1 Summary

What

A review was undertaken on BUUKs three Independent Gas Transporter (IGT) Licenced INCs, with some outdated information and formatting being identified.

Why

Updating the INC will ensure that the information and legal text provided is accurate, allowing Code Parties to interpret the document as intended.

How

This Modification will look to correct the outdated information and formatting issues identified from the internal review, with the final outcome being an updated QPL INC.

2 Governance

Justification for Fast Track Self-Governance Procedures

We believe that the Modification should be subject to Fast Track Self-Governance, as the Modification:

- a. would meet the self-governance criteria; and
- b. is properly a housekeeping Modification required because of some error or factual change, including but not limited to:
 - i. updating names or addresses listed in the uniform network code;
 - ii. correcting minor typographical errors;
 - iii. correcting formatting and consistency errors, such as paragraph numbering; or
 - iv. updating out-of-date references to other documents or paragraphs.

Prioritisation Criteria

Prioritisation Criteria	High Impact
Strongly aligns with the Strategic Direction Statement The Modification strongly supports key government energy policy actions that require immediate progress and aligns with SDS priorities under the Act Now category.	N/A
Complexity The Modification is highly complex, with a fast-approaching deadline, significant implementation challenges, and a requirement for extensive stakeholder engagement.	N/A
Importance The Modification addresses a high-risk or critical issue, making timely action important for stakeholders as it is anticipated to deliver substantial benefits and value.	N/A
Priority Category	N/A

No prioritisation is needed, reflecting the Ofgem decision to exclude Fast-Track Self-Governance Modifications, as well as Urgent Modifications, from the prioritisation process.¹

Requested Next Steps

This Modification should:

- be subject to Fast Track Self-Governance.

¹ [Energy code reform programme – decision on modifications to implement a harmonised code modification prioritisation process](#) –

3 Why Change?

The Gas Transporter Licence requires the production of a Network Code in line with Licence Standard Condition 9. Maintaining an accurate INC is important and reduces the risk of Code Parties misinterpretation of the provisions outlined.

4 Code Specific Matters

Technical Skillsets

N/A

5 Solution

Summary

In summary, the solution is to correct errors that are housekeeping in nature and that have been identified as part of the work completed internally. Examples of these errors include correcting outdated information, formatting errors, and other minor errors identified along the way.

The realised solution can be located within the proposed [legal text](#).

6 Impacts & Other Considerations

Does this Modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

None.

Consumer Impacts

What is the current consumer experience?

None.

What would the new consumer experience be?

None.

Impact of the change on Consumer Benefit Areas

Area	Identified Impact
Improved safety and reliability	None
Lower bills than would otherwise be the case	None
Reduced environmental damage	None
Improved quality of service	None
Benefits for society as a whole	None

Cross-Code Impacts

There are no cross-Code impacts, as this Modification looks at only correcting housekeeping errors in the QPL INC.

UNC	☐
REC	☐
Other	☐
None	☒

Environmental Impacts

No environmental impacts with this housekeeping change.

7 Relevant Objectives

Impact of the Modification on the Relevant Objectives:	
Relevant Objective	Identified impact
(A) Efficient and economic operation of the pipe-line system	None
(B) Co-ordinated, efficient and economic operation of (i) the combined pipe-line system; and/or (ii) the pipe-line system of one or more other relevant gas transporters	None
(C) Efficient discharge of the licensee's obligations	None
(D) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation agreements with other relevant gas transporters) and relevant shippers	None
(E) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards... are satisfied as respects the availability of gas to their domestic customers	None
(F) Promotion of efficiency in the implementation and administration of the Code	Positive
(G) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Cooperation of Energy Regulators	None

Relevant Objective F – Promotion of efficiency in the implementation and administration of the Code

This Modification has a positive impact on Relevant Objective (F). Its correction of errors within the INC will help promote efficiency in the implementation and administration of the Code, as Code Parties will be able to interpret the INC as intended.

8 Implementation

We would recommend that this Fast Track Self-Governance Modification Proposal be implemented 1 Working Day following the closure of the 15 Working Day Appeal Window.

9 Legal Text

The proposed legal text for this Modification can be found on the [Modification page](#).

10 Recommendations

Proposer's Recommendation to Panel

Panel is asked to:

- Agree that Fast Track Self-Governance procedures should apply.
- Agree that this Fast-Track Self-Governance Modification Proposal should be implemented.
