has been installed in accordance with paragraph 5.6, shall be suspended.

5.8.3 The Pipeline Operator may, on written notice, or verbal notice subsequently confirmed in writing, to the Registered User withdraw the right of the Registered User, to take Frequency Response at the Consumer's Plant where the Pipeline Operator considers that there has been, or is likely to be, a serious detrimental effect on the safe and effective operation of the Pipeline by reason of the provision of Frequency Response at the Consumer's Plant.

5.8.4 The Pipeline Operator may temporarily suspend, by giving 10 Working Days' notice in writing (or immediately on verbal notice in the case of an Emergency, subsequently confirmed in writing) to the Registered User(s), provision of Frequency Response where maintenance activities on the relevant System may impact the Pipeline Operator's ability to provide Frequency Response at the Customer's Plant.

5.8.5 In providing Frequency Response, or following any material change in the Supply Point Offtake Rate at the specified Supply Meter Point, the Pipeline Operator shall require that a flow test be performed at the specified Supply Meter Point. Following any material change in the operating conditions of the Pipeline, the Pipeline Operator may require that a flow test be performed at the specified Supply Meter Point. Any charges for provision of the flow test (if any) shall be set out in the Transportation Statement. If the results of the flow test are unsatisfactory, the Pipeline Operator may decline to provide or withdraw Frequency Response at the specified Supply Meter Point with effect from a specified date.

5.9 Metering and Measurement

Where (in accordance with paragraph 5.4.1(b)) the Pipeline Exit Agreement contains provisions alternative to those contained in Part D, such provisions shall apply as between the Pipeline Operator and the Registered User (and any inconsistent provisions of Part D shall not apply).
