

Summary of IGT UNC Workgroup – 10th September 2026

Purpose:

This paper provides Panel members with a summary of IGT UNC Workgroup discussions each month. Please note that any Modification(s) subject to review at this Panel meeting are not reflected in this document due to them already being on the Panel agenda. For a full extract of the discussion please refer to the Draft minutes which are available [here](#).

IGT UNC Modifications:

[RG008 - IGT UNC Code Review in preparation for Code Manager and Code Consolidation](#)

In line with the phase one activities agreed previously, the Review Group completed a collaborative review of Part K (General), Clauses 1-23 with the aim of highlighting IGT-specific provisions (nuances) that parties had identified in advance of the meeting. There were several differences highlighted between the IGT UNC and UNC on some definitions and processes in Part K, although the Review Group agreed that it was largely well aligned to the equivalent UNC Transportation Principle Document (TPD). It was agreed that the next meeting of the Review Group would focus on the collaborative review of Part K, Clauses 24-46, and appendices K1 and K2, and would also review BUUK's analysis of Part M ahead of the meeting.

[RG009 – Introduction of Qualification Requirements for new Shippers](#)

RG009 is being progressed collaboratively in a joint UNC-IGT UNC Review Group alongside [UNC 0938](#), with support from the Performance Assurance Framework Administrator (PAFA) and engagement from the Performance Assurance Committee (PAC). The latest meeting was held on 15 September. Feedback from responses submitted to a recent Request for Information (RFI) was shared with attendees, with the RFI focusing on establishing a draft list of qualification requirements.
